Independent Auditor's Report

To the Board of Trustees
B & D Industrial, Inc.
Employee Stock Ownership Plan
Macon, Georgia

Opinion

We have audited the accompanying financial statements of B & D Industrial, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of B & D Industrial, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of B & D Industrial, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Investment in Sponsor Company Common Stock

As illustrated in Note 3, the financial statements include an investment in the Sponsor Company common stock representing 99.5% of the total assets of the Plan as of December 31, 2025 and 2024, whose fair value has been estimated by management in the absence of a readily ascertainable fair value. We have reviewed the procedures applied by management in valuing the investment in the Sponsor Company common stock and have inspected the underlying documentation. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about B & D Industrial, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of B & D Industrial, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about B & D Industrial, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

NOTE 1. PLAN DESCRIPTION

The following brief description of the B & D Industrial, Inc. Employee Stock Ownership Plan (the "Plan") is for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

B & D Industrial, Inc. (the "Company" or "Sponsor Company") established the Plan as of January 1, 2015. The Plan operates as an employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an Administrative Committee appointed by the Company's Board of Directors. The trust department of an independent third-party company is the Plan's Trustee.

On December 23, 2015, the Plan purchased 488,964.95 shares of the Company's common stock with a loan of $11,979,641. The common stock is held in a trust established under the Plan. The stock was purchased at a price of $24.50 per share.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

a. The accounts of employees with rights in allocated common stock (allocated), and
b. common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they have worked at least 1,000 hours during such Plan year and have attained the age of 21. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

NOTE 1. PLAN DESCRIPTION (CONTINUED)

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for other separations from service commence in the Plan year following the separation from service and are made in five annual installments. Distributions prior to termination are allowed if age 70 ½. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan, if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of the Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest at 20% after two years of service and increase at 20% per year of service thereafter.

NOTE 1. PLAN DESCRIPTION (CONTINUED)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the final election year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2025 totaled $3,017. There were no forfeited nonvested accounts to be allocated to participant accounts in future years as of December 31, 2025 and 2024.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of net assets available for benefits and the statement of changes in net assets available for benefits, the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. At December 31, 2025 and 2024, the Plan held cash and cash equivalent investments of $78,281 and $89,684, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

The Plan records employer contributions receivable as of the effective date of the approved contributions. In accordance with ASC 326, *Financial Instruments – Credit Losses,* no allowance for credit losses has been recorded at December 31, 2025 and 2024, as employer contributions receivable have never historically incurred losses and current conditions and supportable forecasts show zero risk of nonpayment.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date on which the financial statements were available to be issued.

NOTE 3. INVESTMENTS

The Plan's investments at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	229,416.7202	188,796.2413	234,032.6452	213,480.7522
Cost	$ 5,620,710	$ 4,625,508	$ 5,733,800	$ 5,230,278
Fair Value	$ 9,064,255	$ 7,459,339	$ 8,888,560	$ 8,107,999

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2025:

	Level 1	Level 2	Level 3	Total
Investment in B & D Industrial, Inc. common stock	$ -	$ -	$ 16,523,594	$ 16,523,594
Total investments at fair value	$ -	$ -	$ 16,523,594	$ 16,523,594

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2024:

	Level 1	Level 2	Level 3	Total
Investment in B & D Industrial, Inc. common stock	$ -	$ -	$ 16,996,559	$ 16,996,559
Total investments at fair value	$ -	$ -	$ 16,996,559	$ 16,996,559

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 (Significant Unobservable Inputs) Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2025:

	Company Stock of the Sponsor Company
Balance, beginning of year	$ 16,996,559
Unrealized appreciation in estimated fair value	639,864
Shares distributed (29,300.4359 shares)	(1,112,829)
Balance, end of year	$ 16,523,594
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 639,864

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The following is a description of the valuation methodologies used for assets measured at fair value that are significant to the financial statements.

The B & D Industrial, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
B & D Industrial, Inc. common stock	$16,523,594	Income	EBITDA Net income Weighted average cost of capital Discount rate
		Market	Public comparables Revenue multiple EBITDA multiple Discount for lack of marketability

The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in the minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. LOAN PAYABLE

In 2015, the Plan entered into an $11,979,641 loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 24,684.5109 shares being released and allocated for the Plan year ended December 31, 2025.

The agreement provides for the loan to be repaid over 20 years. The outstanding balance of the note payable as of December 31, 2025 and 2024, was $5,084,250 and $5,683,232, respectively.

The 2026 payment was made in 2025. The scheduled amortization of the loan for the next five years is as follows:

Year Ending	
2026	$ -
2027	598,982
2028	598,982
2029	598,982
2030	598,982
Thereafter	2,688,322
	$ 5,084,250

The loan bears interest at 2.61%

NOTE 6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. The Company pays the majority of plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest transactions under ERISA.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan's investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 8. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Trustees directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (“IRC”).

NOTE 9. TAX STATUS

The IRS has determined and informed the Company by a letter dated December 5, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan’s tax counsel believe that the Plan is designed, and currently being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Independent Auditor's Report

To the Board of Trustees
B & D Industrial, Inc.
Employee Stock Ownership Plan
Macon, Georgia

Opinion

We have audited the accompanying financial statements of B & D Industrial, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of B & D Industrial, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with generally accepted auditing standards in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of B & D Industrial, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Investment in Sponsor Company Common Stock

As illustrated in Note 3, the financial statements include an investment in the Sponsor Company common stock representing 99.5% of the total assets of the Plan as of December 31, 2025 and 2024, whose fair value has been estimated by management in the absence of a readily ascertainable fair value. We have reviewed the procedures applied by management in valuing the investment in the Sponsor Company common stock and have inspected the underlying documentation. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about B & D Industrial, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of B & D Industrial, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about B & D Industrial, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

NOTE 1. PLAN DESCRIPTION

The following brief description of the B & D Industrial, Inc. Employee Stock Ownership Plan (the "Plan") is for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

B & D Industrial, Inc. (the "Company" or "Sponsor Company") established the Plan as of January 1, 2015. The Plan operates as an employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an Administrative Committee appointed by the Company's Board of Directors. The trust department of an independent third-party company is the Plan's Trustee.

On December 23, 2015, the Plan purchased 488,964.95 shares of the Company's common stock with a loan of $11,979,641. The common stock is held in a trust established under the Plan. The stock was purchased at a price of $24.50 per share.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

a. The accounts of employees with rights in allocated common stock (allocated), and
b. common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service, providing they have worked at least 1,000 hours during such Plan year and have attained the age of 21. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

NOTE 1. PLAN DESCRIPTION (CONTINUED)

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for other separations from service commence in the Plan year following the separation from service and are made in five annual installments. Distributions prior to termination are allowed if age 70 ½. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan, if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of the Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest at 20% after two years of service and increase at 20% per year of service thereafter.

NOTE 1. PLAN DESCRIPTION (CONTINUED)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the final election year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2025 totaled $3,017. There were no forfeited nonvested accounts to be allocated to participant accounts in future years as of December 31, 2025 and 2024.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of net assets available for benefits and the statement of changes in net assets available for benefits, the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. At December 31, 2025 and 2024, the Plan held cash and cash equivalent investments of $78,281 and $89,684, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

The Plan records employer contributions receivable as of the effective date of the approved contributions. In accordance with ASC 326, *Financial Instruments – Credit Losses,* no allowance for credit losses has been recorded at December 31, 2025 and 2024, as employer contributions receivable have never historically incurred losses and current conditions and supportable forecasts show zero risk of nonpayment.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2026, the date on which the financial statements were available to be issued.

NOTE 3. INVESTMENTS

The Plan's investments at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	229,416.7202	188,796.2413	234,032.6452	213,480.7522
Cost	$ 5,620,710	$ 4,625,508	$ 5,733,800	$ 5,230,278
Fair Value	$ 9,064,255	$ 7,459,339	$ 8,888,560	$ 8,107,999

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2025:

	Level 1	Level 2	Level 3	Total
Investment in B & D Industrial, Inc. common stock	$ -	$ -	$ 16,523,594	$ 16,523,594
Total investments at fair value	$ -	$ -	$ 16,523,594	$ 16,523,594

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2024:

	Level 1	Level 2	Level 3	Total
Investment in B & D Industrial, Inc. common stock	$ -	$ -	$ 16,996,559	$ 16,996,559
Total investments at fair value	$ -	$ -	$ 16,996,559	$ 16,996,559

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 (Significant Unobservable Inputs) Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2025:

	Company Stock of the Sponsor Company
Balance, beginning of year	$ 16,996,559
Unrealized appreciation in estimated fair value	639,864
Shares distributed (29,300.4359 shares)	(1,112,829)
Balance, end of year	$ 16,523,594
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 639,864

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The following is a description of the valuation methodologies used for assets measured at fair value that are significant to the financial statements.

The B & D Industrial, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques as illustrated in the following table.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
B & D Industrial, Inc. common stock	$16,523,594	Income	EBITDA Net income Weighted average cost of capital Discount rate
		Market	Public comparables Revenue multiple EBITDA multiple Discount for lack of marketability

The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses and approves. The results of this process are documented in the minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. LOAN PAYABLE

In 2015, the Plan entered into an $11,979,641 loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 24,684.5109 shares being released and allocated for the Plan year ended December 31, 2025.

The agreement provides for the loan to be repaid over 20 years. The outstanding balance of the note payable as of December 31, 2025 and 2024, was $5,084,250 and $5,683,232, respectively.

The 2026 payment was made in 2025. The scheduled amortization of the loan for the next five years is as follows:

Year Ending	
2026	$ -
2027	598,982
2028	598,982
2029	598,982
2030	598,982
Thereafter	2,688,322
	$ 5,084,250

The loan bears interest at 2.61%

NOTE 6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. The Company pays the majority of plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest transactions under ERISA.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan's investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 8. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Trustees directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code (“IRC”).

NOTE 9. TAX STATUS

The IRS has determined and informed the Company by a letter dated December 5, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan’s tax counsel believe that the Plan is designed, and currently being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
