Report of Independent Auditors

To the Administrator of Raytheon Retiree Health Benefits Plan

Opinion

We have audited the accompanying financial statements of Raytheon Retiree Health Benefits Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of plan's benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in plan's benefit obligations for the year ended December 31, 2025, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in its plan benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are

presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Schedule H – Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H – Line 4j - Schedule of Reportable Transactions for the year ended December 31,

2025 ("supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of the Raytheon Retiree Health Benefits Plan (the “Plan”), is provided for general information purposes only. Participants should refer to the Plan Document for a complete description of the Plan’s provisions.

General
The Plan is a welfare plan sponsored by Raytheon Company (the "Company") which provides certain medical, dental, vision and other health and welfare benefits to qualified hourly and salaried retirees and eligible dependents. The Company is a wholly-owned subsidiary of RTX Corporation (“RTX”).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan Administrator of the Plan (for purposes of Section 3(16) of ERISA) is RTX and the Plan is administered by the RTX’s Plan Administration and Investment Committee (“PAIC”), which operates pursuant to a vote of the RTX Board of Directors.

All contributions, with the exception of fundings by the Plan Sponsor on a pay-as-you-go basis, are deposited into the Voluntary Employees Beneficiary Association (“VEBA”) accounts that constitute the Raytheon Welfare Benefits Trust (the “Welfare Benefits Trust”) and the 401(h) accounts under the RTX Consolidated Pension Plan (“RTX PP”) held in the RTX Master Retirement Trust (“Master Trust”).

The VEBA accounts and 401(h) accounts were set up to hold assets and pay benefits covered by the Plan. All contributions and related income are used for the exclusive benefit of participating retirees and dependents, as well as the payment of any administrative expenses incurred by the VEBA accounts and the 401(h) accounts. Plan benefits are paid from multiple sources (VEBA accounts, 401(h) accounts and the Company’s general assets), some of which may be restricted for the payment of specific plan benefits. In the event of termination of the Welfare Benefits Trust, assets held in the VEBA accounts will not be refunded to the Company.

The Plan is a contributory plan under which the Company and its retirees contribute amounts necessary to pay participant premiums, claims and related administrative fees.

Benefits and Eligibility
The Plan provides both self-insured and fully-insured medical, dental and prescription drug benefits. Self-insured benefits are administered by various third parties under administrative only contracts. These administrators include Anthem, United Medical Resources (UMR), CVS Caremark and Delta Dental. Fully-insured benefits include medical benefits to certain eligible participants.

Certain Medicare eligible retirees can participate in a Retiree Medicare Coordinator program administered by Via Benefits. In order to receive benefits, participants select a health insurance plan through Via Benefits and are responsible for payment of premiums directly to the insurance carrier.

The Plan also provides full or partial Medicare part B reimbursements to certain eligible retirees.

Contributions
The costs of the Plan are shared by the Company and retirees through deductibles, co-payments, coinsurance and participant contributions. Retirees may contribute specified amounts to extend coverage to eligible dependents. Participant contribution levels are based on a variety of factors including but not limited to, the participant’s legacy defined benefit or defined contribution plan, date of hire or last rehire, date of termination and date of retirement.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation
The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. See Note 4 for investment valuation and income recognition policy. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a

liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

Claims and Premiums Paid
Claims and premium payments are recorded when paid. Current medical claims of retired participants and their dependents are managed under a combination of group insurance contracts and self-insured arrangements administered by a variety of insurance companies. In addition, claims payments also include Administrative Services Only fees of $1,804,710 .

Administrative and Other Expenses
All expenses of the Plan are paid by the Plan and are included in the Statement of Changes in Net Assets Available for Benefits under "Administrative and other expenses."

Postretirement Benefits
The amount reported as the postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employees' services rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current plan participants. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired or terminated employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service. The postretirement benefit obligation represents the amount that is to be funded by contributions from the Company and from existing plan assets.

The actuarial present value of the expected postretirement benefit obligation is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant, to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The weighted average discount rates used in the valuation as of December 31, 2025 and 2024 were 5.25% and 5.59%, respectively.

The assumed retirement age used in the valuation varies between 55 and 72 by age and service.

The mortality table and mortality projection scale used in the valuation as of December 31, 2025 was Pri-2012 base mortality table, mixed collar adjustments, with 20% decrease in rates for salaried participants and 5% increase in rates for hourly participants; MP-2021 generational projection applied from 2012. Separate contingent mortality election following death of retiree.

The mortality table and mortality projection scale used in the valuation as of December 31, 2024 was Pri-2012 base mortality table, mixed collar adjustments, with 20% decrease in rates for salaried participants and 9% increase in rates for hourly participants; MP-2021 generational projection applied from 2012. Separate contingent mortality election following death of retiree.

The assumed persistency rate used in the valuation was 97%-100%. The assumed participation rate used in the valuation was 40%-100%.

The assumed expected rate of increase in per capita cost of covered health care benefits used to value the post retirement benefit obligation as of December 31, 2025 was 7.5% in 2026 grading down to the ultimate trend rate of 4.5% by 2038 for participants under 65 and 3.5% for all years for participants over 65. The assumed expected rate of increase in per capita cost of covered health care benefits used to value the post retirement benefit obligation as of December 31, 2024 was 6.5% in 2025 grading down to the ultimate trend rate of 4.5% by 2033 for participants under 65 and 3.5% for all years for participants over 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

Benefit Obligations
As of December 31, 2025 and 2024, the Plan had post retirement benefit obligations greater than its net assets, the funding of which is not covered through the contribution rate provided by current bargaining agreements, where

applicable. The deficit is expected to be funded on a pay-as-you-go basis by the Plan Sponsor and retiree contributions.

Use of Estimates
The Plan's financial statements have been prepared in conformity with U.S. Generally Accepted Accounting Principles (“GAAP”). This requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of plan benefit obligations and net assets available for benefits at the date of the financial statements, the changes in plan benefit obligations, the changes in net assets available for benefits during the reporting period, the claims payable, the claims incurred but not reported and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 3 - 401(h) Accounts
The RTX PP includes health-benefit components in addition to normal retirement benefits. Contributions to the RTX PP fund a portion of the Plan’s postretirement obligation in accordance with Section 401(h) of the Internal Revenue Code (“IRC”). A separate account has been established and maintained in the Plan for such contributions. In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not included in the RTX PP’s obligation in the statements of accumulated plan benefits but are reported as obligations in the financial statements of the Plan.

The assets of the RTX PP, including the 401(h) accounts, along with the assets of other tax-qualified defined benefit pension plans maintained by the Company are held in and invested through the Master Trust. Accordingly, each of the 401(h) accounts holds an interest in the Master Trust.

The following tables present the components of the net assets available for 401(h) obligations and the related changes in net assets available:

	December 31, 2025	December 31, 2024
Interest in the Master Trust	57,230,621	73,508,152

Note 4 - Voluntary Employees Beneficiary Association Accounts

Summary Financial Information
The Plan's VEBA assets are held in the Welfare Benefits Trust. The assets of the Welfare Benefits Trust are held by BNY ("Trustee"). The PAIC, or its delegates, regularly reviews the asset allocations and performance of the investments in the Welfare Benefits Trust.

Investment securities are exposed to various risks, such as interest rate, market, currency and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Fair Value
The accounting standard for fair value measurements provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The accounting standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or have been corroborated by observable market data for substantially the full term of the related assets or liabilities.

Level 3: Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. See Valuation Policy section for further information.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

For the years ended December 31, 2025 and 2024, there were no transfers in or out of Level 3.

As of December 31, 2025 and 2024, the VEBA investments held directly by the Plan were all valued using Level 1 inputs.

Valuation Policy
The Plan's investments are stated at fair value. The Trustee values investments as follows:

Cash and cash equivalents are valued at amortized cost, which approximates fair value.

Investments in registered investment companies are valued at their last reported net asset value.

When current market quotations are not readily available or do not accurately reflect fair value, investments are valued in a manner that is intended to reflect their fair value.

Investment Income (Loss)
Dividends are recorded on the ex-dividend date and interest income is accrued as earned. All security transactions are recorded on the trade date. Gains or losses on sales of securities are based on average cost.

The Plan presents in the Statement of Changes in Net Assets Available for Benefit the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the change in unrealized appreciation (depreciation) on those investments.

Note 5 - Funding Policy

The benefits (and benefit related administrative expenses and insurance premiums) under the Plan will be funded by participant and employer contributions. Refer to Note 1 for further details. The Company, at its discretion based on actuarial determinations under cost accounting standards and other factors, funds the Plan up to the maximum tax deductible amount. Company contributions to the Plan are maintained in separate trusts. Assets of the Plan are maintained in certain segregated and restricted accounts under two separate trusts: the Welfare Benefits Trust which includes several VEBA accounts; and the Master Trust which includes several 401(h) accounts under the RTX PP. The Salaried VEBA account within the Welfare Benefits Trust, and the Salaried 401(h) account within the Master Trust are available for benefits (and benefit related administrative expenses and insurance premiums) of certain salaried participants, and the Hourly VEBA account within the Welfare Benefits Trust and the Hourly 401(h) account within the Master Trust are available for benefits (and benefit related administrative expenses and insurance premiums) of certain hourly participants. The benefits (and benefit related administrative expenses and insurance premiums) of remaining participants are paid directly by the Company. To the extent assets in these accounts are not sufficient to fund benefits under the Plan, such benefits shall be paid from such other funding vehicles as the Company may establish, or in the absence of such other funding vehicles, directly by the Company. For the year ended December 31, 2025, the Company directly paid benefits (and benefit related administrative expenses and insurance premiums) of $6,272,083 and administrative expenses of $447,187 related to the Plan out of general assets of the Company. Such amounts are included in "Claims paid" and "Administrative and other expenses", respectively, on the Statement of Change in Net Assets Available for Benefits.

Note 6 - Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by letters dated September 23, 2013 that the RTN Salaried Pension Plan and the related Master Trust which contains the 401(h) accounts, are designed in accordance with applicable sections of the IRC. The Plan Administrator and the Company’s benefits counsel believe that the RTX PP is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan Administrator, on behalf of the RTX PP, applied to the IRS for a new determination letter on June 23, 2025.

The IRS determined and informed the Company by letter dated February 6, 1997, that, assuming that it operates as stated in its application for tax exemption, the Raytheon Welfare Benefits Trust, known before January 1, 2008 as the E-Systems, Inc. Salaried Retiree Medical Benefits Trust (Salaried 501(c)(9)), was exempt from federal income tax under Code Section 501(a), other than the unrelated business income tax (“UBIT”) on unrelated business

income. Effective January 1, 2008, three other VEBA trusts (the "Participating Trusts") were merged into the Welfare Benefits Trust. The Plan Administrator and the Company's benefits counsel believe that the current design and operation of the Welfare Benefits Trust are consistent with its continued tax exemption.

Although the Welfare Benefits Trust is, and the Participating Trusts were, designated exempt from federal income tax, the income generated is subject to UBIT since the VEBAs solely fund retiree medical health benefits. As such, the Welfare Benefits Trust is required to calculate and make estimated tax payments based on the income it generates each year. Any taxes paid are included in "Administrative and other expenses."

The Plan adopted the provisions of uncertain tax positions that provide criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions.

The Plan is subject to examinations by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes the Plan is no longer subject to federal tax examination for years prior to 2022.

Note 7 – Reconciliation between Financial Statements and Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	As of December 31, 2025	As of December 31, 2024
Net assets available for benefits per the financial statements	$ 312,561,458	$ 297,361,533
Less: Net assets held in the RTX Consolidated Pension Plan restricted for 401(h) accounts	57,230,621	71,918,449
Net assets available for benefits per Form 5500	$ 255,330,837	$ 225,443,084

The following is a reconciliation of net increases per the financial statements to Form 5500:

	For the Year Ended December 31, 2025
Net increase in net assets available for benefits per the financial statements	$ 15,199,925
Less: Net decrease in 401(h) accounts	(14,687,828)
Net increase per Form 5500	$ 29,887,753

Note 8 - Termination Policy

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to participants, discontinue, or terminate the Plan at any time, without prejudice, subject to the provisions set forth in ERISA.

Note 9 - Certain Transactions Involving Related Parties and Parties-in-Interest

The Plan incurs expenses in connection with services provided by BNY as the Trustee and Custodian of the Plan, and BNY is therefore a party-in-interest with respect to the Plan. Certain investments within the Welfare Benefits Trust and the Master Trust (in which each 401(h) account has an interest) were advised by or affiliated with BNY. The Plan also incurs expenses in connection with the administration of the the Plan by the Company, the Plan Sponsor, and RTX, the Plan Administrator, and the Company and RTX are therefore parties-in-interest with respect to the Plan.

Certain expenses paid to BNY, Raytheon Company and RTX are also included in the "Net decrease in 401(h) accounts." The Plan also incurs certain administrative expenses paid to parties-in-interest.

All of these transactions either fall outside the scope of, or are exempt from, ERISA's prohibited transaction rules.

Note 10 - Risks and Uncertainties

Contributions to the Plan are made and the actuarial present value of post retirement benefit obligations and the claims incurred but not recorded are reported based on certain assumptions pertaining to interest rates, inflation rates, health care cost trends, employee compensation and demographics. Due to the changing nature of the assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. The investments of the Plan are exposed to various risks, such as interest rate, market and credit risks. See Note 4 for additional information with respect to investment risk.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events and transactions subsequent to December 31, 2025 through the date the Plan's financial statements were available to be issued, October 13, 2026.
