INDEPENDENT AUDITORS' REPORT

Tucson Electric Power Company Pension Committee
Pension Plan for Employees of UniSource Energy Services
Tucson, Arizona

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Pension Plan for Employees of Unisource Energy Services (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTE 1 DESCRIPTION OF THE PLAN

The following brief description of the Pension Plan for Employees of UniSource Energy Services (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information on the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored by Tucson Electric Power Company (TEP or the Company). On August 11, 2003, UNS Gas and UNS Electric completed the purchase of the Arizona gas and electric system assets from Citizens Communications Company (Citizens). TEP established the Plan for employees of UniSource Energy Services (UES). Upon the completion of the acquisition, UES, the holding company for UNS Gas and UNS Electric, created the pension plan for employees of UniSource Energy Services, which began participation in the Tucson Electric Power Pension Plan Master Trust as of the date of acquisition. During August 2014, UNS, the parent company of UES, was acquired by Fortis, Inc. All employees who were active participants in the Citizens Pension Plan immediately prior to the effective date and earned at least one hour of service as an active employee are eligible to participate in the Plan. All other employees covered under the Plan are eligible when they obtain 21 years of age and one year of service. On or after the effective date, an employee shall become a participant on the first day of the month coincident with the next following day he/she becomes an eligible employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective January 1, 2021, Tucson Electric Power Company and UNS Electric, Inc. hired Southwest Energy Solutions' employees.

The plan was amended on January 1, 2022 to comply with provisions of the "SECURE Act" of 2019. The plan was also amended to raise the age of limitations on distributions from 70.5 to 72, if a participant was born after July 1,1949.

Effective January 1, 2025, the Plan was amended to close the Plan to employees hired or rehired on or after January 1, 2025 (or on or after June 1, 2025, for Local 1116 gas new hires). The amendment also provides additional clarification regarding the Plan's closure and its impacts, including the treatment of employees who participate in another Tucson Electric Power defined benefit plan and their eligibility for this Plan.

The Plan is administered by the Company's Pension Committee (the Committee), which is responsible for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits

Employees with five or more years of vesting service, as defined by the Plan, are entitled to pension benefits upon separation of service. The Plan provides for normal retirement benefits upon reaching age 65 and has provisions for early and late retirement, death, and disability benefits. Benefits under the Plan are determined based upon a final pay formula. The amount of the normal monthly benefit for participants in the Citizens Pension Plan as described above, is 1.3% of the participant's average compensation plus 0.7% of the excess of his or her average compensation over the participant's average covered compensation, multiplied by the aggregate of the participant's benefit service earned as of August 10, 2003, under the terms of the Citizens Pension Plan, as then in effect, and benefit service earned under this Plan on and after the effective date (after application of any rules of the Citizens Pension Plan); minus (b) the amount of benefit payable to (or with respect to) the participant from the Citizens Pension Plan, or any successor thereto, expressed as an annuity payable in the same form and at the same time as the benefit determined hereunder, without regard to any reductions in benefits as a result of the application of Section 4021 of ERISA.

In no event shall the benefit service taken into account under the preceding sentence exceed 35 years. For those participants hired on or after the effective date, the participant's retirement benefit shall be an amount equal to 1.3% of his or her average compensation plus 0.7% of the excess of his or her average compensation over his or her average covered compensation, multiplied by his or her benefit service earned on and after the effective date in years and completed months, expressed in fractional form. In no event shall the benefit service taken into account under the preceding sentence exceed 35 years.

The maximum annual retirement benefit shall not exceed the lesser of (i) $90,000 in 1987 dollars, adjusted automatically for increases in the cost of living, or (ii) 100% of the participant's average annual compensation for the three consecutive calendar years during which the participant had the highest aggregate annual compensation from the Company. The participant may elect to receive benefits in the form of a lump-sum cash settlement or one of several annuity options which is the actuarial equivalent of the normal form of benefit. The Plan permits early retirement at age 55, with five years of vesting service, at a reduced benefit amount. The Plan was amended on December 2, 2013, to comply effective January 1, 2010, with the final regulations issued pursuant to Section 436 of the Internal Revenue Code (IRC) of 1986.

Death and Disability Benefits

Upon the death of a participant who (a) has a vested interest, (b) has not yet had an annuity starting date, and (c) is survived by a spouse to whom the participant is married for at least one year at the time of the participant's death, the participant's spouse shall be entitled to receive, as a pre-retirement death benefit, a qualified pre-retirement survivor annuity.

The participant's pre-retirement death benefit shall be paid to the participant's spouse in the form of an annuity for the spouse's life. If the actuarial equivalent present value of a participant's qualified pre-retirement survivor annuity as of the annuity starting date does not exceed $5,000, the method of distribution to the participant's spouse of the pre-retirement death benefit shall be as a single cash distribution which is the actuarial equivalent of the full amount payable.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Death and Disability Benefits (Continued)

If (i) a married participant had elected to commence his or her retirement benefit on a specific date by written notice to the committee in accordance with the applicable provisions of the Plan, or a participant's retirement benefit is to commence on or after normal retirement date in the absence of any such election, and (ii) within 180 days prior to such retirement benefit commencement date, the participant had elected a joint and survivor annuity form of payment with his or her surviving spouse to receive more than 50% of the amount payable to the participant, any surviving spouse's annuity under the Plan in respect of the participant's death prior to such retirement benefit commencement date shall be based on the amount payable under such joint and survivor annuity.

A participant becoming totally and permanently disabled after completing five years of vesting service on account of which he or she becomes entitled to benefits under the Company's long-term disability plan (LTD Benefits), he or she shall be entitled to a benefit under the Plan. A participant's annual permanent disability retirement benefit shall be an amount computed in the same manner as a retirement benefit and is based on continued accrual of benefits while on total and permanent disability.

Vesting

Vesting in the Plan is based on five years of credited service as defined by the Plan document. Plan participants become 100% vested upon completion of five years of credited service, or upon attainment of age 65.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of financial statements. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment in Master Trust

The investment assets and liabilities of the Plan are combined with the investment assets and liabilities of the Pension Trust Plan for Employees of Tucson Electric Power Company Represented by I.B.E.W. Local 1116 and the Tucson Electric Power Company Salaried Employees Retirement Plan, pursuant to a Master Trust agreement between the Company and the trustee. Use of the Master Trust permits the commingling of the trust assets of the three pension plans of the Company for investment and administrative purposes. Although assets and liabilities are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the investment assets and net earnings (or losses) on the investment assets to the participating plans.

Derivative Instruments in Master Trust

The Tucson Electric Power Company Master Trust uses future contracts as financial derivative instruments, to manage market exposure and advance the overall objectives of the Master Trust and its investment strategies. These derivatives are utilized by external investment managers retained by the Master Trust and in protective overlay strategies designed to achieve investment objectives. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. The net unrealized gains and losses associated with interim price movements on contracts are recorded as derivative assets or liabilities as disclosed in Note 7.

The Master Trust is party to certain agreements intended to manage exposure risks. Under the overlay agreement, the Master Trust may invest only in specific instrument types: U.S. Treasury futures, short-term U.S. Treasury bills, and cash vehicles. The derivative instruments held by the Master Trust are secured by assets within the Master Trust.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions

Company contributions are accrued by the Plan based on payments authorized by the Company's Pension Committee and funding requirements as determined by the Plan's actuary.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company and are excluded from these financial statements, while other expenses, including audit and actuarial expenses, are paid by the Master Trust and recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in the Plan's interest in the Master Trust Net Investment Income (Loss).

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits for active employees are based on their average compensation for the highest consecutive five years during the most recent ten-year period ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment– are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2024 were (a) life expectancy of participants (the Pri-2012 mortality table), (b) retirement age assumptions were based on various probabilities of retirement from age 55 to age 70, and (c) investment return of 7.25%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

The following is a summary of actuarial present value of accumulated plan benefits as of December 31, 2024:

Actuarial Present Value of Accumulated Plan Benefits:	
Vested Benefits:	
Active Participants	$ 16,933,364
Other Participants	3,278,248
Participants Currently Receiving Benefits	7,090,339
Total Vested Benefits	27,301,951
Nonvested Benefits	489,830
Total Actuarial Present Value of Accumulated Plan Benefits	$ 27,791,781

The changes in the actuarial present value of accumulated plan benefits are summarized as follows for the year ended December 31, 2024:

Actuarial Present Value of Accumulated Plan Benefits – Beginning of Year	$ 25,767,321
Increase (Decrease) During the Year Attributable to:	
Benefits Accumulated	1,915,689
Actuarial Losses	639,340
Change in Discount Period	1,955,686
Benefits Paid	(3,214,401)
Changes in Actuarial Assumptions	728,146
Actuarial Present Value of Accumulated Plan Benefits – End of Year	$ 27,791,781

Changes in the actuarial assumptions for the year ended December 31, 2024 included a change to the discount rate from 7.5% to 7.25%.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Russell Investments Trust Company, the trustee and qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, and the statements of changes in net assets available for benefits for the years then ended. The trustee also certified the fair value of the net assets of the Master Trust and investment income for the Master Trust disclosed in Note 6.

NOTE 5 FAIR VALUE OF INVESTMENTS – MASTER TRUST

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 − Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 − Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE OF INVESTMENTS – MASTER TRUST (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Collective Funds: Valued at the net asset value (NAV) of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. If the Plan initiates a full redemption of the collective fund, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Real Estate Collective Fund and Private Equity Limited Partnership: Valued at NAV per unit (or its equivalent) based upon the fair value of the underlying investments. NAV is used as a practical expedient to estimate fair value.

Derivative Instruments: Derivatives are comprised of futures contracts. These investments are classified as Level 2 under the fair value hierarchy, as their valuations are based on quoted prices in secondary markets for identical assets.

The following tables set forth by level, within the fair value hierarchy, the investments of the Master Trust assets and liabilities at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Collective Funds	$ -	$ 490,786,252	$ -	$ 490,786,252
Investments Measured at Net Asset Value				26,345,747
Total Investment Assets at Fair Value	$ -	$ 490,786,252	$ -	$ 517,131,999
Derivative Liabilities at Fair Value	$ -	$ (1,027,571)	$ -	$ (1,027,571)

	2024			
	Level 1	Level 2	Level 3	Total
Collective Funds	$ -	$ 440,352,654	$ -	$ 440,352,654
Investments Measured at Net Asset Value				27,045,119
Total Investment Assets at Fair Value	$ -	$ 440,352,654	$ -	$ 467,397,773
Derivative Liabilities at Fair Value	$ -	$ (2,071,434)	$ -	$ (2,071,434)

NOTE 5 FAIR VALUE OF INVESTMENTS – MASTER TRUST (CONTINUED)

The following table summarizes investments for which fair value is measured using the net asset per share practical expedient as of December 31.

Investment Type	Fair Value 2025	Fair Value 2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Fund:					
Real Estate Equity Fund	$ 24,726,633	$ 24,869,747	None	Quarterly	110 Days Prior to Quarter End
Private Equity:					
Pantheon USA Fund VIII LP	1,619,114	2,175,372	$ 380,314	Quarterly	30 Days

The private equity's objective is to generate superior risk-adjusted investment returns by creating a balanced and diversified portfolio of high-quality private equity funds.

NOTE 6 INVESTMENT IN MASTER TRUST

The investment accounts of the Master Trust are valued at the end of each month. The net earnings or losses of the accounts for each month are allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of all participating plans at the beginning of that period. For purposes of this allocation, all cash contributions received and distributions made by the participating plans during the month are considered as having been made immediately prior to the valuation at the end of the month.

The fair value of the net assets of the Master Trust at December 31 is summarized as follows:

	2025		2024	
	Master Trust	Plan's Interest	Master Trust	Plan's Interest
Investments at Fair Value:				
Collective Funds	$ 515,512,885	$ 44,904,372	$ 465,222,401	$ 39,012,088

NOTE 6 INVESTMENT IN MASTER TRUST (CONTINUED)

Investment income for the Master Trust for the years ended December 31 is as follows:

	2025	2024
Net Appreciation in Fair Value of Investments:		
Collective Funds	$ 64,050,269	$ 13,771,355
Private Equity	(556,258)	(360,523)
Total Net Appreciation in Fair Value	63,494,011	13,410,832

Plan's Interest in Master Trust's Net Investment Income	$ 5,802,589	$ 1,793,710

NOTE 7 DERIVATIVE INSTRUMENTS IN MASTER TRUST

Derivative instruments are recorded in the Master Trust and part of the Plan's interest on the Plan's financial statements. The following are the estimated fair value of derivative instruments at December 31, 2025 and 2024 shown at the gross amounts as follows:

	2025		2024	
Derivative Instruments:	Master Trust Gross Liabilities	Plan's Interest Gross Liabilities	Master Trust Gross Liabilities	Plan's Interest Gross Liabilities
Futures Contracts	$ (1,027,571)	$ (89,508)	$ (2,071,434)	$ (173,704)
Total	$ (1,027,571)	$ (89,508)	$ (2,071,434)	$ (173,704)

The notional amount represents the contract amount, not the amount at risk. The following table presents the notional amounts of derivative instruments at December 31, 2025 and 2024:

	2025		2024	
Derivative Instruments:	Master Trust	Plan's Interest	Master Trust	Plan's Interest
Futures Contracts	$ 89,453,888	$ 7,791,989	$ 76,635,919	$ 6,429,754
Total	$ 89,453,888	$ 7,791,989	$ 76,635,919	$ 6,429,754

NOTE 7 DERIVATIVE INSTRUMENTS IN MASTER TRUST (CONTINUED)

Any gains or (losses) recognized on derivatives are recognized in current year Master Trust net investment income. For the year ended December 31, 2025 and 2024, the amount of the gain or (loss) recognized and attributable to derivative instruments as net investment income is as follows:

	2025		2024	
Derivative Instruments:	Master Trust	Plan's Interest	Master Trust	Plan's Interest
Futures Contracts	$ (1,029,263)	$ (93,868)	$ (2,072,888)	$ (273,414)
Total	$ (1,029,263)	$ (93,868)	$ (2,072,888)	$ (273,414)

NOTE 8 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

c. All other vested benefits (that is, vested benefits not insured by the PBGC).

d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 FUNDING POLICY

Each year the Company will contribute a sum of money necessary to fund the benefits specified by the Plan, subject to the Internal Revenue Service (IRS) full funding limit test. The amount of this annual contribution will be actuarially determined. Employees are not required to make contributions to the Plan. ERISA minimum funding requirements were met at December 31, 2025 and 2024.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 10 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter dated May 5, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 12 PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments were held in a Master Trust managed by Russell Investments Trust Company (Russell) as of December 31, 2025 and 2024. Russell is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the years ended December 31, 2025 and 2024, the Plan paid Russell trustee expenses of $78,499 and $73,748 respectively. The Plan records these expenses as part of net investment income.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and generally currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

- Disabled

Same as described above for Healthy Mortality.

Termination

The probabilities at which participants are assumed to leave the company by age are shown below:

Age	Rate
25	7.5%
30	5.0%
45	4.0%

Benefit commencement date:

• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained early retirement age.
• Deferred vested benefit	For future terminations: Age 65 for an annuity. 50% immediately if electing a lump sum, 50% at age 65.
• Disability benefit	Age 65.
• Retirement benefit	Upon termination of employment.
Form of payment	Retirement eligible: Participants are assumed to elect the lump sum form of payment 60% of the time. Otherwise, participants are assumed to elect an annuity with married participants assumed to elect J&S67% and single participants assumed to elect the normal form. Pre-Retirement eligible: Participants are assumed to elect a lump sum form of payment 80% of the time. Otherwise, participants are assumed to elect an annuity with married participants assumed to elect J&S67% and single participants assumed to elect the normal form. Term Vested participants: Participants are assumed to elect a lump sum form of payment 75% of the time. Otherwise, participants are assumed to elect an annuity with married participants assumed to elect J&S67% and single participants assumed to elect the normal form.
Percent married	65% of males; 50% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife two years younger than husband.
Covered pay	Assumed plan compensation for the year beginning on the valuation date was determined as the current annual rate of pay.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Tucson Electric Power Company regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Tucson Electric

SCHEDULE SB ATTACHMENTS

Power Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Tucson Electric Power Company furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions were supplied by Tucson Electric Power Company. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with Tucson Electric Power Company, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expense are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
• Compensation	Assumed compensation increases are based on plan sponsor expectations.
• Assumed return for asset smoothing	The assumed return of 5.59% used for asset smoothing is the third segment rate. The expected return on assets for 2024 absent the limit for the third segment rate is 7.50%. Although determining the expected rate of return on plan assets was not within the scope of work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were reviewed and left unchanged as part of an experience study conducted in 2024, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates are based on a published table for pension participants (1952 Intercompany Disability Study Benefit 4, Period 4) believed to have similar characteristics to the plan population. In 2023, plan experience was reviewed and a multiplier adjustment was applied to bring the rates more in line with plan experience.
Retirement	Retirement rates were reviewed and left unchanged as part of an experience study conducted in 2024, with consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
• Deferred vested benefit	Deferred vested benefit assumed commencement age is based on an experience study conducted in 2024. Deferred vested participants' assumed commencement age is a split age for lump sums and a single age for annuities intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed

	commencement rates at multiple ages is not expected to be significant.
Form of payment	The percentage of participants assumed to take lump sums is based on observed experience over the period 2018-2024.
Percent married	The assumed percentage married is based on the percentage married observed among participants approaching retirement as reviewed as part of an experience study in 2024.
Spouse age	The assumed spousal age difference was based on an experience study conducted in 2024, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The salary scale assumption was updated to an age-based table based on the experience study that was performed. A new experience study was performed, and as a result assumed form of payment assumption, marital status, and marital age difference were changed to better reflect anticipated future experience.
Change in methods since prior valuation	None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2025.

Covered employees and participation date	All former active participants of the Citizen's Pension Plan hired by UES on August 11, 2003 will become active participants in the UES plan on August 11, 2003. Subsequent new entrants will become participants upon their first anniversary provided they have reached age 21 and completed 1,000 hours of service. Effective January 1, 2025, employees hired or rehired on or after January 1, 2025 who are not covered by IBEW 1116 are not eligible to participate in the plan.

Definitions

Vesting service	The aggregate periods of service months completed.
Pension service	The aggregate periods of service months completed.
Pensionable pay and average earnings	The monthly basic earnings for the 60 consecutive months out of the 120 most recent months which produces the highest average. Pensionable pay is base pay only.
Normal retirement date (NRD)	The first of the month coincident with or next following age 65.
Monthly pension benefit	1.3% of average monthly compensation plus 0.7% of the excess of average monthly compensation over covered compensation (as determined under 1977 Social Security law, indexed), the result which is multiplied by benefit service up to but not exceeding 35 years. Such benefit is then offset by the accrued benefit under the Citizen's Pension Plan.
Monthly preretirement death benefit	The participant's beneficiary will receive an income payable for life equal to a qualified preretirement survivor annuity. Such death benefit may commence as early as the date the deceased participant would have reached early retirement. The benefit is equal to 50% of the benefit that would have been paid had the participant lived and selected the 50% Joint and Survivor optional form of payment.

Eligibility for Benefits	
Normal retirement	Retirement on NRD.
Early retirement	Age 55 and 5 years of Service.
Postponed retirement	Retirement after NRD.
Deferred vested termination	A participant is 100% vested upon completion of five years of vesting service. However, all participants become 100% vested upon reaching age 65.
Disability	Total and permanent disability of participant prior to normal retirement date and after reaching 5 years of service.
Preretirement death benefit	All vested participants who have been married for at least one year.

Benefits Paid Upon the Following Events	
Normal retirement	The monthly pension benefit determined as of NRD.
Early retirement	Accrued benefit as of early retirement date reduced by .00417 for each month between the month benefit commences and the employee's Normal Retirement Date.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date.
Deferred vested termination	Accrued benefit as of early retirement date reduced by .00417 for each month between the month benefit commences and the employee's Normal Retirement Date.
Disablement	Benefit is the "projected benefit" as described above, subject to offset by the accrued benefit under the Citizen's Pension Plan.
Preretirement death	The participant's beneficiary will receive an income payable for life equal to a qualified preretirement survivor annuity. Such death benefit may commence as early as the date the deceased participant would have reached early retirement. The benefit is equal to 50% of the benefit that would have been paid had the participant lived and selected the 50% Joint and Survivor optional form of payment.

Other Plan Provisions

Forms of payment	The plan provides optional payment forms, including qualified Joint and Survivor annuities of 100%, 75%, 66 ⅔%, 50% and 33 ⅓%, and 5 and 10 year certain and life annuities, on an actuarially equivalent basis. Actuarial equivalence for purposes of calculating the optional annuity forms is based on an 8% interest rate and the 1983 GAM Mortality Table for Males with a 3 year setback for contingent annuitants. In addition, a lump sum distribution of the full amount is also offered after eligibility for Early Retirement or Permanent Disability. The lump sum is determined using prescribed mortality and interest set forth by the IRS.
Pension Increases	None.
Plan participants' contributions	None.
Limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost.

Future Plan Changes

No future plan changes were recognized in determining pension cost. WTW is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

Effective January 1, 2025, employees hired or rehired on or after January 1, 2025 who are not covered by IBEW 1116 are not eligible to participate in the plan.

Change in Actuarial Assumptions

The salary scale assumption was updated to an age-based table based on the experience study that was performed.

A new experience study was performed, and as a result assumed form of payment assumption, marital status, and marital age difference were changed to better reflect anticipated future experience.
