INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants of
1A Auto, Inc. Employee Stock Ownership Plan

Opinion

We have audited of the accompanying financial statements of **1A Auto, Inc. Employee Stock Ownership Plan,** an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of **1A Auto, Inc. Employee Stock Ownership Plan** as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **1A Auto, Inc. Employee Stock Ownership Plan** and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **1A Auto, Inc. Employee Stock Ownership Plan's** ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **1A Auto, Inc. Employee Stock Ownership Plan's** internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **1A Auto, Inc. Employee Stock Ownership Plan's** ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Form 5500 – Schedule H. Line 4i – Schedule of Assets (Held at End of Year) at December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of

the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of the 1A Auto, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

1A Auto, Inc. (Company) established the Plan effective as of January 1, 2021. The Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by an Employee Benefits Administration Committee comprising four executives of 1A Auto, Inc. An independent third-party Minnesota Chartered Trust Company is the Plan's trustee.

On April 29, 2022, the Plan purchased 235,454 shares of the Company's convertible preferred stock ("the stock") with an acquisition loan of $31,947,779. The Plan purchased the shares of the stock using the proceeds of from a Company loan (see Note 5) and holds the stock in a trust established under the Plan. The stock was purchased at a price of $135.69 per share.

The borrowing is collateralized by the unallocated shares of stock. The Company has no rights against shares of the stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

a. the accounts of employees with rights in allocated stock (allocated), and

b. stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries who have reached age eighteen (18) are generally eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during such Plan year. Employees begin to participate in the Plan as of the first day of the calendar month coinciding with or next following the close of the twelve month eligibility computation period in which they meet all of the above eligibility requirements. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Continued --

1. Description of the Plan (Continued)

Payment of Benefit Payments

Distributions on account of death, disability, or early or normal retirement are made in a lump sum in the Plan year following the event. For vested account balances $1,000 or less, a "cash out" distribution of the entire vested account balance will be made for any termination for any other reason prior to normal retirement age in a lump sum in the Plan year following the termination. For vested account balances $5,000 or less, but more than $1,000, the participant may elect a "cash out" distribution of the entire vested account balance by the end of the Plan year following the termination. If the "cash-out" election is not made, the distribution shall automatically be transferred to an IRA. For vested account balances more than $5,000, participants may elect to begin to receive distributions by the close of the sixth Plan year following the Plan year of termination.

Plan Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's convertible preferred stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Absent the above, benefits under the ESOP vest according to the following schedule:

Vesting (Continued)

Years of Service	% Vesting
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock and is paid in a lump sum. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2025 and 2024, totaled $37,201 and $37,563, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting.

Payments of Benefits

The Plan records benefit payments when paid.

2. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the Trustee maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Reclassifications

Certain prior-year amounts have been reclassified to conform to the current year presentation. These reclassifications had no effect on total net assets available for benefits or changes in net assets available for benefits.

Subsequent events

The Plan Administrator has evaluated subsequent events through October 13, 2026, the date which the financial statements were available to be issued.

3. Investments

The Plan's investments, at December 31, are presented in the following table:

	2025		2024	
	Allocated	**Unallocated**	**Allocated**	**Unallocated**
1A Auto, Inc. convertible preferred stock				
Number of shares	140,144	95,310	80,950	154,504
Cost	$19,015,559	$12,932,219	$ 10,983,770	$20,964,008
Estimated fair value	$12,901,681	$ 8,774,214	$ 9,992,446	$19,071,996

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from, or corroborated by either directly or indirectly.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level withing the fair value hierarchy is based on the lowest level of any input that is significant impact to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31			
	2025		2024	
	Level 3	Total	Level 3	Total
Investment in 1A Auto, Inc. convertible preferred stock	$21,675,895	$21,675,895	$29,064,442	$29,064,442

Changes in Fair Value of Level 3 Assets

The Plan allocated 59,194 and 25,004 shares valued at $5,449,441 and $3,086,473 of the Plan's level 3 assets for the years ended December 31, 2025 and 2024, respectively.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

4. Fair Value Measurements (Continued)

The 1A Auto, Inc. convertible preferred stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based on the income valuation technique consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Investment in 1A Auto, Inc. convertible preferred stock	$ 21,675,895	Income	EBITDA Net Income Weighted average cost of capital Discount rate Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Loan Payable

In 2022, the Plan entered into a $31,947,779 acquisition term loan agreement with the Company. The loan bears interest at 2.25%. The proceeds of the loan were used to purchase 235,454 shares of Company convertible preferred stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 59,194 shares being released and allocated for the Plan year ended December 31, 2025. The agreement provides for the loan to be repaid over 10 years. The scheduled amortization of the loan for the next 4 years is as follows:

Year ending December 31,	
2026	$ 6,500,778
2027	2,416,752
2028	2,470,881
2029	1,563,981
	$ 12,952,392

6. Company Dividends

The Company paid a dividend to the ESOP of $8.56 per share or $2,015,487 during the years ended December 31, 2025 and 2024. These dividends were applied to debt service. As required by the Plan document, the current appraised value of the shares returned to participant accounts in exchange for the use of such dividends was at least equal to the current value of such dividends.

7. Related Party and Party-in-Interest Transactions

The Plan invests in Company convertible preferred stock and has indebtedness to the Company. These are related party and party in interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

8. Risks and Uncertainties

The Plan investments consist of the Company's convertible preferred stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the convertible preferred stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the convertible preferred stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

9. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

10. Tax Status of the Plan

The Plan has received a determination letter from the IRS dated June 30, 2020, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
