Report of Independent Auditor

To the Trustee and Participants
Knowles Intermediate 401(k) Plan
Liberty, South Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Knowles Intermediate 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Delinquent Participant Contributions – Form 5500, Schedule H, Part IV, Line 4a for the year ended December 31, 2025 and Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1—Description of the Plan

The following description of Knowles Intermediate 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 2023, which was subsequently amended and restated effective January 1, 2025, by Knowles Intermediate PD Holdings, LLC (the "Company", "Employer", or "Plan Sponsor").

Effective October 31, 2023, Cornell Dubilier Electronics, Inc. and its related subsidiaries and affiliates ("Cornell") was acquired by Knowles Electronics, LLC and/or one of its affiliates. Upon acquisition, all participants in the Cornell Dubilier Electronics, Inc. 401(k) Plan (the "Cornell Plan") became fully vested and no further contributions were made. All participants were notified of the formal termination of the Cornell Plan effective April 1, 2024, and were required to take a distribution, of which an option was provided to rollover the funds to Knowles Intermediate 401(k) Plan.

The Plan is a defined contribution plan intended to qualify under Section 401(k) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), The Plan covers all eligible employees of the Company that transferred from Cornell as described above. Employees became eligible to participate in the Plan upon attainment of age 21 and achievement of three months of service. The Plan excludes eligibility for residents of Puerto Rico and all retired and inactive employees of the Cornell Dubilier Electronics, Inc. and certain of its subsidiaries and affiliates as of November 1, 2023, as described and listed in the Plan's adoption agreement. Plan entry dates are the first day of the first month for which the eligibility requirements are met. Upon entry to the plan, new participants are added with an automatic pre-tax deferral of 3% of eligible compensation, unless they decline participation. The automatic deferral increases 1% annually to a maximum of 10% of eligible compensation. There were no new participants noted for the year ended December 31, 2025.

Participant Contributions – Eligible participants may elect to contribute a portion of their compensation to the Plan, subject to the IRC limitations for 401(k) plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. Roth contributions are permitted by the Plan. Contributions are subject to certain limitations allowed under Section 402(g) of the IRC.

Catch-Up Contributions – If a participant is eligible to make deferrals and turns 50 before the end of any calendar year, the participant may defer an additional $7,500 into the Plan as a pre-tax contribution subject to certain IRC limitations. Additionally, if a participant is eligible to make deferrals and is age 60-63 before the end of the calendar year, the participant may defer an additional $11,250 into the Plan as a pre-tax contribution, subject to certain IRC limitations and limits as defined by the Plan.

Employer Contributions – Matching contributions are made at the discretion of the Company's Board of Directors. Any discretionary matching Company contribution is invested in the same investment options and in the same ratio as the participants have directed their own investments. Company contributions are typically funded when the employee contributions are funded and are subject to certain limitations under the IRC. An additional profit sharing amount may be contributed at the discretion of the Company's Board of Directors. No matching or additional discretionary profit sharing contributions were made for the year ended December 31, 2025.

Note 1—Description of the Plan (continued)

Participant Accounts – Each participant's account is credited with (a) the participant's contribution, (b) the Company's contributions, if any, and (c) an allocation of the Plan's earnings. Each participant's account is charged with participant withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – All participant contributions made to the Plan are fully vested at all times and are not subject to forfeiture for any reason. Company match and profit sharing contributions made to the Plan are vested according to number of years of service. After three years of service, a participant is 100% vested in Company contributions. Participants with less than three years of service are not vested in Company contributions.

Benefits Paid to Participants – Withdrawals are made on a lump-sum basis or at the participant's option as a deferred annuity upon retirement, disability, termination, or proof of hardship. If death occurs prior to retirement, the participant's account is paid to the designated beneficiary. In addition, a participant may elect to receive withdrawals upon reaching the age 59.5.

Hardship Withdrawals – The Plan allows participants to make hardship withdrawals to satisfy certain immediate and heavy financial needs. A participant may request a hardship withdrawal for certain qualifying expenses as defined by the Plan document, and within what the Internal Revenue Service ("IRS") deems an immediate and financial need of the participant.

Forfeitures – Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures may be used to reduce Employer contributions or administrative expenses. At December 31, 2025 and 2024, forfeited nonvested accounts totaled $1,709 and $681, respectively. For the year ended December 31, 2025, $3,119 in forfeitures were used to pay administrative expenses.

Administration – Under the terms of a Plan Services Agreement between Voya Retirement Insurance and Annuity Company and the Plan, Voya Retirement Insurance and Annuity Company will provide the participant recordkeeping and other related services. All amounts contributed to the Plan are forwarded to Voya Institutional Trust Company (the "Trustee") and invested in various funds as designated by the participant.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in accordance with U.S. GAAP requires the Plan administrator and the Company to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Such estimates include those regarding fair value. Actual results, as determined at a later date, could differ from those estimates.

Administrative Expenses – The Plan is administered by the Plan Sponsor. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Substantially all administrative expenses are paid either directly by the Plan Sponsor or by the account of the Participant or through forfeitures.

Note 2—Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value except for the guaranteed investment contract which is stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The guaranteed investment contract held by defined contribution plans is reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive guaranteed investment contracts since contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of the guaranteed investment contracts. The statement of changes in net assets available for benefits is also prepared on a contract value basis. See Note 4 for discussion of the fully benefit-responsive guaranteed investment contract.

Management fees and operating expenses charged to the Plan for investments in the guaranteed investment contract and mutual fund accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Investment Options – Upon enrollment in the Plan, a participant may direct employee and Employer contributions in any of the investment options offered by the Plan.

Payment of Benefits – Benefits are recorded when paid.

Risks and Uncertainties – Investment securities, in general, are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participant's account balances, and the amounts reported in the financial statements.

Note 3—Fair value measurements

Fair Value Measurements – The Plan follows the fair value measurements topic of the Financial Accounting Standards Board Accounting Standards Codification 820, which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 3—Fair value measurements (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There were no changes in valuation methodologies at December 31, 2025, and 2024. The following are descriptions of the valuation methodologies used for instruments measured at fair value:

Mutual Funds – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is calculated using quoted prices available in active markets and classified at Level 1 of the valuation hierarchy.

Money Market Fund – This investment is a public investment vehicle valued using NAV provided by the administrator of the fund. The underlying assets are generally comprised of short-term securities representing high-quality, liquid debt, and monetary assets. The redemption and subscription frequencies are daily and the fund has no redemption notice periods or unfunded commitments. The money market fund is classified within Level 1 of the valuation hierarchy.

The Plan's financial instruments carried at fair value are classified by the following fair value hierarchy levels as of:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 6,323,873	$ -	$ -	$ 6,323,873
Money market fund	1,709	-	-	1,709
Total Investment at Fair Value	$ 6,325,582	$ -	$ -	$ 6,325,582

	December 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 8,958,915	$ -	$ -	$ 8,958,915
Money market fund	681	-	-	681
Total Investment at Fair Value	$ 8,959,596	$ -	$ -	$ 8,959,596

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4—Guaranteed investment contract

The Plan has a fully benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company, which maintains the contributions in a general account. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The guaranteed investment contract's issuer is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Consequently, the investment is stated at contract value on the statements of net assets available for benefits and is not included within the fair value hierarchy. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5—Information certified by the qualified institution

The Plan Sponsor has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Institutional Trust Company, the qualified institution, has certified to the completeness and accuracy of the following data included in the accompanying financial statements:

- Investments, at fair value and investment, at contract value as shown on the statements of net assets available for benefits as of December 31, 2025 and 2024.
- Net appreciation in fair value and contract value of investments and interest on the guaranteed investment contract as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025.

Note 6—Party-in-interest transactions

Certain Plan investments are shares of mutual funds and a guaranteed investment contract managed by an affiliate of Voya Institutional Trust Company. Voya Institutional Trust Company is the Trustee as defined by the Plan and, therefore, those transactions qualify as party-in-interest transactions. Fees paid by the Plan and deducted from participant accounts for contract administrative expenses amounted to $75,872 for the year ended December 31, 2025, and are included in administrative expenses on the accompanying statement of changes in net assets available for benefits.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participants' accounts will become 100% vested.

Note 8—Tax status

The Plan has obtained an opinion letter, dated June 30, 2020, from the IRS stating the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended, revised, and restated since the date of the opinion letter. However, the Plan administrator believes the Plan, as amended, revised, and restated, remains in accordance with the applicable requirements of the IRC and has no income subject to unrelated business income tax and, therefore, the Plan and related trust continue to be tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 9—Prohibited transactions

During 2024, participant salary deferral contributions to the Plan totaling $6,033 were not remitted to the Plan in accordance with DOL's rules regarding timely remittances on multiple occasions. Plan management calculated the lost earnings on these deferrals and plans to correct the late remittances through DOL's voluntary Fiduciary Correction Program (VFCP) during 2026. The lost earnings are not significant to the financial statements.

Note 10—Subsequent events

In accordance with U.S. GAAP related to subsequent events, the Plan has evaluated all events subsequent to the statement of net assets available for benefits date of December 31, 2025 through October 15, 2026, which is the date these financial statements were available to be issued.
