Other schedules required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA") have been omitted because they are either not applicable or have been filed directly with the Department of Labor as part of the PVH Corp. Pension Master Trust filing.

Independent Auditor's Report

To the Plan Administrator of
PVH Consolidated Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of PVH Consolidated Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of PVH Consolidated Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note E to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of PVH Consolidated Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about PVH Consolidated Pension Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PVH Consolidated Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about PVH Consolidated Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

A. Description of the Plan

General

The PVH Consolidated Pension Plan (the "Plan") is a noncontributory defined benefit plan that provides a retirement benefit for all eligible employees of PVH Corp. (the "Company"). The Plan is sponsored by the Company and administered by the Plan Committee appointed by the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), in each case, as amended.

Plan Benefits and Vesting

Eligible associates are United States employees of the Company, employed on a salaried basis, or hourly-paid clerical, warehouse or retail associates. Associates who are not on the Company's U.S. payroll, non-resident aliens, residents of the Commonwealth of Puerto Rico and associates whose principal terms and conditions of employment are subject to the provisions of a collective bargaining agreement which does not provide for active participation in the Plan are excluded. Participation for eligible employees begins on the first day of the calendar quarter after the completion of one year of service in which a minimum of 1,000 hours are worked. The Plan excludes associates who are hired, rehired, or transferred to the United States payroll on or after January 1, 2022.

Vesting occurs upon the completion of five years of service or the attainment of the normal retirement age of 65 or by reason of total and permanent disability.

On April 2, 2024, the Plan was amended to freeze pensionable compensation and credited service amounts used to calculate participants' benefits effective June 30, 2024 ("the freeze date"). Employees who meet a specified age and service requirement are included in a transition group that will continue to accrue benefits under the Plan for two years after the effective date of the freeze, ending on June 30, 2026 ("the deferred freeze date").

Benefits under the Plan are generally equal to a Prior Service Benefit plus a Future Service Benefit. The Prior Service Benefit is equal to 1% of Past Service Compensation (i.e., five-year average of compensation from 1995 through 1999) plus 0.50% of Past Service Compensation in excess of the 1999 Social Security Average Breakpoint times years of service as of December 31, 1999. Different Prior Service formulas apply to hourly and retail associates. The Future Service Benefit is equal to 1% (0.75% of the first five years if hired on or after October 1, 2019; 0.65% for hourly associates) of each applicable future year's compensation plus 0.50% of each future year's compensation in excess of the Social Security covered compensation breakpoint for each year of service not in excess of 35 years (including service prior to 2000). Because of the cessation of accruals under the Plan, for eligible

participants excluding transition participants, compensation for the 2023 calendar year was used to determine the benefit accruals in 2024 (the year of the freeze date). For transition participants, compensation for the 2025 calendar year will be used to determine the benefit accruals in 2026 (the year of the deferred freeze date).

Eligibility and minimum benefits apply to certain associates from previously acquired companies.

Early retirement eligibility is age 55 and 10 years of service. Reductions from age 65 are applied to early retirement benefits. Associates who become totally and permanently disabled while actively employed by the Company can begin receiving benefits from the Plan. The Plan provides the spouse of a vested participant with benefits if the participant dies before retirement, in accordance with the joint and survivor provisions of the Plan.

Forms of payment include various annuity options and a lump sum option.

Former participants of the Van Heusen Employees' Retirement Plan and the PVH Pennsylvania Plants Retirement Plan had different career pay formulas.

Information about the Plan agreement, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's (the "PBGC") benefit guarantee is contained in a Summary Plan Description. A Summary Plan Description is available to all participants and beneficiaries.

Contributions and Funding Policy

Contributions are made entirely by the Company. The Company's funding policy is to make contributions that at least satisfy the minimum funding requirements of ERISA but do not exceed the maximum tax-deductible requirements of the IRC as provided by the Plan's actuary. The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2025 and 2024.

Termination of the Plan

The Company, by action of its Board of Directors, may amend or terminate the Plan for any reason, at any time, subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of benefits to the participants in an order of priority determined in accordance with ERISA and the Plan document. Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits, the sufficiency of the Plan's net assets to provide for accumulated benefit obligations and the level of benefits guaranteed by the PBGC at that time.

Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Upon Plan termination if there is not enough money in the Plan to pay the benefits to all participants, Plan assets will be allocated in the following order:

- first, to provide benefits to participants who retired or were eligible to retire at least three years before termination;
- second, to provide benefits guaranteed by the PBGC;
- third, to pay other vested benefits; and
- fourth, to pay any other Plan benefits.

Payments of benefits at Plan termination will come only from Plan assets or from the PBGC.

B. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, and actuarial present value of accumulated plan benefits at the date of financial statements and changes therein. Actual results could differ from those estimates.

Investments and Master Trust

The Plan's assets are held by the trustee of the PVH Corp. Pension Master Trust ("Master Trust") and are segregated from the assets of the Company. The Plan does not own specific assets in the Master Trust but rather maintains an undivided beneficial interest in such assets. The Plan shares in Master Trust income and expenses based upon its proportionate share of Master Trust net assets available for benefits. The trustee of the Master Trust is the Northern Trust Company ("the Trustee").

Master Trust investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for a discussion of fair value measurements. Purchases and sales of Master Trust securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest is recorded on the accrual basis. Gains or losses on sales of Master Trust securities are based on an average cost method.

The majority of the administrative and other expenses of the Plan are paid by the Master Trust.

Accumulated Plan Benefits and Benefit Payments

Accumulated plan benefits (see Note C for additional information) are those estimated future periodic payments and lump-sum distributions that are attributable under the Plan's provisions to service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated and vested employees or their beneficiaries, and (b) active employees or their beneficiaries. The actuarial present value of accumulated plan benefits under the Plan is included to the extent deemed attributable to employee service rendered to the valuation date. Benefit payments to participants are recorded when paid.

Reclassifications

Certain amounts from 2024 financial statements have been reclassified in order to conform to the 2025 presentation. Master Trust investment income has been disaggregated to present investment fees on a separate line in Note F. Common collective trust ("CCT") funds in 2024 have been disaggregated in Notes F and G to conform to the 2025 presentation.

C. Accumulated Plan Benefits

Mercer, the consulting actuaries, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits at the beginning of each Plan year is as follows:

	January 1, 2025	January 1, 2024
Vested benefits:		
Inactive participants receiving benefits	$ 222,257,720	$ 232,507,138
Other participants	233,501,708	262,918,534
Total vested benefits	455,759,428	495,425,672
Non-vested benefits	5,594,375	6,749,951
Total actuarial present value of accumulated plan benefits	$ 461,353,803	$ 502,175,623

The change in actuarial value of accumulated Plan benefits as of the beginning of the year is as follows:

Actuarial present value of accumulated plan benefits at January 1, 2024	$ 502,175,623
Increase during the year attributable to:	
Benefits accumulated and losses	9,034,571
Increase for interest due to decrease in discount period	28,447,246
Change in actuarial assumptions	8,501,951
Benefits paid	(86,805,588)
Net decrease	(40,821,820)
Actuarial present value of accumulated plan benefits at January 1, 2025	$ 461,353,803

The calculations of the present value of vested and non-vested benefits under the Plan were made by Mercer as of January 1, 2025 and 2024. The change in the actuarial assumptions is primarily attributable to an increase in the lump sum election rate and changes in the interest rate assumptions used to convert benefits to lump sum payments.

The more significant assumptions underlying the January 1, 2025 and 2024 actuarial calculations are as follows:

Actuarial cost method	Projected unit credit method
Assumed rate of interest	6.25% per annum for 2025 and 2024
Mortality basis	PRI-2012 mortality tables with no collar adjustment (non-annuitant, annuitant and contingent annuitant), projected generationally for mortality improvements using Scale MP-2021 for 2025 and 2024.
Retirement	From ages 55 to 75

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

D. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 10, 2017, that the Plan is designed in accordance with the applicable sections of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan's administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's administrator to evaluate uncertain tax positions taken by the Plan. The financial effects of a tax position are recognized when the position more likely than not, based on the technical merits, would not be sustained upon examination by the IRS. There are no uncertain tax positions taken or expected to be taken by the Plan. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan's administrator believes the Plan is no longer subject to income tax examinations for years prior to 2022.

E. Information Certified by Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024, and therefore, as permitted, no auditing procedures were performed by the independent auditor with respect to the information certified by the Trustee. The Trustee of the Plan and the PVH Corp. Pension Master Trust has certified the completeness and accuracy of the investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024.

F. Investments in Master Trust

The assets of the Plan are included in the assets of the Master Trust held by Northern Trust Company at December 31, 2025 and 2024. The net assets of the Master Trust consist of the following:

	December 31, 2025

Investment income (loss) of the Master Trust for the years ended December 31, 2025 and 2024 was as follows:

	2025	2024
Investment income (loss):		
Net appreciation (depreciation) in the fair value of investments	$ 32,908,964	$ (11,054,553)
Interest and dividend income	4,998,842	6,484,056
Investment fees	(1,013,507)	(802,755)
Total net investment income (loss)	$ 36,894,299	$ (5,373,252)
Plan's interest in net investment income (loss) of the Master Trust	$ 36,747,050	$ (5,351,050)

G. Fair Value Measurements

In accordance with accounting principles generally accepted in the United States of America, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants at the measurement date. A three level fair value hierarchy prioritizes the inputs used to measure fair value as follows:

Level 1 – Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. The Plan's Level 1 assets include equity securities and mutual funds.

Level 2 – Observable inputs other than quoted prices included in Level 1, including quoted prices for identical assets or liabilities in inactive markets, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, and inputs derived principally from or corroborated by observable market data. The Plan's Level 2 assets include CCT funds, government securities and corporate debt securities.

Level 3 – Unobservable inputs reflecting the Plan's own assumptions about the inputs that market participants would use in pricing the asset or liability based on the best information available. The Plan has no Level 3 investments at December 31, 2025 or 2024.

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The strategic target asset allocation for the Master Trust as of January 1, 2025 was approximately 20% United States equities, 10% international equities and 70% fixed income investments and cash. Equity securities primarily included investments in large-, mid- and small-cap companies located in the United States and abroad. Fixed income securities included corporate bonds of companies from diversified industries, municipal bonds and United States Treasury securities. The target allocation was amended in January 2026 to 10% global equity, 10% liquid debt or equity investments including real estate and infrastructure, and 80% liability-hedging assets, which include investments in cash, fixed income securities or derivatives thereof that are intended to mitigate interest rate risk or reduce the duration mismatch between the assets and liabilities of the Master Trust. As the investments migrate in anticipation of the new target allocation, Plan assets as of December 31, 2025 are collective funds whose objectives are diversified equity, fixed income and cash.

The following tables set forth the financial assets of the Master Trust, by level, within the fair value hierarchy as of December 31, 2025 and 2024:

		Fair Value as of December 31, 2025

(1) Valued at the net asset value of the fund(s), as determined by the fund administrator, which represents a readily determinable fair value. The Company has the ability to redeem the investment at net asset value within the near term. The investments are classified as Level 2 because their fair values are based on observable inputs but are not based on quoted prices in active markets for identical instruments.

(2) This category includes pending trades and/or accrued income.

(3) Valued at the closing price in the active market in which the individual securities are traded.

(4) Valued at the net asset value of the fund, as determined by the closing price in the active exchange in which the individual fund is traded.

(5) Valued with bid evaluation pricing that uses a discounted cash flow method. Inputs include actual and comparable trade data, market benchmarks, broker quotes, trading spreads and/or other applicable data.

(6) The Plan uses third party pricing services to determine the fair value of the financial instruments held by the Master Trust. The Company obtains an understanding of the pricing services' valuation methodologies and related inputs

and validates a sample of prices provided by the pricing services by reviewing prices from other pricing sources and analyzing pricing data in certain instances. The Plan has not adjusted any prices received from the third party pricing services.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

I. Transactions with Parties-in-Interest

Certain administrative fees, including audit fees, are paid directly by the Company. Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

J. Subsequent Events

The Company has evaluated all subsequent events subsequent to December 31, 2025 through October 15, 2026, the date the financial statements were available to be issued. No material subsequent events have occurred since December 31, 2025, that warrant adjustments to or disclosure in the financial statements.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of Major Plan Provisions – former PVH Pension Plan (Other than Crystal Brands Division and Warnaco Plan)

Effective date and plan year	Effective date: January 1, 1986 Plan year: January 1 to December 31
Status of the plan	The plan is closed to participants hired or rehired after December 31, 2021. Benefit accruals are frozen effective June 30, 2024 except for participants who, as of that date, have both attained age 53 and completed 8 of vesting years who will continue to accrue benefits until June 30, 2026.
Significant events that occurred during the year	The plan freeze dates were announced in January 2024. During 2024 PVH offered lump sums to terminated vested participants who were not normally eligible to elect an unlimited lump sum.
Eligibility	All active employees who were previously covered as of December 31, 1993 under either the Phillips-Van Heusen Salaried Employees' and Salesmen's Retirement Plan or the Phillips-Van Heusen Employees' Pension and Severance Plan are covered under this Plan. All other employees who work more than 1,000 hours during a 12-month period commencing on or after their date of hire are eligible to become members on the first day of the next calendar quarter. Employees of Calvin Klein, Inc. on February 12, 2003 are eligible to become members on January 31, 2004 with benefit service retroactive to February 12, 2003. Employees of PVH Superba/Insignia Neckwear, Inc. and/or PVH/Superba Retail Management Corporation are eligible to become members on January 1, 2008. Employees of Tommy Hilfiger are eligible to become members on January 1, 2011. Employees of Warnaco are eligible to become members on January 1, 2014.
Credited Service	A. Prior Service to December 31, 1993: As defined under either the Phillips-Van Heusen Salaried Employees' and Salesmen's Retirement Plan or the Phillips-Van Heusen Employees' Pension and Severance Plan. B. Future Service Total of all Benefit Accrual Months from January 1, 1994. Associates of Warnaco receive credited service effective January 1, 2014.
Vesting	5 years of service, or employed at age 65. A former Cheseborough-Pond's Plan participant shall receive credit for Vesting Service on and after February 1, 1987. He shall be credited with Vesting Service prior to February 1, 1987 on the basis of the credit for service which he had on that date under the terms of the Cheseborough-Pond's Plan. Each former Cheseborough-Pond's Plan member is fully vested in the Minimum Bass Pension. Participants impacted by the IZOD retail store closings during 2015 are 100% vested.

Schedule SB, Part V — Summary of Plan Provisions

Final Average Compensation	Average compensation during five consecutive complete years of service ending December 31, 1999.
Past Service Compensation	Average compensation during five consecutive complete years of service ending December 31, 1993 yielding the highest average.

If the present value of a terminated participant's vested accrued benefit is between $7,000 and $20,000 for terminations on or after September 1, 2012 or between $7,000 and $30,000 for terminations on or after October 1, 2015, the participant may elect to receive a lump sum payment. Participants who terminate or retire on or after September 1, 2019 may elect an unlimited lump sum payment. The lump sum is based on the September PPA lump sum rates and the 417(e) applicable mortality table for distributions.Social Security leveling is based on the September PPA lump sum rates and the 417(e) applicable mortality table.
Early Retirement	
• Eligibility:	First of any month after attaining age 55 with 10 years of service (For retirements prior to April 19, 1991, 15 years of service for former Salaried Plan participants and 20 years of service for former Hourly Plan participants). The plan was amended in 2015 to allow certain IZOD participants who are within 24 months of eligibility for early retirement, to qualify for an early retirement pension under the plan.
• Benefit:	Normal retirement benefit based on service and applicable salaries at date of early retirement. If the early retirement date precedes the normal retirement date, the net amount of the benefit is reduced for early commencement as follows: ▪ 10 years of service: 5% from age 65 ▪ 20 years of service: 3½% from age 65 ▪ 30 years of service: 2% from age 65 The early retirement reduction factors will be scaled linearly for a participant retiring with between 10 and 30 years of service. Special early retirement provisions are applicable to the Minimum Bass Pension and frozen Warnaco benefits.
Deferred Retirement	
• Eligibility:	Previously eligible for normal retirement.
• Benefit:	Normal retirement benefit based on service and applicable salaries at date of deferred retirement.
Deferred vested	
• Eligibility:	5 years of service after age 18, or employed at age 65. Participants impacted by the IZOD retail store closings during 2015 are 100% vested.
• Benefit:	Normal retirement benefit based on service and applicable salaries at date of termination.
• Retirement Date:	Unreduced benefit payable at normal retirement date. If the early retirement eligibility criteria are met, reduced benefit available at an early retirement date. The benefit is reduced for early commencement as follows:

Age	Early Retirement Reduction Factor
55	0.40
56	0.43

Schedule SB, Part V — Summary of Plan Provisions

	57 0.46 58 0.50 59 0.55 60 0.60 61 0.66 62 0.73 63 0.81 64 0.90 65 1.00 For those under age 55 and 10 years of service, benefits are reduced based on the plan's actuarial equivalence GAM71 mortality with a 5 year setback at a rate of 7.50%.
• One-time Lump Sum Offer:	Terminated vested participants as of May 1, 2013 were given a one-time opportunity to receive a lump sum payment from the Plan if the lump sum value of their benefits did not exceed $20,000. Terminated vested participants as of July 1, 2015 were given a one-time opportunity to receive a lump sum payment from the Plan if the lump sum value of their benefits did not exceed $30,000. Terminated vested participants were given a one-time opportunity to receive an unlimited lump sum payment in December 2016 and again in December 2024.
Vested Pre-Retirement Spouse's Benefit	
• Eligibility:	Vested
• Benefit:	One-half the amount that would have been payable at date of death, had the participant survived until that date and elected retirement benefits in the form of a joint and 50% survivor annuity.
• Benefit Payment Date:	The first day of the month following the date of death, reduced for early commencement. Benefits may be deferred until a date not later than the participant's Normal Retirement Date.
• Form of Payment:	Life annuity payable to surviving spouse or equivalent lump sum subject to the same lump sum thresholds described under Normal Retirement Form of Payment.
Disability Retirement	
• Eligibility:	Total and permanent disability, and not receiving LTD benefits.
• Benefit:	Immediate payment of accrued benefit, reduced for early commencement with the same Early Retirement reduction factors described above. For those under age 55 and 10 years of service, benefits are reduced based on the plan's actuarial equivalence GAM71 mortality with a 5 year setback at a rate of 7.50%.
• Form of Payment:	Normal form only.

Schedule SB, Part V — Summary of Plan Provisions

Special Death Benefit	
• Eligibility:	Death after retirement or Normal Retirement Date if not retired, with 10 years of service (and not participant in Prior Crystal Plan). Participants who elect a lump sum are not eligible for this death benefit.
• Basic Death Benefit:	The lesser of 25% of final pay or $5,000, actuarially reduced for early commencement, payable as a lump sum upon death.
• Supplemental Death Benefit:	Prior to January 1, 2024, a Participant, with the consent of their Spouse, was allowed to elect to reduce the benefits payable under the Plan by the supplemental death benefit described below, multiplied by the Supplemental Death Benefit factor in Exhibit A of the plan document. The supplemental death benefit will be the amount needed to increase the basic death benefit to: (i) if coverage under Employer's group life insurance plan immediately prior to the earlier of date of retirement or normal retirement date was in excess of $2,000, then the greater of $4,500 and the lesser of 25% of life insurance coverage (up to a maximum of $12,500) and 50% of compensation at that date, (ii) if coverage under group life insurance plan was equal to $2,000, the amount of $1,000.
Contributions	The Company pays the full cost of benefits under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	The Early Retirement date is the first of the month after termination and following the attainment of age 60, and completion of five years of service.
• Benefit	The normal retirement benefit calculated using credited service as of the early retirement date reduced ½% for each month by which pension commencement precedes normal retirement date.
Late retirement	
• Eligibility	The Late Retirement Date is the first of the month subsequent to the normal retirement date following the actual retirement of the participant.
• Benefit	The Late Retirement Benefit is determined in the same manner as the Normal Retirement Benefit, considering Credited Service and Earnings to date of retirement.
Deferred vested	
• Eligibility	A participant earns a Deferred Vested Retirement Benefit (payable at age 65) after completion of 5 years of service.
• Benefit	The Deferred Vested Retirement Benefit is determined in the same manner as the Normal Retirement Benefit, considering service and salary at termination date.
Disability	
• Eligibility	A Participant is eligible for the Disability Retirement Benefit if he has attained age 60, accumulated 5 years of service, becomes totally and permanently disabled prior to normal retirement, and retires on the first of the month following the determination of permanent and total disability.
• Benefit	The Disability Retirement Benefit is determined in the same manner as Normal Retirement Benefit, considering Benefit Service and Earnings to date of disability. If the participant qualifies for disability insurance benefits under the federal Social Security Act, the benefit from the plan will not be reduced for early commencement.
Pre-retirement death	
• Eligibility	Spouse of a covered vested participant who dies prior to benefit commencement
• Benefit	The death benefit will: - Commence on the later of (a) the date of death or (b) the earliest date the participant could have elected to receive retirement benefits from the Plan unless the surviving spouse elects to defer commencement; - Be paid for the duration of the surviving spouse's lifetime; - Equal 50% of the benefit the participant would have received had he commenced benefits at such time under the Joint and 50% Survivor option; The death benefit for active vested participants is determined in the same manner except that the benefit is not reduced by the J&S option factor.
• Form of Payment	Life annuity payable to surviving spouse or equivalent lump sum subject to the same lump sum thresholds described under Normal Retirement Form of Payment.

Schedule SB, Part V — Summary of Plan Provisions

Form of Benefits

- Automatic form for unmarried participants: Straight Life Annuity
- Automatic form for married participants: 50% Joint & Survivor Annuity

Schedule SB, Part V — Summary of Plan Provisions

Form of Payment

- Normal Form:

  Unmarried Participant: Life annuity.

  Married Participant: Joint & 50% survivor benefit.

- Optional Forms:

  a) Joint and 50%, 66-2/3%, 75%, or 100% contingent annuities.

  b) Years certain and life annuities.

  c) Lump sum

  d) Social Security leveling annuity.

  e) Full cash refund annuity.

  Benefits are actuarially adjusted to be equivalent in value to a life annuity based on plan factors. Sample factors below assume the beneficiary is the same age as the participant:

Age	50% J&S factor	100% J&S factor
55	0.955	0.909
60	0.945	0.889
62	0.941	0.881
65	0.935	0.869

  If the present value of a terminated participant's vested accrued benefit is less than $7,000, the value of the participant's benefit is paid in a lump sum. If the present value of a terminated participant's vested accrued benefit is between $7,000 and $20,000 for terminations on or after September 1, 2012 or between $7,000 and $30,000 for terminations on or after October 1, 2015, the participant may elect to receive a lump sum payment. Participants who terminate or retire on or after September 1, 2019 can elect a lump sum payment regardless of its size. The lump sum is based on the September PPA lump sum rates and the 417(e) applicable mortality table for distributions.

  Social Security leveling is based on the September PPA lump sum rates and the 417(e) applicable mortality table.

Early Retirement

- Eligibility: First of any month after attaining age 55 with 10 years of service. The plan was amended in 2015 to allow certain IZOD participants who are within 24 months of eligibility for early retirement, to qualify for an early retirement pension under the plan.

- Benefit: Normal retirement benefit based on service and applicable salaries at date of early retirement. If the early retirement date precedes the normal retirement date, the net amount of the benefit is reduced for early commencement as follows:

  - 10 years of service: 5% from age 65
  - 20 years of service: 3½% from age 65
  - 30 years of service: 2% from age 65

  The early retirement reduction per year factors will be scaled linearly for a participant retiring with between 10 and 30 years of service.

Schedule SB, Part V — Summary of Plan Provisions

Deferred Retirement

- Eligibility: Previously eligible for normal retirement.
- Benefit: Normal retirement benefit based on service and applicable salaries at date of deferred retirement.

Deferred Vested

- Eligibility: 5 years of service after age 18, or employed at age 65. Participants impacted by the sale of the Bass division on November 4, 2013 are 100% vested. Participants impacted by the IZOD retail store closings during 2015 are 100% vested.
- Benefit: Normal retirement benefit based on service and applicable salaries at date of termination.
- Retirement Date: Unreduced benefit payable at normal retirement date. If the early retirement eligibility criteria are met, reduced benefit available at an early retirement date. The benefit is reduced for early commencement as follows:

Age	Early Retirement Reduction Factor
55	0.40
56	0.43
57	0.46
58	0.50
59	0.55
60	0.60
61	0.66
62	0.73
63	0.81
64	0.90
65	1.00

For those under age 55 and 10 years of service, benefits are reduced based on the plan's actuarial equivalence GAM71 mortality with a 5 year setback at a rate of 7.50%.

- One-time Lump Sum Offer: Terminated vested participants as of May 1, 2013 were given a one-time opportunity to receive a lump sum payment from the Plan if the lump sum value of their benefits did not exceed $20,000.

  Terminated vested participants as of July 1, 2015 were given a one-time opportunity to receive a lump sum payment from the Plan if the lump sum value of their benefits did not exceed $30,000.

  Terminated vested participants were given a one-time opportunity to receive an unlimited lump sum payment in December 2016 and again in December 2024.

Vested Pre-Retirement Spouse's Benefit

- Eligibility: Vested
- Benefit: One-half the amount that would have been payable at the participant's date of death had the participant survived until that date and elected retirement benefits in the form of a joint and 50% survivor annuity.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit Payment Date:	The first day of the month following the date of death, reduced for early commencement. Benefits may be deferred until a date not later than the participant's Normal Retirement Date.

Form of Payment

- Normal Form:

Unmarried Participant: Life annuity.

Married Participant: Joint & 50% survivor benefit.

- Optional Forms:

a) Joint and 50%, 66-2/3%, 75%, or 100% contingent annuities.

b) 7 and 10 years certain and life annuities.

c) Social Security leveling annuity.

d) Full cash refund annuity.

Benefits are actuarially adjusted to be equivalent in value to a life annuity based on plan factors. Sample factors below assume the beneficiary is the same age as the participant:

Age	50% J&S factor	100% J&S factor
55	0.950	0.900
60	0.930	0.870
62	0.922	0.858
65	0.910	0.840

If the present value of a terminated participant's vested accrued benefit is less than $1,000, the value of the participant's benefit is paid in a lump sum. If the present value is between $1,000 and $5,000, the participant may elect to receive a lump sum payment. The lump sum is based on the September PPA lump sum rates and the 417(e) applicable mortality table for distributions.

Social Security leveling is based on the September PPA lump sum rates and the 417(e) applicable mortality table.

Schedule SB, Part V — Summary of Plan Provisions

Early Retirement

- Eligibility: First of any month after attaining age 55 with 10 years of service.
- Benefit: Normal retirement benefit based on service and applicable salaries at date of early retirement. If the early retirement date precedes the normal retirement date, the net amount of the benefit is reduced for early commencement as follows:

Age	Early Retirement Reduction Factor
55	0.40
56	0.43
57	0.46
58	0.50
59	0.55
60	0.60
61	0.66
62	0.73
63	0.81
64	0.90
65	1.00

Deferred Retirement

- Eligibility: Previously eligible for normal retirement.
- Benefit: Normal retirement benefit based on service and applicable salaries at date of deferred retirement.

Deferred vested

- Eligibility: 5 years of service after age 18, or employed at age 65.
- Benefit: Normal retirement benefit based on service and applicable salaries at date of termination.
- Retirement Date: Unreduced benefit payable at normal retirement date. If the early retirement eligibility criteria are met, reduced benefit available at an early retirement date. The benefit is reduced for early commencement as follows:

Age	Early Retirement Reduction Factor
55	0.40
56	0.43
57	0.46
58	0.50
59	0.55
60	0.60
61	0.66
62	0.73
63	0.81
64	0.90
65	1.00

Schedule SB, Part V — Summary of Plan Provisions

Vested Pre-Retirement Spouse's Benefit	
• Eligibility:	Vested, and one or more hours of service on or after January 1,1976.
• Benefit:	One-half the amount that would have been payable at the participant's date of death had the participant survived until that date and elected retirement benefits in the form of a joint and 50% survivor annuity.
• Benefit Payment Date:	The first day of the month following the date of death, reduced for early commencement. Benefits may be deferred until a date not later than the participant's Normal Retirement Date.
• Form of Payment:	Life annuity payable to the surviving spouse or equivalent lump sum subject to the same lump sum thresholds described under Normal Retirement Form of Payment.
• Charge for Coverage:	In the form of a reduction to any benefit payable. Coverage for ages before 55 is provided without reduction to the accrued benefit, but there is a charge at age 55 and later.
Disability Retirement	
• Eligibility:	Total and permanent disability.
• Benefit:	Immediate payment of accrued benefit, reduced for early commencement with the same Early Retirement reduction factors described above.
• Form of Payment:	Normal form only.
Lump Sum Death Benefits	
• Eligibility:	Actively working and ten years of Vesting Service completed.
• Benefit:	$2,000 prorated for Future Benefit Service less than twenty years.
• Form of Payment:	Lump sum to designated beneficiary.
Contributions	The company pays the full cost of benefits under the Plan.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2025, the limit is $350,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2025, the limit is $280,000.

Schedule SB, Part V — Summary of Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2025, are included in this valuation.

- **Most recent plan amendment included:** June 17, 2024
- **Disability benefits:** Disability benefits were not valued since their effect is not material.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. The plan also applies late retirement actuarial increases for a certain closed group of participants who did not receive suspension notices and who defer retirement beyond their normal retirement date and this valuation includes those increases.
  - *Deferred vested participants:* Accumulation of retroactive payments for current deferred vested participants over normal retirement is reflected in the valuation.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits (if any) that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - Plan amendments: See above.
  - *Prohibited payments*: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals*: The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Plan Provision Changes Since Prior Valuation

- During 2024 PVH offered lump sums to terminated vested participants who were not normally eligible to elect a lump sum.
- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2024 to 2025.

Schedule SB, line 32 — Schedule of Amortization Bases

Shortfall amortization charge

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by ARPA took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than $0.

Shortfall bases					
Year established		Outstanding balance	Years remaining		2025 installment
2025		27,949,536	15		2,606,029
Total	$	27,949,536		$	2,606,029

Schedule SB, line 24 — Change in Actuarial Assumptions

- The expense component of normal cost increased from $2,700,000 to $3,265,000 to reflect expectations for the current plan year.
- The expected investment return changed from 6.10% in 2024 to 6.35% in 2025.
- The assumed lump sum election for participants who are eligible to take an unlimited lump sum was updated from 70% to 90%.
