INDEPENDENT AUDITOR'S REPORT

To the Trustees of
The Citizens Bank KSOP Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Citizens Bank KSOP Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan:

The following description of The Citizens Bank KSOP Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Citizens Bank (the "Bank") established the Plan effective April 18, 2013. The Bank is a subsidiary of Citizens Bancshares Corporation (the "Company"). The Plan is a defined contribution plan covering substantially all employees of the Company with 3 months of service and who have attained the age of 18. Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Principal Trust Company") and the Company's board of directors (the "Board") serve as trustees of the Plan. The Plan operates, in relevant part, as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may elect to defer a portion of their eligible compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company makes a safe harbor matching contribution of 100% of the first 3% and 50% of the next 2% of base compensation that a participant contributes to the Plan. Additional discretionary profit sharing amounts may be contributed at the option of the Board. An employee must be an active participant on the last day of the Plan year and have at least 1,000 hours of service during the Plan year to receive the discretionary profit sharing contribution. During the year ended December 31, 2025, the Company made $106,175 in discretionary contributions to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is based on a graduated schedule. A participant is 100% vested after 6 years of credited service.

Payment of Benefits - On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. The Plan permits in-service and hardship distributions under certain conditions.

For participants in the ESOP portion of the Plan, distributions are made in cash or, if a participant elects, in the form of Company common stock. Participants may elect to receive the distribution in either a lump-sum amount or in installments over a period not to exceed 5 years. Distributions on account of death, disability, or retirement are made beginning in the Plan year following the event. Distributions for other separations from service commence in the fifth plan year following the separation from service. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan within 60 days of the distribution if the shares are not readily tradable.

Forfeited Accounts - There were no forfeited nonvested accounts as of December 31, 2025 or 2024. Forfeited nonvested accounts are used to reduce future employer contributions or pay administrative expenses. Any ESOP component forfeitures are allocated to participants eligible to share in the discretionary profit sharing contribution in the same proportion that their compensation bears to the total compensation of all such participants. In 2025, approximately $1,500 from forfeited nonvested accounts were reallocated to eligible participants.

Voting of Company Stock - The Board shall vote all Company stock held as part of Plan assets. Provided, however, that if any agreement entered into by the Plan provides for voting of any shares of Company stock pledged as security for any obligation of the Plan, then such shares of Company stock shall be voted in accordance with such agreement. If the Plan does not timely receive voting directions from a participant or beneficiary with respect to any Company stock allocated to that participant's or beneficiary's Company stock account, the Board shall vote such Company stock.

Put Option - The Company common stock that is held by the Plan and its participants and is not readily tradeable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock as determined by an independent valuation specialist. The Company can pay for the purchase with interest over a period of 5 years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 2. Summary of Significant Accounting Policies:

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock. The financial statements include the Company's common stock valued at $45.25 per share at December 31, 2025 and $41.25 per share at December 31, 2024. The stock's value has been estimated by management in the absence of a readily ascertainable market value. This estimate was based on a valuation completed by an independent outside appraiser. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed, and the difference could have a material effect on the Plan’s financial statements.

Payment of Benefits - Benefits are recorded when paid.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Recently Issued Accounting Pronouncements - Accounting standards that have been issued or proposed by the Financial Accounting Standards Board or other standards-setting bodies are not expected to have a material impact on the Plan's financial statements.

Note 3. Certified Investments:

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025 included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Principal Trust Company and furnished to the plan administrator. The plan administrator has obtained certifications from Principal Trust Company that the information provided to the plan administrator by Principal Trust Company related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information, which appears throughout the financial statements and supplemental schedule, related to the following assets as of December 31,:

	2025	2024
Investments at fair value:		
Mutual funds	$ 7,628,171	$ 7,156,594
Collective trust funds	17,863,181	15,828,170
Pooled separate accounts	751,824	713,259
	$ 26,243,176	$ 23,698,023

Principal Trust Company also certified the completeness and accuracy of approximately $3,147,000 of net appreciation in fair value of investments and approximately $130,000 of dividends and interest income for the year ended December 31, 2025. Approximately $356,000 of net appreciation in fair value of investments and approximately $48,000 of dividends and interest income for the year ended December 31, 2025 are the result of the money market fund and common stock, which are not certified by the trustee.

Note 4. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, such as: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Collective trust funds and pooled separate accounts: Valued at Net Asset Value ("NAV"). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stock: The fair value of the Company's common stock is determined by an independent valuation specialist utilizing both an income and market approach. Factors considered in determining the fair market value include the nature and history of the Company, the economic outlook for the banking industry, the Company's financial condition, projections of future earnings, the capacity to continue to pay dividends and previous sales of the Company's stock. Additionally, the prevailing market valuation multiples of selected publicly-traded banking organizations located in the Southeastern United States are also considered in the evaluation of fair value.

Money market fund: The Plan has a money market account at the Bank to provide daily liquidity. The fund value is based on deposits plus interest, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	As of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,628,171	$ -	$ -	$ 7,628,171

Total assets in the fair value hierarchy	$ 7,156,594	$ 377,928	$ 3,664,279	11,198,801
Investments measured at NAV[(a)]				16,541,429
Investments at fair value				$ 27,740,230

[(a)] Certain investments that were measured at NAV per share or its equivalent have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available for benefits.

The following tables set forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value:

	As of December 31, 2025			
	Fair value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust funds	$ 17,863,181	$ -	Daily	None
Pooled separate accounts	751,824	-	Daily	None
	$ 18,615,005	$ -		

	As of December 31, 2024			
	Fair value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust funds	$ 15,828,170	$ -	Daily	None
Pooled separate accounts	713,259	-	Daily	None
	$ 16,541,429	$ -		

No Level 3 investments were purchased or sold during the year ended December 31, 2025.

Note 5. Concentrations of Credit Risk:

Financial instruments, which potentially subject the Plan to concentrations of credit risk, consist principally of investments in managed funds and in common stock of the Company. The Plan offers a variety of funds so participants may diversify investments between separate funds in order to limit the amount of credit exposure to any one fund. The underlying assets owned by that fund collateralize each managed fund.

As of December 31, 2025 and 2024, the Plan's assets included $4,019,603 and $3,664,279, respectively, in common stock of the Company. This represents approximately 13% of total Plan assets as of December 31, 2025 and 2024. Therefore, a significant portion of the fair value of Plan assets is subject to fluctuation in the price of the Company's common stock.

Note 6. Related-Party and Party in Interest Transactions:

Certain Plan investments are invested with the Company as described in Note 5, and the Plan has a money market account with the Bank as described in Note 4. These relationships are considered parties in interest.

Certain Plan investments are managed by Principal Trust Company and Principal Life, an affiliate of Principal Trust Company. Principal Trust Company is a trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Certain plan investments were held by Principal Life Insurance Company, an affiliate of Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party in interest transactions. As described in Note 2, the Plan made direct payments to Principal Life Insurance Company totaling $4,350 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their discretionary Company profit sharing contributions.

Note 8. Tax Status:

Effective January 1, 2021, the Plan adopted a non-standardized pre-approved plan sponsored by Principal Life Insurance Company, the plan provider. The pre-approved plan provider has received an opinion letter from the IRS as to the pre-approved plan's compliance with IRC section 401(k). The pre-approved plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

The plan administrator has determined that there are no uncertain positions taken or expected to be taken that would require recognition of a liability of disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the Plan’s tax returns remain open for 3 years to federal income tax examination.

Note 9. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events:

The Plan has evaluated events and transactions occurring subsequent to the statement of net assets available for benefits date of December 31, 2025, for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through October 7, 2026, which is the date these financial statements were available to be issued, and there were no subsequent events that required recognition or disclosure in these financial statements.
