Independent Auditor's Report

Plan Administrator and Participants
Tractor & Equipment Company Employee Benefit Plan
Birmingham, Alabama

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Tractor & Equipment Company Employee Benefit Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and plan benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and changes in plan benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent to the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, which raises substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of (a) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and (b) Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan

The following description of the Tractor & Equipment Company Employee Benefit Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan provides health and other benefits to certain employees and former employees of Tractor & Equipment Company (Company). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. Regions Bank serves as trustee of the Plan.

Benefits

The Plan provides health benefits (including medical, dental, and prescription drug benefits) to certain employees of the Company and former employees electing coverage under the *Consolidated Omnibus Budget Reconciliation Act of 1985* (COBRA) provisions. Health benefits are also provided to dependents of these individuals who elect coverage on their behalf. Eligible employees are all regular employees who have completed 30 days of service. The Company also offers certain medical, prescription, drug, and life insurance benefits to eligible retirees and, under certain circumstances, their spouses. In order to be eligible for benefits prior to January 1, 2018, employees must have retired from the Company with 10 years of continuous service after age 45. Spouses of eligible retired employees of the Company are eligible to receive benefits from the participant's date of retirement until the spouse attains age 65. The Plan provides for a separate trust fund from which qualifying health care expenses of the employees and their eligible dependents are paid. The Plan was amended effective January 1, 2018. To be eligible for benefits, employees must retire from the Company with 15 years of continuous service after age 60. Additionally, employees hired after December 31, 2017 are not eligible for post-retirement or post-termination medical coverage (other than COBRA).

Health and dental claims are processed by Blue Cross Blue Shield of Alabama. Prescription drug claims are processed by Rx Benefits. Life insurance claims are processed by Reliance Standard Life Insurance Company.

The life insurance benefits for eligible retirees are provided through the purchase of insurance contracts. Premiums for those life insurance benefits are paid for by the Company.

Contributions

Contributions or required premiums paid to the Plan are made by the Company and its employees monthly based on funding levels required to meet projected expenses. Costs to be shared between the Company and each employee will vary depending on whether single or family medical coverage is selected.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to active employees, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, incurred but not reported claims, claims payable, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Plan's trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimated Outstanding Claims Liability

Estimated claims incurred but not reported as shown in the statements of plan benefit obligations are estimated based on information provided by Blue Cross Blue Shield of Alabama. This estimate is based upon historical claims experience. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Post-Retirement Benefit Obligations

The post-retirement benefit obligations represent the actuarial present value of those estimated future benefits that are attributable to employee service rendered to the valuation date. Post-retirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's full eligibility date, the post-retirement benefit obligation is the portion of the expected post-retirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected post-retirement benefit obligations were determined by an actuary, Milliman, Inc., for 2025 and 2024, and represents the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

For measurement purposes, a 3% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2025 and 2024, respectively; the rate was assumed to fluctuate between 4% and 5% thereafter. A 1% increase in this assumed health care cost trend rate for each future year would result in an increase in the post-retirement benefit obligation of $244,851 and $186,243 at December 31, 2025 and 2024, respectively. A 1% decrease in this assumed health care cost trend rate for each future year would result in a decrease in the post-retirement benefit obligation of $223,788 and $172,472 at December 31, 2025 and 2024, respectively.

The following were other significant assumptions used in the valuations as of December 31:

	2025	2024
Weighted-average discount rate	5.22%	5.49%
Average retirement age rates	65	65
Mortality Table	PRI-2012 Scale MP-2021	PRI-2012 Scale MP-2021

The discount rate, retirement age, and mortality rate assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post-retirement benefit obligation.

Stop-Loss Coverage

The Company has obtained a stop-loss insurance policy in an effort to limit its exposure to claims. The Company has specific stop loss coverage per employee for claims incurred during the year exceeding $300,000 per employee. The Company did not receive any stop-loss recoveries for the years ended December 31, 2025 and 2024.

Subsequent Events

The plan administrator has evaluated subsequent events through October 12, 2026, the date on which the financial statements were available for issuance.

Note 3. Benefit Obligations

The Plan’s deficiency of net assets over benefit obligations at December 31, 2025 and 2024, relates primarily to the post-retirement benefit obligation. It is expected that the deficiency will be funded through future investment returns and increases in the contribution rates.

Note 4. Unaudited Information Certified By Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2025 and 2024 and for the years then ended that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2025	2024
Statements of net assets available for benefits		
Money market funds	$ 157,071	$ 40,119
Common stocks	-	352,757
Mutual funds	6,717,663	5,955,887
Interest receivable	1,708	1,427
Statements of changes in net assets available for benefits		
Net appreciation in fair value of investments	560,471	432,818
Interest and dividends	176,177	159,989

The certification mentioned above includes all investment information disclosed in Note 5.

Note 5. Fair Value Measurements

Fair value is defined under GAAP as an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2025 and 2024.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded, classified as level 1.

Money market funds: Valued at the net asset value of shares held by the Plan at year end, classified as level 1.

Mutual funds: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2025 and 2024:

	2025			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobserv-able Inputs (Level 3)
Money market funds	$ 157,071	$ 157,071	$ -	$ -
Mutual funds	6,717,663	6,717,663	-	-
Investments at fair value	$ 6,874,734	$ 6,874,734	$ -	$ -

	2024			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobserv-able Inputs (Level 3)
Money market funds	$ 40,119	$ 40,119	$ -	$ -
Common stocks	352,757	352,757	-	-
Mutual funds	5,955,887	5,955,887	-	-
Investments at fair value	$ 6,348,763	$ 6,348,763	$ -	$ -

Note 6. Administrative Expenses

Certain administrative functions are performed by employees of the Company. These employees receive no compensation from the Plan for these services. The Company pays a portion of the administrative expenses of the Plan.

Note 7. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(c) 9 of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income is exempt from income taxes. The trust has obtained a favorable tax determination letter from the Internal Revenue Service (IRS) and the plan sponsor believes that the trust continues to qualify and to operate in accordance with the applicable provisions of the IRC. However, as a result of the Plan’s funding policy, from time to time the trust may be subject to income taxes. No federal or state income taxes have been recorded in 2025 or 2024, for unrelated business taxable income.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of the post-retirement benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to net assets available for benefits and net increase to net income per Form 5500:

	2025	2024
