Independent Auditor's Report

Board of Directors
DiamondBack Employee Stock Ownership Plan
Philipsburg, Pennsylvania

Opinion

We have audited the financial statements of DiamondBack Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are issued or available to be issued.

Responsibilities of Management for the Financial Statements (Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Description of Plan

The following description of the DiamondBack Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The DiamondBack Employee Stock Ownership Plan (the "Plan") is a non-leveraged noncontributory defined contribution employee stock ownership plan (ESOP) sponsored by DiamondBack Automotive Accessories Inc., effective January 1, 2025. The Plan is intended to qualify under Sections 401(a) and 4975(e)(7) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by DiamondBack Automotive Accessories Inc., and plan's stocks are held by the Trustee, Benjamin P. Eltz and plan's cash is held by First National Bank. The Plan invests primarily in Company stock and provides eligible employees with an ownership interest in the Company through employer contributions.

Eligibility

Employees of the Company are generally eligible to participate after completing 450 Hours of Service during a 12-month period and enter the Plan on the first day of Plan Year, coincident with or immediately preceding satisfaction of requirements. The Plan excludes certain classes of employees, including student employees, leased employees, employees covered by a collective bargaining agreement, and certain nonresident aliens. To receive an allocation of Company contributions, participants generally must complete 450 Hours of Service during the Plan Year and be employed on the last day of the Plan Year, subject to exceptions for death, disability, and Normal Retirement Age.

Employer Contributions

The Company may make discretionary contributions to the Plan in cash or employer stock, as determined by the Board of Directors and in accordance with the Plan document. Contributions are allocated to eligible participants under the Plan's allocation formula.

Employee contributions to the ESOP are not permitted.

Voting Rights

Participants are entitled to direct the voting of shares allocated to their individual accounts with respect to certain major corporate transactions and, in addition, shall be provided pass-through voting rights with respect to any proposed sale or disposition of substantially all of the Company's stock. Participants are notified by the Trustee prior to such matters and may direct the voting of the shares allocated to their accounts.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. Description of Plan (Continued)

Participant Accounts

The Plan is a defined contribution employee stock ownership plan under which a separate account is maintained for each participant. Participant accounts are credited with Company contributions, forfeiture allocations, changes in the value of Company stock and other investments, and dividends or distributions received by the Trust.

To receive an allocation for a Plan Year, a participant generally must complete 450 Hours of Service during the Plan Year and be employed on the last day of the Plan Year, subject to certain exceptions. Company contributions and forfeitures are allocated using the Plan's following point-based allocation formula: first, a designated portion of the contribution established via resolution of the Company's Board of Directors will be allocated based on the ratio that each Participant's service points bear to the service points of all eligible Participants, with each Participant receiving one service point for each Year of Service. Second, the remainder of the contribution will be allocated on the ratio that each Participant's points bear to the total points of all eligible Participants as follows: each participant receives 1 point for every $1,000 of Compensation and 5 points for every Year of Service. The combined sum of the compensation and service points is subject to a cap of 200 points per Participant. Participant account balances are adjusted annually based on contributions, forfeitures, investment performance, and the annual valuation of Company stock.

Vesting

A participant's account becomes 100% vested upon completion of three years of service. Participants with fewer than three Years of Service are not vested in their accounts. Participants also become fully vested upon death, disability, or attainment of Normal Retirement Age while employed by the Company.

Forfeited Accounts

Forfeitures will be reallocated to the accounts of remaining participants, as of the allocation date of the plan year. For the year ended December 31, 2025, there were no forfeitures to reallocate among the participants.

Payment of Benefits

Benefits become payable upon a participant's retirement, death, disability, or other termination of employment. If a participant dies while employed, benefits are paid to the participant's beneficiary. Participants terminating employment before Normal Retirement Age with a vested account balance of $1,000 or less receive a lump-sum cash-out. Participants with vested balances over $1,000 but not more than $7,000 may elect a lump-sum distribution; otherwise, the balance is automatically rolled over to an IRA if no election is made. Participants with vested balances exceeding $7,000 may elect to begin receiving benefits during the year after the close of the fifth plan year following the plan year in which the participant terminates, or earlier upon reaching Normal Retirement Age. Benefits are generally paid in annual installments over five years, with longer payout periods permitted for larger account balances. S corporation distributions are in cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have completed 10 Years of Service may elect to diversify a portion of their account balance attributable to Company stock. The diversification period begins when both requirements are satisfied and continues for six years. Participants may diversify up to 25% of eligible shares during each of the first five years and up to 50% during the sixth year. Eligible participants are notified annually of their diversification rights. These distributions, amounting to $0 for 2025, are recorded as diversification transfers in the Statement of Changes in Net Assets Available for Benefits.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. See Note 7 for discussion of risks and uncertainties.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all costs to administer the plan are paid directly by the Company.

Subsequent Events

In preparing these financial statements, the Plan Sponsor has evaluated events and transactions for potential recognition or disclosure through October 13, 2026, the date the financial statements were available to be issued. See Note 8.

3. Plan Administration

The Plan’s assets, which consist primarily of Diamondback Automotive Accessories Inc.'s common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, collect interest and dividend income, and make distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Generally, recordkeeping and related fees and other administrative expenses are paid directly by the Company.

4. Related-Party and Party-In-Interest Transactions

The Plan’s employer contributions are shares of the Company’s common stock; therefore, transactions related to these contributions qualify as related party and party-in-interest transactions.

5. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Trustee shall continue to disburse funds in accordance with the directions of the Plan Administrator.

6. Tax Status

The IRS has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan investments will consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. Subsequent Events

On February 23, 2026, the Board of Directors approved the issuance and allocation of DiamondBack Automotive Accessories Inc.'s common stock. 10,307 shares were issued and allocated to participants in the Plan at $230.66. Fair market value of the stock was determined by an independent valuation specialist at Value Management Inc. Shares were transferred to the Trustee's possession in May of 2026.

Additionally, a $5 stock dividend was issued and paid on all Company stock including the 10,307 shares held by the ESOP. $51,535 was deposited to the First National Bank account for the DiamondBack Employee Stock Ownership Plan on April 30, 2026.

Opinion

We have audited the financial statements of DiamondBack Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are issued or available to be issued.

Responsibilities of Management for the Financial Statements (Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Description of Plan

The following description of the DiamondBack Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The DiamondBack Employee Stock Ownership Plan (the "Plan") is a non-leveraged noncontributory defined contribution employee stock ownership plan (ESOP) sponsored by DiamondBack Automotive Accessories Inc., effective January 1, 2025. The Plan is intended to qualify under Sections 401(a) and 4975(e)(7) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by DiamondBack Automotive Accessories Inc., and plan's stocks are held by the Trustee, Benjamin P. Eltz and plan's cash is held by First National Bank. The Plan invests primarily in Company stock and provides eligible employees with an ownership interest in the Company through employer contributions.

Eligibility

Employees of the Company are generally eligible to participate after completing 450 Hours of Service during a 12-month period and enter the Plan on the first day of Plan Year, coincident with or immediately preceding satisfaction of requirements. The Plan excludes certain classes of employees, including student employees, leased employees, employees covered by a collective bargaining agreement, and certain nonresident aliens. To receive an allocation of Company contributions, participants generally must complete 450 Hours of Service during the Plan Year and be employed on the last day of the Plan Year, subject to exceptions for death, disability, and Normal Retirement Age.

Employer Contributions

The Company may make discretionary contributions to the Plan in cash or employer stock, as determined by the Board of Directors and in accordance with the Plan document. Contributions are allocated to eligible participants under the Plan's allocation formula.

Employee contributions to the ESOP are not permitted.

Voting Rights

Participants are entitled to direct the voting of shares allocated to their individual accounts with respect to certain major corporate transactions and, in addition, shall be provided pass-through voting rights with respect to any proposed sale or disposition of substantially all of the Company's stock. Participants are notified by the Trustee prior to such matters and may direct the voting of the shares allocated to their accounts.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. Description of Plan (Continued)

Participant Accounts

The Plan is a defined contribution employee stock ownership plan under which a separate account is maintained for each participant. Participant accounts are credited with Company contributions, forfeiture allocations, changes in the value of Company stock and other investments, and dividends or distributions received by the Trust.

To receive an allocation for a Plan Year, a participant generally must complete 450 Hours of Service during the Plan Year and be employed on the last day of the Plan Year, subject to certain exceptions. Company contributions and forfeitures are allocated using the Plan's following point-based allocation formula: first, a designated portion of the contribution established via resolution of the Company's Board of Directors will be allocated based on the ratio that each Participant's service points bear to the service points of all eligible Participants, with each Participant receiving one service point for each Year of Service. Second, the remainder of the contribution will be allocated on the ratio that each Participant's points bear to the total points of all eligible Participants as follows: each participant receives 1 point for every $1,000 of Compensation and 5 points for every Year of Service. The combined sum of the compensation and service points is subject to a cap of 200 points per Participant. Participant account balances are adjusted annually based on contributions, forfeitures, investment performance, and the annual valuation of Company stock.

Vesting

A participant's account becomes 100% vested upon completion of three years of service. Participants with fewer than three Years of Service are not vested in their accounts. Participants also become fully vested upon death, disability, or attainment of Normal Retirement Age while employed by the Company.

Forfeited Accounts

Forfeitures will be reallocated to the accounts of remaining participants, as of the allocation date of the plan year. For the year ended December 31, 2025, there were no forfeitures to reallocate among the participants.

Payment of Benefits

Benefits become payable upon a participant's retirement, death, disability, or other termination of employment. If a participant dies while employed, benefits are paid to the participant's beneficiary. Participants terminating employment before Normal Retirement Age with a vested account balance of $1,000 or less receive a lump-sum cash-out. Participants with vested balances over $1,000 but not more than $7,000 may elect a lump-sum distribution; otherwise, the balance is automatically rolled over to an IRA if no election is made. Participants with vested balances exceeding $7,000 may elect to begin receiving benefits during the year after the close of the fifth plan year following the plan year in which the participant terminates, or earlier upon reaching Normal Retirement Age. Benefits are generally paid in annual installments over five years, with longer payout periods permitted for larger account balances. S corporation distributions are in cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have completed 10 Years of Service may elect to diversify a portion of their account balance attributable to Company stock. The diversification period begins when both requirements are satisfied and continues for six years. Participants may diversify up to 25% of eligible shares during each of the first five years and up to 50% during the sixth year. Eligible participants are notified annually of their diversification rights. These distributions, amounting to $0 for 2025, are recorded as diversification transfers in the Statement of Changes in Net Assets Available for Benefits.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. See Note 7 for discussion of risks and uncertainties.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all costs to administer the plan are paid directly by the Company.

Subsequent Events

In preparing these financial statements, the Plan Sponsor has evaluated events and transactions for potential recognition or disclosure through October 13, 2026, the date the financial statements were available to be issued. See Note 8.

3. Plan Administration

The Plan’s assets, which consist primarily of Diamondback Automotive Accessories Inc.'s common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, collect interest and dividend income, and make distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Generally, recordkeeping and related fees and other administrative expenses are paid directly by the Company.

4. Related-Party and Party-In-Interest Transactions

The Plan’s employer contributions are shares of the Company’s common stock; therefore, transactions related to these contributions qualify as related party and party-in-interest transactions.

5. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Trustee shall continue to disburse funds in accordance with the directions of the Plan Administrator.

6. Tax Status

The IRS has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan investments will consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. Subsequent Events

On February 23, 2026, the Board of Directors approved the issuance and allocation of DiamondBack Automotive Accessories Inc.'s common stock. 10,307 shares were issued and allocated to participants in the Plan at $230.66. Fair market value of the stock was determined by an independent valuation specialist at Value Management Inc. Shares were transferred to the Trustee's possession in May of 2026.

Additionally, a $5 stock dividend was issued and paid on all Company stock including the 10,307 shares held by the ESOP. $51,535 was deposited to the First National Bank account for the DiamondBack Employee Stock Ownership Plan on April 30, 2026.
