INDEPENDENT AUDITORS' REPORT

To the Trustee and Administrative Committee of
Pacific States Petroleum Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Pacific States Petroleum Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - *Supplemental Schedule Required by ERISA*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan Description

The following brief description of the Pacific States Petroleum Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Pacific States Petroleum, Inc. (the "Company") established the Plan, effective January 1, 2020. The Plan is intended to qualify as a stock bonus plan under Section 401(a) of the Internal Revenue Code ("IRC") and the regulations thereunder, as amended. The Plan is intended to be a leveraged employee stock ownership plan ("ESOP") within the meaning of IRC Section 4975(e)(7), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is the Plan's administrator and all contributions are held, managed and controlled by the trustee acting under the Pacific States Petroleum Employee Stock Ownership Trust (the "Trust"), which forms a part of the Plan.

The Plan purchased Company common stock using the proceeds of a loan from the Company and selling shareholder that was assigned and assumed by the Company, and holds the common stock in a trust established under the Plan. As the Plan makes debt and interest payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, as of December 31, 2025 and 2024, and for the year ended December 31, 2025, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

a. The accounts of employees with rights in allocated common stock (allocated), and

b. Common stock not yet allocated to employees (unallocated).

Eligibility

The Plan covers all employees of the Company who complete one year of service (with 1,000 hours), are at least 21 years of age, are not covered by a collective bargaining agreement, and are not on an approved unpaid leave of absence.

All employees who had attained the age of 21 and were employed on the effective date of the Plan became participants on the effective date. Years of service start after the effective date.

Participants who do not have at least 1,000 hours of service during the Plan year or are not employed on the last working day of a Plan year are not eligible for an allocation of Company contributions for such year.

The primary purpose of the Plan is to enable the eligible employees to share in the growth and prosperity of the Company and to provide participants with an opportunity to accumulate capital for their retirement needs.

1. Plan Description, continued

SECURE 2.0 Act

On December 29, 2022, the SECURE 2.0 Act of 2022 ("SECURE 2.0") was enacted as part of the Consolidated Appropriations Act of 2023. The provisions include additional increases to required minimum distribution age, changes to long-term and part-time eligibility, new annual funding notice requirements, increased catch-up limits for some participants, a mandatory Roth catch-up requirement for high-income participants, and other provisions. The United States Department of the Treasury and the Internal Revenue Service ("IRS") continue to issue guidance and regulations implementing provisions of SECURE 2.0. The deadline for amending Plan documents was extended to December 31, 2026 and, accordingly, the Plan's sponsor is currently evaluating the provisions of SECURE 2.0 and related guidance to determine the full impact to the Plan and participants.

Employer Contributions

The Plan is a defined contribution plan for which the Company is obligated to make contributions in cash to the Plan that, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

Participant Accounts and Allocations

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures for terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's points for the Plan year, relative to the sum of the points of all participants in the Plan for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. Participant account balances will reflect changes to the fair market value of the investments.

Vesting and Forfeitures

Vesting in the Company's Plan contribution is based on years of continuous service. An employee's credited service shall be the number of Plan years in which the employee is credited with at least 1,000 hours of service after the effective date of the Plan. Contributions vest according to the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

1. Plan Description, continued

Vesting and Forfeitures, continued

Forfeitures of participants' non-vested account balances are reallocated to the remaining participants. Participants become 100% vested in the event of normal retirement, disability, or death while employed with the Company. Forfeitures of terminated nonvested account balances allocated to remaining participants totaled $19,778 and $40,892 as of December 31, 2025 and 2024, respectively.

Break in Service

A participant will incur a break in service during any Plan year in which the participant has been credited with less than 501 hours of service in 12 continuous months, unless certain exceptions are met.

Diversification

Participants who have ten years of Plan participation and who have attained age 55 may elect to diversify a portion of the employer securities held in their ESOP accounts. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. A participant's direction must be completed no later than 90 days after the close of the 90-day election period. Participants who elect to diversify receive a cash distribution.

Put Option

Participants who receive a distribution of Company common stock (and if such Company common stock is not immediately repurchased by the Company) are granted two option periods to put the shares to the Company. The first option period is the initial 60 days beginning on the date of distribution. The second option period is the 60 days beginning after the new determination date of fair value for the Company common stock, typically the end of the Plan year. The put option is exercisable at retirement, disability, death, or termination of employment and is payable in either a lump sum cash payment or in up to five equal annual installments with interest.

Payment of Benefits

The Plan provides for the distribution of the Company common stock and other investments at retirement, disability, death, or termination of employment. Distribution of accounts less than $7,000 will be made in a lump sum as soon as administratively possible in the following year. For balances greater than $1,000, if the participant does not consent, funds will be paid into an individual retirement account in a direct rollover. The payment of benefits is made at the later of termination date or normal retirement date, unless the participant elects the earlier date in a lump sum. Payout is done in annual installments over a period not exceeding five years plus one year for each $280,000 of account balance over $1,415,000, starting when the participant reaches normal retirement age, unless the participant requests it earlier (by the fifth Plan year following termination). Distributions are also subject to limitations related to each stock borrowing agreement. Distributions shall be in the form of cash as a lump sum, direct rollover, or in equal installments over a period of time. The amount to be distributed is based upon the account valuation date immediately preceding the distribution.

1. Plan Description, continued

Voting Rights

All Company common stock held by the Trust shall be voted by the trustee in accordance with instructions from the Employee Benefits Administration Committee ("Administrative Committee"). In the event of any corporate matter which would constitute a merger, consolidation, reclassification, liquidation, or other related activity as specified under Section 409(e)(4) of the IRC, each participant who has been allocated shares of stock may instruct the trustee as to the voting of those shares.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan presents its financial statements on the accrual method of accounting with its assets reflected at fair value in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and in accordance with ERISA.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated"), and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The fair value of the Company common stock is determined by an independent appraiser appointed by the trustee. Changes in fair value are recognized currently and recorded as unrealized appreciation or depreciation. Shares transferred from "unallocated" to "allocated" are transferred at the current year's fair value.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

Since the inception of the Plan, the Company has absorbed substantially all of the administrative expenses of operating the Plan.

3. Administration of Plan Assets

The Plan's assets, which consist of the Company's common shares, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee is responsible for annually securing a third-party valuation of the Company's common stock and also administers the payment of interest and principal on the loan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are as described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2025 and 2024:

The fair value of the Company's common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical or projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

4. Fair Value Measurement, continued

The valuation process involves the trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the compiled financial statements of the Company. The appraiser prepares a preliminary report, which Plan management, along with the ESOP trustee, reviews in detail, discusses, and then the trustee approves.

The following table sets forth by level the Plan's assets at fair value as of December 31, 2025 and 2024:

	Level 3	
	2025	2024
Investment in Company common stock	$ 30,520,000	$ 19,460,000

Changes in Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

In 2025, there were no transfers, purchases, or distributions of Level 3 assets.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents quantitative information about the significant unobservable valuation assumptions (inputs) used for the Company's Level 3 fair value measurements as of December 31, 2025 and 2024:

	Fair Value			
Instrument	December 31, 2025	December 31, 2024	Principal Valuation Technique	Significant Unobservable Inputs
Company common stock	$ 30,520,000	$ 19,460,000	Market approach and income approach	- Discount for limited marketability and implied multiple of book value - Expected future cash flows

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments

The Plan's investments are held in a separate trust and invested in the Company's common stock. Plan assets were summarized as follows as of December 31:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock:				
Number of shares	342,834	1,657,166	285,695	1,714,305
Fair value	$ 5,231,646	$ 25,288,354	$ 2,779,814	$ 16,680,186
Cost	$ 12,003,475	$ 58,021,525	$ 10,002,896	$ 60,022,104

6. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the Trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Administrative Committee will direct the trustee to pay all liabilities and expenses to the Trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

7. Income Tax Status

The Plan obtained its latest determination letter effective July 1, 2022, with retroactive application to January 1, 2020, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan's administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and ERISA, and that the Trust, which forms a part of the Plan, is exempt from income tax. Accordingly, no provision has been made for federal or state income taxes.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company does not believe the Plan has any uncertain tax positions. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan's investments consist of the Company's common stock. The stock is exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with the Company's common stock, it is at least reasonably possible that changes in the value of Company common stock will occur in the near term and such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits. Additionally, participants or other users of the financial statements may not agree with the stock valuation.

9. Stock Acquisitions and Loan Payable

On December 31, 2020, the trustee of the Trust and the Company entered into a stock purchase agreement. Under this agreement, the Trust purchased 2,000,000 shares of the Company's common stock for an aggregate purchase price of $70,025,000. Simultaneously, as part of this agreement, the Company agreed to redeem all of its capital stock held by shareholders.

On the same date, the trustee and the Company entered into a $70,025,000 ESOP note ($53,200,000 was assumed by the Company from the selling shareholder), as the form of payment for the shares. The ESOP note calls for interest and principal payments at the rate of interest of 1.31% per annum. The balance of the note shall be payable in 35 equal annual installments of principal plus interest beginning on December 31, 2020, and on or before December 31 each year thereafter until paid in full.

As of December 31, 2025, the future annual maturities on the related-party notes are as follows:

Year ending December 31:	
2026	$ 1,697,105
2027	1,719,337
2028	1,741,861
2029	1,764,679
2030	1,787,796
Thereafter	50,692,561
	$ 59,403,339

Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payment divided by the total of this year's payment, plus all future years' principal and interest payments. This resulted in 57,139 shares being released and allocated for the Plan year ended December 31, 2025.

10. Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has debt owed to the Company guaranteed by the common stock. These are related-party and party-in-interest transactions which are allowed per ERISA regulations.

11. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through October 13, 2026, the date these financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2025 that require recognition or disclosure in these financial statements.
