Report of Independent Auditors

The Investment Committee and Benefits Committee of
Morrison & Foerster LLP Cash Balance Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Morrison & Foerster LLP Cash Balance Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 (in liquidation) and 2024 (ongoing), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Morrison & Foerster LLP Cash Balance Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Morrison & Foerster LLP Cash Balance Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As further discussed in Note 1, the Plan was terminated effective April 30, 2025 and all assets were liquidated and distributed by December 31, 2025. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Morrison & Foerster LLP Cash Balance Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Morrison & Foerster LLP Cash Balance Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Morrison & Foerster LLP Cash Balance Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Morrison & Foerster LLP Cash Balance Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan is a cash balance defined benefit pension plan providing benefits to all eligible partners of Morrison & Foerster LLP (the Firm) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Firm established the Plan effective January 1, 2017, restated January 1, 2020, to include all U.S. based partners of the Firm.

Plan termination – The Firm adopted a resolution effective April 30, 2025, to freeze and terminate the Plan. Effective with the Plan's termination, all participants became fully vested, regardless of years of vested service. Upon the resolution date, the Plan ceased accepting new participants in the Plan as well as contributions. All Plan assets were liquidated and distributed in accordance with the Plan provisions under ERISA before December 31, 2025.

Administration – The Firm appointed the Benefits Committee (the Committee) to manage the operation and administration of the Plan. The Committee designated Matrix Trust Company to serve as trustee.

Eligibility – Eligible partners who were actively providing service for the Firm on December 31, 2017, became participants as of the later of the effective date and the first entry date coincident with or following their date of hire. Entry date means the first of the calendar month coincident with or following the completion of eligibility requirements. The first entry date was January 1, 2017. Thereafter, an eligible partner became a participant as of the first entry date coincident with or next following the later of (i) date of hire or (ii) the date the employee becomes a member of the class of eligible partners.

Participant accounts – Participants reaching normal retirement age of 65 were entitled to their accrued benefits, as defined in the plan document. Accrued benefits were determined, in general, upon a retirement formula related to an individual participant's compensation. Under the Plan's provisions, amounts were credited by the Firm to the participants' hypothetical accounts, which were notional accounts rather than actual accounts. The accounts were allocated compensation credits and interest credits at the end of every year. The compensation credits were allocated based on a percentage of the participants' Plan compensation as defined in the plan document. The amount of the credit increased as a participant's age increased. Interest credits were based on account balances using the interest rate defined by the Plan.

Pension benefits – The automatic form of payment was a qualified joint and survivor annuity, with 50% of the benefit continuing to the surviving spouse, if applicable, upon the earlier death of the participant that is the actuarial equivalent of the cash balance account. In lieu of the automatic form of payment, a single participant may elect a lump sum payment. A married participant could elect a 75% joint and survivor annuity or, with the proper spousal consent, a single lump sum payment.

Vesting – Participants were fully vested upon completion of three years of service.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. As a result of the termination of the Plan, the Plan's financial statements as of and for the period ended December 31, 2025 have been prepared on the liquidation basis of accounting and the financial statements as of and for the year ended December 31, 2024 have been prepared on the ongoing basis of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation – Investments were reported at fair value. The Plan's trustee, Matrix Trust Company, certified the fair value of all investments. If available, quoted market prices were used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date.

Income recognition – Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. The net appreciation (depreciation) in fair value of investments consisted of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefit payments to participants were recorded upon distribution.

Expenses – The Plan's expenses were paid by the Plan or the Firm, as specified in the plan document. Expenses that were paid by the Firm were excluded from these financial statements.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 14, 2026, which is the date the financial statements were available to be issued.

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits were those future periodic payments, including lump-sum distributions, that were attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits included benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) were included, to the extent they are deemed attributable to employee service, rendered to the valuation date.

The actuarial present value of accumulated Plan benefits was determined by an independent actuary and was the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computation of the actuarial plan benefits was as of the beginning of the Plan year. The significant actuarial assumptions used in the valuation as of December 31, 2024, were (a) life expectancy of participants (the IRS 2025 Static Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The 2024 valuation included assumed average rates of return of 2.95%.

The foregoing actuarial assumptions were based on the presumption that the Plan would continue as the Plan's termination occurred after the valuation date. Had the actuary known the Plan was going to terminate, different actuarial assumptions and other factors might have been applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material differences.

As of December 31, 2024, the actuarial present value of accumulated Plan benefits was as follows:

Actuarial present value of accumulated Plan benefits		
Vested benefits:		
Active participants	$	164,041,365
Terminated vested participants		4,371,587
		168,412,952
Nonvested benefits		5,142,951
Total actuarial present value of accumulated Plan benefits	$	173,555,903

The change in the actuarial present value of accumulated Plan benefits is as follows for the year ended December 31, 2024:

Actuarial present value of accumulated Plan benefits at December 31, 2023	$ 165,409,016
Increase during the year attributable to:	
Benefits accumulated	39,428,556
Increase for interest due to the increase in the discount period	9,734,614
Demographic experience	(493,737)
Benefits paid	(40,522,546)
Net increase	8,146,887
Actuarial present value of accumulated Plan benefits at December 31, 2024	$ 173,555,903

The Plan made an interest credit allocation in 2025 prior to the plan freeze and liquidation on April 30, 2025, which increased the accumulated Plan benefits value prior to final distributions.

NOTE 4 – FUNDING POLICY

Employee contributions – Contributions by participants were not required or permitted by the Plan.

Employer contributions – The Firm's funding policy was to fund toward 100% of the value of accrued benefits, and each year the minimum required contribution was generally equal to the value of benefits expected to be earned during the year plus a seven-year amortization installment of the unfunded accrued benefits, if any. The Internal Revenue Code (IRC) sets forth minimum contributions to assure adequate funding and a maximum amount that an employer may deduct as a Plan contribution. The minimum funding standards of ERISA were met for the years ended December 31, 2025 and 2024.

NOTE 5 – PLAN TERMINATION

The Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

As the Plan was terminated effective April 30, 2025 as noted in Note 1, the net assets of the Plan were allocated, as prescribed by ERISA and its related regulations, in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination, if any.

b. Annuity benefits that former employees or their beneficiaries had been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount was limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount was further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All nonvested benefits.

NOTE 6 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Registered investment companies (mutual funds and exchange traded funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Common stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate debt securities, municipal bonds, foreign bonds, and U.S. government securities – Valued using pricing models maximizing the use of observable inputs for similar securities, which includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. (When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.)

Interest-bearing cash (money market accounts) – Money market accounts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

There were no plan assets at December 31, 2025.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31, 2024:

	Fair Value Measurements at December 31, 2024 (ongoing)			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 59,289,003	$ -	$ -	$ 59,289,003

NOTE 7 – INFORMATION CERTIFIED BY THE TRUSTEE

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company, a qualified institution:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024.
- Net appreciation (depreciation) in fair value of investments, dividends, and interest reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024.
- Transactions reflected on the schedule of reportable transactions for the year ended December 31, 2025.

NOTE 8 – TAX STATUS

In February 2025, the Plan administrator filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under provisions of section 501(a) of the IRC. The Plan administrator believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC and, therefore, believed that the Plan was qualified and the related trust was tax-exempt. The Plan did not receive a response from the IRS from their original filing. In August 2025, the Plan applied for a determination letter on the Plan termination. In July 2026, the Plan received a favorable determination letter on the termination, in which the IRS stated the Plan's qualified status was not affected by the Plan's termination.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

The Plan paid expenses related to the Plan's operations to various service providers.

Schedule SB, Part V - Summary of Plan Provisions

Plan Provisions and Statutory Limits

EFFECTIVE DATE

The effective date of the plan was January 1, 2017. The plan was last amended effective April 30, 2025. This valuation reflects a plan sponsor election under IRC section 412(d)(2) to recognize an amendment adopted after the valuation date.

PLAN YEAR

January 1 to December 31.

CASH BALANCE ACCOUNT

The sum of Cash Balance Credits and Earnings Credits. As of January 1, 2025, Cash Balance Accounts, excluding Cash Balance Credits for the year, totaled $173,555,903.

CASH BALANCE CREDITS

Cash Balance Credits shall be credited to eligible participants' Cash Balance Accounts for the year, based on the plan document's provisions. For the 2025 plan year, Cash Balance Credits are estimated to total $0.

EARNINGS CREDITS

Earnings Credits shall be credited to participants' Cash Balance Accounts based on the rate of return on plan assets, subject to a cumulative maximum of 7.00% and any minimums required by the plan. As of the participant's benefit commencement date, in no event shall cumulative Earnings Credits during a participant's period of plan participation be less than $0.

NORMAL RETIREMENT AGE

The attainment of age 65.

BENEFIT AMOUNT

The Cash Balance Account, or its actuarial equivalent payable as an annuity, subject to IRS maximums. Benefits are payable immediately following termination of employment or while in service for participants who have reached age 59.5.

VESTING

Each participant is vested in his or her Cash Balance Account according to the following schedule: 1 year of service: 0%, 2 years of service: 55%, 3+ years of service: 100%.

STATUTORY LIMITS

For 2025, the maximum compensation limit under IRC section 401(a)(17) is $350,000, and the maximum benefit payable under IRC section 415(b) is $280,000.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Actuarial Assumptions and Methods

Plan Sponsor Elections

Yield curve election: The plan sponsor did not elect to use the full yield curve under IRC section 430(h)(2)(D)(ii).

Applicable month: The plan sponsor elected to base the segment rates on the rates published in the month containing the valuation date.

Economic Assumptions

	Funding Target		PBGC
	with stabilization	without stabilization	Funding Target
First segment rate (years 0 to 4):	5.00%	5.00%	4.65%
Second segment rate (years 5 to 19):	5.27%	5.27%	5.28%
Third segment rate (years 20 and after):	5.50%	5.40%	5.63%
Effective interest rate (current year):	5.31%	5.28%	N/A

Interest crediting rate: 2.95%

The interest rates listed above are compounded annually.

The cash balance interest crediting rate is equal to the rate of return on plan assets, subject to cumulative minimum and maximum interest crediting rates. Accordingly, the assets needed to provide future cash balance benefits are independent of interest rates and only dependent on the plan's asset allocation to the extent that the cumulative minimum or maximum interest crediting rates affect the cash balance accounts. This plan provision is difficult to measure using traditional deterministic valuation procedures. To account for this plan provision, the interest crediting rate was selected from a reasonable range based on the plan's asset allocation that, when combined with the segment interest rates, produced a funding target that was as close as possible to the economic value of the cash balance accounts.

EIN / PN 94-0697210 / 009
Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Actuarial Assumptions and Methods

Demographic Assumptions

RETIREMENT

All participants are assumed to retire according to the following schedule, but no earlier than one year from the valuation date of January 1, 2025:

Assumed retirement age	Percent assumed to retire
65	100.00%

WEIGHTED AVERAGE RETIREMENT AGE

The weighted average retirement age for the population during the current year, rounded to the nearest whole number, is 65.

WITHDRAWAL AND DISABILITY

None.

RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire according to the schedule above.

MORTALITY AND MORTALITY IMPROVEMENT

The mortality follows the IRS 2025 Static Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1. The mortality decrement is assumed to occur as of the beginning of the year.

Other Assumptions

FORM OF PAYMENT

Based on the experience of the plan and future expectations, all participants are assumed to elect a lump sum form of payment.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Actuarial Assumptions and Methods

EXPENSES

Assumed expenses are $168,000 for 2025, based on the experience of the plan and future expectations. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

None.

Actuarial Methods

VALUATION DATE

The valuation date is January 1, 2025.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is equal to the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

Changes in Method from Prior Year and Rationale for Changes

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
