Retirement Plan for Employees of Northern Montana Hospital

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Retirement Plan for Employees of Northern Montana Hospital, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 (in liquidation), and the related statement of changes in net assets available for benefits (in liquidation) for the year then ended and the related statement of changes in accumulated plan benefits (in liquidation) for the period January 1, 2024 through December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Retirement Plan for Employees of Northern Montana Hospital's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Retirement Plan for Employees of Northern Montana Hospital and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As discussed in Note 3 to the financial statements, the Plan was amended effective September 30, 2024, to terminate the Plan. On February 17, 2025, Northern Montana Hospital executed agreements formally committing to fund any amount necessary to provide all Plan benefits and assuming certain risks and obligations associated with completing the termination process. Based on these events and the related facts and circumstances, management determined that liquidation became imminent on February 17, 2025. Accordingly, the Plan changed its basis of accounting from the ongoing-plan basis used in presenting the December 31, 2024 financial statements to the liquidation basis used in presenting the December 31, 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Retirement Plan for Employees of Northern Montana Hospital's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirement Plan for Employees of Northern Montana Hospital's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i – schedule of assets held at end of year, and schedule H, line 4j – schedule of reportable transactions as of or for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the December 31, 2024 Financial Statements

Predecessor auditors performed an audit of the December 31, 2024 financial statements of Retirement Plan for Employees of Northern Montana Hospital. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 8, 2025 indicated that (a) the amounts and disclosures in the December 31, 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the December 31, 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the December 31, 2024 supplemental schedules, other than the information in the December 31, 2024 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the December 31, 2024 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan

The following brief description of Retirement Plan for Employees of Northern Montana Hospital (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering substantially all employees of Retirement Plan for Employees of Northern Montana Hospital who have completed one year of service and attained age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan includes a cash balance defined benefit plan covering certain employees of the Company. The Plan reports accrued benefits to participants in the form of hypothetical individual account balances. Hypothetical account balances are increased annually by both pay credits and interest credits. Pay credits range from 2.0% to 4.5% of a participant's eligible compensation based on the participant's age plus years of service, together with an annual interest credit determined under the Plan.

Participants' Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of every year. The compensation credits are allocated based on the percentage of the participants annual compensation. The applicable percentage ranges from 2.0% percent to 4.5% percent and is based on the participants' age plus years of credited service (as defined in the Plan document) at the end of the year.

Participants' hypothetical accounts also receive investment credits at the end of each Plan year. The amount of the investment credit is tied to the annual yield on 30-year Treasury securities and is adjusted annually. On the last day of each Plan year, investment credits on participants' hypothetical accounts are calculated by multiplying the accrued cash balance benefit as of the beginning of the Plan year by the applicable interest crediting rate for that year.

The Plan terminated effective September 30, 2024. Under IRS requirements applicable to terminated cash balance plans, the interest crediting rate after termination is based on the average of the rates used during the five-year period preceding termination. Accordingly, the interest crediting rate was 4.66% through September 30, 2024 and 2.83% thereafter, including December 31, 2025.

Pension Benefits

For service prior to January 1, 2009, participants earn a defined benefit account. The participants earn a benefit of 1% of annual compensation up to $15,600 plus 1.5% of annual compensation above $15,600 divided by 12. For service prior to January 1, 1999, participants earn a benefit of 1% of the first $1,300 of monthly salary rate, plus 1.5% of the excess over $1,300 for each year of service after January 1, 1987. For service prior to January 1, 1987, participants earn a benefit of 1.5% of the first $1,300 of the monthly salary rate, plus 2% of such salary rate in excess of $1,300 multiplied by the years of credited service prior to January 1, 1987. The maximum credited service prior to January 1, 1987 is 20 years.

For participants in the cash balance plan, benefits are determined based on the participant's hypothetical account balance. The normal form of benefit payments is a joint and survivor annuity for married participants and a single life annuity for participants who are not married. Participants may elect to receive the vested value of their accumulated plan benefits in the form of a single life annuity or a lump-sum distribution.

For both defined benefit and cash balance benefits, participants are entitled to benefits beginning at the normal retirement age (65). The Plan permits early retirement at ages 55-64, with 10 years of service, at a reduced benefit level. If employees terminate before rendering three years of service, they forfeit the right to receive benefits under the Plan.

Death Benefits

A death benefit will be paid to the spouse of an active participating employee if the employee has met vesting requirements and was married for the full year before death. The death benefit payable would be the survivor's death benefit payable under a 50% survivorship life annuity reduced by the appropriate early retirement factor. If the participant dies before age 55, benefit payments will not begin until the earliest date on which the participant could have begun receiving retirement benefits.

Vesting

Participants' vesting is based on years of continuous service. A participant is 100% vested after three years of service. In addition, an active employees' accrued benefit will be 100% vested if they are still working when they reach retirement age (65) or early retirement age, as defined in the Plan document.

Note 2 - Significant Accounting Policies

Basis of Accounting

For the year ended December 31, 2024, the Plan prepared its financial statements using the ongoing-plan basis of accounting.

Effective February 17, 2025, management determined that liquidation of the Plan had become imminent. Accordingly, the Plan adopted the liquidation basis of accounting as of that date. Under the liquidation basis of accounting, assets are measured at the estimated amount of cash or other consideration expected to be collected through liquidation, liabilities are measured in accordance with the applicable accounting guidance, and estimated costs expected to be incurred during and at the end of the liquidation period are accrued when those amounts can be reasonably estimated. Because liquidation-basis accounting was adopted during 2025, the December 31, 2025 financial statements are presented using the liquidation basis, while the December 31, 2024 financial statements are presented using the ongoing-plan basis.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, were $0 at both December 31, 2025 and 2024.

Expenses

The Plan’s expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Change in Presentation of Actuarial Present Value

During 2025, the Plan changed the presentation of the actuarial present value of accumulated plan benefits from a beginning-of-year benefit information date to an end-of-year benefit information date. Prior periods have been presented on a comparable basis to conform to the current year presentation. This change affects only the presentation of accumulated plan benefit information and did not impact the Plan's net assets available for benefits, changes in net assets available for benefits, or the measurement of accumulated plan benefits.

Because the Plan previously presented accumulated plan benefits using a beginning-of-year benefit information date and currently presents accumulated plan benefits using an end-of-year benefit information date, the accompanying Statement of Changes in Accumulated Plan Benefits presents the change in accumulated plan benefits from January 1, 2024 through December 31, 2025 to provide a complete reconciliation between the earliest comparative accumulated plan benefit amount presented and the accumulated plan benefits at December 31, 2025.

Note 3 - Plan Termination and Settlement of Participant Benefits

The Plan was amended effective September 30, 2024, to terminate the Plan. At December 31, 2024, management concluded that significant funding, regulatory, qualification, and settlement matters associated with completing the termination remained unresolved. Accordingly, management concluded that liquidation was not yet imminent as of December 31, 2024, and the Plan continued to prepare its 2024 financial statements using the ongoing-plan basis of accounting.

On February 17, 2025, the Plan Sponsor executed an Agreement for Commitment to Make Plan Sufficient for Benefit Liabilities. Under the agreement, the Plan Sponsor committed to contribute, on or before the date prescribed for distribution of Plan assets, any amount necessary to enable the Plan to provide all Plan benefits. The agreement also acknowledges that if the Plan is unable to satisfy all obligations for benefit liabilities, the Plan would not be able to complete a standard termination under Section 4041(b) of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Also on February 17, 2025, the Plan Sponsor executed a Hold Harmless and Indemnity Agreement in connection with proceeding with the distribution of Plan assets prior to receiving a favorable determination letter from the Internal Revenue Service. Under that agreement, the Plan Sponsor acknowledged potential adverse consequences if the Internal Revenue Service determined that the Plan failed to qualify under applicable provisions of the Internal Revenue Code, if additional participants were required to be added to the Plan, or if the Internal Revenue Service or Pension Benefit Guaranty Corporation did not approve the termination or related distribution of Plan benefits. The Plan Sponsor agreed to be responsible for certain additional funding obligations, taxes, payments, penalties, administrative expenses, costs, and other liabilities arising from those events.

Management concluded that the execution of these agreements formalized the Plan Sponsor’s commitment to fund any amount necessary to provide all Plan benefits and its assumption of certain risks and obligations associated with completing the termination process. Based on these events and the related facts and circumstances, management determined that liquidation became imminent on February 17, 2025. Accordingly, the Plan adopted the liquidation basis of accounting as of February 17, 2025. Under the liquidation basis of accounting, assets are measured at the estimated amounts expected to be collected or otherwise realized through liquidation, liabilities are measured in accordance with applicable accounting guidance, and estimated costs expected to be incurred during and at the end of the liquidation period are accrued when reasonably estimable.

During 2025, the Plan completed significant termination and settlement activities. As of December 11, 2025, all participant benefit obligations had been settled through a combination of lump-sum distributions to eligible participants, payments made in accordance with applicable Pension Benefit Guaranty Corporation procedures for missing participants, and the purchase of a group annuity contract from an insurance carrier. Upon completion of the annuity transaction on December 11, 2025, the insurance carrier assumed responsibility for future benefit payments to covered participants due on and after January 1, 2026.

The settlement of participant benefit obligations consisted of the following:

Transfer of benefit obligations through purchase of group annuity contract	$ 22,527,546
Lump-sum distributions to participants	4,950,138
Other settlement activity, including payments related to missing participants and administrative adjustments	72,699
	$ 27,550,383

Amounts attributable to certain missing participants were transferred in accordance with applicable PBGC procedures as part of the Plan's termination process.

As a result, the actuarial present value of accumulated plan benefits decreased to $0 at December 31, 2025.

At December 31, 2025, the Plan continued to hold certain assets and liabilities associated with completing the termination and liquidation process. Remaining wind-up activities included a final premium adjustment from the insurance company resulting in cash received on May 1, 2026 totaling $207,877. The amount was not recognized at December 31, 2025 because the final adjustment had not been determined by the insurance carrier as of year-end and management was unable to reasonably estimate the amount to be received at December 31, 2025. Accordingly, the receipt was recognized when the amount became fixed and determinable in 2026.

The Plan has also accrued the estimated costs expected to be incurred in completing these activities totaling $14,900, which is included as a liability at December 31, 2025 and in administrative expenses.

The Plan also recorded a transition payment liability of $147,143 at December 31, 2025. Following the transfer of benefit obligations, the insurance carrier required additional time to establish its benefit payment administration process. Accordingly, certain January 2026 benefit payments were funded through the Plan on behalf of the insurance carrier and funds were received by the Plan prior to December 31, 2025. The Plan recorded a transition payment liability representing amounts to be paid to retirees during this temporary transition period. The transition payment liability does not represent a remaining participant benefit obligation of the Plan and is therefore excluded from the actuarial present value of accumulated plan benefits at December 31, 2025. The liability was satisfied subsequent to year-end.

The Plan completed the remaining liquidation activities on May 7, 2026, when the Plan distributed the remaining Plan assets to the Company totaling $3,963,728.

The following reconciles net assets available for benefits at December 31, 2025 to the final distribution made to the Plan Sponsor on May 7, 2026:

Net assets available for benefits at December 31, 2025	$ 3,712,890
Final premium adjustment received May 1, 2026	207,877
Investment return	42,961
Final distribution to Plan Sponsor on May 7, 2026	$ 3,963,728

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Because all participant benefit obligations were settled during 2025 as described in Note 3, no actuarial present value of accumulated plan benefits remained at December 31, 2025. The disclosures in this note relate primarily to the determination of the comparative accumulated plan benefit information presented as of December 31, 2024 and the changes therein through settlement during 2025.

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation received from the Hospital for those three consecutive Plan years yielding the highest average. The accumulated plan benefits for active employees is based on their average compensation during the three years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023 were (a) life expectancy of participants using the Principal Mortality Improvement Scale, which is based on MP-2021-V4 tool issued by Society of Actuaries. (b) retirement age assumptions (assumed average retirement age ranging from 60-65 with varying probability, and (c) investment return 4.5%. The interest rates used to discount the obligation at 4%. (d) Spouses were assumed to be three years younger than participant and 75% of participants are assumed to be married.

As of December 31, 2023 these actuarial assumptions were based on the presumption that the Plan would continue. During 2025 the Plan terminated, thus different actuarial assumptions and other factors would have been applicable in determining the actuarial present value of accumulated Plan benefits.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2024, there would be no material differences.

The decrease in the actuarial present value of accumulated plan benefits during 2025 was primarily attributable to the purchase of a group annuity contract that transferred participant benefit obligations to an insurance carrier. Accordingly, no actuarial present value of accumulated plan benefits remained at December 31, 2025.

Note 5 - Funding Policy

Prior to plan termination, the Company's funding policy was to contribute amounts necessary to satisfy applicable minimum funding requirements. The Plan was terminated effective September 30, 2024. As discussed in Note 3, the Plan Sponsor committed to fund any additional amounts necessary to satisfy all Plan benefit obligations and complete the termination process. No employer contributions were made during 2025, and management believes all applicable funding requirements were satisfied.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Pooled separate accounts − Valued at fair value based on the NAV of units as determined by the insurance company. The NAV is based on the observable market prices of the underlying assets within the account less liabilities. The NAV for the underlying assets of the account is a readily determinable measure of their fair value and is the basis for current transactions.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024.

	2025			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,874,933	$ -	$ 3,874,933
Investments at fair value	$ -	$ 3,874,933	$ -	$ 3,874,933

	2024			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 31,808,856	$ -	$ 31,808,856
Investments at fair value	$ -	$ 31,808,856	$ -	$ 31,808,856

Note 7 - Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2025 and 2024, and net appreciation in fair value of investments for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Trust Company (the trustee of the plan).

Note 8 - Tax Status

The Plan uses a pre-approved plan document sponsored by Principal Life Insurance Company, which received an opinion letter from the Internal Revenue Service (IRS), dated March 30, 2018, stating that the pre-approved document satisfies the applicable provisions of the IRC. The Plan’s management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Party-in-Interest Transactions

Certain Plan investments are managed by Principal Trust Company, the trustee, as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11 - Freezing of Plan Participation

The Plan was restated as of January 1, 2009, to freeze the defined benefits under the previous benefit accrual formula and change the benefit formula to a cash balance benefit as of January 1, 2009. This cash balance benefit is added to the defined benefits previously earned through December 31, 2008. The cash balance benefits were frozen as of December 31, 2012, except for future interest credits provided on participant cash balance accounts that were earned prior to December 31, 2012. The Plan will no longer allow new employees in the Plan and benefits will only accrue as described above.

Note 12 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 3,712,890	$ 31,808,856
Add transition payment liability	147,143	-
Add liabilities for estimated liquidation expenses	14,900	-
Net assets available for benefits per Form 5500	$ 3,874,933	$ 31,808,856

The following is a reconciliation of contributions per the financial statements to the Form 5500 for the year ended December 31, 2025:

Total employer contributions per the financial statements	$ -
Add transition payment liability	147,143
Total employer contributions per Form 5500	$ 147,143

The following is a reconciliation of administrative expenses per the financial statements to the Form 5500 for the year ended December 31, 2025:

Total administrative expenses per the financial statements	$ 279,096
Deduct liabilities for estimated liquidation expenses	(14,900)
Total administrative expenses per Form 5500	$ 264,196

Note 13 - Subsequent Events

As noted in Note 3, the final liquidation of the terminating Plan occurred on May 7, 2026 and the remaining assets were distributed to the Company.

The Plan Sponsor has evaluated subsequent events through October 14, 2026, the date which the financial statements were available to be issued.
