Independent Auditor's Report

Plan Administrator
Wells Manufacturing Pension Plan
Fond du Lac, Wisconsin

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Wells Manufacturing Pension Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules (DOL) and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Note 1. Description of The Plan

The following description of the Wells Manufacturing Pension Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit plan providing pension benefits for eligible employees of Wells Vehicle Electronics, L.P. (formerly Wells Manufacturing Company, L.P.) (Company). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA).

The Plan's assets are held by the Wells Manufacturing Pension Master Retirement Trust (Wells Trust). Northern Trust Company (Northern) is the custodian of the Wells Trust. The assets of the Plan are collectively managed and administered under the Wells Trust. The Wells Trust and certain aspects of the Plan are administered by a Benefits Committee (Committee) made up of representatives from the Company. The Committee determines the appropriateness of the Plan's investment strategy and performance.

Eligibility

Employees of the Company who are members of the collective bargaining unit represented by the United Auto Workers AFL-CIO become eligible for participation in the Plan as of the first entry date after completion of one year of service. On May 1, 2012, the Plan was amended to freeze participation as of May 1, 2012, such that no employee would become a participant after such date. In addition, the amendment provided that no participant who terminated employment and subsequently became re-employed by the Company would be eligible to re-commence participation in the Plan.

Contributions

The Company pays the full cost of the Plan through contributions made to the trust fund. The amount contributed is based on periodic calculations made by the enrolled actuary, which is consistent with the Plan's objectives. The Plan was in full compliance with the minimum funding requirements imposed under ERISA for the years ended December 31, 2025 and 2024.

Payment of Benefits and Vesting

A participant becomes eligible for a normal retirement pension to be paid from the Plan if his or her employment is terminated on or after his or her normal retirement age of 65. Payment of a normal monthly retirement pension shall be equal to the participant's years of continuous service, up to a maximum of 37 years, multiplied by $16.00 for the Electronics facility and $16.00 for the Brooke Street facility.

Employees are 100% vested on a cliff vesting schedule after five years of continuous employment.

The Plan also permits early retirement at age 60. The monthly pension amount shall be the normal pension amount accrued, actuarially reduced.

Unless otherwise elected, a participant with an eligible spouse shall receive his or her pension benefit in the form of a joint and survivor option. Under this method, the participant shall receive a pension benefit during his or her lifetime and, upon his or her death, 55% of such reduced pension benefit shall be paid to the eligible surviving spouse for the remainder of his or her lifetime.

Furthermore, the Plan permits disability retirement if a participant's employment is terminated by reason of disability. A participant who has completed at least 10 years of continuous service and is terminated for reason of a disability is entitled to pension benefits equal to his or her accrued benefit at retirement. Payment of disability retirement pension shall commence on the first day of the seventh month coincident with or immediately following the participant's disability.

A participant shall also be eligible for a deferred vested pension if his or her employment is terminated for any reason before death after completion of at least five years of continuous employment. Payment of a participant's deferred vested pension shall commence as of his or her normal retirement date, or at early retirement age, 60, if proper application is made.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See below for discussion of fair value measurements.

The Plan's investment in the Wells Trust is reported at fair value based on underlying fair value of net assets held in Wells Trust. The fair value of the Plan's interest in the Wells Trust is based on the beginning of year value of the Plan's interest in the Wells Trust, plus actual contributions and allocated investment income (loss), less actual distributions and actual and allocated administrative expenses. Investment income (loss) and administrative expenses, which are not plan specific, are allocated to the Plan based upon the Plan's pro rata share of the underlying assets of the Wells Trust on a monthly basis. The Plan presents in the statements of changes in net assets available for benefits its interest in the net investment income (loss) of the Wells Trust, which consists of the realized gains or losses, unrealized appreciation or depreciation, interest, and dividends of the Wells Trust's investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

Fair value, as defined under U.S. GAAP, is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Generally accepted accounting principles establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

These tiers include:

Level 1 Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2025 and 2024. The following is a description of the valuation methodologies used for the Wells Trust assets measured at fair value:

Mutual funds
Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Common collective trust funds
These funds are valued at the net asset value (NAV) of units of the collective fund. The NAV is used as the practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the funds will sell the investments for an amount different from the reported net asset value. Transactions may occur daily.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Reclassifications

Certain reclassifications have been made to the 2024 financial statements to conform to the 2025 financial statement presentation. These reclassifications had no effect on net increase (decrease) in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date the financial statements were available to be issued.

As discussed in Note 5, the Company's Benefits Committee approved the termination of the Plan effective June 1, 2026. Subsequent to year-end, management initiated the actions necessary to implement the Plan termination, including coordination with the Plan's service providers and compliance with applicable regulatory requirements. As of October 14, 2026, the Plan termination process remained in progress and distributions of participant account balances had not been completed.

Note 3. Investment in Wells Trust

For the years ended December 31, 2025 and 2024, the Plan participated in the Wells Trust. The Plan's interest in the net assets of the Wells Trust were approximately 23.38% and 23.67% at December 31, 2025 and 2024, respectively.

The following table presents the net assets of the Wells Trust and Plan's interest in the net assets of the Wells Trust as of December 31, 2025.

	2025	
	Master Trust Balances	Plan's Interest in Master Trust Balances
Mutual funds	$ 8,313,113	$ 1,943,447

Accrued income	12,307	2,913
Total net assets	$ 18,218,191	$ 4,312,711

The following are the changes in net assets for the Wells Trust for the years ended December 31, 2025 and 2024:

	2025	2024
Changes in net assets		
Net appreciation in fair value of investments	$ 2,127,531	$ 975,085
Interest	142,109	127,884
Dividends	160,875	143,423
Other income	19,064	19,489
Investment expenses	(125,270)	(123,029)
Net change in accrued income	(1,324)	(1,627)
Net investment income	$ 2,322,985	$ 1,141,225

The following tables set forth by level within the fair value hierarchy the Wells Trust's assets accounted for at fair value as of December 31, 2025 and 2024. A description of the valuation methodologies used are discussed in Note 2.

	2025			
	Fair Value Measurements Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	$ 8,313,113	$ -	$ -	$ 8,313,113
Total assets in the fair value hierarchy	$ 8,313,113	-	-	8,313,113
Investments measured at net asset value[(A)]				11,116,981
Investments at fair value				$ 19,430,094

	2024			
	Fair Value Measurements Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	$ 6,677,560	$ -	$ -	$ 6,677,560
Total assets in the fair value hierarchy	6,677,560	-	-	6,677,560
Investments measured at net asset value[(A)]				11,528,324
Investments at fair value				$18,205,884

a) In accordance with U.S. GAAP, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the investments held by the Wells Trust as presented above.

The following table summarizes the fair value of specifically held by the Wells Trust measured using the NAV per share practical expedient as of December 31, 2025 and 2024. A description of the valuation methodologies used by the Plan's investment vehicles is presented in Note 2.

	Fair Value at December 31, 2025	Fair Value at December 31, 2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trusts	$ 11,116,981	$ 11,528,324	None	Daily	None

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Actuarial Valuation of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. In calculating the accumulated benefits, only service and salary prior to the valuation date are considered. The accumulated benefit values do not anticipate any future service or future salary increases.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and it is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the valuation as of January 1, 2025 and 2024 (which is substantially equivalent to December 31, 2024 and 2023) were:

Actuarial cost method	Traditional unit credit cost method
Discount rate	5.92% for 2025 and 2024
Mortality rate	PRI-2012 with Scale MP – 2021 for 2025 and 2024
Retirement rate	Varying rates from 10% to 100% between ages 60 and 70+ based on years of service

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2025 was as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	$ 3,715,462
Other participants	974,485
Nonvested benefits	301
Total actuarial present value of accumulated plan benefits	$ 4,690,248

The changes in the actuarial present value of accumulated plan benefits from January 1, 2024 to January 1, 2025 were as follows:

Actuarial present value of accumulated plan benefits, beginning of year	$ 4,867,464
Increase (decrease) during the year attributable to	
Benefits accumulated demographic	4,112
Interest accumulation	274,845
Benefits paid	(456,173)
Net increase (decrease)	(177,216)
Actuarial present value of accumulated plan benefits, end of year	$ 4,690,248

Note 5. Plan Termination

On June 1, 2026, the Company elected to terminate the Plan. Final payment of benefits is expected to occur in 2026. Management is in the process of completing steps to pay all accumulated Plan benefits, which would include additional Company contributions to the Plan as prescribed to pay remaining Plan benefits. As of the date these financial statements were available to be issued, the amount of any possible additional Company contributions has not been determined.

Note 6. Unaudited Information Certified by Custodian

The following is a summary of unaudited information in the accompanying financial statements as of December 31, 2025 and 2024 and for the years then ended that was obtained from data prepared and certified to be complete and accurate by the custodian:

1. The Plan's interest in the Wells Trust as of December 31, 2025 and 2024 as presented in the statements of net assets available for benefits as of December 31, 2025 and 2024.

2. The Plan's investment income from the Wells Trust as presented in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024.

3. All information in Note 3 regarding the Wells Trust.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated December 2, 2013, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Exempt Party-In-Interest Transactions

The Plan holds investments that are managed by Northern. Northern is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Investment holding period fees and custodial fees are recorded as a reduction of investment income. Fees paid by the Plan related to professional and administrative services, including actuary fees, amounted to approximately $54,000 and $56,000 for the years ended December 31, 2025 and 2024, respectively.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Wells Manufacturing Pension Plan
EIN / PN 61763647 / 031
Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Actuarial Assumptions and Methods

Demographic Assumptions

RETIREMENT
The retirement decrement assumptions for active Participants are described in Table 1. Inactive Participants are assumed to retire at age 65.

WITHDRAWAL
The withdrawal decrement assumptions are summarized in Table 2.

DISABILITY
The disability decrement assumptions are summarized in Table 3.

RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS
The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire at the plan's Normal Retirement Age.

MORTALITY AND MORTALITY IMPROVEMENT
The mortality follows the IRS 2025 Generational Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1.For ASC 960, mortality follows Pri-2012 blue collar mortality with MP-2021 mortality improvement.

MARITAL STATUS
70% of employees are assumed to be married; husbands are assumed to be three years older than wives.

DECREMENT TIMING
Decrements are assumed to occur as of the middle of the year (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).

Other Assumptions

FORM OF PAYMENT
80% of participants are assumed to elect a single life annuity. 20% are assumed to elect a 55% joint and survivor annuity.

MAXIMUM EARNINGS
The maximum compensation limit under IRC section 401(a)(17) is $350,000 for 2025.

MAXIMUM BENEFIT
The maximum benefit payable under IRC section 415 is $280,000 for 2025.

EXPENSES

Assumed expenses are $56,000 for 2025. The assumed expenses are based on actual expenses paid in the prior plan year, rounded to the nearest thousand. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

None.

GAIN / LOSS ANALYSIS

In our judgment, a gain/loss analysis is not appropriate for assessing the reasonableness of the assumptions.

Actuarial Methods

VALUATION DATE

The valuation date is January 1, 2025.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is determined by recognizing asset gains and losses over a period of three years. Asset gains and losses are defined as the difference between the expected return on the market value of assets, using a return assumption not to exceed the third segment rate, and the actual return on the market value of assets. This gain or loss is recognized over a period of three years at 33% per year, beginning in the current year. The actuarial value of assets must be within 10% of the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay earned prior to the valuation year. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

ASC 960 COST METHOD

The method used to calculate the ASC 960 present value of accumulated plan benefits is the traditional unit credit cost method. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The present value of the accrued benefit is calculated using the applicable ASC 960 assumptions.

Changes in Method from Prior Year and Rationale for Changes

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
