Independent Auditors' Report

To the Participants and Plan Administrator of
The PNC Financial Services Group, Inc. and Affiliates
Long-Term Disability Plan

Opinion

We have audited the financial statements of The PNC Financial Services Group, Inc. and Affiliates Long-Term Disability Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of benefit obligations and net (deficit) assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in benefit obligations and net (deficit) assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial status of the Plan as of December 31, 2025 and 2024, and the changes in its financial status for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of The PNC Financial Services Group, Inc. and Affiliates Long-Term Disability Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The PNC Financial Services Group, Inc. (PNC or the Company) is the sponsor of the Plan. The Plan is a self-insured, long-term disability benefit plan that provides long-term disability benefits to full-time employees of PNC and certain affiliated subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by PNC, with claims administration being performed by a designated third-party administrator. PNC managed the Plan's investments directly or delegated investment management responsibility to a subcommittee or an individual having discretionary authority.

During the plan year ended December 31, 2025, PNC terminated the trust previously established to fund benefits of the Plan. Beginning January 1, 2026, benefits under the Plan are paid by the Company directly from general assets. Accordingly, the Plan is no longer funded through a trust or other funded welfare benefit arrangement. This change in funding method does not affect participants' eligibility for benefits under the terms of the Plan.

Benefits

The Plan provides basic long-term disability coverage equal to 60 percent of a participant's eligible compensation up to $10,000 per month at no cost to the participant. Participants may also elect to pay for additional long-term disability coverage equal to 10 percent of eligible compensation, for a total benefit of 70 percent of eligible compensation (up to $10,000 per month). Monthly benefits are reduced by income received from other sources, including federal, state or any other company-sponsored disability or retirement plans as well as social security disability or retirement benefits (excluding widow/widower benefits from Social Security effective for disabilities occurring on or after January 1, 2024).

Contributions

The Company funds the cost of basic long-term disability coverage. The Plan provides for additional supplemental long-term disability coverage at a cost to the participant actuarially determined by the Plan administrator periodically. Upon employee termination, the participant's contribution reverts to the Plan to pay future Plan benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and benefit obligations and changes therein, claims incurred but not yet reported, claims payable and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investment was reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales were recorded on trade-date basis. Interest income was recorded on the accrual basis.

Plan Benefits

The amount reported as benefit obligations represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employees' service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current Plan participants and Company contributions. The actuarial present value of future benefit obligations is determined by an actuary, and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payments between the valuation date and the expected date of payment.

The Plan's liability for claims incurred but not reported is estimated by management utilizing actuarial methods provided by the actuary which take into consideration prior claim experience and the expected time period from the date such claims are incurred to the date that the related claims are submitted and paid.

The following were among the significant assumptions used in the valuation as of December 31, 2025 and 2024:

Discount rate	4.05% in 2025 and 4.45% in 2024
Termination of disability rates	2012 Group Long-Term Disability Termination Rate Table (GLTD) adjusted for the 2019 GLTD Experience Study

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the benefit obligation.

During 2025, as a result of the decrease in the discount rate, the Plan’s benefit obligations increased by approximately $0.7 million.

Administrative Expenses

Administrative expenses of the Plan, including, but not limited to, claims administration, professional service, recordkeeping and trustee fees, are generally paid by the Plan, if not paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 14, 2026, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2025 and 2024.

The Plan's investment in a short-term money market fund was valued at the quoted net asset value of shares held by the Plan at year end.

The Plan held no assets at fair value as of December 31, 2025. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

		Fair Value Measurements Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market fund	$ 1,675,549	$ 1,675,549	$ -	$ -
Total assets at fair value	$ 1,675,549	$ 1,675,549	$ -	$ -

4. Funding Policy

Prior to the termination of the Plan's trust as disclosed in Note 1, the Company contributed to the Plan's trust, on a periodic basis, amounts necessary to adequately cover benefits and administrative expenses of the Plan. Subsequent to the termination of the Plan's trust, the Company began directly funding the Plan without the use of a trust.

Should the Plan be terminated or Company contributions be permanently discontinued, participants' claims made prior to notice of termination would be honored provided that they are made within the time limits specified in the Plan.

5. Benefit Obligations

The Plan's deficiency of net (deficit) assets available for benefits under benefit obligations at December 31, 2025 and 2024 relates primarily to the benefit obligation. It is expected that the difference will be funded through future contributions by the Company.

6. Tax Status

Prior to the termination of the Plan's trust as disclosed in Note 1, the trust established under the Plan to hold the Plan's assets was intended to qualify pursuant to section 501(c)(9) of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income was exempt from income taxes. The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 24, 1988, that the trust and related Plan were designed in accordance with applicable sections of the IRC. The Plan and its underlying trust have been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and its underlying trust are designed and are currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related-Party and Party In Interest Transactions

Prior to the termination of the Plan's trust as disclosed in Note 1, PNC Bank, National Association (PNC Bank) was the Plan's trustee and also provided recordkeeping, investment advisory, and other administrative services. The Plan's investment was managed by PNC Capital Advisors, LLC, an affiliate of the Company. Fees paid by PNC for administrative services to PNC Bank or PNC Capital Advisors, LLC were not significant to the Plan in 2025. These transactions qualified as party in interest transactions.

The Company may pay certain administrative expenses or perform administrative functions on behalf of the Plan.

8. Risks and Uncertainties

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Reconciliation to Form 5500

The following is a reconciliation of net (deficit) assets available for benefits per the financial statements to Form 5500 at December 31, 2025 and 2024:

	2025	2024
Net (deficit) assets available for benefits per the financial statements	$ (201,542)	$ 3,126,067

Net (deficit) assets available for benefits per Form 5500	$ (62,319,702)	$ (47,169,256)

The following is a reconciliation of benefits paid to participants per the financial statements to Form 5500 for the year ended December 31, 2025:

Benefits paid to participants per the financial statements	$ 13,026,539
Add: Benefit obligations at December 31, 2025	62,118,160
Less: Benefit obligations at December 31, 2024	(50,295,323)
