EIN: 52-1162115
PN: 002
Plan Year: 1/1/2025 - 12/31/2025

Weighted average retirement age:
The weighted average retirement age is computed by first determining, for each possible retirement age, the probability that an eligible employee would retire at that age, given survival to the earliest possible retirement age. Then these probabilities at each age are multiplied (or weighted) by the age and summed. This sum, rounded to the nearest integral age, is the weighted average retirement age. Eligible vested former participants assumed to retire at age 65.

Preretirement Survivor Death Benefit
Liabilities computed on the assumption that 85% of participants will have spouses with wives assumed to be three years younger than their husbands.

Expenses
Plan-related expenses expected to be paid from plan assets during the plan year.

Actuarial Value of Assets
Average of the Adjusted Market Values as of the valuation date and the 2 preceding valuation dates. The averaging is adjusted for contributions, distributions and expected earnings, using an assumed interest rate of 7.50% (but not in excess of the applicable third segment rate for that year). The resulting value may not be less than 90% nor more than 110% of the Adjusted Market Value of Assets.

Summary of Plan Provisions

The Autoneum North America Inc. Employee Retirement Plan is a defined benefit pension plan that was established March 26, 1986, and was last amended and restated effective as of January 1, 2015. The plan year begins January 1 and ends December 31.

Eligibility To Participate

Participation under this Plan was frozen effective July 20, 1990, with respect to employees scheduled to participate on or after that date.

Normal Retirement Benefit

Normal Retirement Date

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following conditions:

- Attainment of age 65.
- Participation in the Plan for five years (if not a participant under The International Bank Group Employee Retirement Plan – the "Prior Plan").

Normal Retirement Benefit

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

Normal Retirement Pension Formula

Benefit accruals under this Plan were frozen effective July 20, 1990. The frozen benefit is determined as follows:

If the participant retires as of his normal retirement date, his monthly pension will equal 1/12 of the sum of:

Formula I

For years of benefit service credited as of December 31, 1988:

- 1.75% of average annual compensation not in excess of the Social Security integration level multiplied by years of benefit service for each of the first 20 years; plus
- 1.50% of average annual compensation multiplied by years of benefit service after the first 20 years up to 10 additional years; plus
- 2.25% of average annual compensation in excess of the Social Security integration level multiplied by years of benefit service for each of the first 20 years; plus
- 1.00% of average annual compensation in excess of the Social Security integration level multiplied by years of benefit service after the first 20 years up to 10 additional years; plus
- 0.50% of average annual compensation in excess of the Social Security integration level multiplied by years of benefit service after the first 30 years up to 14 additional years.

Summary of Plan Provisions

Formula II

For years of benefit service credited after January 1, 1989, through July 20, 1990:

1.00% of average annual compensation multiplied by years of benefit service.

Total years of benefit service credited cannot exceed 44 years.

The benefit is adjusted by multiplying the benefit by the ratio of the employee's Credited Participating Service to his years of benefit service and reducing such result by 100% of the retirement income provided under another qualified retirement plan for the same period of service.

Credited Participating Service includes all Credited Participating Service under the Prior Plan and all years of benefit service credited under this Plan. If an employee's compensation is partially paid by an organization that does not participate under the Plan, Credited Participating Service with respect to years of benefit service is only credited in proportion to the Annual Base Compensation paid by participating employers. Annual Base Compensation means the employee's annual regular rate of earnings determined as of January 1 for each 12-month period for which the employee was employed

Social Security Integration Level

The Social Security integration level equals the average of the taxable wage bases over the 35-year period ending with the year the participant is entitled to full Social Security benefits.

Average Annual Compensation

"Average annual compensation" means the participant's annual compensation averaged over the 5-consecutive-year period which produces the highest average in the last 10 consecutive years including the current plan year.

Compensation

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement and wages earned after July 20, 1990.

Prior to January 1,1989, the Plan did not take into account severance pay, special pay, other pay that was not part of an employment contract or condition of employment, or compensation paid in forms other than cash.

Accrued Benefit

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon the participant's compensation and benefit service to date.

Benefit accruals were frozen as of July 20, 1990; however, the benefits payable remain subject to a cost-of-living increase that constitutes a part of the accrued benefit. This adjustment is calculated based on the benefit payable under this Plan before the reduction with respect to other retirement plans paying a benefit with respect to the same period of service.

Summary of Plan Provisions

On January 1, 1987, and on each anniversary thereof (referred to below as the "adjustment date") the retirement income with respect to participants whose date of retirement or termination preceded the first day of the year preceding the adjustment date shall be adjusted to the smaller of:

(1) The retirement income before application of this Section multiplied by the ratio of the Consumer Price Index for urban wage earners and clerical workers for the United States as a whole (1967 base = 100) as published by the United States Department of Labor, Bureau of Labor Statistics, or any successor thereto for the month of October preceding the adjustment date to such index for the month of October of the year in which the date of pension commencement occurred; or

(2) The retirement income before application of this Section increased by 3% compounded annually from the January 1 next following the date of pension commencement to the adjustment date.

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 120 months
- **Joint and Survivor Pension** with 100%, 75% or 50% survivor pension. (The joint and 75% survivor pension is only available to a married participant designating his spouse.)

If the present value of the vested pension does not exceed $7,000, a lump sum is the only payment option. If the present value of the vested pension does not exceed $1,000, the Plan will automatically distribute the benefit in cash if there is no election. If the present value of the vested pension is greater than $1,000 but does not exceed $7,000, the Plan will automatically roll over the benefit to an IRA if there is no election.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

Former Genstar Salaried Plan:

With respect to benefits accrued under the Former Genstar Salaried Plan, a participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 60 or 120 months. The beneficiary may elect a lump sum payment.
- **Joint and Survivor Pension** with 100%, 75%, 66 2/3%, 60% or 50% survivor pension.
- **Lump Sum Payment** – If the present value of the vested pension does not exceed $7,000, this is the only payment option. This payment option is not available if the Plan does not meet certain Internal Revenue Code funding requirements.

Summary of Plan Provisions

St. Paul Hourly Plan:

With respect to benefits accrued under the St. Paul Hourly Plan, a participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 120 or 240 months. The beneficiary may elect a lump sum payment.
- **Joint and Survivor Pension** with 100%, 75%, 66 2/3% or 50% survivor pension. (The joint and 75% survivor pension is only available to a married participant designating his spouse.)
- **Social Security Adjusted Lifetime Pension** providing an increased monthly pension payable until the participant is eligible to begin receiving full retirement Social Security benefits. In calculating this benefit, it is assumed that the participant would have been covered by the Social Security System until age 62 at his annual rate of pay, not in excess of the Social Security taxable wage base in effect on his retirement date.

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will for each calendar month during which the employee completes at least 40 hours of service.

Other Retirement Benefits

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the greater of

- The retirement benefit accrued as of the end of the preceding plan year, as actuarially increased; or
- The normal retirement benefit determined under the pension formula using compensation and benefit service as of July 20, 1990.

Early Retirement

A participant is eligible for early retirement after attainment of age 55 and completion of 10 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

Disability Benefit

The prior disability service credit is no longer effective as of January 1, 1995.

St. Paul Hourly Plan:

With respect to benefits accrued on or before April 21, 1989, under the St. Paul Hourly Plan, the participant is entitled to receive a disability benefit if he meets all of the following requirements as of the date he becomes disabled:

- Is actively employed

- Becomes disabled and remains so for six months
- Completes 10 years of vesting service

A participant is disabled if he is eligible for Social Security disability benefits. The benefit will be payable in the form of a Lifetime Pension until the earliest of: recovery, death, or normal retirement date. The participant's monthly disability benefit will be equal to his normal retirement pension accrued as of the date the disability occurred, reduced by any worker's compensation or Social Security payments.

Death Benefit

Preretirement Survivor Benefit

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his surviving spouse will receive a 50% survivor benefit. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his surviving spouse's benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his vested accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married at the time of death, this survivor death benefit will not be paid by the Plan.

St. Paul Hourly Plan:

The participant may designate a beneficiary to receive his accumulated employee contributions. If the participant's surviving spouse or other beneficiary dies before the Plan has distributed payments equal to the participant's accumulated employee contributions, the excess over the payments made will be paid to such beneficiary's beneficiary (or estate, if no beneficiary is named). The surviving spouse or other beneficiary may elect to receive the participant's the accumulated employee contributions as an immediate lump sum payment.

Termination Of Employment Benefits

Vesting in Accrued Pension

If employment terminates other than by retirement, the amount payable from the Plan is based upon the following vesting schedule:

Years of Vesting Service	Vesting Percentage
0–4 Years	0%
5 or More Years	100%

The prior vesting schedules will apply to persons who do not have an hour of service on or after the date the 5-year cliff vesting schedule was adopted, subject to the provisions of the plan in effect as of their employment termination date.

Time of Payment

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits. No pension payment is available under the Plan prior to early retirement or death, with one exception. If the present value of the vested accrued benefit does not exceed $7,000, the lump sum value can be paid following termination of employment. If the present value of the participant's vested accrued benefit does not exceed $1,000, the Plan will automatically distribute the amount in cash, if the participant does not

elect a rollover to an IRA or another qualified plan. If the present value of the participant's vested accrued benefit is greater than $1,000 but does not exceed $7,000 and the participant makes no election, the Plan will automatically roll over the present value of the vested accrued benefit to an IRA.

Forfeitures and Restoration

Forfeiture occurs when the participant terminates employment before being vested. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he will be permitted to return his distribution to the Plan if he is reemployed during the restoration period. However, before repayment, in determining a participant's accrued benefit, the Plan will reduce the benefit by the accrued benefit previously distributed.

Employee Contributions

Mandatory Employee Contributions

Mandatory employee contributions were made under the St. Paul Hourly Plan. The portion of the accrued benefit that is based on the employee's contributions is 100% vested. A participant's benefit can never be less than his accumulated employee contributions. The participant may withdraw his accumulated employee contributions after he terminates employment in a lump sum.

Service Rules

Eligibility Service Rules

An employee is credited with a year of eligibility service when he completes at least 1,000 hours of service in the 12-month period.

Vesting Service Rules

Vesting service is determined using the elapsed time method. Fractional years of vesting service will be credited to the completed day. For the purpose of determining years of vesting service, the Plan excludes the following service:

- Years of service before the participant attains age 21.

Benefit Service Rules

A participant is credited with a year of benefit service for each 12-month period he participates in the Plan and is employed by the employer. Fractional years of benefit service will be credited to the completed day. For the purpose of determining years of benefit service, the Plan excludes the following service:

- Service when the employee is not a member of the eligible class of employees.
- Service before participation in the Plan.
- Years of service during which the employee does not make the mandatory employee contribution.
- Service after July 20, 1990.

Summary of Plan Provisions

Service with Prior Employers

The Plan takes into account service with the following employers for the purpose noted, provided the employee was employed by the employer as of the listed effective date:

Mortality table:	Preretirement	–	UP 1984
	Postretirement	–	UP 1984
Interest rate:	Preretirement	–	7%
	Postretirement	–	4%

For the purpose of determining the amount of a lump sum payment, the distribution will be the greatest of: (i) the amount calculated using the mortality table and interest rate stated above; (ii) the amount calculated using the stated mortality table and the interest rate as defined by the Pension Benefit Guaranty Corporation; or (iii) the amount calculated using the Code section 417 mortality table and the Code section 417 interest rates.

Top-Heavy Requirements – Actuarial equivalence will be determined based on the following mortality table and interest rate assumptions:

Mortality table:	UP 1984
Interest rate:	5%

Late Retirement – Actuarial equivalence will be determined based on the following mortality table and interest rate assumptions:

Mortality table:	UP 1984
Interest rate:	7%

Early Retirement – The accrued benefit is reduced by ¼% for each of the first 36 months and 5/12% for each additional month by which the early retirement date precedes the normal retirement date.

Monthly Pension – The **joint and survivor pensions** are determined by multiplying the lifetime pension otherwise payable to the participant by a joint and survivor factor equal to (i) .88, adjusted by plus/minus .005 for each year the survivor annuitant's age is greater/less than the participant's age plus/minus five years, if the specified percentage is 50% or (ii) .78 adjusted by plus/minus .01 for each year the survivor annuitant's age is greater/less than the participant's age plus/minus five years, if the specified percentage is 100%.

The **lifetime pension with 120-month guaranteed period** is determined using a factor of .94.
