Independent Auditors' Report

To the Plan Administrator
PFNonwovens, LLC 401k Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of PFNonwovens, LLC 401k Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of PFNonwovens, LLC 401k Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the year ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of PFNonwovens, LLC 401k Plan, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about PFNonwovens, LLC 401k Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PFNonwovens, LLC 401k Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about PFNonwovens, LLC 401k Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. PFNonwovens, LLC 401(k) Plan
Notes to Financial Statements
For the Years Ended December 31, 2025 and 2024

1. Description of Plan

The following description of the PFNonwovens, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. Effective January 1, 2019, employees, as defined by the Plan document, of PFNonwovens, LLC (the "Company") are eligible to participate in the Plan and make salary deferral contributions after attaining age 21 years of age and are eligible to receive an employer safe harbor contribution after attaining 21 years of age and completing three months of service. Participants who are rehired will be able to participate in the Plan on the date which they are rehired, provided they are otherwise eligible to participate. Participants are enrolled in the Plan for all contribution types on the first day of the payroll period coinciding with or following the next date the eligibility requirements are met, or as soon as administratively feasible thereafter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may elect to voluntarily contribute up to the lesser of 100% of pretax compensation up to IRS annual limits, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation which increases each year by 1% up to a maximum of 10%. Their contributions are invested in a designated balanced fund until changed by the participant.

The Company contributes 100% of the first 1% of base compensation that a participant contributes to the Plan, plus 50% of the next 5%. The Company match shall not exceed 3.5% of eligible compensation. During the year ended December 31, 2025 the Company made employer matching contributions in the amount of $799,370. Contributions are subject to certain IRS limitations. Contributions to the Plan are recorded in the period that payroll is taken from Plan participants. Employer matching contributions are recorded based on employee contributions during the period.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their contributions and employer matching contributions, plus actual earnings thereon. Vesting in the Company's Safe Harbor and nonelective contribution portion of the participant's account is based on years of credited service. A participant is 100% vested after two and six years of credited service, respectively.

Payment of Benefits

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a lump-sum distribution of their entire accumulated plan balance, subject to the terms and certain limitations of the funding vehicles. In addition, participants may elect in-service withdrawals after reaching age 59½. Minimum required distributions for certain participants also apply per IRS regulations. Participants are also permitted to take in-service hardship withdrawals in certain cases of immediate and heavy financial need. All in-service withdrawals are subject to a minimum withdrawal amount of $1,000.

Terminated or deceased participants with a vested account balance equal to or less than $1,000 shall be paid in a single sum as soon as administratively possible. Terminated participants with a vested account balance greater than $1,000 and less than or equal to $5,000 shall be subject to a mandatory distribution in the form of an automatic rollover.

Participant Loans

Participants may borrow only from their salary deferral contributions and rollover contributions up to a maximum $50,000 or 50% of their elective account balance. The loans are secured by the balance in the participant's account and bear interest at rates of Prime plus 1%, ranging from 4.25% to 9.50%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited Accounts

As of December 31, 2025 and 2024 forfeited nonvested accounts totaled $30 and $286, respectively. These accounts will be used to reduce future employer contributions and administrative expenses. For the years ended December 31, 2025 and 2024, $8,674 and $73,549, respectively, in forfeitures were used to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and provisions related to financial Accounting Standards for Plan Accounting Defined Contribution Plans (ASC 962).

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivables from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024.

Fair Value Accounting

Valuation techniques used in fair value measurements need to maximize the use of observable inputs and minimize the use of unobservable inputs. A valuation method may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions could result in different fair value measurements at the reporting date. Assets and liabilities measured at fair value are categorized into one of three different levels depending on the observability of the inputs employed in their measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly through market-corroborated inputs. Level 3 inputs are unobservable inputs for the asset or liability, including the Plan's own assumptions in determining the fair value of the assets or liabilities. See Note 3 for discussion of fair value measurements.

Allowance for Credit Losses

When the company records contributions receivables arising from revenue transactions, the company records an allowance for credit losses for the current expected credit losses (CECL) inherent in the asset over its expected life. The allowance for credit losses is a valuation account deducted from the amortized cost basis of the assets to present their net carrying value at the amount expected to be collected. Each period the allowance for credit losses is adjusted through earnings to reflect expected credit losses over the remaining lives of the assets.

	2025	2024
Receivables	$ 16,691	$ 93
Allowance for credit losses	-	-
Total Receivable	$ 16,691	$ 93

Contributions

Contributions to the Plan are recorded in the period that payroll is taken from Plan participants. Employer matching contributions are recorded based on employee contributions during the period.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan's policy is to distribute the excess contributions to the applicable participants prior to March 15th.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: a. Quoted prices for similar assets or liabilities in active markets b. Quoted prices for identical or similar assets or liabilities in inactive markets c. Inputs other than quoted prices that are observable for the asset or liability d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds are valued at quoted market prices, which represent the Net Asset Value (NAV) per share at the close of the financial markets. The NAV is based on the value of the underlying assets owned by the investment, minus its liabilities and then divided by the number of shares outstanding. Mutual funds report NAV daily and are required to transact at that price.

Collective Investment Trusts for which quoted market prices are not available are determined by the net asset value (NAV) of shares held by the Plan at year end. Management has used the NAV as a practical expedient to fair value disclosure.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value measured on a recurring basis as of December 31, 2025 and 2024:

Fair Value Measurements at December 31, 2025:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Unobservable Inputs (Level III)
Registered Investment Companies	$ 24,841,704	$ 24,841,704	$ -	$ -
Investments Measured at NAV[(a)]	5,475,555			
Total Investments	$ 30,317,259			

Fair Value Measurements at December 31, 2024:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Unobservable Inputs (Level III)
Registered Investment Companies	$ 21,950,736	$ 21,950,736	$ -	$ -
Investments Measured at NAV(a)	4,912,183			
Total Investments	$ 26,862,919			

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the tables above are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Fully Benefit-Responsive Investment Contracts

The Plan holds a portfolio of synthetic investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the investment was $3,253,023 and $3,348,229 for December 31, 2025 and 2024 respectively.

A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0%. During the year, the credit rate was 3.07%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

a) The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
b) Premature termination of the contracts
c) Plan termination or merger
d) Changes to the Plan's prohibition on competing investment options
e) Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

a) An uncured violation of the Plan's investment guidelines
b) A breach of material obligation under the contract
c) A material misrepresentation
d) A material amendment to the agreements without the consent of the issuer.

	2025	2024
Beginning Balance	$ 3,348,229	$ 3,980,786

Net Transfers/Contributions	(192,704)	(741,137)
Ending Balance	$ 3,253,023	$ 3,348,229

5. Concentrations

The following table presents the fair values of investments in mutual funds that represent 10% or more of the Plan's net assets.

	2025	2024
Galliard Stable Return PN	$ 3,253,023	$ 3,348,229
BlackRock Lifepath Index 2030 Fund	3,663,842	3,671,463

BlackRock Lifepath Index 2045 Fund	3,060,571	-
Principal BlackRock S&P 500 Index CIT N Fund	5,475,555	4,912,183

6. Related Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds or common/collective trusts managed by the Trustee, and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company's contributions.

8. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Tax Status

The Plan has an Internal Revenue Service determination letter from Principal Trust Company, the Record Keeper, dated June 30, 2020, stating the form of the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan continues to be tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal Form 5500 for years before 2022.

10. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, Principal Trust Company, the Trustee, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available For Benefits as of December 31, 2025 and 2024, and the supplemental Schedule of Assets (held at end of year) as of December 31, 2025, and the related investment activity reported in the Statement of Changes in Net Assets Available For Benefits for the year ended December 31, 2025.

	2025	2024
Investments, at fair value	$ 30,317,259	$ 26,862,919
