Independent Auditor's Report

To the Plan Administrator
Nemak Pension Plan for UAW Hourly Employees
Grandville, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Nemak Pension Plan for UAW Hourly Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The ERISA-required Supplemental Schedule H, line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the

financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Plan Description

The following description of the Nemak Pension Plan for UAW Hourly Employees (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted effective September 1, 1960, and covered all employees of Nelson Metal Products, LLC (Nelson), a wholly-owned subsidiary of J.L. French Automotive Castings, Inc. (French), who were members of the collective bargaining agreements between Nelson and the International Union, United Automobile, Aerospace and Agricultural Implement Workers' of America (UAW) Local 19 (the Union) prior to the closure of the Grandville, Michigan plant on May 31, 2003. The Plan is a noncontributory defined benefit pension plan under Internal Revenue Code (IRC) Section 401(a). Prior to May 31, 2003, participation in the Plan commenced on the day an employee began employment. Effective August 1, 2012, the Plan was frozen and it was determined the Plan would be maintained until all benefits have been disbursed under the normal course of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

In 2012, French was acquired by Nemak USA, Inc. (the Company).

The Plan is administered by the Company's Retirement Plan Investment Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement, as determined annually by an actuary. There were no minimum funding requirements for 2025 or 2024; therefore, there were no contributions to the Plan in the years ended December 31, 2025 and 2024. Participants are not permitted to make contributions to the Plan.

Benefit Payments

Benefits are determined based on the participant's hypothetical account balance. Plan participants are entitled to unreduced monthly pension benefits beginning at the normal retirement age of 65. The Plan permits early retirement benefits for participants who have completed five or more years of vesting service and attained age 57. Benefit payments are made through varying annuity formats, as defined.

Benefit determination – the monthly benefit to be received under the Plan is calculated as follows:

(a) Normal retirement benefit – Years of benefit service at the date of the participant's qualifying termination, as defined by the Plan, multiplied by the benefit rate in effect at that date. Effective with the plant closure and termination of all employees, the benefit rate was frozen at $19.75. For participants terminating prior to plant closure, the normal retirement benefit was determined pursuant to the provisions of the Plan in effect as of the date of the participant's date of termination of employment.

(b) Early retirement benefit – Normal retirement benefit, determined in (a) above, at date of early retirement reduced actuarially for each month by which the date of first payment precedes the participant's normal retirement date. The early retirement benefit is adjusted for eligible benefits under the Social Security Act, as defined by the Plan.

(c) Late retirement benefit – Normal retirement benefit, determined in (a) above, based on the greater of (i) years of benefit service as of the late retirement date; or (ii) the actuarial equivalent of the benefit to which the participant would have been entitled if benefits commenced on the normal retirement date.

In addition to the above, the Plan also contains certain provisions for Medicare, disability and survivor benefits.

Vesting

All participants became 100 percent vested on the plant closure date.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Interest-bearing Cash

Interest-bearing cash represents cash deposits held by the trustee in interest-bearing accounts. Due to the short-term nature of these deposits, carrying value approximates fair value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by its investment advisor, the Sentinel Group (Sentinel). See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. All other administrative expenses of the Plan are paid by the Company and excluded from these financial statements. Investment related expenses are included in net appreciation in the fair value of investments.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to employee service rendered through the Plan's freeze date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees and (b) beneficiaries of employees who have died. Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered through the plant closure date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and represents the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounting) and the probability of payment (through assumptions regarding mortality, retirement, and other relevant demographic factors) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2025, were as follows:

Assumption	
Mortality table	Pri-2012
Investment return	6.00%
Interest rate	5.00%
Retirement age	62
Cost method	Unit credit cost
Plan expenses	$60,000

The foregoing actuarial assumptions have been adjusted to reflect the change in plan status to a frozen plan whereby the current benefits will be disbursed in the normal course of the Plan. If the Plan were to fully terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026. Had the valuations been performed as of December 31, 2025, there would be no material differences.

A summary of the actuarial present value of accumulated plan benefits is shown below:

December 31,		2025
Actuarial Present Value of Accumulated Plan Benefits		
Vested benefits		
Participants currently receiving benefits	$	3,662,582
Other participants		1,476,351
Total Vested Benefits		5,138,933
Total Actuarial Present Value of Accumulated Plan Benefits	$	5,138,933

The change in the actuarial present value of accumulated plan benefits is as follows:

Year ended December 31,		2025
Actuarial Present Value of Accumulated Plan Benefits, beginning of year	$	5,311,416
Increase (decrease) during the year attributable to:		
Interest adjustment		255,380
Benefits paid		(412,624)
Benefits accumulated and other plan experience		(15,239)
Net Decrease		(172,483)
Actuarial Present Value of Accumulated Plan Benefits, end of year	$	5,138,933

4. Certified Investment Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedule, related to investments held at December 31, 2025 and 2024, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank (Schwab), a qualified institution.

The Plan's investments are comprised of shares in a U.S. Treasury money market mutual fund (Federated Hermes Treasury Obligations Fund), which is registered under the Investment Company Act of 1940. Although the fund seeks to maintain a stable net asset value and is generally considered a cash equivalent for liquidity purposes, it is classified as a registered investment company for purposes of these financial statements and the Plan's Form 5500. These investments comprise the "Investments, at fair value" line item on the Statement of Net Assets Available for Benefits.

5. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated February 28, 2023, stating that the Plan was designed in accordance with the applicable regulations of the IRC. Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party Transactions and Party-In-Interest Transactions

Certain Plan assets are managed by Schwab. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

7. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2025 and 2024.

Following is a description of the valuation methodologies used for assets measured at fair value:

Money Market Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value:

December 31, 2025

	Level 1	Level 2	Level 3	Total
Money Market Mutual funds	$ 6,103,691	$ -	$ -	$ 6,103,691
Total Investments at fair value	$ 6,103,691	$ -	$ -	$ 6,103,691

December 31, 2024

	Level 1	Level 2	Level 3	Total
Money Market Mutual funds	$ 6,297,914	$ -	$ -	$ 6,297,914
Total Investments at fair value	$ 6,297,914	$ -	$ -	$ 6,297,914

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

As of December 31, 2025 and 2024, all investments were held in the US Treasury Money Market Fund. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2025.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

9. Plan Termination

During the year ended December 31, 2024, the Plan's investments were liquidated and held in a money market mutual fund in anticipation of a potential termination. As of the date these financial statements were issued, no formal termination had been approved, and the Plan continues to operate under the terms of the governing plan document. The Plan sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event the Plan terminates, the net assets of the Plan shall be used and applied first for the benefit of retired employees and employees who have reached their normal retirement date and second for the benefit of all other employees based on their accrued retirement benefits as the date of termination of the Plan in the amounts proportionate to the actuarially determined present values of their retirement benefits at the date of termination of the Plan. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

10. Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date the financial statements were available to be issued.

The Plan Sponsor continues to evaluate the potential termination of the Plan. As of the date these financial statements were available to be issued, no formal approval or plan amendment to terminate the Plan had been executed.

ASC 960 *(CO)*	5.00%	5.00%	5.00%

Interest rates for Minimum and Maximum Funding are prescribed by IRS regulation.

All segment rates are based on the plan sponsor's election to use a 0-month lookback. The PBGC interest rates are based on the sponsor's election to change to the Standard calculation method begining with the 2023 valuation.

Payment Form Election *(FE)*

Lump Sum	0%
Annuity	100%

Expense and/or Contingency Loading *(FE)*

The Target Normal Cost is not increased to cover anticipated administrative expenses paid from the trust for the 2025 plan year.

Marital Status and Ages *(FE)*

90% of participants assumed to be married with wives assumed to be 4 years younger than husbands.

Market Value of Assets

Equal to the fair value of assets as of the valuation date, plus the discounted value of contributions made following the valuation date and before the date of this report for the purpose of satisfying the prior year's funding requirements

Plan Asset Valuation Method

PPA Smoothed Value of Assets. Gains or losses on the Market Value of Assets are recognized over three years, subject to a 10% corridor around the Market Value of Assets

Expected Rate of Return on Assets (CO)	For determination of the Plan Asset value, the expected return on assets is equal to 6.00% for 2023 and 6.00% for 2024. The expected return on assets is capped at the third segment rate.
Cost Method	PPA requires the use of the Unit Credit cost method for determining the minimum required contribution and PBGC premiums. The maximum tax deductible contribution calculation includes limited Projected Unit Credit calculations as required under IRC 404(o). ASC 960 requires the use of the Unit Credit cost method.

FE indicates an assumption representing an estimate of future experience
MD indicates an assumption representing observations of estimates inherent in market data
CO indicates an assumption representing a combination of an estimate of future experience and observations of market data

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Effective Date

The plan was effective December 30,1960, and last restated effective January 1, 2020. The plan was last amended effective January 1, 2022.

Plan Status

The plan is closed to new participants and all accruals have been frozen.

Eligibility for Participation

Each employee is eligible to become a participant in the plan immediately upon employment. However, no new participants shall commence participation in the plan after May 31, 2003.

Accrued Benefits

A participant shall accumulate a benefit payable at normal retirement date based on benefit accrual years of service as of the date of determination. Benefit accruals were frozen as of May 31, 2003.

Benefits

Normal Retirement

Eligibility	Age 65 or fifth anniversary of plan participation, if later
Benefit	The normal retirement benefit, which is payable monthly for the life of the participant, is equal to $19.75 multiplied by all years of benefit service. Participants who terminated prior to August 31, 2003 have lower multipliers. Benefits have been frozen as of May 31, 2003.

Early Retirement

Eligibility	Age 57 and 5 years of vesting service
Benefit	Accrued retirement benefit reduced actuarially for each month by which the participant's date of benefit commencement precedes age 62.

Special Early Retirement

Eligibility	Involuntary termination after attaining age 57 and 5 years of vesting service
Benefit	Accrued retirement benefit as of early retirement date, without actuarial reduction, plus a supplemental benefit equal to accrued normal retirement at early retirement date without reduction for immediate payment. The supplemental benefit ceases when the participant dies, reaches age 65, or becomes eligible for unreduced Social Security benefits for age or disability. As a result of the plant shutdown effective May 31, 2003, participants who were not eligible for or who had not begun to receive this benefit as of that date will no longer be eligible for this benefit.

Late Retirement

Eligibility	Participation continues after normal retirement date
Benefit	Greater of accrued retirement benefit commencing as of the first day of the month following his late retirement date based on benefit service at such date or accrued benefit as of normal retirement date actuarially increased for delayed commencement

Death before Retirement

Eligibility — Married participant with vested benefit

Benefit — The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continuing for the lifetime of the surviving spouse. The benefit is determined as the benefit the spouse would have received if the participant had terminated employment the day before death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 55% survivor benefit.

Disability

Eligibility — Actively employed and ten years of vesting service

Benefit — 100% of accrued retirement benefit plus a temporary supplemental benefit as described for Special Early Retirement. As a result of the plant shutdown effective May 31, 2003, participants who were not eligible for or who had not begun to receive this benefit as of that date will no longer be eligible for this benefit.

Termination Benefit

Eligibility — 5 years of vesting service

Benefit — 100% of accrued retirement benefit. Upon attainment of age 57, the participant may elect to commence benefits under the early retirement provision.

Credited Service

For Vesting

Service credited for vesting purposes means the number of plan years, commencing on or after January 1, 1976, in which the employee completes at least 1,000 hours of service, subject to certain break in service rules.

For Benefit Accrual

Service credited for benefit purposes means the number of plan years, commencing on or after January 1, 1976, in which the employee completes at least 1,200 hours of service, subject to certain break in service rules. If the employee completes less than 1,200 hours of service, benefit service is credited at a rate of 1/10 of a year for each 120 hours of service completed. No service for benefit purposes will be credited under the plan after May 31, 2003.

For any period of employment prior to 1976, service is determined under the provision of the prior plan.

Payment Forms

Normal Form

For unmarried participants, the normal retirement benefit shall be payable as a single life annuity. For married participants, the normal retirement benefit shall be payable as an actuarially equivalent qualified joint and 55% survivor annuity

Optional Forms

Life Annuity, 10-Year Certain and Life Annuity, 55% and 75% Joint and Survivor Annuity

Actuarial Equivalence

For non-decreasing annuities: Actuarial Equivalence will be computed using 4.25% interest and the 1951 Group Annuity Mortality Table, projected 14 years by scale C and made unisex by assuming a 95% male and 5% female mix.

For accelerated forms of payment: Actuarial Equivalence will be computed using the interest rate and mortality as prescribed under Code Section 417(e)(3). The interest rate will be for the month of November preceding the Plan Year that contains the annuity starting date.

Plan Provisions Not Included

We are not aware of any plan provisions not included in the valuation.

Adjustments Made for Subsequent Events

We are not aware of any event following the measurement date and prior to the date of this report that would materially impact the results of this report.
