Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Hendrickson Truck Suspension Systems (Indiana) Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

General: The following description of the Hendrickson Truck Suspension Systems (Indiana) Pension Plan (the Plan) of The Boler Company (the Plan Sponsor, or the Company) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan is a defined-benefit pension plan established as of August 1, 1975, and covers substantially all of the hourly paid factory workers who are represented by UE Local 770 as the Plan applies to the plants of the Company located in Kendallville and Butler, Indiana. Such employees are eligible for the Plan after completing one year of service, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Payment of benefits: An employee is eligible to receive a normal retirement benefit upon attaining age 65. The normal monthly retirement benefit is a fixed benefit rate in effect as of the employee's retirement date or, if earlier, the employee's severance from service date, multiplied by the employee's years of service, as defined. The most current benefit rate effective during the 2025 plan year is $40.75 per year of service.

An employee is eligible for a vested benefit upon terminating employment prior to age 65 after earning five years of vesting service, as defined. The benefit is the employee's accrued normal retirement benefit, payable at age 65.

Benefits for surviving spouses, as defined, shall be payable to the surviving spouse of participants who die prior to retirement and have completed the required years of service, as defined. Benefits for such spouses are computed as 50 percent of the joint and survivor benefit the respective participant would have received if the participant retired on the later of the participant's date of death or the earliest permitted retirement date.

A participant's benefit due to death, termination, disability, or retirement will not be less than the value of the participant's account balance under a predecessor profit-sharing plan as of July 31, 1975, brought forward with interest at 5 percent.

Early retirement eligibility is reached upon attaining age 55 and completing 15 years of vesting service. Early retirement eligibility is also reached upon qualifying and being approved for reduced Federal Social Security benefits (provided the participant is vested). The early retirement benefit is the accrued normal retirement benefit reduced 5 percent per year for each year the commencement of benefit payment precedes the employee's normal retirement date.

Disability retirement benefits are provided to an employee who is at least age 55 and becomes disabled after having completed 15 years of vesting service or is eligible to receive Social Security disability payments, as defined. The benefit is the accrued normal retirement benefit payable, as defined.

Contributions: The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met ERISA's minimum funding requirements.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements, and changes therein. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the Plan's principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses: Direct expenses assessed by the trustees are borne by the Plan. All other administrative expenses are paid by the Plan Sponsor.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: Management has evaluated subsequent events through October 14, 2026, the date the financial statements were available to be issued.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and active employees are based on employees' years of credited service and a defined-benefit rate. Benefits payable under all circumstances – retirement, death, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan's consulting actuary has estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial valuations are done using the beginning-of-year method. Therefore, the actuarial present value of accumulated plan benefits as of December 31, 2024 is based upon information provided by the actuary as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits as determined by the Plan's actuary as of December 31, 2024, is as follows:

Vested benefits:	
Participants currently receiving benefits	$ 1,366,723
Other participants	5,824,220
	7,190,943
Non-vested benefits	375,531
Total actuarial present value of accumulated plan benefits	$ 7,566,474

For the year ended December 31, 2024, the increase in the actuarial present value of accumulated plan benefits is attributable to the following:

Present value of accumulated plan benefits at December 31, 2023	$ 7,186,309
Increase (decrease) during the year attributable to:	
Additional benefits accumulated including actuarial gains (losses)	200,835
Interest due to decrease in the discount period	488,185
Assumption changes	122,931
Benefits paid	(431,786)
Net increase	380,165
Present value of accumulated plan benefits at December 31, 2024	$ 7,566,474

Significant actuarial assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.00 percent compounded annually, adjusted to reflect rates available at the valuation date.
Lump sum interest rates	November 2024 417(e) segment rates of 4.66%, 5.25%, and 5.57%
Retirement	Incremental rates from age 55 through 67.
Mortality	– Healthy: Pri-2012 separate healthy annuitant and non-annuitant mortality projected generationally to 2034 using Scale MP-2021.
	– Disabled: Pri-2012 disabled mortality projected generationally to 2034 using Scale MP-2021.

The assumption change is related to an update in the lump sum segment interest rates from the November 2023 417(e) segment rates of 5.50%, 5.76%, and 5.83% as of December 31, 2023 to the November 2024 417(e) segment rates of 4.66%, 5.25%, and 5.57% as of December 31, 2024. Effective January 1, 2023, the Plan was amended to incrementally increase the benefit rate applicable to the year in which an eligible participant retires each year beginning January 1, 2023 through January 1, 2026.

(Continued)

Note 3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments and dividends for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by US Bank National Association as of December 31, 2025 and for the year then ended, and as of December 31, 2024 and for the period from October 1, 2024 through December 31, 2024, and by Vanguard Fiduciary Trust Company for the period from January 1, 2024 through September 30, 2024, the trustees of the Plan.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2025 and 2024.

Mutual funds and money market fund: The fair values of the mutual funds and money market fund are based upon the closing net asset value per share of the mutual fund on the day of the valuation as reflected on a national securities exchange (Level 1 inputs).

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 20,000	$ -	$ -	$ 20,000
Mutual funds	9,745,153	-	-	9,745,153
Total	$ 9,765,153	$ -	$ -	$ 9,765,153

	2024			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 20,000	$ -	$ -	$ 20,000
Mutual funds	8,514,637	-	-	8,514,637
Total	$ 8,534,637	$ -	$ -	$ 8,534,637

Note 6. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated December 2, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Although the Plan has been amended since receiving the determination letter, plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

Note 7. Plan Termination

The Company has the right to amend or terminate the Plan subject to the provisions under ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. In accordance with specific provisions contained in the Plan, whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the PBGC) at the time.

(Continued)

Note 7. Plan Termination (Continued)

Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the PBGC, a U.S. governmental agency, up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2025 that ceiling is $7,432 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, credit risks and global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan’s contributions are made and the actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(Continued)

Note 9. Party-In-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan to parties in interest included fees paid for investment management. Certain professional fees for the administration and audit of the Plan were paid by the Company. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

During 2024, the Plan invested in funds managed by The Vanguard Group, an affiliate of the Vanguard Fiduciary Trust Company, the Plan's trustee from January 1, 2024 through September 30, 2024. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to the Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 9,765,192	$ 8,534,753
2024 Contributions made during 2025 *	-	205,000
Net assets available for benefits per Form 5500	$ 9,765,192	$ 8,739,753

The following is a reconciliation of the change in the net assets available for benefits for the year ended December 31, 2025, per the financial statements to the net income reported in the 2025 Form 5500:

Increase in net assets available for benefits per the financial statements	$ 1,230,439
2024 Contributions made during 2025 *	(205,000)
Net income per Form 5500	$ 1,025,439

*** Contribution made subsequent to December 31, 2024 and reported in 2024 Schedule SB and Schedule H of Form 5500 as a 2024 related contribution, but not reported in financial statements in conformity with accounting principles generally accepted in the United States.**

Note 11. Actuarial Present Value of Accumulated Plan Benefits (Unaudited)

The actuarial present value of accumulated plan benefits as determined by the Plan's actuary as of December 31, 2025, is as follows:

Vested benefits:	
Participants currently receiving benefits	$ 1,729,884
Other participants	5,621,694
	7,351,578
Non-vested benefits	380,908
Total actuarial present value of accumulated plan benefits	$ 7,732,486

(Continued)

Note 11. Actuarial Present Value of Accumulated Plan Benefits (Unaudited) (Continued)

For the year ended December 31, 2025, the increase in the actuarial present value of accumulated plan benefits is attributable to the following:

Present value of accumulated plan benefits at December 31, 2024	$ 7,566,474
Increase (decrease) during the year attributable to:	
Additional benefits accumulated including actuarial gains (losses)	352,184
Interest due to decrease in the discount period	513,172
Assumption changes	(220,353)
Benefits paid	(478,991)
Net increase	166,012
Present value of accumulated plan benefits at December 31, 2025	$ 7,732,486

Significant actuarial assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.00 percent compounded annually, adjusted to reflect rates available at the valuation date.
Lump sum interest rates	December 2025 417(e) segment rates of 4.13%, 5.32%, and 6.18%
Retirement	Incremental rates from age 55 through 70+.
Mortality	– Healthy: Pri-2012 separate healthy annuitant and non-annuitant mortality projected generationally to 2034 using Scale MP-2021.
	– Disabled: Pri-2012 disabled mortality projected generationally to 2034 using Scale MP-2021.

The assumption change is related to an update in the lump sum segment interest rates from the November 2024 417(e) segment rates of 4.66%, 5.25%, and 5.57% as of December 31, 2024 to the December 2025 417(e) segment rates of 4.13%, 5.32%, and 6.18% as of December 31, 2025; and changes in the retirement rates for active employees and the withdrawal rates to better reflect anticipated future experience as the result of an assumption study.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90 percent nor more than 110 percent of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2023 Plan Year	7.00 percent, limited to 5.74 percent
2024 Plan Year	7.00 percent, limited to 5.59 percent
2025 Plan Year	7.00 percent, limited to 5.50 percent
Trust Expenses Included in Target Normal Cost	Estimated advisory and trust fees calculated as follows: ● 0.05 percent of first $10 million in assets ● 0.03 percent of next $10 million in assets ● 0.02 percent of next $80 million in assets ● 0.01 percent of assets over $100 million
Actuarial Method	Standard unit credit cost method
Valuation Date	January 1, 2025
