Independent Auditor's Report

Plan Administrator
Boulder Community Health
Boulder, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C)

We have performed our audits of the financial statements of Boulder Community Health Retirement Plan and Trust, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Boulder Community Health Retirement Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Boulder Community Health Retirement Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Boulder Community Health Retirement Plan and Trust's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Boulder Community Health Retirement Plan and Trust's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Boulder Community Health Retirement Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following description of Boulder Community Health Retirement Plan and Trust (the Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the plan document and *Summary Plan Description,* which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees hired before January 1, 2010, of The Community Hospital Association (the Hospital) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Prior to January 1, 2025, Vanguard Fiduciary Trust Company (Vanguard) was the trustee of the Plan and maintained custody of the Plan's investments except for the separate accounts, which Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) was the custodian. Effective January 1, 2025, Principal became the trustee and custodian of the Plan.

The Plan is administered by the Finance Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

Contributions

The Hospital's contributions are based upon funding requirements recommended by the Plan's actuary using the projected unit credit method and have been made to satisfy the minimum funding requirements of Internal Revenue Code (IRC) Section 412(a) and ERISA. The Hospital's funding policy has generally been to contribute an amount determined as necessary to maintain a stable level of contributions as a percentage of employees' pay. The Plan has met the minimum funding requirements established by ERISA.

Although it has not expressed any intention to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Benefits under the Plan are based on employees' compensation and years of credited service. A participant shall be 100% vested in his or her accrued benefit on attainment of age 65 (the normal retirement age) or after five years of vested service. A participant may elect to take early retirement after 10 years of vested service, which shall commence on the later of his or her early retirement date or the date on which he or she attains age 55. A reduction factor shall be applied for each month by which benefits commence prior to attainment of age 65. Participants at normal or early retirement may also elect to be paid out as a lump-sum payment.

Death and Disability Benefits

In the event a vested, married participant dies prior to receiving any benefits under the Plan, the spouse of the participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. Payments to the spouse commence as of the earliest date the participant would have received benefits. If the participant was already receiving benefits under the Plan, the death benefit will depend on the form of payment elected by the participant.

In the event a participant terminates employment on account of disability, as defined, the participant shall receive the normal retirement benefit commencing on their normal retirement date. Such benefit shall be based on the participant's years of service projected to the normal retirement date assuming compensation and hours of service for the year of disability and each future year is equal to the participant's compensation and hours of service for the calendar year preceding the disability retirement date. In no event will a participant be eligible for this benefit if he or she has less than 15 years of service and in no event will a participant's projected benefit be less than the accrued benefit as of the disability retirement date.

Vesting

Participants become fully vested upon attaining normal retirement, early retirement, death, disability, or the completion of five years of service.

Freezing of Plan Accrued Benefits

Effective September 30, 2017, by resolution of the Finance Committee, the Hospital approved that the accrued benefit of each participant be frozen under the Plan. No future accrual service will be credited subsequent to September 30, 2017. In addition, no future changes in compensation will be taken into account in the determination of a member's accrued benefit.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income (Loss) Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Common stocks and U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at net asset value (NAV) of shares held by the Plan at year-end.

Pooled separate accounts are valued at estimated fair value as provided by Principal.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses, including compensation or fees of actuaries, accountants, counsel and other specialists and any other costs of administering the Plan, may be paid by the Hospital or the Plan, at the Hospital's discretion. For the years ended December 31, 2025 and 2024, the Hospital paid all administrative expenses incurred by the Plan, except for the trustee fees and PBGC premiums, which were paid by the Plan (see Note 7).

Accumulated Plan Benefits

Accumulated plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- Retired or terminated employees or their beneficiaries
- Present employees or their beneficiaries

The accumulated plan benefits for active employees are based on their compensation during the years preceding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Plan Tax Status

The Plan has received an updated determination letter from the Internal Revenue Service dated November 9, 2020, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 3. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below.

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 4. Certification of Plan Trustees

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company (Principal) and Vanguard Fiduciary Trust Company (Vanguard), both qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2025 and 2024. Certified by Principal as of December 31, 2025, and both Principal and Vanguard as of December 31, 2024.
- Net investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024. Certified by Principal for the year ended December 31, 2025, and both Vanguard and Principal for the year ended December 31, 2024, for assets held at each institution.
- Investment information included in the accompanying schedule of assets (held at year-end) as of December 31, 2025 and the accompanying schedule of reportable transactions for the year ended December 31, 2025. Certified by Principal.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedules. As discussed in Note 1, the Plan's assets were held at both Principal and Vanguard until January 1, 2025 when Principal became the sole custodian and trustee of the Plan.

Note 5. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2025 and 2024.

	2025			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 81,939,147	$ 81,939,147	$ -	$ -
Collective investment trust	19,641,813	19,641,813	-	-
Total assets in the fair value hierarchy	101,580,960	$ 101,580,960	$ -	$ -
Investments measured at net asset value (A)	906,635			
Total investments at fair value	$ 102,487,595			

	2024			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 101,022,101	$ 101,022,101	$ -	$ -
Total assets in the fair value hierarchy	101,022,101	$ 101,022,101	$ -	$ -
Investments measured at net asset value (A)	2,266,842			
Total investments at fair value	$ 103,288,943			

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 6. Accumulated Plan Benefits

An actuary from Principal Financial Group determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning of each plan year was as follows:

	January 1,	
	2025	**2024**
Actuarial Present Value of Accumulated Plan Benefits		
Vested benefits		
Participants currently receiving payments	$ 52,217,644	$ 50,971,014
Other participants	52,570,441	61,162,549
Total vested benefits	104,788,085	112,133,563
Nonvested benefits	275,659	309,005
Total actuarial present value of accumulated plan benefits	$ 105,063,744	$ 112,442,568

Changes in the actuarial present value of accumulated plan benefits were as follows:

Actuarial Present Value of Accumulated Plan Benefits at January 1, 2024	$ 112,442,568
Increase (Decrease) During the Year Attributable to	
Benefit payments	(11,789,493)
Benefits accumulated and plan experience	(1,720,568)
Change in discount period	6,131,237
Net increase (decrease)	(7,378,824)
Actuarial Present Value of Accumulated Plan Benefits at January 1, 2025	$ 105,063,744

Significant assumptions underlying the actuarial computations (same for both years unless otherwise noted):

- Assumed rate of return on investments:
  - Valuation as of January 1, 2025: 6.00%
  - Valuation as of January 1, 2024: 6.20%
- Mortality basis:
  - Valuation as of January 1, 2025: Based on Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2024).
  - Valuation as of January 1, 2024: Based on Pri-2012 Total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023).
- Retirement: Retirement rate between 55 and 70 for active participants and retirement rate between 55 and normal retirement age (65) for inactive participants.
- Asset valuation: Based on actuarial value, rather than market value.
- The following actuarial assumptions were changed for the January 1, 2025 valuation:
  - The interest rates used for liabilities in the calculation of annual cost and AFTAP changed from segment rates of 4.80% | 5.24% | 5.17%, with total effective interest rate of 5.14%, to full yield curve rates of 4.72% | 5.42% | 5.58%, with total effective interest rate of 5.37%. The net effect of this method change is to increase funding target for annual cost and AFTAP purposes.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 7. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Fees for trust and administrative services paid by the Plan to the trustees were $244,079 for 2025 and $395,970 for 2024.

Certain plan investments are units of a separate account managed by Principal. Additionally, the Plan invested in money market accounts managed by Vanguard, while assets were held with Vanguard.

The Hospital provides certain administrative services at no cost to the Plan and pays certain administrative expenses on the Plan's behalf.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Department of Labor Audit

During the 2023 plan year, the Plan was selected for audit by the Department of Labor. This audit was a standard Department of Labor audit, and was concluded in March of 2025. No additional errors were identified outside of those corrected as part of a previous internal inspection initiated by plan management.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of benefit payments per the financial statements for the years ended December 31, 2025 and 2024 to Form 5500:

	2025	2024
Benefit payments per the financial statements	$ 10,239,915	$ 11,562,060
Corrective distributions	-	227,433
Benefit payments per Form 5500	$ 10,239,915	$ 11,789,493

Note 10. Subsequent Events

Subsequent events have been evaluated through October 8, 2026, which is the date the financial statements were available to be issued.

SCHEDULE H, line 4i - SCHEDULE OF ASSETS (HELD AT END OF YEAR)

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Generational Non-annuitant, male and female.

During benefit payment period

IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

6.00% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants

Age	Probability of retirement
55-63	3%
64	30%
65	60%
66	40%
67-69	25%
70	100%

Inactive participants

Age	Probability of retirement
55-61	5%
62	15%
63	15%
64	75%
65	100%

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability

1987 Commissioner's Group Disability Table, six month elimination period, male and female.

We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.

Marriage

75% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.80. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.80 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit and basis	50% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages. The remaining participants will elect a monthly annuity on the normal form at the assumed retirement age. Active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum paid at the assumed retirement ages. This assumption is based on the results of recent experience analysis and anticipated future experience. The single sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target. The portion based on the plan's definition of accrued benefit. The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates could differ from actual plan lump sum rates.

Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Yield curve rates	Full yield curve. Use the rates through the month of December.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the full yield curve rates used for annual cost.
Methods elected by actuary	
Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).

Mortality base rates

Before benefit payment period
Employee amount-weighted, male and female
During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities	5.75% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
Basis for lump sums	Interest rate Based on the three segment yield curve: 3.55%/3.95%/4.95% The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link. Mortality We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the 01/01/2024 restated plan document, signed 12/09/2024.

Plan eligibility

Age

Attained age 21.

Service

One year of eligible service in which at least 1,000 hours worked.

Class

Any employee of the employer, excluding:

- Leased employees
- Independent contractors, or employees of independent contractors
- Employees of affiliated employers who have not adopted this plan
- Employees of Community Medical Services Organization, Inc.
- Employees who provide services to Community Medical Services Organization, Inc. on a full time basis
- Track I employees
- Physician employees (except for primary care, internal medicine, and infectious disease physicians).

On and after 01/01/2010, new employees are no longer eligible to participate in the plan.

On and after 12/31/2012, inactive participants who are rehired are no longer eligible to become active participants.

Normal retirement benefit

Age

Attained age 65 (on and after 01/01/2006, the later of attained age 65 or the date 4 years after plan entry).

Form

Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Amount (accrued benefit)

The sum of a) and b):

a) The accrued benefit on 12/31/1988

b) On and after 01/01/1989, the sum of (1) plus (2)

(1) 1.0% of compensation for each year of accrual service

(2) 0.5% of compensation in excess of the integration level for each year of accrual service (maximum 35 years)

The maximum 35 year service limit in b), above, includes service earned prior to 01/01/1989.

On and after 09/30/2017, the accrued benefit is frozen and no additional benefits will accrue.

Early retirement benefit	
Age	Attained age 55.
Service	At least 10 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five plus 3 1/3% for each year between five and ten and that the early retirement date precedes normal retirement date.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	For active participants, the greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date. For terminated vested participants must take their benefit at the later of their normal retirement date or termination of employment.

Termination benefit	
Vesting percentage	100% after five years of vesting service, or 100% upon attaining normal retirement age or early retirement age.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit	
Eligibility	Totally and permanently disabled with at least 15 years of vesting service
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of disability.

Death benefit	
Eligibility	Qualified married participant (with a spouse or domestic partner) fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse or domestic partner, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Integration level	A single amount in any given year equal to one-half of the monthly average of the social security taxable wage bases (in effect under section 230 of the social security act) for each year in the preceding 35-year period, for an individual that attains social security retirement age that year.
Optional forms of benefit payments	The optional forms of benefit payments are: Monthly annuity payable for life or 10 years certain and life Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 or 100 The optional form conversion basis for other optional forms is 8.0% interest and UP-1984 mortality table for payments other than lump sums.
Lump sum provisions	Small amount force out (SAFO) – allowed up to $7,000. Lump sums in excess of SAFO - are allowed as described below. The present value of the deferred retirement benefit on date of termination provided the lump sum amount is not greater than $50,000. Schedule SB, Line 24 – Change in Actuarial Assumptions
Boulder Community Health Retirement Plan and Trust
EIN 84-0175870 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.20% to 6.00%. This rate is used in the calculation of the actuarial value of plan assets.
