Independent Auditors' Report

To the Plan Administrator of
Palo Alto Foundation Medical Group, Inc. Retiree Health Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Palo Alto Foundation Medical Group, Inc. Retiree Health Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Palo Alto Foundation Medical Group, Inc. Retiree Health Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from qualified institutions as of December 31, 2025, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Palo Alto Foundation Medical Group, Inc. Retiree Health Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Palo Alto Foundation Medical Group, Inc. Retiree Health Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Palo Alto Foundation Medical Group, Inc. Retiree Health Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Palo Alto Foundation Medical Group, Inc. Retiree Health Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) and Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter—2024 Financial Statement

Predecessor auditors performed an audit of the 2024 financial statements of Palo Alto Foundation Medical Group, Inc. Retiree Health Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated August 7, 2025, indicated that (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the united states of america, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedule(s), other than the information in the 2024 supplemental schedule(s) that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2024 supplemental schedule(s) related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Palo Alto Foundation Medical Group, Inc. Retiree Health Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2008, to provide postretirement health care benefits to employees of Palo Alto Foundation Medical Group, Inc. (PAFMG or the Company) and their eligible spouses and dependents. Benefits for certain eligible participants are funded through a Voluntary Employee Beneficiary Association (VEBA). The Company pays all other benefits.

PAFMG appointed a Retirement Plan Committee (the Committee) to manage the operation and administration of the Plan. Effective March 19, 2025, the Committee designated U.S. Bank National Association to serve as directed trustee of Plan assets. Prior to March 19, 2025, Vanguard Fiduciary Trust Company served as directed trustee of Plan assets. A third-party administrator processes benefit claims.

The Plan is intended to be a welfare benefit plan within the meaning of Section 105(b) of the Internal Revenue Code (the Code) and Section 3(1) of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Trust is intended to be a tax exempt VEBA under Section 501(c)(9) of the Code. The plan administrator believes the Plan is designed and operated in compliance with applicable requirements of the Code and provisions of ERISA.

Eligibility

The Plan was amended effective January 1, 2014, to reduce benefits for certain employees and to eliminate benefits for any employee who was not employed with PAFMG on or before January 1, 2008, and had not attained age 50 as of January 1, 2008. Eligible employees who retire after January 1, 2008, must enroll in the Plan within 31 days following separation from service to qualify for benefits.

Eligibility is determined under the “Rule of 80” which provides that the sum of an employee’s age and length of service with PAFMG or a predecessor employer must equal 80 or more to be eligible for benefits. Employees must work a minimum number of hours annually to qualify for a year of service. The surviving spouse and any dependents of a Plan participant on the date of his or her death will continue to receive benefits under the Plan at the same level that was in effect preceding the participant’s death. The surviving spouse and dependents of an eligible employee who dies must enroll in the Plan to receive benefits.

Former employees of a predecessor employer, Camino Medical Group, Inc. (CMG), who retired prior to January 1, 2008, and were covered on December 31, 2007, under terms of the CMG postretirement medical plan and who did not accept a settlement offer in lieu of continuation of coverage are participants in the Plan

Benefits

PAFMG offers its employees medical and dental coverage. The Plan reimburses eligible participants for costs of coverage up to a maximum amount. Medicare-eligible participants are offered a fully-insured group Medicare Advantage Preferred Provider Organization (PPO). Non- Medicare eligible participants may select a self-insured Exclusive Provider Option (EPO), traditional PPO, or high-deductible PPO.

A participant's applicable reimbursement limit is based on his or her age and length of service on January 1, 2008, and ranges from 70% to 100% reimbursement, based on the lowest cost medical and dental products offered by the Company to Medicare eligible retirees. Plan reimbursement rates are doubled while a participant and spouse are both living. The maximum monthly benefit available under the Plan is $550 per month or $6,600 per year. Reimbursements under the Plan will automatically be applied to eligible retirees' premium obligations for Company sponsored health insurance benefits. PAFMG provides health insurance benefits under the Palo Alto Foundation Medical Group, Inc. Health Benefits Plan and the Palo Alto Foundation Medical Group, Inc. Dental Benefits Plan (collectively, the Health Plan). A participant who chooses to waive Company provided health insurance and purchase coverage elsewhere may be reimbursed for premiums and expenses up to the participant's applicable annual limit.

Funding

The Company makes contributions to the trust in consideration of the actuarially determined cost of benefits during the year and the maximum contribution that is deductible under Section 419 of the Code. Participant contributions are not permitted. Provisions of the Code limit deductions of contributions made to fund future benefits for current employees and retirees. Benefits in future years in respect of the Plan's benefit obligations will be funded by Company contributions to the Plan in those later years.

Expenses

In addition to trust and custodial fees the Plan incurs investment fund operating expenses that are charged directly by the funds and factored into each fund's value as a reduction in investment return. Other costs of administering the Plan may be paid by the Company or the Plan at the discretion of the Committee.

Termination

Although it has not expressed any intent to do so, PAFMG has the right to modify benefits provided to participants, to discontinue contributions, and to terminate the Plan subject to provisions set forth in ERISA.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Mutual fund capital gains distributions are included in dividend income. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

Investments are exposed to various investment risks such as interest rate, market, and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in value of investments will occur in the near term and such changes could materially affect amounts reported in the financial statements.

The actuarial present value of postretirement benefit obligations is based on estimates and assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. It is at least reasonably possible that the Plan's future experience will differ materially from projections based on current estimates and assumptions and such differences would be material to the financial statements.

Subsequent Events

Subsequent events were evaluated through October 14, 2026, the date the financial statements were available to be issued.

3. Related-Party and Party in Interest Transactions

Certain Plan investments are managed by the Trustees, and therefore, these transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Organization. No such officer or employee receives compensation from the Plan.

4. Postretirement Benefit Obligations

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31, 2025. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents who will be eligible for benefits after retirement from service with PAFMG. Prior to an active employee's eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to the employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to current benefit levels to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or termination) between the valuation date and the date of payment.

The valuation assumes medical and dental benefits increase by 8.30% for Plan year 2025 and by 6.70% for Plan year 2024. As a consequence of the cap on the maximum benefit that may be provided under the Plan, there would be no impact on the postretirement benefit obligation if the cost of benefits increased above assumed rates, and the funding limit is determined absent consideration of future cost increases.

Other significant assumptions used in the valuations were:

Actuarial Cost Method: Projected unit credit cost method with costs spread evenly over the period from date of hire to full eligibility date (80 points).

Discount Rate, as of December 31, 2025 and 2024, valuations: 4.97% and 5.26%, respectively.

Long-Term Rate of Return, as of December 31, 2025 and 2024, valuations: 6.00%

Retirement Age, as of December 31, 2025 and 2024, valuation: All participants are over age 65 and are assumed to retire immediately.

Mortality, as of December 31, 2025, valuation: Pri-2012 retiree mortality table (head-count weighted with white collar adjustments) with MP-2021 projection scale. Mortality, as of December 31, 2024, valuation: Pri-2012 retiree mortality table (head-count weighted with white collar adjustments) with MP-2021 projection scale.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligations.

Change in the December 31, 2025, valuation from the December 31, 2024, valuation is a change to the discount rate assumption.

5. Tax Status

The plan administrator received an exemption letter from the Internal Revenue Service dated March 26, 2010, indicating that the trust satisfies the requirements of Section 501(c)(9) of the Code. Section 419a of the Code effectively provides that amounts set aside for the provision of benefits without regard to reserves for postretirement medical benefits are subject to unrelated business taxable income. Consequently, the Plan recorded a provision for unrelated business income taxes of approximately $132,449 for the year ended December 31, 2025.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a tax position that more likely than not would not be sustained upon examination by a tax authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Information Certified by Trustee

The plan administrator has elected to have an audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan's financial statements and supplemental schedules was agreed to or derived from information certified as complete and accurate by U.S. Bank National Association, the Plan's current Trustee and a qualified institution. The certified information includes the Plan's investments reported in the accompanying Statement of Net Assets Available for Benefits and the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity (including net appreciation/depreciation, interest, and dividends) reported in the Statement of Changes in Net Assets Available for Benefits and the information reported in the accompanying supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the period from March 19, 2025, through December 31, 2025.Vanguard Fiduciary Trust Company, the Plan's previous Trustee and a qualified institution, certified to the completeness and accuracy of the Plan's investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2024, and the related investment activity (including net appreciation/depreciation, interest, and dividends) reported in the Statement of Changes in Net Assets Available for Benefits and the information reported in the accompanying supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the period from January 1, 2025, through March 19, 2025.

7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

> *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 16,074,490	$ -	$ -	$ 16,074,490
Total investments at fair value	$ 16,074,490	$ -	$ -	$ 16,074,490

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 13,589,770	$ -	$ -	$ 13,589,770
Total investments at fair value	$ 13,589,770	$ -	$ -	$ 13,589,770

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to Form 5500:

	2025	**2024**
Net assets available for benefits per the financial statements	$ 16,305,346	$ 15,471,888
