Report of Independent Auditor

To the Audit Committee of the Board of Trustees
Southwestern University
Southwestern University Regular Retirement Plan for All Employees
Georgetown, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Southwestern University Regular Retirement Plan for All Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institutions").

Management has obtained certifications from the qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by the qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by the institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by the qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by the institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1—Description of the Plan

The following brief description of the Southwestern University Regular Retirement Plan for All Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a 403(b) plan established by Southwestern University (the "University" or "Employer") in December 1968 and was amended and restated effective January 1, 2019. The Plan applies the Automatic Contribution Arrangement provision in which the participant defers 3% of eligible compensation from each payroll period unless the participant makes a contrary election. The Plan covers all employees of the University except students enrolled and attending classes offered by the Employer and nonresident aliens who received no income from within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – The Plan is administered by the Retirement Plan Committee of the University, which serves without compensation. The Plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities. The University has outsourced the recordkeeping function of the Plan to the Teachers Insurance and Annuity Association ("TIAA") and College Retirement and Equities Fund ("CREF"), the "Custodians" or "qualified institutions" of the Plan.

Contributions – For the year ended December 31, 2025, participants may contribute up to $23,500 of pre-tax annual compensation subject to certain Internal Revenue Code ("IRC") limitations within the Plan. Once eligible, participants may also contribute amounts representing distributions from other qualified retirement plans, 403(b) tax sheltered annuity plans, government 457(b) plans, and traditional individual retirement accounts and retained as rollovers. Unless the employee is part of an excluded class of employees noted above, the employee is eligible to make voluntary employee contributions to the Plan as of the employee's date of hire, or as soon as administratively feasible. Employees must complete one year of service with the University or be fully vested in Employer contributions made under the terms of a retirement plan sponsored by an eligible employer that employed the employee immediately prior to the University and reach age 21 before the employee is eligible to receive contributions made by the University. After completing one consecutive year of service each eligible participant will receive an allocation of the Employer contribution which is equal to 7% of the eligible compensation of all participants. A participant's share of the total Employer contribution is determined by the ratio of each participant's compensation to the total eligible compensation of all participants. Participants direct the investments of their contributions into various investment options offered in the Plan.

Catch-Up Contributions – For the year ended December 31, 2025, if a participant is eligible to make deferrals and is age 50–59 or 64 or older before the end of the calendar year, the participant may defer an additional $7,500 into the Plan as a contribution. However, if a participant is eligible to make deferrals and is age 60–63 before the end of the calendar year, the participant may defer an additional $11,250 into the Plan as a contribution, subject to certain IRC limitations and limits as defined by the Plan.

Additionally, if a participant has worked at least 15 years for the Employer, the participant may make a special catch-up contribution equal to the smallest of the three amounts listed: 1) $3,000; 2) $15,000 minus the amount of special catch-up contributions made in prior years; and 3) ($5,000 times the number of years the participant has worked for the Employer) minus (the total amount of deferrals made while the participant worked for the Employer).

If a participant qualifies for both types of catch-up deferrals, the contributions will be allocated first as special catch-up contributions.

Note 1—Description of the Plan (continued)

Participant Accounts – Each participant's account is credited with the participant's contributions, related Employer contributions, and an allocation of Plan earnings and charged with benefit payments and an allocation of Plan losses and administrative expenses, if not paid by the University. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Requirements – Participants are immediately fully vested in their voluntary contributions, including catch-up and special catch-up contributions, rollover contributions from other plans, Employer contributions, and earnings thereon.

Investment Options – Upon enrollment in the Plan, a participant must direct 100% of their allocation of contributions with TIAA and CREF. Within TIAA and CREF, participants may select between several investment options. Participants may transfer balances periodically based on the applicable funds, as defined in the custodial service agreement.

Plan Loans – Participants may borrow, directly from the funds held by TIAA and CREF, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. According to the Plan document, participants may not borrow from the portion of their fund accounts attributable to University contributions. Loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.09% to 5.81% as of December 31, 2025, with various maturities through October 2026. Principal and interest are paid through an automatic draft of the participant's checking account by the Custodians. Plan loans borrowed directly from funds held by TIAA and CREF are not considered an asset of the Plan and are not included on the statements of net assets available for benefits. Plan loans outstanding amounted to $2,469 and $28,904 as of December 31, 2025 and 2024, respectively.

Notes Receivable from Participants – Participants may borrow directly from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. According to the Plan document, participants may not borrow from the portion of their fund accounts attributable to University contributions. Loans are secured by the balance in the participant's account and bear interest at rates ranging from 8.00% to 9.50% as of December 31, 2025, with various maturities through August 2030. Principal and interest are paid through an automatic draft of the participant's checking account by the Custodians.

Benefits Paid to Participants – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount, equal to the value of the participant's vested interest in his or her account, partial payments, installment payments, or an annuity. For termination of service for other reasons, distribution of the value of the participant's vested interest in his or her account will begin as soon as possible after the participant's request. If the participant's vested balance does not exceed $5,000, the Plan requires a distribution. Withdrawals prior to attaining age 59½ are not permitted, except in the event of retirement, disability, or as a hardship distribution. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. Certain income tax penalties may apply to withdrawals or distributions prior to age 59½.

Forfeitures – The Plan maintains a forfeiture account to record and resolve participant account adjustments, including overpayments and other miscellaneous activity. As of December 31, 2025 and 2024, the forfeiture account totaled $-0- and $158 for 2025 and 2024, respectively. Per the Plan Document, these amounts may be used to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During the year ended December 31, 2025, $158 of forfeitures were used.

Note 2—Summary of significant accounting policies

Basis of Presentation – The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments in the Plan are reported at fair value, except for fully benefit-responsive investments, which are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements – U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

U.S. GAAP describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following are descriptions of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Funds – These investments are public investment vehicles valued using net asset value ("NAV") provided by the administrator of the fund. The underlying assets are generally comprised of short-term securities representing high-quality, liquid debt, and monetary assets. The Custodians establish the market and quote the price, on a daily basis, that is available to market participants, which is a market approach to valuation. The money market funds are classified within Level 2 of the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using NAV provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Note 2—Summary of significant accounting policies (continued)

Pooled Separate Account (Real Estate Fund) – This investment is a public investment vehicle valued using NAV provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The fair value of the pooled separate account is stated at NAV as a practical expedient.

Guaranteed Investment Contracts (Non-Fully Benefit-Responsive Contracts) – These investments are guaranteed fixed income annuities backed by TIAA's claims paying ability whereby the annuities guarantee principal and a minimum interest rate, plus opportunity for additional amounts in excess of the guaranteed rate. The annuity contracts are not traded and significant other observable inputs are not available. The contracts are reported at fair value and are classified within Level 3 of the valuation hierarchy.

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Risks and Uncertainties – Investment securities, in general, are subject to various risks, such as interest rate, credit, and overall market volatility. Due to the levels of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant note receivable balance is reduced, and a benefit payment is recorded as distribution based upon terms of the Plan document.

Benefits Paid to Participants – Benefits are recorded as deductions from net assets when paid.

Administrative Expenses – Plan administration expenses are paid by the Plan.

Note 3—Information certified by the qualified institutions

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, the qualified institutions, have certified to the completeness and accuracy of the following data included in the accompanying financial statements and supplemental schedule:

- Investments, at fair value, investments, at contract value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.

- Net appreciation in fair value of investments, interest and dividends, interest income on notes receivable from participants and other income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.

- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025.

Note 4—Investment contract with insurance company

The Plan invests in guaranteed fixed annuity contracts with TIAA. Fully benefit-responsive annuity contracts include the Supplemental Retirement Annuity account ("SRA") and the Group Supplemental Retirement Annuity account ("GSRA"). Non-fully benefit-responsive annuity contracts include the Retirement Annuity account ("RA") and the Retirement Choice Annuity account ("RC"). TIAA maintains the contributions in the Teachers Insurance and Annuity Association General Account. TIAA groups the premium dollars it receives over defined time periods into vintages, typically composed of one or more contiguous calendar months, for the purpose of determining the crediting rate to participant's accounts. The crediting rate for each vintage is determined, in part, by the net investment earnings rate of the Custodians' assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at their stated value.

As described in Note 2, because a portion of the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits. The fully benefit-responsive investment contract is included in the financial statements at contract value as reported to the Plan by TIAA.

The guaranteed investment contracts issuer is contractually obligated to repay the principal and a specified interest rate, generally 3.00%, that is guaranteed to the Plan. Crediting rates vary by contract and are based on a formula agreed upon with the issuer. The guaranteed rates for the SRA, GSRA, RA, and RC accounts are 3.00%, 3.00%, 3.00%, and 3.00%, respectively. TIAA's Board of Trustees may declare additional amounts on a year-by-year basis. These additional amounts, when declared, remain in effect for the 12-month declaration year that begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities; they are not guaranteed for future years.

Certain events limit the Plan's ability to transact at contract value with the Custodians. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5—Fair value measurements

The Plan's financial instruments carried at fair value are classified by the following fair value hierarchy levels as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total Fair Value
Mutual funds	$ 89,029,426	$ -	$ -	$ 89,029,426
Money market funds	-	785,095	-	785,095
Guaranteed investment contracts	-	-	27,095,175	27,095,175
	$ 89,029,426	$ 785,095	$ 27,095,175	116,909,696
Pooled separate account measured at NAV*				5,218,823
Total investments, at fair value				$ 122,128,519

	2024			
	Level 1	Level 2	Level 3	Total Fair Value
Mutual funds	$ 78,533,995	$ -	$ -	$ 78,533,995
Money market funds	-	672,362	-	672,362
Guaranteed investment contracts	-	-	26,816,016	26,816,016
	$ 78,533,995	$ 672,362	$ 26,816,016	106,022,373
Pooled separate account measured at NAV*				5,124,511
Total investments, at fair value				$ 111,146,884

(*) In accordance with U.S. GAAP, certain investments that are measured at fair value using NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the statements of net assets available for benefits. The pooled separate account ("fund") represents investment in an asset mix that seeks to generate favorable long-term returns primarily through rental income and appreciation of real estate and real estate related investments by the fund. The fund will also invest in non-real estate related publicly traded securities and short-term higher quality liquid investments that are easily converted to cash to enable the fund to meet participant redemption requests, purchase or improve properties, or cover expense needs.

The following tables summarize investments measured at fair value based on NAV per share as of December 31:

	2025			
Asset	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	$ 5,218,823	n/a	Daily	Daily

	2024			
Asset	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate account	$ 5,124,511	n/a	Daily	Daily

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs as of December 31:

	2025			
Asset	**Fair Value**	**Valuation Technique**	**Unobservable Inputs**	**Range**
Guaranteed investment contracts	$ 27,095,175	Discounted cash flow	Risk-adjusted discount rate applied	3.00% to 6.75%

	2024			
Asset	**Fair Value**	**Valuation Technique**	**Unobservable Inputs**	**Range**
Guaranteed investment contracts	$ 26,816,016	Discounted cash flow	Risk-adjusted discount rate applied	3.00% to 6.75%

Note 6—Party-in-interest transactions

Certain Plan investments are managed by TIAA and CREF as of December 31, 2025 and 2024, and for the year ended December 31, 2025. TIAA and CREF are the Custodians and recordkeepers for the Plan, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management and recordkeeping services are included in net appreciation in fair value of the investment. The Plan made direct payments for investment advisors, auditors, and other administration services in the amount of $86,365 from revenue sharing payments held in a revenue credit account. Notes receivable from participants also qualify as party-in-interest transactions but are exempt from the prohibited transaction rules.

Note 7—Tax status

The Internal Revenue Service has determined and informed the Plan prototype sponsor by a letter dated August 7, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The University has chosen to rely on the determination letter issued to the Plan prototype sponsor. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax and, therefore, the Plan and related trust continue to be tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8—Plan termination

The University believes the Plan will continue without interruption but reserves the right to discontinue the Plan. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination. Distribution of participant account balances will occur as soon as administratively feasible upon termination of the Plan.

Note 9—Subsequent events

The University has evaluated subsequent events through October 13, 2026, which is the date the financial statements were available to be issued.
