INDEPENDENT AUDITOR'S REPORT

CNH Industrial U.S. Retirement Board
CNH Industrial U.S. Health and Welfare Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CNH Industrial U.S. Health and Welfare Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and plan benefit obligations as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits and changes in plan benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

CNH Industrial U.S. Health and Welfare Plan
Notes to Financial Statements
December 31, 2025 and 2024

1. Plan Description

General

The following description of the CNH Industrial U.S. Health and Welfare Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan, sponsored by Case New Holland Industrial Inc. (the Company, CNH, or the Plan Sponsor), is a contributory health and welfare benefit plan established January 1, 1995, covering eligible U.S. employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The CNH Industrial U.S. Retirement Board of the Company controls and manages the operation and administration of the Plan.

Benefits

The Plan provides health (medical, hospital, surgical, major medical, dental, prescriptions and vision), life insurance, short-term disability benefits, and long-term disability benefits to regular, full-time, and qualified part-time active employees upon date of hire or following a short waiting period that varies by covered group. The Plan also provides short-term disability benefits for part-time employees after six months of employment. Employees represented by a collective bargaining unit are not eligible to participate, unless the collective bargaining agreement stipulates participation. Retired employees are entitled to similar health benefits (in excess of Medicare), provided they have completed at least ten years of consecutive service with the Company after age 45 or any time after age 65, provided they were in a group that offered retiree health coverage as of December 31, 2000.

The Plan provides continuation of certain benefits upon termination of employment through the Consolidated Omnibus Budget Reconciliation Act.

Most benefits are self-insured by the Plan. The claims for self-insured benefits are processed by the Plan's third-party administrators; however, the responsibility for payments to providers and participants is retained by the Plan.

Flexible spending accounts are provided on a self-funded basis for health and dependent care under the Plan.

1. Plan Description (continued)

The Plan includes a medical option with a health reimbursement account (HRA) that is funded solely by Company contributions. The HRA allows eligible participants to be reimbursed tax-free for qualified medical expenses under the Plan or to apply reimbursable expenses against the plan deductible. Unused amounts carry over year to year. If employment terminates at age 55 or later with ten or more consecutive years of service, any remaining balance will be transferred to the Retiree Medical Savings Account Plan or otherwise forfeited.

Contributions and Funding

Participants contribute specified amounts based on applicable monthly premiums for their respective benefit election. The Company's policy is to deposit employee contributions to the trust account on a weekly basis and to fund employer contributions on an as-needed basis.

Salaried and hourly retirees' contributions are updated annually to cover 60% of any increase in cost under the medical plan. Eligible union retiree medical contributions are updated annually according to the union contract in force.

2. Summary of Significant Accounting Policies

UHC Receivable For Claim Overpayments

The UHC receivable pertains to claim overpayments for the Fiat Allis (FANA) retirees. Medicare is reprocessing claims and collecting the overpayments from the providers until everything is corrected. Per United Healthcare, there is an estimated $1.5 million in credits related to claim overpayments. As of December 31, 2025, $1,419,878 payments have been received, resulting in a $80,122 receivable at year-end. As of December 31, 2024, $1,029,968 payments have been received, resulting in a $470,032 receivable at year-end. The change in the receivable balance from 12/31/2024 to 12/31/2025 is included in the total payment for benefits line item within the Statement of Changes in Net Assets Available for Benefits.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, disclosure of benefit obligations and changes therein, claims payable, claims incurred but not reported, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan and CNH Welfare Benefit Trust (the Master Trust) invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments, including those investments held in the CNH Welfare Benefit Trust (the Master Trust), are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded as earned. Net appreciation or depreciation includes realized gains and losses on investments that were both purchased and sold during the period as well as unrealized appreciation or depreciation of the investments held at year-end.

2. Summary of Significant Accounting Policies (continued)

Payment of Claims and Premiums

Certain premiums and claims are paid from the general assets of the Company; however, all premiums and claims are recorded in the accompanying statement of changes in net assets available for benefits, regardless of whether they were paid from plan assets or from the general assets of the Company. Claims are recorded on the Plan financial statements when they are paid by the Company.

Rebates

Pharmacy rebates are recorded when received, and in 2025 $16,107,173 of these rebates have been netted with claim payments in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2025.

Administrative Expenses

Expenses incurred in the administration of the Plan are paid by the Plan.

Postretirement Benefits

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employee service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current plan participants. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributable to that employee's service rendered to the valuation date. The postretirement benefit obligation represents the amount that is to be funded by contributions from the Company and from existing plan assets.

2. Summary of Significant Accounting Policies (continued)

The actuarial present value of the expected postretirement benefit obligation is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment, and to reflect the portion of those costs expected to be borne by Medicare, the retired participants, and other providers.

For measurement purposes, health care cost trend rates were assumed to be 7.50% for pre-age 65 and 7.50% for post-age 65 in 2025. The rates gradually decrease to 5.00% in the year 2037 and remain at that level thereafter. For measurement purposes, health care cost trend rates were assumed to be 7.00% for 2024 and gradually decrease to 5.00% in the year 2033 and remain at that level thereafter. Separate trend assumptions were applied to certain other benefits and populations, including HRA subsidies. The assumptions used reflect the specific benefit provisions applicable to each covered population.

The health care cost trend assumption has a significant effect on the amounts reported. If the assumed rates increased by one percentage point for each future year, the obligation as of December 31, 2025 and 2024 would increase by approximately $1,916,515 and $2,353,219, respectively.

Other significant assumptions used in the valuations as of December 31, 2025 and 2024, were as follows:

- Weighted-average discount rates of 5.01% and 5.41%, respectively

- For 2025, life expectancy of participants is based on the Pri-2012 headcount-weighted tables without collar adjustments projected generationally using an adjusted Scale MP-2021 with the 2025 SSA Proxy for the long-term improvement rate. For 2024, life expectancy of participants is based on the Pri-2012 headcount-weighted tables without collar adjustments projected generationally using an adjusted Scale MP-2021 with the 2024 SSA Proxy for the long-term improvement rate.

- Participation rates of 80% for salaried employees for 2025 and 2024. Participation rates of 85% for hourly employees for 2025 and 2024, respectively.

2. Summary of Significant Accounting Policies (continued)

- For 2025 and 2024, various retirement rates ranging from 10% at age 55 to 100% at age 70 for salaried employees and ranging from 20% at age 55 to 100% at age 70 for hourly employees.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of postretirement benefit obligations.

Accounting for Medicare Subsidy

The Plan's postretirement benefit obligation does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003, as the Plan is not directly entitled to the Medicare subsidy. The Company has included the effects of the Medicare subsidy in measuring its postretirement benefit obligation; therefore, the Plan's postretirement benefit obligation differs by $403,000 from that of the Company.

Other Plan Benefits

Plan obligations for long-term disability at December 31 are estimated by the Plan's actuary in accordance with accepted actuarial principles. Such estimated amounts are reported in the accompanying statements of plan benefit obligations at present value based on a 4.97% and 5.37% discount rates at December 31, 2025 and 2024, respectively. Life expectancy of healthy participants is based on Pri-2012 headcount-weighted tables without collar adjustments projected generationally using an adjusted Scale MP-2021 with the 2025 SSA Proxy for the long-term improvement rate as of December 31, 2025 and 2024, respectively. Life expectancy of disabled participants is based on 2008 GLTD experience mortality and recovery tables as of December 31, 2025 and 2024, respectively.

For measurement purposes, health care cost trend rates were assumed to be 7.50% for 2025 and gradually decrease to 5.00% in the year 2037 and remain at that level thereafter. For measurement purposes, health care cost trend rates were assumed to be 7.00% for 2024 and gradually decrease to 5.00% in the year 2033 and remain at that level thereafter. Separate trend assumptions were applied to certain other benefits and populations, including HRA subsidies. The assumptions used reflect the specific benefit provisions applicable to each covered population.

The health care cost trend assumption has a significant effect on the amounts reported. If the assumed rates increased by one percentage point for each future year, the obligation as of December 31, 2025 and 2024, would increase by approximately $53,000 and $67,000, respectively.

2. Summary of Significant Accounting Policies (continued)

Claims Incurred But Not Reported

Amounts for claims incurred but not reported represent an estimate, based on claims history, of the ultimate cost of claims incurred but not reported as of December 31.

3. Benefit Obligations

The Plan's deficiency of net assets over benefit obligations at December 31, 2025 and 2024, relates primarily to the postretirement benefit obligation, and it is expected that the deficiency will be funded through future participant and Company contributions.

4. Investments

Certified Investments

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2025, and 2024, and net appreciation (depreciation) in fair value of investments, interest, and dividends for the year then ended, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by State Street Bank & Trust Company, the trustee of the Plan.

Master Trust

The Plan's investments are held in a Master Trust which was modified effective January 1, 2020 to include the Health & Welfare Plan and the Retiree Health Reimbursement Arrangement (RHRA) Plan for the investment of assets of the Plan and another Company sponsored retirement plan. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, based on weighted asset value throughout the year, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2025 and 2024, the Plan's interest in the net assets of the Master Trust was 91.09% and 88.76%, respectively. The CNH Industrial U.S. Health and Welfare Plan had 61,430,919 and $58,593,117 in assets in the Master Trust as of December 31, 2025 and 2024, respectively.

4. Investments (continued)

The following table presents the net assets of the Master Trust and the Plan's interest in the Master Trust in 2025 and 2024:

Plan's interest in investment income (loss) of Master Trust	$ 5,458,357	$ 4,720,568

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

5. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value:

Money market fund: Valued at Level 2 due to monthly availability of the NAV and the categorization of underlying assets in the funds, which have observable inputs and therefore have a readily determinable fair value.

Asset-backed securities: Valued at Level 2 due to monthly availability of the fair value of each fixed income security through pricing vendors who use observable inputs such as interest rates and prepayment speeds in addition to complex cash flow modeling in determining the fair value of the asset-backed securities.

Common funds – Valued at Level 2 due to monthly availability of the NAV and the categorization of underlying assets in the fund, which have observable inputs and therefore have a readily determinable fair value.

U.S. government and agency securities and corporate bonds: Valued based on quoted prices for identical instruments in active markets (Level 1) and by pricing vendors, who use proprietary models to estimate the price a dealer would pay to buy a security (Level 2). The models used by the pricing vendor primarily take into account the bond's yield, which reflects the risk-free yield curve, with adjustments to take into account any risks of buying and holding a bond (including creditworthiness of the issuer) and any terms or conditions that may affect marketability.

The following tables set forth by level, within the hierarchy, the Master Trust's assets carried at fair value:

	Fair Value Measurements at December 31, 2025			
	Total	**Level 1**	**Level 2**	**Level 3**

6. Related-Party and Party-in-Interest Transactions

The Master Trust invests in a money market fund and common funds which are sponsored by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. The Plan and Master Trust generally pay fees to parties-in-interest.

Certain administrative functions are performed by officers or employees of the Company, and no such officer or employee receives compensation from the Plan. The Company, subsequently, invoices the Plan for reimbursement for applicable administrative expenses at cost. Some administrative expenses of the Plan are paid directly by the Company. Other fees are paid by the Plan to various service providers of the Plan, which qualify as exempt party-in-interest transactions.

7. Tax Status

The trust funding the Plan has received an exemption letter from the Internal Revenue Service (the IRS) dated September 3, 1999, stating that the trust is tax-exempt under the provisions of Section 501(c)(9) of the Internal Revenue Code (the Code) as a Voluntary Employees' Beneficiary Association. The Plan and the trust are required to operate in conformity with the Code to maintain the tax-exempt status of the trust. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the related trust and Master Trust are tax-exempt.

7. Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2022.

8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to amend and terminate the Plan subject to the provisions set forth in ERISA and the Code. Plan termination is also subject to collective bargaining agreements. In the event of termination, the Plan's net assets will be allocated for payment in an order of priority determined in accordance with ERISA, applicable regulations, and the plan document.

9. Reconciliation of Financial Statements to the Form 5500

Claims that have been processed and approved for payment by the Plan at year-end and claims incurred but not reported are not considered liabilities under generally accepted accounting principles and, therefore, are not presented as liabilities or claims paid in the accompanying financial statements but are recorded on the Form 5500 as benefit claims payable.

The reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31 is as follows:

	2025	2024
Net assets available for benefits per financial statements	**$ 60,873,154**	$ 57,937,988
Benefit claims payable	**–**	(115,361)
Claims incurred but not reported	**(12,561,958)**	(13,822,072)
Net assets available for benefits per the Form 5500	**$ 48,311,196**	$ 44,000,555

9. Reconciliation of Financial Statements to the Form 5500 (continued)

The reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2025, is as follows:

Claims benefits and premiums paid per financial statements	$ 162,644,073
Change in benefit claims payable	(115,361)
Change in benefit claims incurred but not reported	(1,260,114)
Claims benefits and premiums paid per the Form 5500	$ 161,268,598

10. Subsequent Events

Management has evaluated subsequent events for the Plan through 14th October 2026, the date the financial statements were available to be issued.
