Report of Independent Auditors

The Plan Administrator and Participants
Occidental College 403(b) Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements (modified cash basis) of Occidental College 403(b) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2025, and the related notes to the financial statements (modified cash basis).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Occidental College 403(b) Retirement Plan financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements (modified cash basis) of Occidental College 403(b) Retirement Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Occidental College 403(b) Retirement Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Further, as described in Note 3 to the financial statements (modified cash basis), the Occidental College 403(b) Retirement Plan has excluded from investments in the accompanying statements of net assets available for benefits (modified cash basis) certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits (modified cash basis). The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. The modified cash basis of accounting requires that these accounts and the related income and distributions be included in the accompanying financial statements (modified cash basis).

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Occidental College 403(b) Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of Occidental College 403(b) Retirement Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of Occidental College 403(b) Retirement Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter

Basis of Accounting

As described in Note 2 of the financial statements, the financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our disclaimer of opinion is not modified with respect to this matter.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to, and we do not, express an opinion on the supplemental schedules.

Note 1 – Description of Plan

The following description of the Occidental College 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions. The Plan commenced operation July 1, 1938, to assist employees in saving for their retirement. The Plan utilizes Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF), as the third-party administrator and asset custodians (the Custodians) for the Plan.

General – The Plan is a defined contribution plan sponsored by Occidental College (the College). Eligible exempt employees of the College may participate in the Plan on the date of hire. Eligible nonexempt employees of the College may participate in the non-elective and matching program after one year of continuous service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions – Participants may elect to defer the receipt of an amount that does not exceed Internal Revenue Service (IRS) limitations of their paid pre-tax annual base compensation for contribution to the Plan, not to exceed the amount which is estimated by the plan administrator subject to ERISA limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Eligible employees who enroll in the Plan receive a nonelective contribution equal to 6% of the employee's annual compensation as defined in the Plan. In addition to the College's 6% contribution, the College matches employee contributions from 1% to 4% of the employee's salary.

Participant accounts – Individual accounts are maintained for each plan participant. Each participant's account is credited with the contributions and allocations of plan earnings and charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Plan earnings are credited to a participant's account according to the type of funding vehicle in which balances are invested.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon, as well as in the College's employer contributions, subject to eligibility to receive such contributions.

Payment of benefits – Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated account balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, partial payments, fixed annuities, variable annuities, or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances after reaching age 59½ or for hardship purposes. Minimum required distributions for participants also apply per IRS regulations.

Plan loans – Loans are available to participants through TIAA-CREF, subject to certain limitations. Plan loans are issued directly from the funds owned by TIAA-CREF and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's TIAA Traditional Annuity Contract (TIAA Traditional Annuity) account balance is reserved, or held as collateral, to cover 110% of the outstanding loan amount for the period of time the loan is outstanding.

Participants had outstanding plan loan balances due to TIAA-CREF of $175,486 and $203,733 as of December 31, 2025 and 2024, respectively. These loans are not assets of the Plan but were collateralized by TIAA Traditional Annuity account balances which are included in the investment balances reported in the accompanying statements of net assets available for benefits (modified cash basis). Principal and interest are paid directly by the participant to TIAA-CREF and each payment will reduce amounts secured by the participant's TIAA Traditional Annuity account. As of December 31, 2025 and 2024, $168,698 and $191,679 of loans outstanding were in default, respectively.

Notes receivable from participants – Participants may borrow from their fund accounts a minimum amount of $1,000 to a maximum amount equal to the lesser of 50% of their account balance or $50,000 minus the highest outstanding loan balance in their account during the preceding 12-month period. Participants may only have three outstanding loans at any given time. Loan terms range from one to five years or within a reasonable period of time that is not longer than 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in similar circumstances. As of December 31, 2025, the rates of interest on outstanding loans range from 4.25%–9.50% with various maturities through May 2035.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan have been prepared on the modified cash basis of accounting. That basis differs from accounting principles generally accepted in the United States of America (GAAP) primarily because contributions and the related assets are recognized when received rather than when earned and expenses are recognized when paid rather than when obligations are incurred.

Contributions – Contributions are recorded when received.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Certain plan administrative expenses are paid by the College. The amount of these expenses is minimal in relation to total plan assets. Other qualified expenses are paid by the Plan through the use of a revenue credit account. See Note 4.

Investment valuation and income recognition – The Plan's investments, other than those that are fully benefit-responsive investment contracts (FBRICs), are reported at fair value. FBRICs are reported at contract value. Certain TIAA Traditional Annuity contract types are considered fully benefit-responsive and are reported at contract value. See Note 5 for discussion of the TIAA Traditional Annuity.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Occidental College Retirement Investment Committee (Committee) determines the Plan's valuation policies utilizing information provided by the Custodians. See Note 6 for discussion of fair value measurements.

Contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, less any withdrawals and transfers. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded when received. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Use of estimates – The preparation of financial statements in conformity with the modified cash basis of accounting requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 3 – Available Information

In November 2007, the Department of Labor (DOL) issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of ERISA, as amended. Prior to the amended regulations, the Plan (established in 1938) was not viewed as a separate reporting entity. Historically, the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the plan sponsor. Accordingly, various records related to the Plan's 403(b) annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, were not sufficiently maintained by the Plan. Consequently, the financial statements have been prepared based on available records analyzed by plan management. As certain records were not available from the inception of the Plan, the effect, if any, on the completeness or accuracy of the Plan's financial statements cannot be determined.

Note 4 – Revenue Credit Account

Certain plan investments maintain revenue sharing arrangements with TIAA-CREF. Under these arrangements, a percentage of the asset management fees earned by those investments is transferred to the Plan and held in a revenue credit account (RCA).

The RCA is used to offset certain permitted plan administration expenses, including those incurred for TIAA-CREF recordkeeping, plan participant communications, audits, investment performance monitoring, third-party compliance consulting, and other administration costs. The Plan may also direct TIAA-CREF to return any unused RCA balance to participants. As of December 31, 2025 and 2024, the balance in the RCA was $160,871 and $91,056, respectively. During the year ended December 31, 2025, $4,845 in investment income was earned and $55,084 in plan administrative expenses were paid from the RCA.

Note 5 – TIAA Traditional Annuity and Stable Value

The Plan has investments in fully benefit-responsive TIAA annuity contracts in which contributions are maintained in a general account. The account is credited with earnings and charged for participant withdrawals and administrative expenses.

The TIAA Traditional Annuity is a guaranteed fixed-annuity contract available as an investment option to plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), and Group Supplemental Retirement Annuities (GSRA). The SRA and GSRA contract types are FBRICs. The RA and GRA contract types are nonbenefit responsive. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rates, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participants' principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

All RA contracts require withdrawals in the form of a lifetime payout annuity or in periodic installments over a 10-year period. All GRA contracts may be withdrawn in a single lump sum within 120 days of termination of employment, subject to a 2.50% surrender charge or withdrawn in periodic installments over a five-year period of time. All SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits (modified cash basis).

TIAA Stable Value is a guaranteed annuity contract issued by TIAA. Contributions from different plans are pooled together and deposited in a non-unitized pooled separate account of TIAA. This guaranteed annuity contract is not considered to be an investment or security under federal securities laws. The contract provides a guaranteed minimum rate of interest of between 1% and 3% (before deductions for contract fees). Contract fees are described in the annuity contract and are collected on a daily basis. The minimum guaranteed rate is subject to change every six months and will not decline by more than 0.75% each time it is reset.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement, are described as follows:

Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to plan management's perceived risk of that investment.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

The Plan's valuation techniques used for annuities and mutual funds are as follows:

Registered Investment Companies (RICs) – Valued at the daily closing price as reported by the fund. RICs held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Traditional Non-Benefit Responsive Annuity – Reported at fair value, which approximates contract value. As these investments are contract-based, observable prices for identical or similar investments do not exist. The contract value of the TIAA Traditional Annuity equals the accumulated cash contributions and interest credited to the Plan's contracts, less any withdrawals. The TIAA Traditional Annuity is fully and unconditionally guaranteed and backed by the claims-paying ability of TIAA.

TIAA Real Estate Variable Annuity Account (REA) – The REA is classified as a pooled separate account and invests in real estate properties and real estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and are posted at tiaa-cref.org. Beginning October 2014, daily unit values are listed on the NASDAQ website. The unit values are updated overnight for each day that NASDAQ is open.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses by level the fair value hierarchy of the Plan's assets at fair value as of December 31, 2025 and 2024:

	Investment Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$270,225,863	$ -	$ -	$270,225,863
Pooled separate accounts	1,010,274	-	-	1,010,274
Guaranteed fixed annuities	-	-	63,918,480	63,918,480
Total investments at fair value	$271,236,137	$ -	$ 63,918,480	$335,154,617

	Investment Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$245,610,959	$ -	$ -	$245,610,959
Pooled separate accounts	1,225,826	-	-	1,225,826
Guaranteed fixed annuities	-	-	61,264,715	61,264,715
Total investments at fair value	$246,836,785	$ -	$ 61,264,715	$308,101,500

The following table shows the reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2025:

	Traditional Non-Benefit Responsive Annuity
Balance, December 31, 2024	$ 61,264,715
Interest income included in changes in net assets	2,723,259
Purchases	7,645,414
Sales	(7,714,908)
Balance, December 31, 2025	$ 63,918,480

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the ASC 820 fair value hierarchy at December 31, 2025:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
Traditional Annuity	$ 63,918,480	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA – 3.55%–6.50% GRA – 3.80%–6.75%

TIAA Traditional Annuity account balances (RA and GRA contracts) are reported at fair value, which approximates contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period.

The College has various processes and controls in place to ensure that fair value is reasonably estimated. The Committee sets the valuation policies for the plan assets and is responsible for the determination of fair value with the assistance of the Custodians. The Committee compares price changes between periods to current market conditions. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

Note 7 – Certified Investment Information

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, qualified institutions:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits (modified cash basis) as of December 31, 2025 and 2024.
- Net appreciation in fair value of investments, interest and dividends, and interest on notes receivable from participants as shown in the statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2025.
- Investments included in Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 8 – Party-in-Interest Transactions

Certain plan investments are annuities or shares of mutual funds managed by TIAA-CREF. TIAA and CREF are the Custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment.

Note 9 – Plan Termination

Although the College has not expressed any intent to terminate the Plan, it may do so at any time. In the event of plan termination, the assets of the Plan will be allocated in accordance with the requirements of ERISA.

Note 10 – Risks and Uncertainties

All plan investments are held by the Custodians. The Plan provides for various investment options in mutual funds and other securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis) and the statement of changes in net assets available for benefits (modified cash basis).

Note 11 – Tax Status

The Plan adopted a volume submitter 403(b) plan document that received a favorable opinion letter from the Internal Revenue Service dated August 7, 2017, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, plan management has evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, there are currently no audits for any tax periods in progress.

Note 12 – Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits (modified cash basis) date, but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits (modified cash basis), including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits (modified cash basis), but arose after the statement of net assets available for benefits (modified cash basis) date and before the financial statements are issued.

The Plan has evaluated subsequent events through October 13, 2026, which is the date the financial statements were available to be issued.
