Independent Auditor's Report

October 14, 2026

Plan Administrator
K-Solv Group 401(k) Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the K-Solv Group 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions and maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Plan Description

The following brief description of the K-Solv Group 401(k) Plan (the Plan) is provided for general information only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of K-Solv Group LLC and adopting employers (collectively, the Company and plan administrator). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted by the Company on January 1, 2001 and has been amended and restated from time to time. Fidelity Management Trust Company (Fidelity) serves as the Plan's trustee.

Eligibility and Contributions

An employee, as defined, becomes eligible to participate in the Plan upon completion of three months of service and attainment of 18 years of age. The Plan includes a savings feature designed to permit employees and the Company to contribute to the Plan, as allowable under Section 401(k) of the Internal Revenue Code (IRC).

Pre-tax and Roth contributions are made to the Plan by an employee electing to defer from 1% to 100% of their compensation, as defined. All eligible employees are automatically enrolled in the Plan at an initial deferral rate of 5% of the employee's compensation unless another election (including an election to defer 0%) is chosen by the employee. Participants who have reached age 50 before the close of the plan year are eligible to make catch-up contributions. Participants who have attained ages 60 through 63 before the close of the plan year are eligible to make additional catch-up contributions.

The Company makes safe harbor employer matching contributions equal to 100% of an employee's contributions up to a total of 3% of an employee's compensation plus 50% of an employee's contributions between 3 - 5% of an employee's compensation. The Company may also make discretionary employer matching contributions to the Plan; however, none were made for the 2025 plan year. Contributions are subject to IRC limitations.

Vesting

Participants are fully vested in their employee contributions, employer contributions and earnings thereon at all times.

Forfeitures

Forfeitures attributable to the nonvested matching contributions are used to offset future employer contributions, pay plan expenses, or be reallocated to participant accounts. At December 31, 2025 and 2024, the forfeiture balance was $32,736 and $35,375, respectively. For the year ended December 31, 2025, forfeitures of $3,866 were used to pay plan expenses and $49 were reallocated to participant accounts. See Note 8. No forfeitures were used to offset employer matching contributions during 2025.

Participant Accounts

Separate accounts are maintained for each participant. Upon enrollment in the Plan, a participant may direct the investment of his or her account balance. Participants may change their investment options at any time.

Investment earnings and losses are allocated daily to participant accounts in the same ratio as the participant's investment in each fund bears to the total of all participants' investments in each fund.

Notes Receivable from Participants

Notes receivable from participants are loans to participants secured by the vested portion of their accounts. The loans bear interest at rates similar to the rates available at commercial lending institutions and are determined by the plan administrator. The loans are repaid through payroll deductions. Loans must be for a minimum of $1,000 and may not exceed the lesser of $50,000, reduced by the highest outstanding loan balance during the preceding 12 months, or 50% of the participant's vested plan balance. Loan terms are limited to five years unless for the purchase of a principal residence. Loans for the purchase of a principal residence are limited to terms of ten years. Participants may only have one loan outstanding at a time.

Benefit Payments

Distributions may be made to participants upon termination of employment, disability, retirement, hardship or death. In-service distributions are allowed for participants who have reached the age of 59½ as well as for other permitted reasons. Participant account balances below specified thresholds may be distributed automatically or rolled over into an individual retirement account in accordance with the Plan's provisions. Upon withdrawal from the Plan or termination of employment, participants may be subject to tax on contributions and income earned.

Note 2 - Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Accounting principles followed by the Plan and methods of applying those principles are summarized below:

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes realized gains or losses on investments sold during the year as well as unrealized gains or losses on investments held at the end of the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. In general, notes receivable from participants are considered in default in the calendar quarter following the quarter in which no payment is made. Defaulted loans are accounted for as distributions based upon the terms of the plan document when a distributable event has occurred.

Contributions

Contributions from participants and safe harbor employer matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation. The Company's discretionary employer matching contributions are recorded in the plan year in which participant compensation is paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

Benefit Payments

Benefits paid to participants or their beneficiaries are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan unless paid by the Company at its discretion. Certain administrative expenses of the Plan are offset by revenue credits received from the Plan's recordkeeper. See Note 7.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and may impact participant account balances and the amounts reported in the financial statements.

Note 3 - Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from Fidelity as of December 31, 2025 and 2024, and for the year ended December 31, 2025, that all of the information provided is complete and accurate. Information included in the financial statements and accompanying notes to the financial statements as to investments, notes receivable from participants, investment income, interest income on notes receivable from participants and all of the related information in the supplemental schedule of assets (held at end of year) is presented solely in reliance upon these certifications.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, the accompanying notes to the financial statements and the supplemental schedule of assets (held at end of year).

Note 4 - Fair Value Measurements

GAAP provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds: These investments are valued daily based upon their quoted market prices.

Common/Collective Trust Fund: This investment is valued at its net asset value (NAV) as determined by the issuer based on quoted market prices of the underlying investments, when available, net of certain expenses. The NAV is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 23,537,068**	**$ -**	**$ -**	**$ 23,537,068**
Investment measured at NAV (practical expedient)				**23,700**
Total investments at fair value				**$ 23,560,768**

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,011,901	$ -	$ -	$ 20,011,901
Investment measured at NAV (practical expedient)				32,387
Total investments at fair value				$ 20,044,288

The following table provides additional information for the common/collective trust fund which is measured using NAV as a practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for this investment. The redemption notice period for the fund is applicable only to the Plan and does not apply to participant directed transactions.

Investment Class	Fair Value December 31, 2025	Fair Value December 31, 2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable Value	**$ 23,700**	$ 32,387	None	Daily	Up to 12 months

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a complete termination of the Plan, participants shall be fully vested in all amounts allocated to their accounts and such amounts will be distributed.

Note 6 - Federal Income Tax

The pre-approved plan document adopted by the Plan received an opinion letter from the IRS dated June 30, 2020, stating that it was in compliance with the applicable requirements of the IRC. The pre-approved plan document has been amended since receiving its IRS letter; however, the plan administrator believes that the Plan continues to be designed and operated in compliance with the applicable requirements of the IRC, except as noted below. During 2025, the plan administrator identified certain operational errors and intends to take the necessary steps to bring the Plan's operations into compliance with the IRC, including corrective action under the IRS Employee Plans Compliance Resolution System (EPCRS). Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Party-in-Interest Transactions

The Plan engages in investment transactions with funds issued by an affiliate of Fidelity. These transactions qualify as party-in-interest transactions and are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.

The Plan and Fidelity maintain a service agreement whereby Fidelity receives revenue from certain mutual fund service providers in connection with Plan investments. This revenue is used to offset the recordkeeping and administrative fees charged to the Plan. To the extent the revenue Fidelity receives exceeds its agreed-upon compensation, Fidelity deposits the excess into a revenue credit account held in the Plan's trust. Amounts in the revenue credit account may be used to pay administrative fees or be allocated to participant accounts at the direction of the plan administrator.

As of December 31, 2025 and 2024, the balance of the revenue credit account was $15,066 and $11,951, respectively. During 2025, revenue credits of $2,560 were deposited into the account, which were recognized as a reduction of administrative expenses on the accompanying statement of changes in net assets available for benefits. No amounts were allocated to participant accounts during 2025.

Note 8 - Nonexempt Prohibited Transactions

As reported on the supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, there were unintentional delays in remitting participant contributions and participant loan repayments to the Plan as described below.

	Participant Contributions	Participant Loan Repayments
2025	$ 700,430	$ 70,555
2024	1,164	-
2023	10,209	306
2022	30,514	2,599
2021	28,220	3,975
	$ 770,537	$ 77,435

During 2025, lost earnings of $49 were reallocated to participants through the use of forfeitures. During 2026, lost earnings of $22,577 were remitted to the Plan and $21,933 of late remittances were corrected.

Note 9 - Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the net assets per the Form 5500 as of December 31, 2025:

Net assets available for benefits per the financial statements	$ 24,087,545
Less: Employee contributions receivable	(9,863)
Less: Employer contributions receivable	(139,472)
Less: Other employer contributions receivable	(68,236)
Add: Excess contributions payable	37,006
Net assets per the Form 5500	$ 23,906,980

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the net income per the Form 5500 for the year ended December 31, 2025:

Net increase in net assets available for benefits per the financial statements	$	3,732,188
Less: Employee contributions receivable - 2025		(9,863)
Less: Employer contributions receivable - 2025		(139,472)
Less: Other employer contributions receivable - 2025		(68,236)
Add: Excess contributions payable - 2025		37,006
Net income per the Form 5500	$	3,551,623

Note 10 - Subsequent Events

The plan administrator evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2026, which is the date the financial statements were available to be issued.

In December 2025, the Company completed the sale of its subsidiary, Energy Completion Services, LLC (ECS). Following the sale, ECS employees continued to participate in the Plan through June 2026, when the Plan was amended to remove ECS as a participating employer. In July 2026, ECS established the Energy Completion Services 401(k) Plan and net assets of approximately $1,300,000 were transferred from the Plan to the Energy Completion Services 401(k) Plan.

In January 2026, the Company acquired Pinnacle Alloys, which sponsored the Sowesco I, LLC Profit Sharing Plan (Pinnacle Plan). In June 2026, the Plan was amended to include Pinnacle Alloys as a participating employer. Plan management is currently in the process of merging the Pinnacle Plan into the Plan. Upon consummation of the merger, the net assets of the Pinnacle Plan will be transferred into the Plan, and the participants of the Pinnacle Plan will become participants in the Plan.

To Plan Sponsor
K-Solv Group 401(k) Plan
Houston, Texas

We have audited the financial statements of the K-Solv Group 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit) for the year ended December 31, 2025 and have issued our report thereon dated October 14, 2026.

As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Fidelity Management Trust Company which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America (GAAP). Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America (GAAS), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated July 27, 2026, and planned timing previously communicated to you. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Consideration of Internal Control and Reportable Findings

In planning and performing our audit of the financial statements of the Plan as of and for the year ended December 31, 2025, except as noted above and in accordance with GAAS, we considered the Plan's system of internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, there can be no assurance that all such deficiencies have been identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control, that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention.

Appendix A summarizes our findings.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2025. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period. The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements, which primarily constitute recording contributions receivable by the Plan. Appendix B summarizes misstatements detected as a result of audit procedures, which were corrected by management. There were no uncorrected misstatements detected as a result of audit procedures.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 14, 2026.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

Our responsibility for the ERISA-required supplemental schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

This information is intended solely for the use of management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

APPENDIX A
K-SOLV GROUP 401(k) PLAN
INTERNAL CONTROL FINDINGS

We consider the following deficiencies in the Plan's internal control to be material weaknesses and reportable findings:

Properly auto-enroll eligible participants into the Plan.

The Plan document provides for automatic enrollment of eligible employees. During our audit and eligibility testing we found that automatic enrollments into the Plan were missed or were completed late for certain employees. We further noted that several eligible participants who should have been auto enrolled in prior years continue to earn Plan compensation in subsequent years, and no corrective action had yet been taken as of December 2025. For the employees affected, we found no evidence that they elected out of participating in the Plan.

Since auto-enrollment is a feature of the Plan, failure to timely auto-enroll employees constitutes noncompliance with the Plan document, which may jeopardize the tax status of the Plan. We recommend that Plan management engage an ERISA specialist to determine the appropriate corrective action needed to make the affected participants whole and to bring the Plan back into compliance with the Plan document. We further recommend that Plan management implement a monitoring control to identify each employee as they attain eligibility and to confirm that each employee is timely and completely auto enrolled.

Remit employee deferrals and loan repayments timely.

The Department of Labor (DOL) requires the employer to remit employee deferrals and loan repayments to the Plan on the earliest date on which those amounts can reasonably be segregated from the employer's general assets. During our audit we identified untimely remittances of employee deferrals and loan repayments relating to pay dates for the 2021 through 2025 Plan years. Although certain of these late remittances were corrected during 2025 through the reallocation of forfeitures, most remained uncorrected as of December 31, 2025.

Late remittances of participant contributions constitute a prohibited transaction between the Plan and a party in interest that is required to be reported on the Plan's Form 5500, and they deprive affected participants of investment earnings until the amounts, together with lost earnings, are deposited. We recommend that employee deferrals and loan repayments for each payroll be remitted on the earliest reasonable segregation date and in a consistent manner, and that the amounts withheld from each payroll be reconciled to the amounts deposited with Fidelity to confirm that each remittance was made completely and timely. We further recommend that all late remittances identified be corrected with lost earnings, and that Plan management consider whether use of the DOL Voluntary Fiduciary Correction Program and the related Prohibited Transaction Exemption 2002-51 is appropriate.

K-SOLV GROUP 401(k) PLAN
INTERNAL CONTROL FINDINGS (Continued)

We consider the following deficiency in the Plan's internal control to be a significant deficiency and a reportable finding:

Calculate and remit the annual employer matching true-up on a timely basis.

The Plan provides for an annual employer matching true-up contribution. During our audit we noted that the employer matching true-up calculation and the related remittance for the 2024 Plan year were not completed until 2026. Failure to calculate and fund the employer matching true-up on a timely basis can result in affected participants not receiving the full employer matching contribution to which they are entitled under the Plan document within the period required, can affect the completeness of employer contributions reported in the financial statements, and may give rise to a required corrective contribution with lost earnings.

We recommend that Plan management establish a control to calculate the annual employer matching true-up and remit the resulting contribution to the Plan on a timely basis following each Plan year end, and that the true-up calculation be reviewed for accuracy and completeness against payroll and remittance records before the contribution is funded.

During the audit, we also became aware of a deficiency in the Plan's internal control that was not considered to be a significant deficiency or a material weakness but was considered to be a reportable finding.

Retain source documentation supporting employee termination dates.

While performing our audit procedures, we noted one participant whose records reflected a May 2025 termination date with Fidelity; however, this termination date was not reflected on the census provided to us, and Plan management was unable to provide source documentation to corroborate the termination date. We noted that employee Plan deferrals ceased for this participant after May 2025. Demographic data that is incomplete, unsupported, or inconsistent between the census and the recordkeeper can cause inaccurate information to be transmitted to the recordkeeper and can affect the accuracy of eligibility, vesting, contribution, and distribution determinations.

We recommend that Plan management retain source documentation supporting all employee demographic changes, including hire, rehire, and termination dates, and that the census information be reconciled to the recordkeeper's records so that any differences are identified and resolved on a timely basis.
