Independent Auditors' Report

The Trustee and Plan Administrative Committee of
Goodfellow Bros. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Goodfellow Bros. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Goodfellow Bros. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Goodfellow Bros. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Goodfellow Bros. Employee Stock Ownership Plan’s ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Goodfellow Bros. Employee Stock Ownership Plan’s internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Goodfellow Bros. Employee Stock Ownership Plan’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following brief description of the Goodfellow Bros. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

Goodfellow Civil Corp. (the Company), established the Plan effective January 1, 2023. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company and an Administrative Committee appointed by the Company's Board of Directors. Stonehaven Trust Company serves as an independent third-party trustee of the Plan (Trustee).

On December 31, 2023, the Plan purchased 100% of the Company's common stock from the selling shareholders through notes payable, which were then reassigned to the Company. After the reassignment, the Plan had a note payable to the Company for the full purchase price (Note 7) and holds the stock in a trust established under the Plan. The stock was purchased at a price of $5.00 per share, for an aggregate purchase price of $500,000.

The borrowing is collateralized by the unallocated shares of Company stock. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities therein pertaining to:

a. The accounts of employees with rights in allocated stock (Allocated) and
b. Stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are eligible to participate in the Plan upon attaining age 21 and completing one hour of service, excluding employees covered by a collective bargaining agreement, nonresident aliens with no U.S. source earned income, leased employees, temporary employees, and hourly paid employees. To receive an allocation of Company stock or Company contributions for a Plan year, a participant generally must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. These requirements do not apply in the Plan year of a participant's retirement, disability, or death.

Company Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make the regularly scheduled payments of principal and interest due on its note payable. The Company may also make contributions to fund benefit payments to terminated or retired participants. Employee contributions are not permitted. The Company approved contributions of $40,310 for the Plan year ended December 31, 2025. Amounts were paid in December 2025.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. As of the last day of each Plan year, each participant’s account receives an allocation of shares of the Company’s common stock released by the Trustee from the unallocated account and forfeitures of terminated participants’ nonvested accounts. Annual allocations of common stock and forfeitures are based on a ratio of each participant's compensation to total compensation of all participants. Appreciation or depreciation in the value of Company stock is allocated to each participant’s Company stock account based on the ratio of the participant’s Company stock account balance to all participants’ Company stock account balances.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their account balance is based on years of continuous service. A participant is 20% vested after two years of credited service and continues to vest in increments of 20% until 100% vested after six years of credited service.

Voting Rights

Each participant is entitled to direct the Trustee as to the voting of shares allocated to the participant’s account with respect to certain corporate matters specified in the Plan. Allocated shares for which voting instructions are not received, and unallocated shares, are voted by the Trustee in its discretion, subject to its fiduciary obligations under ERISA.

Payment of Benefits

Distributions shall be made in accordance with the Plan’s distribution policy when a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. In general, a participant’s account will be distributed in cash through liquidation of shares at a price representative of the fair market value of the stock. In the event Company stock is distributed, it will be subject to repurchase by the Company within a time frame defined by the Plan. If a participant’s account balance is less than or equal to $1,000, it will be distributed in cash to the participant, unless otherwise directed by the participant. If the account balance is between $1,001 and $7,000 it will be paid as a direct rollover to an individual retirement account designated by the Trustee unless otherwise directed by the participant. Accounts in excess of $7,000 may remain in the Plan or be distributed based on participant direction.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2025 and 2024, there were no forfeited nonvested accounts. These accounts are allocated to participant accounts of those employed on the last day of the Plan year. During 2025, $21,289 was allocated to participant accounts from forfeited nonvested accounts, in accordance with Plan provisions.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). Due to the 10-year participation rule, the diversification provisions will commence January 1, 2033, for eligible participants enrolled in the Plan when it was formed on January 1, 2023. Diversification is offered to each eligible participant over a six-year period. During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth year, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

Plan termination

Although the Company has expressed no intent to do so, it reserves the right to terminate the Plan at any time, subject to the Plan provisions. Upon complete or partial termination of the Plan, the entire interest of each of the affected participants shall become 100% vested and be distributed in accordance with the Plan provisions and the IRC. Upon termination of the Plan, the Company shall direct the Trustee to pay all liabilities and expenses of the trust fund and with approval of the board of directors of the Company to sell shares of stock held in the unallocated account to the extent it determines such sale to be necessary in order to repay the loan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's common stock is valued based on an independent third-party appraisal. See Note 6 for discussion of fair value measurements.

The net appreciation of Company common stock consists of both the realized gains or losses and unrealized appreciation and depreciation of allocated and unallocated Company stock.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Company pays the administrative expenses of the Plan.

Subsequent Events

Subsequent events were evaluated through October 14, 2026, the date the financial statements were available to be issued.

3. Tax Status

The IRS has determined and informed the Company by a letter dated February 12, 2025, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving this letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Administration of Plan Assets

The Plan assets, which consist of Company common stock, are held by the Trustee of the Plan.

Company contributions will be held and managed by the Trustee, which invests cash received and makes benefit payments to participants. The Trustee will also administer the payment of interest and principal on the loan using the Company contributions to the trust.

5. Investments

The Plan's investments in the Company's common shares at December 31 are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock				
Number of shares	10,024	89,976	-	100,000
Cost	$ 50,120	$ 449,880	$ -	$ 500,000
Fair value per share	$ 759	$ 759	$ -	$ 476
Fair value	$ 7,607,583	$68,286,417	$ -	$47,643,000

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Company common stock: The Company common stock held by the Plan was valued as of December 31, 2025 and 2024 based upon an independent appraisal. This appraisal was based upon a combination of the market and discounted cash flow valuation techniques. The appraiser took into account historical and projected cash flow and net income, weighted average cost of capital, market comparables, and other factors including a discount for lack of marketability.

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$ 75,894,000	$ 75,894,000
Total investments at fair value	$ -	$ -	$ 75,894,000	$ 75,894,000

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$ 47,643,000	$ 47,643,000
Total investments at fair value	$ -	$ -	$ 47,643,000	$ 47,643,000

Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, and the significant unobservable inputs.

Instrument	**Principal Valuation Technique**	**Significant Unobservable Inputs**
Company common stock	Income	EBITDA, net income, weighted average cost of capital, discount rate, discount for lack of marketability
	Market	Public comparables, revenue multiple, EBITDA multiple, discount for lack of marketability

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. Note Payable

In 2023, the Plan purchased 100,000 shares of the Company's common stock with a loan from the Company in the amount of $500,000. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. The note matures December 31, 2043, and bears interest at a fixed rate of 5.03%. The borrowing is collateralized by the unallocated shares of common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 10,023.96 shares being released and allocated for the Plan year ended December 31, 2025.

The scheduled amortization of the loan for subsequent years is as follows:

2026	$	16,637
2027		17,474
2028		18,353
2029		19,276
2030		20,245
Thereafter		376,933
Total	$	468,918

8. Related-Party and Party in Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and has indebtedness with the Company. These are related party and party in interest transactions. As described in Note 2, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown in the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
