INDEPENDENT AUDITORS' REPORT

The Employee Retirement Committee of
Columbia Memorial Hospital TSA/Thrift Plan and Trust
Astoria, Oregon

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements

We have performed an audit of the accompanying financial statements of Columbia Memorial Hospital TSA/Thrift Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2025 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section—

- The amounts and disclosures in the 2025 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the 2025 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2025 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2025 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2025 Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion —

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Predecessor Auditor's Report on the 2024 Financial Statements

The financial statements of the Plan as of December 31, 2024, were audited by predecessor auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report, dated October 13, 2025, indicated that in their opinion (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedules, other than the information in the 2024 supplemental schedules that agrees to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and the information in the 2024 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan:

The following description of the Columbia Memorial Hospital TSA/Thrift Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established for the benefit of eligible employees of Columbia Lutheran Charities, doing business as Columbia Memorial Hospital (the Hospital). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a committee designated by the Hospital's Board of Trustees. Delaware Charter Guarantee and Trust Company, doing business as Principal Trust Company and Principal Life Insurance Company (Principal Life) are the Custodian and Trustee of the Plan. Principal Life also performs custodial and recordkeeping services for the Plan.

Eligibility – Employees of the Hospital are eligible to participate in the Plan upon completion of 1,000 hours of service within an eligible 12-month period, which is either the first 12 months of employment or any full calendar year thereafter. Excluded from participation are employees covered by a collective bargaining agreement that does not provide for participation in the Plan, "leased employees" as defined in the Internal Revenue Code (IRC), and persons who perform services for the Hospital but are not treated as employees for payroll tax purposes. Qualifying employees may participate in the Plan on the first day of the month or on the following date after they meet the eligibility requirements.

Contributions – Participant contributions are not permitted in this Plan. The Plan provides for Hospital contributions in the form of basic and enhanced matching contributions related to the Columbia Memorial Hospital 403(b) Tax-Deferred Annuity (the 403(b) Plan), which is a separate, qualified employee benefit plan available to eligible employees of the Hospital, and profit-sharing contributions. These three categories of Hospital contributions are determined as follows:

- **Basic matching contributions –** Participants who are not eligible for enhanced matching contributions and profit-sharing contributions are eligible for basic matching contributions. For each calendar year, the Hospital may make a discretionary basic matching contribution to the Plan of up to 25 percent of each participant's first $1,000 of elective contributions to the 403(b) Plan. Basic matching contributions totaled $3,250 and $3,500 for the years ended December 31, 2025 and 2024, respectively.

- **Enhanced matching contributions** – Generally, participants who first became employees of the Hospital after May 4, 2006 (or for employees covered by a collective bargaining agreement with the Oregon Nurses Association subsequent to July 26, 2007), are eligible for enhanced matching contributions. In addition, participants who elected out of active participation in the Columbia Memorial Hospital Retirement Plan effective January 1, 2007 or 2008, are eligible to receive enhanced matching contributions. The Hospital will make an enhanced matching contribution equal to 100 percent of the participant's elective contributions to the 403(b) Plan, up to 3 percent of the participant's compensation for eligible employees. Enhanced matching contributions totaled approximately $1,747,609 and $1,531,034 for the years ended December 31, 2025 and 2024, respectively. The Hospital's enhanced matching contributions are generally funded to the Plan as earned by participants each payroll period.

1. **Description of Plan (continued):**

    - **Profit-sharing contributions** – Participants who are eligible for enhanced matching contributions are also eligible for profit-sharing contributions. For each eligible participant, the Hospital will make a profit-sharing contribution equal to 5.0 percent of the participant's compensation for each payroll period beginning on or after the later of (a) the participant's second anniversary of employment with the Hospital, or (b) the date that the participant becomes eligible for profit-sharing contributions. Profit-sharing contributions totaled $2,293,135 and $2,074,728 for the years ended December 31, 2025 and 2024, respectively. The Hospital's profit-sharing contributions are generally funded to the Plan as earned by participants each payroll period.

    Contributions are subject to regulatory limitations.

    Participant accounts – Each participant's account is credited with the Hospital's enhanced matching contributions, as well as allocations of the Hospital's profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

    Vesting – The Hospital's contributions after May 4, 2006, are fully vested and not subject to forfeiture for any reason, except as noted below for new or rehired participants after January 1, 2024. Participants are fully vested in the Hospital's contributions made before May 4, 2006, on the earlier of either (a) the date the participant reaches normal retirement age, dies, or incurs total disability while an employee, or (b) the date the participant has three years of vesting service. Effective January 1, 2024, new or rehired participants are fully vested after one year of service or upon reaching normal retirement age or incurring total disability while an employee.

    Benefits – Upon retirement, death, disability, or other separation of service, participants (or their beneficiaries) will receive a lump-sum amount equal to the value of the participant's interest in his or her account, subject to the provisions of the IRC and applicable state laws. Upon separation of service, if a participant's account balance is $1,000 or less ($7,000 or less for beneficiaries or alternate payees) and the participant does not elect to receive a distribution, the Hospital may direct the Plan to automatically distribute the participant's account balance in a lump sum.

    Administrative expenses – At the Hospital's discretion, administrative expenses of the Plan may be paid directly by the Hospital; certain other administrative expenses may be paid by the Plan. Expenses that are paid by the Hospital are excluded from the accompanying financial statements. Certain investment-related expenses are offset against net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

    Plan termination – Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies:

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of the financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation – The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. The investments are certified by the Custodian and Trustee.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the Custodian and Trustee. See Note 4 for discussion of fair value measurements.

Contract value is the relevant measurement attribute for assets invested in fully benefit-responsive investment contracts, because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Contributions – Matching contributions are recorded in the year in which the related participant compensation is paid.

Income recognition – Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits – Benefits are recorded when paid.

Subsequent events – The Plan has evaluated subsequent events through October 1, 2026, which is the date that the financial statements were available to be issued.

3. Certification of Investment Information:

The Custodian and Trustee of the Plan have supplied the plan administrator with a certification as to the completeness and accuracy of all investment information reflected in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, the statement of changes in net assets available for benefits for the year ended December 31, 2025, and the supplemental Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2025.

4. Fair Value Measurements:

Financial Accounting Standards Board *Accounting Standards Codification* Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

The following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds) – The fair value of mutual funds is based on the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Deferred income annuities – The Plan holds an investment in the Principal Pension Builder (the Pension Builder), which is an investment option that allows participants to purchase deferred income annuities issued by Principal Life. Participants may transfer investments in the Pension Builder to other investment options within the Plan. Transactions that occur prior to the commencement of guaranteed income payments are realized at the lower of contract value (or return of premium) or an adjusted contract value that takes into account the current rates of interest available in the marketplace as well as mortality factors. The fair value of the annuities is the value paid when funds are withdrawn prior to the income start date.

4. Fair Value Measurements (continued):

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 34,380,339	$ -	$ -	$ 34,380,339
Deferred income annuities	-	-	69,352	69,352
Total investments at fair value	**$ 34,380,339**	**$ -**	**$ 69,352**	**$ 34,449,691**

	2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 27,293,065	$ -	$ -	$ 27,293,065
Deferred income annuities	-	-	62,942	62,942
Total investments at fair value	**$ 27,293,065**	**$ -**	**$ 62,942**	**$ 27,356,007**

Changes in fair value levels – The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2025, there were no significant transfers in or out of Levels 1, 2, or 3.

5. Fully Benefit-Responsive Investment Contract:

The Plan's guaranteed investment contract is invested in the Principal Fixed Income Guaranteed Option (the Contract), which is a fully benefit-responsive investment contract (FBRIC). Principal Life maintains the related contributions in its general account. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract meets the FBRIC criteria and is, therefore, reported at contract value. Contract value is the relevant measure for FBRICs, as this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

5. Fully Benefit-Responsive Investment Contract (continued):

Contract value, as reported to the Plan by Principal Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable to occur that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

6. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

The Plan has concentrations of investments in certain funds. At December 31, 2025, the Principal LifeTime 2030 Institutional Fund, Principal LifeTime 2040 Institutional Fund, and Principal LifeTime 2050 Institutional Fund individually represented more than 10 percent of the Plan's net assets available for benefits. As a result of these concentrations, changes in the value of these investments could have a material effect on participants' account balances and the amounts reported in the accompanying financial statements. In addition, as a result of funds being selected by participants, certain other funds may individually represent a concentration of greater than 10 percent of the Plan's investments at fair value in the statements of net assets available for benefits. Although these individual funds maintain a level of diversification by investing in multiple equity, debt, or other instruments, there may be a concentration of risk because the funds are invested at the direction of a single fund manager.

7. Party-in-interest Transactions:

The following transactions are considered party-in-interest transactions under ERISA regulations, but are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA:

- The Plan sponsor provides to the Plan certain accounting and administrative services for which no fees are charged to the Plan. The employees that provide these services are also participants of the Plan.

7. Party-in-interest Transactions (continued):

- Plan investments are managed by the Custodian and Trustee.
- The Plan auditor performs the required annual audit of the Plan.

8. Plan Tax Status:

The Internal Revenue Service (IRS) has determined and informed the Hospital by a letter dated February 8, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended and restated since receiving the determination letter, the plan Administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Reconciliation of Financial Statements to the Form 5500:

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets available for benefits reported on the Form 5500:

Net assets available for benefits according to the financial statements	**$**	**35,210,711**
