INDEPENDENT AUDITORS' REPORT

To the Trustee and Plan Administrator of the
Los Angeles Engineering, Inc. Employee Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Los Angeles Engineering, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Los Angeles Engineering, Inc. Employee Stock Ownership Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025 stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section -

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Los Angeles Engineering, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Los Angeles Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Los Angeles Engineering, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Los Angeles Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Los Angeles Engineering, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of plan provisions.

Los Angeles Engineering, Inc. (the "Company") (a California corporation) established the Los Angeles Engineering, Inc. Employee Stock Ownership Plan effective as of January 1, 2008 and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan has also been adopted by Union Construction & Engineering, Inc. for the benefit of its eligible employees. The Plan was established as a leveraged employee stock ownership plan (ESOP). The ESOP loan used to acquire Company common stock was repaid in full during 2023, and all shares have been allocated to participant accounts. The Plan is designed to comply with Section 4975(e)(7), and the regulations thereunder, of the Internal Revenue Code (IRC). The Company is the Plan's sponsor and serves as plan administrator. The Plan was established under the terms of a trust agreement between Los Angeles Engineering, Inc. and San Pasqual Fiduciary Trust Company ("the Trustee"). The Trustee is given the authority to invest and manage all monies held in the Plan as directed by the Plan's Administrative Committee, which is appointed by the Company's Board of Directors.

Effective October 1, 2010, the Plan was amended to allow for the establishment of a self-directed investment account (SDIA) to allow participants to invest prevailing wages at their election in other investment options designated by the Plan's Administrative Committee.

Eligibility

Prior to January 1, 2009, employees of the Company who worked one hour of service during 2008 were eligible to participate in the Plan. Beginning January 1, 2009, each eligible employee who has completed one year of service shall be eligible to participate in the Plan. Participants who are employed on the last day of the plan year and have at least 1,000 hours of service are eligible to receive an employer contribution.

All employees who receive prevailing wage contributions are eligible to participate in the Plan after one hour of service.

Contributions

The Company may make prevailing wage contributions to the Plan for services performed during the plan year by prevailing wage employees under the Prevailing Wage Law, an amount based on the election made by the employer for each such prevailing wage employee's employment classification. The prevailing wage contribution shall be made not less frequently than quarterly. During the year ended December 31, 2025, the Company made prevailing wage contributions to participants of $453,462.

The Company may make an additional discretionary contribution to the Plan as determined by its Board of Directors, provided all contributions made with respect to a fiscal year shall be made within the time allowed by the Internal Revenue Code to permit income tax deductions by the Employer for such fiscal year. During the year ended December 31, 2025, the Company made a discretionary contribution in the amount of $1,500,000.

Participant Accounts

The Plan is a defined-contribution plan under which a separate individual account is established for each participant. Each participant's employer stock contribution sub-account is credited as of the last day of each plan year with an allocation of any cash contribution and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions of cash, if any, are allocated to the participant's employer contribution sub-account. This account is credited with the participant's share of plan income (loss) and forfeitures of other-than-employer stock.

For prevailing wage contributions, each participant's SDIA is credited with the allocations of: (a) the Company's prevailing wage contribution and (b) SDIA earnings, and charged with an allocation of administrative expenses. Other significant expenses are absorbed by the plan sponsor. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. The vesting schedule is as follows:

Years of Service	Vesting Percentage
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

For the purpose of determining the vested account, credited service is the number of plan years in which the participant is credited with at least 1,000 hours of service, commencing with the effective date of the Plan. Any portion of the final balance in a participant's account that is not vested will be forfeited as of the allocation date of the plan year in which the earlier of the following occurs: the participant's vested benefits are distributed, or the participant incurs five consecutive one-year breaks in service. Forfeited balances are allocated among the remaining plan participants.

Participants are immediately 100 percent vested in their SDIA.

Payment of Benefits

Upon termination of service due to death or having attained normal retirement age, a participant will receive, or begin to receive, benefit payments as soon as administratively feasible during the year following the year of termination. In both cases, except for participants with vested benefits not in excess of $7,000 (which are paid in a lump sum), benefits will, in most cases, be paid in five annual installments. For termination of service for reasons other than death or retirement, a participant will begin to receive the value of the vested interest in his or her account during the sixth year following the plan year during which the participant's severance occurred. In most cases, benefits will be paid in five annual installments. Under the provisions of the Plan, the Company is obligated to repurchase participant shares of the Company's common stock held by participants.

Put Option

A participant who is transferred shares of the Company shall have a put option to sell the shares back to the Company or the Trustee at fair market value, as defined by the Plan. The put option is exercisable within 60 days following the distribution of the shares to the participant. If the participant does not exercise his or her put option within this period, the put option is temporarily lapsed. The Committee shall notify the participant who did not exercise during the initial 60-day period, in the year following the put option lapse, of the Company's common stock fair market value. Upon such notification by the Committee, the participant will have another 60-day period to exercise the put option, after which point the put option will terminate if not exercised.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent.

Forfeited Accounts

In the event that any portion of a participant's or inactive participant's account is forfeited, then on the anniversary date for the plan year during which such forfeiture occurred, such forfeitures shall be allocated to remaining participants' accounts in proportion to compensation, either when benefits are distributed or when a participant incurs five breaks-in-service years, whichever occurs first. As of December 31, 2025 and 2024, there were no forfeited, non-vested account balances. For the year ending December 31, 2025, forfeitures totaling $9,537 were allocated back to existing participants.

Voting Rights

Generally, the Committee will direct the Trustee on how to vote the shares of Company common stock. In certain matters presented to Company shareholders for a vote, such as a liquidation or merger of the Company, current and terminated plan participants may also have the right to decide how shares of Company common stock allocated to their account will be voted.

Administrative Expenses

The Company pays for certain administrative expenses of the Plan. Expenses that are paid by the Company are excluded from these financial statements. Certain transaction fees charged by Transamerica Life Insurance Company (TLIC) are charged directly to the participant's account and are included in administrative expenses for the year ended December 31, 2025 which totaled $34,415.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value and contract value. The Plan's custodian, Transamerica Life Insurance Company, certifies the contract value of the guaranteed investment contract and fair value of the pooled separate accounts. If available, quoted market prices are used to value investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of Benefits

Benefits are recorded when paid. There was $76,479 allocated to participant accounts who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2025.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date the financial statements were available to be issued and concluded there were no events that require recording or disclosure in the financial statements as of December 31, 2025.

NOTE 3 - INVESTMENT IN COMMON STOCK

The Plan's investments, at December 31, are as follows:

	2025	2024
Investment in Los Angeles Engineering, Inc.		
Common stock at fair value		
Number of shares	30,000	30,000
Cost	$ 7,950,000	$ 7,950,000
Estimated fair value	$ 5,070,000	$ 3,960,000

NOTE 4 - INFORMATION CERTIFIED BY THE CUSTODIAN

Management, for the years ended December 31, 2025 and 2024, has elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and Disclosure under ERISA. Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule was obtained by management and agreed to or derived from information certified as complete and accurate by Transamerica Life Insurance Company (TLIC) (the asset custodian of the Plan).

	2025	2024
Pooled separate accounts, at fair value	$ 3,426,740	$ 3,025,117
Guaranteed investment contract, at contract value	$ 408,946	$ 347,352
Net appreciation in fair value of investments	$ 456,409	

NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities, (2) quoted prices for identical or similar assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Company common stock – The investment in Company common stock is stated at fair value, as determined by an independent appraiser. A discounted cash flow method was utilized to value the common stock under the income approach. Inputs to the valuation include current and historical earnings, management's estimate of projected future cash flow, and valuation multiples based on market data.

Money-market account – The money-market funds are valued at cost, which approximates fair value.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the net asset value practical expedient (NAV practical expedient) of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a PSA is calculated based on a compilation of primarily observable market information.

These separate accounts invest primarily in unaffiliated, equity securities of registered investment companies (mutual funds) that have been traded on an active, public market. The registered investment company securities invested in is mostly target retirement funds whose primary strategy is to invest in other mutual funds according to an asset allocation strategy designed for investors planning to retire in a given year. These pooled separate accounts generally don't have redemption restrictions.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Assets at Fair Value as of December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**

The Los Angeles Engineering, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Instrument	Principal Valuation Technique	Unobservable Inputs
Los Angeles Engineering, Inc. common stock	Income	EBITDA
		Net Income
		Weighted average cost of capital
		Discount rate
		Long term growth rate
		Discount for lack of marketability
	Market	Public comparable
		Revenue multiples
		EBITDA multiples
		Discount for lack of marketability

The valuation process involves the selection of an appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The trustee and the plan administrative committee review and approve the annual valuation report. The trustee is responsible for determining the share price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - GUARANTEED INVESTMENT CONTRACT

The Plan has a fully benefit-responsive investment contract (FBRIC) with TLIC. The Transamerica Stable Value Compass Option is designed to provide preservation of capital and returns in excess of money-market funds and one-year treasury bills. The investment holds group variable-annuity contracts in the general account of TLIC, and does not have a guaranteed rate of return. The assets in the general account are supported by the financial stability of TLIC and interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for each month, which is the frequency at which TLIC establishes the effective annual rate of interest.

The contract is considered to be fully benefit-responsive, and thus, reported on the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by TLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value; however, TLIC may impose a hold period of up to 270 days at the contract level in the event of a full contract discontinuance or partial contract discontinuance. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan’s ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the issuer’s ability to meet its financial obligations, which may be affected by future economic and regulatory developments. The value in the guaranteed investment contract at December 31, 2025 and 2024 is $408,946 and $347,352, respectively.

NOTE 7 - S CORPORATION DISTRIBUTION

The Company paid a distribution to the ESOP of $1,639,500 during the year ended December 31, 2025. As provided by the Plan, cash distributions received are allocated to a participant's Other Investment Account.

NOTE 8 - RELATED PARTIES AND PARTIES IN INTEREST TRANSACTIONS

The Plan invests in Company common stock and received a dividend on the common stock. The Company is the Plan's sponsor; therefore these transactions qualify as exempt party-in-interest transactions under ERISA. The Company pays certain plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

The Plan also holds investments in pooled separate accounts and a guaranteed investment contract managed by Transamerica Life Insurance Company, the Plan's custodian, and transactions with the custodian are also exempt party-in-interest transactions. Fees paid by the Plan for the year ended December 31, 2025, to TLIC were $34,415.

NOTE 9 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated April 2, 2015, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 11 - CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan maintains its cash balances at one financial institution. Accounts at the institution are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to $250,000. At various times during the years ended December 31, 2025 and 2024, the Plan's cash balances exceeded the FDIC insured limits. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on its cash.

The Plan investments includes the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 12 - EMPLOYER CORRECTIVE CONTRIBUTION

During the year ended December 31, 2024, the Company did not make prevailing wage contributions for a period of time for one participant. The corrective contribution for these missed prevailing wage contributions, totaled $16 and is included in other receivables at December 31, 2024. The Plan Sponsor computed the lost earnings for the missed contribution and made an additional contribution for lost earnings in 2025.

NOTE 13 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
