INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
LEO Pharma Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of LEO Pharma Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules ("DOL") and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of LEO Pharma Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about LEO Pharma Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of LEO Pharma Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about LEO Pharma Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of the Plan:

The LEO Pharma Inc. 401(k) Plan (the "Plan") was established and became effective on July 1, 2010. LEO Pharma Inc. (the "Company", "Employer" and "Plan Sponsor"), has general responsibility for the administration of the Plan, including, but not limited to complying with reporting and disclosure requirements, establishing and maintaining Plan records, and adopting amendments to the Plan. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution 401(k) plan covering substantially all qualifying employees of the Company, excluding union employees, leased employees, employees covered by a Plan sponsored by LEO Pharmaceutical Products (a Danish Corporation), and nonresident aliens. An employee is eligible to participate in the Plan upon reaching 21 years of age for elective deferrals, and employer matching and employer safe harbor deferrals. An eligible employee can enter the Plan the first day of each month following the date the employee satisfies the eligibility requirement. The employee may modify the election at any time and it will become effective at the beginning of the next payroll period.

Plan Administration - The Plan is administered by the Plan Sponsor. The Plan's assets are held by Fidelity Management Trust Company (the "Trustee"), who is responsible for the custody and management of the Plan's assets.

Automatic Enrollment - All newly eligible employees are automatically enrolled in the Plan upon meeting the eligibility requirements. Employees are deemed to have elected a pre-tax deferral contribution of 3% of their compensation in the absence of an affirmative election to the contrary. Newly-eligible employees will be automatically enrolled in the Plan 35 days after such employee's date of hire, but no sooner than such employee's entry date. All active participants, hired subsequent to January 1, 2016, without a deferral election on file will also be automatically enrolled in the Plan at a pre-tax contribution of 3%. If an employee has a reemployment commencement date, the employee shall be automatically enrolled at the later of 30 days from the date of rehire or their Plan entry date.

Participants' Contributions - Eligible participants may elect to contribute up to 100% of annual eligible compensation (pre-tax or Roth) within limits prescribed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions during that year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan.

Employer Contributions - The Company makes safe harbor matching contributions to the participants' accounts, in an amount equal to 100% of participant's elective deferral amounts up to 6% of the participant's compensation. During the Plan year ended December 31, 2025, the Company made safe harbor matching contributions in the amount of $2,573,942.

In addition, the Plan provides for a discretionary employer matching contribution that can be made by the Company. There were no employer discretionary match contributions for the year ended December 31, 2025.

Vesting - Participants vest immediately in their own voluntary contributions, safe harbor contributions and rollover contributions, plus actual earnings thereon. As of October 1, 2025, a participant is fully vested immediately in their account balance attributable to their discretionary employer matching contributions. Previously, a participant's vested percentage in their account balance attributable to discretionary employer matching contributions was based on vesting years of service as set forth below:

Completed Years of Service	Percent Vested
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Participant Accounts - Individual accounts are established for each plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits - Under the Plan, normal retirement age is 65. On termination of service due to death, disability or retirement, a participant or in the case of death the designated beneficiary, may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum, or in partial withdrawals. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If death occurs prior to retirement, the participant's account is paid to the designated beneficiary. A participant may request an in-service withdrawal upon attainment of age 59 ½.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures can be used to offset the Plan's administration expenses or to reduce matching contributions. There were no forfeited non-vested accounts for the years ended December 31, 2025 and 2024. For the year ended December 31, 2025, no forfeitures were used to reduce matching contributions or to pay Plan administrative expenses.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

The Plan may invest in funds with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Concentration of Investment Risk - The Plan's investments in three funds at December 31, 2025 and 2024, comprise of approximately 54% and 50% of total investments, respectively.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants, and withdrawals are charged directly to the participant's account and are included in administrative expenses. Asset fees and investment advisory fees are also shown as administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service ("IRS") rules and regulations.

Subsequent Events - The Plan Administrator has reviewed and evaluated all events and transactions from December 31, 2025, through October 12, 2026, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Certified Investment Information:

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Trustee, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

a) Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024.
b) Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.
c) Investment information included in the Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025, as shown on the ERISA-required supplemental schedule of assets (held at end of year).

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule of assets (held at end of year).

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- *Mutual funds:* Valued at the closing prices in the active market in which the fund is traded.
- *Common collective trusts:* Investments in regulated investment companies or other trust pooled funds are valued at the net asset per share/unit on the valuation date. The net asset value is used as a practical expedient to estimate fair value. The underlying assets of the trust are normally valued based on their closing sales price or, in the absence of sales, at their reported bid price. See Note 5.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Plan's investments at fair values are as follows:

Investments at Fair Value as of December 31, 2025

	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 64,094,812	$ -	$ -	$ 64,094,812
Total investments in fair value hierarchy	$ 64,094,812	$ -	$ -	64,094,812
Investments measured at net asset value (a)				
Common collective trusts				17,332,967
Total investments at fair value				$ 81,427,779

Investments at Fair Value as of December 31, 2024

	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 52,477,834	$ -	$ -	$ 52,477,834

Investments measured at net asset value (a)				
Common collective trusts				15,488,668
Total investments at fair value				$ 67,966,502

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Fair Value of Investments in Entities that Use Net Asset Value:

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of December 31, 2025 and 2024.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in the economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2025 and 2024, there were no significant transfers in or out of Levels 1, 2, 3.

Note 5 - Common Collective Trusts:

The Plan invests in investment contracts through its common collective trusts ("CCTs"). The CCTs' fair value is a relevant measurement attribute. The CCTs held by the Plan are stable value investments which have an objective to preserve capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve this objective, the funds invest primarily in synthetic guaranteed investment contracts and cash equivalents. Redemptions are allowed for participants daily. However, in the event of a complete redemption, each of the Plan's CCTs is subject to a redemption notice period noted in Note 4 which may be waived by the Trustee. There are no unfunded commitments at December 31, 2025 and 2024.

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants' contributions remain fully vested and Company contributions become fully vested. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such termination.

Note 7 - Notes Receivable from Participants:

Participants may obtain loans from the Plan from a minimum of $1,000 up to 50% of their vested account balance or a maximum of $50,000, whichever is less. Loans bear an interest rate based on the prime rate plus 1% and are collateralized by a participant's account balance. Loans are generally payable through payroll deductions within six months to five years, from the date granted unless it is for the purchase of a principal residence.

Note 8 - Tax Status:

The Plan was written on an IRS non-standardized pre-approved document, which obtained its latest opinion letter on June 30, 2020 in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, they believe that the Plan is qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9 - Party-in-Interest:

All Plan investments are managed by the Trustee. Services provided by the Trustee include recordkeeping and administrative services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the asset fees and investment advisory services for the year ended December 31, 2025 were $102,750.
