INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Trustees and Participants
Retirement Plan of First County Bank

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Retirement Plan of First County Bank (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a period within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Plan Administrator, Trustees and Participants
Retirement Plan of First County Bank

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

RETIREMENT PLAN OF FIRST COUNTY BANK

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

1. Description of Plan

The following description of the Retirement Plan of First County Bank (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all covered employees of First County Bank (the Bank). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan was closed to new participants effective January 1, 2022 and no employees hired subsequent to that date are eligible to participate in the Plan.

On December 29, 2022, the *Setting Every Community up for Retirement Enhancement Act of 2022* (SECURE 2.0 Act) was signed into law. It includes mandatory and optional provisions impacting retirement plans. Applicable provisions outlined in the SECURE 2.0 Act will be adopted if elected and/or required. Plan amendments for these changes are not yet required.

Nature of Business of Sponsor

The Bank is a State of Connecticut chartered mutual savings bank providing a full range of banking services to consumer and commercial customers through its main branch in Stamford, Connecticut and 13 additional branches located throughout Fairfield County, Connecticut.

Eligibility and Vesting

Prior to the Plan closing to new participants, all covered employees of the Bank were eligible to participate in the Plan as of the first day of the month coinciding with or immediately following the date they reached 21 years of age and completed 1,000 hours or one year of eligible service.

On November 18, 2020, the Board of Directors of First County Bank, the Plan's Sponsor, voted to exclude from the Plan any employee of the Plan Sponsor whose employment commencement date or rehire date is after December 31, 2020. Any covered employee hired before December 31, 2020 could become an active participant through January 1, 2022. Effective January 1, 2022, participation in the Plan is frozen and no new participants may enter the Plan after that date.

Participants vest in their accrued benefits according to the following schedule:

Years of Service	Vested Percentage
Less than 5	0%
5 or more	100

1. Description of Plan (Continued)

Pension Benefits

The Plan provides monthly retirement benefits to participants beginning the month following attainment of age 65 and five years of Plan participation. The pension benefit is calculated as the sum of 2% of each eligible employee's Final Average Annual Compensation multiplied by their years of benefit service to a maximum of 30 years earned before January 1, 2014, plus 1.0% of their Final Average Annual Compensation multiplied by their years of benefit service to a maximum of 25 years earned after December 31, 2013, plus 0.4% of their Final Average Compensation in excess of the integration level (as defined in the Plan document) multiplied by their years of benefit service to a maximum of 30 years earned before January 1, 2014, plus 0.4% of their Final Average Compensation in excess of the integration level multiplied by their years of benefit service to a maximum of 25 years earned after December 31, 2013. Final Average Compensation is defined as twelve times the average of an Employee's monthly Compensation in respect to the 36 consecutive months (or such lesser period) which produce the highest average during the Employee's period of employment up to their Termination of Service. The Plan permits early retirement at ages 50-64. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If an employee terminates before rendering five years of service, they forfeit their right to any benefits under the Plan. Typically, unless the benefit is less than or equal to $7,000, benefits are paid monthly as life annuities from time of retirement.

Effective September 1, 2025, the Bank entered into an agreement with United of Omaha Life Insurance Company (United) to purchase group annuity contracts covering 42 Plan participants. In connection with the transaction, the Bank transferred annuity premiums totaling $3,079,343 to United. United became responsible for making annuity payments directly to these participants of the Plan. Per the agreement, United has no authority with respect to the Plan and responsibility is limited to providing annuity benefits in accordance with the Annuity Benefit Provisions contained in the agreement.

Death and Disability Benefits

If an active employee dies at age 50 or older, a death benefit equal to the value of the employee's accrued benefit at date of death, reduced for both early payment and the joint and 100% survivor annuity, is paid to the employee's beneficiary. If an active employee dies before age 50, benefits will begin on the date the employee would have attained age 50, in an amount equal to 50% of the amount which would have been paid to the employee if they left employment on the first day of the month following their death, survived to age 50 and then elected the 50% Joint and Survivor Benefit option. Active employees who become totally disabled are entitled to receive disability retirement benefits, commencing at normal retirement date, that are equal to the normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis of accounting.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

All administrative expenses are payable from the Plan's assets. The Bank may pay Plan expenses directly, but it is not required to do so. Expenses that are paid directly by the Bank are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan, are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan to service and salaries that employees have earned to date. The actuarial present value is the discounted amount that results from applying actuarial assumptions for investment return and for the probabilities of death, withdrawal, and retirement between the valuation date and the expected date of payment. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan for retired or terminated employees or their beneficiaries are based on the employees' three highest years of compensation. The accumulated plan benefits for active employees are based on their average compensation during the three years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the Plan's benefits.

2. Summary of Significant Accounting Policies (Continued)

The more significant assumptions underlying the actuarial computations are as follows:

2025:	
Actuarial cost method	Unit Credit Actuarial Cost Method
Retirement age	Graded Scale with 4% at Age 55 and 100% by Age 65
Mortality basis	Pri-2012 with Scale MP-2021
Annual investment returns	7.00%
Effective interest rate	5.38%

2024:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. Management has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued.

3. Funding Policy

The Plan Sponsor's funding policy is to make contributions in accordance with Internal Revenue Service (IRS) regulations and to meet minimum funding requirements of ERISA as determined by the Plan's actuary to continue funding for the benefits accrued through December 31, 2025, plus any interest credits earned after that date. The Plan Sponsor has met the minimum funding requirements of ERISA for 2025. For the Plan year ended December 31, 2025, no contributions were made to the Plan.

Neither voluntary employee contributions nor rollover contributions are permitted under the Plan.

4. Plan Termination

Although it has not expressed any intention to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, all participants, with respect to whom the Plan has been completely or partially terminated, will become fully vested in their accrued benefits as of the date of termination. Benefits will be paid solely from and only to the extent Plan assets are available to provide benefits or as may be guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency. As prescribed by ERISA and its related regulations, the benefits would be provided in the following order:

1. Toward the payment of that portion of each individual's accrued benefit derived from voluntary and rollover contributions, if any.
2. Toward the payment of that portion of each individual's accrued benefit derived from mandatory contributions, if any.
3. Benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits under the Plan, subject to certain limitations specified in the Plan document.
4. Other vested benefits insured by PBGC up to the applicable limits.
5. All other non-forfeitable benefits under the Plan.
6. All other benefits under the Plan.

Any residual assets of the Plan would be distributed to the Bank after all liabilities to Plan members and their beneficiaries had been satisfied.

Certain benefits under the Plan are insured by PBGC if the Plan terminates. Generally, PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by PBGC.

5. Information Certified by Trustee

The following is a summary of certain investment information as of December 31, 2025 and 2024, included in the Plan's financial statements and ERISA-required supplemental schedules that was prepared by or derived from information provided by the trustee or third party administrator and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee, as of December 31, 2025 and 2024 and for the year ended December 31, 2025, that the information provided to the Plan Administrator by the trustee is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and the ERISA-required supplemental schedules related to the following assets:

	2025	2024
Assets:		
Investments, at fair value:		
Mutual funds	$ 9,235,671	$ 8,567,485
Pooled separate investment accounts	70,975,460	67,399,240
Total investments	$80,211,131	$75,966,725

In addition, the trustee certified to the completeness and accuracy of the following for the year ended December 31, 2025:

Investment income:	
Dividend income and interest	$ 732,732
Net appreciation in fair value of investments	8,664,866
Total investment income	$9,397,598

6. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated Plan benefits under the Plan, as calculated by the consulting actuary, as of December 31 is as follows:

	2025	2024
Vested benefits:		
Participants currently receiving benefits	$13,456,410	$16,542,648
Terminated vested participants	1,158,344	909,230
Other vested participants	14,632,562	13,440,223
Total vested benefits	29,247,316	30,892,101
Nonvested benefits	67,257	158,310
Total actuarial present value of accumulated Plan benefits	$29,314,573	$31,050,411

6. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The changes in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2025 are as follows:

Actuarial present value of accumulated Plan benefits, beginning of year	$31,050,411
Increase (decrease) during the year related to:	
Decrease in discount period	2,005,639
Benefits paid, including annuities purchased	(4,879,362)
Benefits accumulated and actuarial gains and losses	1,137,885
Net decrease	(1,735,838)
Actuarial present value of accumulated Plan benefits, end of year	$29,314,573

7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lower priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are adjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

7. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Investment Accounts: The fair value of separate investment accounts with underlying mutual fund investments' unit values are calculated daily based on the observable NAV of the underlying mutual fund investment. NAV is used as a practical expedient to determine fair value. There are no restrictions on the sale or transfer of investments in pooled separate accounts. These investments are redeemable on a daily basis at NAV, with the majority allowing one redemption within a 30 day period. There are no unfunded commitments at December 31, 2025 and 2024.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2025				
Mutual funds	$9,235,671	$ –	$ –	$ 9,235,671
Investments valued using the NAV per share practical expedient				70,975,460
Total investments at fair value				$80,211,131
2024				
Mutual funds	$8,567,485	$ –	$ –	$ 8,567,485
Investments valued using the NAV per share practical expedient				67,399,240
Total investments at fair value				$75,966,725

8. Income Tax Status

The Plan has received a letter dated February 28, 2023 from the Internal Revenue Service (IRS) that the form of the Plan was acceptable under Section 401 of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

9. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by the trustee and, therefore, these transactions qualify as party-in-interest transactions. The Plan paid trustee fees to the trustee during 2025. The Plan Sponsor also provides certain administrative services at no cost to the Plan.

10. Reconciliation of Financial Statements to Form 5500

Capital gain distributions in the amount of $386,542 for the year ended December 31, 2025 are included in dividend and interest income in the Statement of Changes in Net Assets Available for Benefits in these financial statements. Such amounts are included in net investment gain in Form 5500.

Description of Actuarial Methods

Asset Valuation Method

The Actuarial Value of assets used in the development of plan contributions phases in recognition of the difference between the actual return on Market Value and the expected return on Market Value over a three-year period at 33.33% per year. The Actuarial Value is adjusted, if necessary, to comply with the IRC Sec. 430 requirement that the Actuarial Value of assets be within the range of 90% to 110% of the Market Value of assets. This method is equivalent to the smoothed market value method without phase-in described in Approval 3.16 of Revenue Procedure 2000-40. This was first used for the 2009 valuation.

Actuarial Cost Method

Funding Target Liability: Unit Credit Actuarial Cost Method.

Maximum Liability: Projected Unit Credit Actuarial Cost Method. The allocation of projected benefits between past years and future years is in proportion to the applicable rates of benefit accrual under the Plan.

Description of Actuarial Assumptions

Changes in Actuarial Assumptions as of January 1, 2025

The valuation reflects changes in the actuarial assumptions listed below. (The assumptions used before and after these changes are more fully described in the next section.)

- None

With the exception of the valuation interest rate, the assumptions indicated were changed to represent the Enrolled Actuary's current best estimate of anticipated experience of the Plan.

Interest Rates

The American Rescue Plan Act of 2021 (ARPA) was signed into law on March 11, 2021. ARPA continues to use a 24-month bond averaging period methodology for determining the segmented interest rates used in the calculation of the Plan's target liability and a corridor based on a 25-year bond averaging period. However, now the corridor based on 25-year average segment rates and the applicable minimum and maximum percentages used for purposes of calculating the Plan's target liability to adjust the 24-month average segment rates has been extended. In addition, any 25-year average segment rate that is less than 5% is deemed to be 5%.

The Infrastructure Investment and Jobs Act was signed into law on November 15, 2021 that further extended funding stabilization. The corridors under the new laws are as follows:

	Corridor After ARPA		
Years	**Corridor**	**Years**	**Corridor**
2020-2021	95% to 105% if not deferred	2020-2021	95% to 105% if not deferred
2022-2025	95%-105%	2022-2030	95%-105%
2026	90%-110%	2031	90%-110%
2027	85%-115%	2032	85%-115%
2028	80%-120%	2033	80%-120%
2029	75%-125%	2034	75%-125%
2030+	70%-130%	2035+	70%-130%

The corridor rates are used for purposes of the calculation of the Plan's minimum required contribution and the determination of the Plan's AFTAP certification, but cannot be reflected in the calculation of the Plan's maximum tax deductible contribution or the PBGC variable premium liability. This report reflects the rates under ARPA as allowed under current legislation.

Valuation: Segment rates for the 4th month preceding the Valuation Date (i.e., September). The rates are shown below.

	2025		2024	
Segment	Before Adjustment	After Adjustment	Before Adjustment	After Adjustment
1st	5.07%	5.07%	3.62%	4.75%
2nd	5.33%	5.31%	4.46%	4.87%
3rd	5.36%	5.50%	4.52%	5.59%

Interest Rates (cont.)

The rates before adjustment are the standard 24-month segment rates determined under any prior interest rate relief laws. They are used in the determination of the Plan's maximum tax deductible contribution.

The rates after adjustment reflect the application of the applicable corridor around the 25-year average rates. They are used in the determination of the Plan's minimum required contribution and AFTAP for benefit restriction purposes.

PBGC premium: Valuation basis, before adjustment, last elected for the 2010 plan year.

Expected Return for Asset Smoothing

Year	Assumption	Not to Exceed
2025	7.00%	5.50%
2024	7.00%	5.59%
2023	7.00%	5.74%
2022	7.00%	5.92%

The expected long-term rate of return on assets is estimated using the Plan Sponsor's long-term target asset allocation and the long-term capital market assumption for each asset class in that allocation provided by the pension fund's investment advisor.

Mortality

Pri-2012 Mortality Table projected to valuation date with an adjusted version of Scale MP-2021.
Separate tables for annuitants and non-annuitants.

Mortality Improvement

Projected to date of decrement using an adjusted version of Scale MP-2021 (generational).

Inflation

2.50%.

This assumption is based on long term historical inflation numbers.

Salary Scale (including inflation)

3.50% per year.

Increases in IRC Sec. 401(a)(17) compensation limit

As required by law, no increases are assumed.

Increases in IRC Sec. 415(b) limit on benefits

As required by law, no increases are assumed.

Social Security taxable wage base increases

3.00%.

The set of assumptions above is based on the inflation assumption since these amounts increase with inflation. The Social Security taxable wage base increase also includes an assumption for future productivity improvements.

The service cost includes an estimate of the administrative expenses for the upcoming year.

The estimate is based on actual expenses paid from the trust in the prior year.

Percent of active employees married

80% of males and 80% of females.

Spouse's age

Husbands are assumed to be 3 years older than wives.

Summary of Plan Provisions

This exhibit summarizes the major provisions of the Plan. It is not intended to be, nor should it be interpreted as a complete statement of all plan provisions. To the extent that this summary does not accurately reflect the plan provisions, then the results of this valuation may not be accurate.

Effective date

Original: January 1, 1967, restated effective January 1, 2011.

Latest Amendment: Effective December 31, 2020.

Plan year

The 12-month period ended December 31.

Participation

Eligible Employee: A salaried employee employed to work on an annual basis of at least 1,000 hours will become a participant on the first of the month coincident with or next following the date of attainment of age 21 and date of employment.

Any other employee whose regular employment is for less than 1,000 hours will become a participant on the first of the month coincident with or next following the date of attainment of age 21 and 1 year of eligibility service. Employees first hired after December 31, 2020 will not be eligible to enter the plan.

Benefit service

One year for each plan year of completion of 1,000 hours of service. A partial year of service will be earned for the year in which an employee is hired or a termination of service occurs regardless of hours.

Vesting service

One year of service for each plan year the participant completes 1,000 hours of service.

Annual compensation

Base earnings excluding bonus or overtime pay.

Average annual compensation

The average annual compensation during the 36 consecutive calendar months within the period of employment producing the highest average.

Integration Level

150% of the average Social Security Taxable Wage Base in effect for the 35 year period ending with the year the employee terminates or retires for an individual attaining Social Security normal retirement age.

Accrued benefit

Prior to 1/1/2014:

The sum of (i) and (ii):

(i): 2.00% of Average Annual Compensation

(ii): 0.40% of Average Annual Compensation in excess of the Integration Level times Benefit Service with a maximum of 30 years.

Accrued benefit (cont.)

Effective 1/1/2014: The sum of:

i) the Member's Accrued Benefit under the Plan as of December 31, 2013, determined under the terms of the Plan in effect on that date (without regard to any amendments made after that date) as if the Member terminated employment on that date; plus

ii) 1% of the Member's Final Average Compensation multiplied by his number of years of Benefit Service completed after December 31, 2013;

iii) 0.4% of the Member's Final Average Compensation in excess of the Integration Level multiplied by his number of years of Benefit Service completed after December 31, 2013.

No more than 25 years of Benefit Service, reduced by any years of Benefit Service taken into account under paragraph (i) above in determining the Member's Accrued Benefit as of December 31, 2013, shall be taken into account for purposes of determining a Member's benefit under paragraphs (ii) and (iii) above.

Normal retirement

Eligibility: The first day of the month coinciding with or next following the later of age 65 or 5 years vesting service or the 5th anniversary of participation.

Benefit: Accrued benefit as of normal retirement date.

Early retirement

Eligibility: A participant who has attained age 50 and completed 5 years of vesting service.

Benefit: Accrued benefit at date of termination of service, reduced 6.67% for each of the first 5 years preceding Normal Retirement Date, 3.33% for each of the next 5 years and 3% for each subsequent year. Benefits are unreduced at age 62 with 20 years of vesting service.

Late retirement benefit

Accrued benefit as of late retirement date.

Termination prior to retirement

Vesting schedule: 100% after completion of 5 years of Vesting Service.

Benefit: Accrued benefit as of date of termination, first payable upon normal retirement eligibility. Earlier benefit commencement may be elected, subject to early retirement eligibility and reduction factors.

Death prior to retirement

Eligibility: Participation in the plan.

Benefit: The Normal or Early Retirement Benefit, assuming the participant terminated employment at date of death elected a 100% Joint and Survivor Benefit is payable to the surviving spouse or, if there is no surviving spouse, their children, until the youngest child attains age 21.

or

A participant who did not meet the requirements above, and died while in active service having an eligible surviving spouse and was eligible for a Vested Retirement Benefit, will be entitled to a benefit.

The Vested Retirement Benefit, assuming the participant terminated employment at date of death, and elected a 50% Joint and Survivor Benefit, is payable to the surviving spouse.

Normal form of pension

A monthly annuity payable for the life of the participant.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
