REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Trustees
Bryn Mawr College Retirement Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit
We were engaged to perform audits of the financial statements of Bryn Mawr College Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Disclaimer of opinion
We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for disclaimer of opinion
As described in Note C to the financial statements, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Grant Thornton LLP is a U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Responsibilities of management for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements
Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Other matter – supplemental schedules required by ERISA
The supplemental schedule of delinquent participant contributions for the year ended December 31, 2025 and schedule of assets (held at end of year) as of December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

NOTE A - DESCRIPTION OF PLAN

The following description of the Bryn Mawr College Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, including definitions of key terms.

General

The Plan is a defined contribution plan covering substantially all employees of Bryn Mawr College (the College and Plan Sponsor). An eligible employee may make participant contributions at any time. Employees are eligible to commence participation in the College's non-matching contribution on the first day of the month coinciding with or next following the eight-month anniversary of his or her employment with the College or, if later, the date prior to his or her completion of a year of service on which he or she experiences a schedule change such that he or she is thereafter scheduled to work a year of service. The Board of Directors of the College controls and manages the operation and administration of the Plan.

TIAA is the custodian of the remaining Plan assets and recordkeeper of the Plan prior to the transition.

On October 9, 2025, the College adopted an amendment to the Plan, effective January 1, 2026, modifying the Plan's eligibility and vesting provisions. Under the amendment, the minimum service requirement applicable to the College's non-elective contribution is eliminated, and eligible employees may commence participation in the non-elective contribution without a minimum service requirement. In addition, participants who are hired or rehired by the College on or after January 1, 2026, become 100% vested in their accounts upon completion of eight months of service, determined using the elapsed time method. Participants who were hired or rehired prior to January 1, 2026, remain 100% vested in their accounts at all times. Full vesting is also provided for a participant who terminates employment due to death or disability while an employee.

Contributions

Participants may make pre-tax contributions not to exceed the participant's eligible compensation for the calendar year, as defined in the Plan document, subject to certain limitations. The College makes a non-matching contribution of 10% of the participant's regular salary on a per-pay-period basis, provided that the employee is credited with 1,000 hours of service during the Plan year. Participants to the Plan are also eligible to Roth deferral contributions.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the College's contribution, and Plan earnings, and is charged with withdrawals and an allocation of Plan losses and administrative expenses (as applicable). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balances into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Participants may select from investment options available under the TIAA and CREF 403(b) Program. Plan earnings (losses) are allocated to participants' accounts on a daily basis according to the type of funding vehicle in which balances are invested.

Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option.

Vesting and Forfeitures

Participants' deferral contributions, the College's non-matching contributions and earnings thereon are fully and immediately vested. As such, there were no forfeited non-vested accounts as of December 31, 2025 and 2024.

Effective January 1, 2026, participants hired or rehired on or after that date will become 100% vested upon completion of eight months of service. Forfeitures, if any, may be used to restore previously forfeited amounts, to reduce College contributions, to be reallocated as College contributions, or to pay Plan expenses.

Notes Receivable from Participants

Loans through TIAA are subject to the following limitations: (a) the loan qualifies for exemption under ERISA code; (b) the amount of the loan does not exceed the maximum amount permissible within the limits of ERISA code; and (c) the terms and conditions of the loan satisfy the applicable repayment requirements under ERISA code. Plan loans are issued directly from the funds owned by TIAA, and loan proceeds are not removed from a participant's account balance. However, a portion of the participant's TIAA Traditional Annuity Contract (Traditional Annuity) account balance is reserved or held in collateral to cover 110% of the outstanding loan amount for the period of time the loan is outstanding. See Note F for discussion of the Traditional Annuity. As of December 31, 2025 and 2024, participants had outstanding participant loan balances due to TIAA of $374,786 and $302,634, respectively. As of December 31, 2025 and 2024, outstanding plan loans which were collateralized by Traditional Annuity account balances amounted to $9,469 and $9,010, respectively. These amounts are included in the Traditional Annuity account balances reported in the accompanying statements of net assets available for benefits. Interest expense is offset by the income received by the participants on the collateralized annuity contracts.

During the year ended December 31, 2025, participant loan funds totaling $42,171 were classified as deemed distributions and accordingly, recorded as distributions in the accompanying statement of changes in net assets available for benefits.

Payment of Benefits

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated Plan balance, subject to the terms and certain limitations of the funding vehicles. Distribution options include lump-sum payments, partial payments or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances after reaching age 59½ Rollover account balances may be withdrawn at any time. Per Internal Revenue Service (IRS) regulations, participants are required to take a required minimum distribution by April 1 of the year following the year they reach age 73.

Effective on November 1, 2024, the Plan was amended such that a terminated participant with an account balance less than $1,000 will automatically receive a distribution from the Plan if he or she fails to make an election to take a distribution. These can be taken as a cash distribution, lump sum distribution, installment payments, or distributions in the form of an annuity.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note F for further discussion of the TIAA Traditional Annuity.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the Plan's fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Using Estimates in Preparing Financial Statements

In preparing financial statements in conformity with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and reported additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan incurred by TIAA are paid by the College. Loan processing fees and distribution fees may be paid by the participants at the College's discretion.

Management fees and operating expenses charged to the Plan by TIAA are deducted from investment income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return.

Plan Servicing Credits

The Plan received Plan Servicing Credits of $271,608 and recorded the amount as net investment income. Plan Servicing Credits represent funding from TIAA, which is reallocated to the participants and used to pay plan expenses.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. If a participant ceases to make loan repayments and the Plan Administrator deems the participant's loan to be a distribution, the participant's loan balance is reduced, and a benefit payment is recorded.

NOTE C - PLAN RECORDS MANAGEMENT

In November 2007, the Department of Labor (DOL) issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of ERISA. Prior to the amended regulations, the Plan (established in 1920) was not viewed as a separate reporting entity. Historically, the Plan was viewed as a collection of individual contracts within which participants could engage in a range of actions with limited involvement, if any, by the Plan Sponsor. Accordingly, various accounting, human resources and payroll records related to the Plan's 403(b) annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, were not sufficiently maintained by the Plan. Consequently, the financial statements and supplemental schedule have been prepared based on available records analyzed by Plan management. As certain records were not available from the inception of the Plan, the effect, if any, on the completeness or accuracy of the Plan's financial statements cannot be determined.

NOTE D - INVESTMENTS AND INFORMATION CERTIFIED BY CUSTODIANS

The Plan Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and College Retirement Equities Fund (CREF), custodians of the Plan and recordkeeper have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate. The TIAA and CREF certification also extend to those investments, if any, which TIAA Trust, N.A. and TIAA, FSB both national trust banks, held as a directed trustee or custodian that were kept by TIAA for the years ended December 31, 2025 and 2024, respectively:

- Investments, at fair value and contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024;
- Net investment income and interest income on notes receivable from participants and plan servicing credit, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025; and
- Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2025.

The Plan's independent certified accountants did not perform auditing procedures with respect to information certified by the trustees, except for comparing such information to the related information included in the above-named financial statements and supplemental schedule.

NOTE E - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).
- The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies held as variable annuity accounts) are based on each account's daily net asset value (NAV), which is considered by Plan management to be the best approximation of fair value. CREF accounts are not exchange traded and are classified within Level 1 of the fair value hierarchy. Data for NAVs are available daily to Plan Administrators and client investors on NASDAQ's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources.
- The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by the Plan's management to be the best approximation of fair value. This investment is classified within Level 2 of the fair value hierarchy. The unit value of the fund is calculated daily and available to Plan Administrators and client investors on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer or cash withdrawal requests.
- Investments in TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to these investments that could impact the value realized upon exiting certain types of contracts within the TIAA Traditional Annuity account. See also Note F for discussion of the TIAA Traditional Annuity. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including a review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, while others are substantiated utilizing available market data.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$215,198,247	$ -	$ -	$215,198,247
Pooled separate account	-	7,983,799	-	7,983,799
Registered investment companies	88,317,234	-	-	88,317,234
TIAA Traditional annuity	-	-	52,162,877	52,162,877
Total	$303,515,481	$ 7,983,799	$ 52,162,877	$363,662,157

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$183,091,907	$ -	$ -	$183,091,907
Pooled separate account	-	6,719,330	-	6,719,330
Registered investment companies	83,355,635	-	-	83,355,635
TIAA Traditional annuity	-	-	50,729,667	50,729,667
Total	$266,447,542	$ 6,719,330	$ 50,729,667	$323,896,539

Purchases and sales of Level 3 investments were $10,520,116 and $10,871,589, respectively for the Plan year ended December 31, 2025. The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Unrealized gains/(losses) from the TIAA Traditional Annuity guaranteed investment contracts are not included in the statement of changes in net assets available for benefits as the contracts are recorded at contract value, which approximates fair value for purposes of the net assets available for benefits.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2025 and 2024:

	2025 Fair Value	2024 Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range*
TIAA Traditional Annuity Account	$ 52,162,877	$ 50,729,667	Discounted cash flow Theoretical Transfer (exit value)	Risk adjusted discount rate applied	RA 3.55% - 6.50% RC 3.80% - 6.75%

*See Note F for definition of the RA and RC contract types.

Significant increases or decreases in the above unobservable inputs in isolation would result in a significantly lower or higher fair value measurement for such assets.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE F - TIAA TRADITIONAL ANNUITY

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Retirement Choice (RC), Supplemental Retirement Annuities (SRA), and Group Supplemental Retirement Annuities (GSRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. Participants' principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating RA contracts, the crediting interest rate was 4.75% as of December 31, 2025 and 5.25% as of December 31, 2024. For accumulating RC contracts, the crediting interest rate was 5.00% as of December 31, 2025 and 5.50% as of December 31, 2024. For accumulating SRA and GSRA contracts, the crediting interest rate was 4.00% as of December 31, 2025 and 4.50% as of December 31, 2024.

The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over 10 annual installments. All other withdrawals and transfers from RA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). Therefore, the RA contract is not fully benefit-responsive. Participant withdrawals and transfers from TIAA Traditional Annuity in RC contracts must be taken in 84 monthly installments, except that a lump-sum distribution is available subject to a 2.5% surrender charge. The SRA and GSRA contracts provide for full participant-directed liquidity. Therefore, the SRA and GSRA contracts are fully benefit-responsive. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

NOTE G - RELATED PARTY TRANSACTIONS

All transactions that are considered party-in-interest transactions relate to normal management and administrative services, and the payment of expenses related thereto. Plan investments include investment contracts, a pooled separate account and registered investment companies managed by TIAA and CREF, custodians of the Plan. Notes receivable from participants also qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets (held at end of year). Therefore, transactions pertaining to these investments qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

NOTE H - PLAN TERMINATION

Although it has not expressed any intention to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100% vested in their College contributions.

NOTE I - TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform to the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan Administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes that the Plan is qualified and the related accounts are tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no material uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued. Plan management is not aware of any subsequent events which would require recognition or disclosure in the financial statements other than those disclosed in Note A.
