Independent Auditors' Report

To the Plan Administrator and Participants of
Retiree Medical Plan for John Hancock Retirees and Specialty Retirees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Retiree Medical Plan for John Hancock Retirees and Specialty Retirees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Retiree Medical Plan for John Hancock Retirees and Specialty Retirees (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2006, as a spin-off from the HealthPlus Program of Indopco, Inc., a company of ICI America Holding, Inc. ICI America Holding Inc. sponsored the Plan from January 1, 2006 through April 1, 2008.

Effective April 1, 2008, Indopco, Inc. was merged into Henkel of America Inc. (the Company). As the result of the merger, Henkel of America Inc. became the plan sponsor. The Henkel of America, Inc. Benefits Administrative Committee (the Committee) and the sponsor, appointed by the Company, control and manage the operation and administration of the Plan. Matrix Trust Company, serves as trustee for the Plan (Trustee). Certain plan assets are held in a voluntary employees' beneficiary association (VEBA) trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following groups are eligible for postretirement welfare benefits of the Plan:

- John Hancock Retirees are identified as former National Starch and Chemical Company nonunion employees, and spouses of such deceased employees and their dependents, whose benefits were covered under a plan of Unilever on July 8, 1997, which was formerly administered by John Hancock (John Hancock Retirees); and

- Specialty Retirees (other than active employees and their dependents) are certain nonunion employees of Indopco, Inc., Ablestik Laboratories, or Tra-con, Inc. on July 8, 1997, who were age 55 or older with 10 or more years of service on that date, the spouses of such deceased employees, and their dependents (Specialty Retirees).

If the obligation to provide postretirement medical, prescription drug and dental benefits of a Specialty Retiree was transferred to an unrelated entity as the result of the sale of a legal entity or all or a portion of a business unit from which a Specialty Retiree retired, then no benefits will be provided to such Specialty Retiree after the later of the completion date of the transaction or the date set out in any transitional services agreement.

Benefits

The Plan provides the following benefits to the following groups:

John Hancock Retirees age 65 or older receive an annual subsidy of $1,800 for the years ending 2025 and 2024, that can be used to pay premiums for Medicare Part D prescription drug coverage and medical coverage supplementing Medicare offered through American Association of Retired Persons (AARP).

John Hancock Retirees under age 65 are eligible for medical and prescription benefits during 2025 and 2024 and were eligible for medical and prescription drug benefits substantially similar to the benefits provided under the National Starch and Chemical Company Plan, a Sponsor affiliated plan, in effect on July 8, 1997, as defined. John Hancock Retirees do not have dental coverage provided by the Plan.

Specialty Retirees age 65 or older receive an annual subsidy of $1,800 for the years ending 2025 and 2024 that can be used to pay premiums for Medicare Part D prescription drug coverage and medical coverage supplementing Medicare offered through AARP.

Specialty Retirees under age 65 who retired prior to January 1, 2001 are eligible for medical and prescription benefits and were eligible for the same dental benefits provided to retirees under the HealthPlus Program of the ICI Group and medical/prescription drug benefits substantially similar to the medical / prescription drug benefits provided in 2000 to retirees under the former ICI Care Plan, as defined.

Specialty Retirees under age 65 who retired prior to January 1, 2001 are eligible for medical and prescription benefits during 2025 and 2024 and were eligible for the same medical, dental and prescription drug benefits provided to retirees under the HealthPlus Program of the ICI Group, as defined.

Health claims are generally paid by the Plan but may be paid directly to care providers by the Company. To the extent the Company pays benefits, it may seek reimbursement from the Retiree Medical Plan for John Hancock Retirees Trust (Trust). Benefits are recorded when paid.

Benefits provided to pre-age 65 retirees are self-insured, with claims processed by a third-party administrator.

Self-Insurance Benefits

The claims for self-insured benefits are processed by the Plan's third-party claims processors under administrative service only (ASO) arrangements. The claims processors pay the claims directly to or on behalf of participants and then are reimbursed by the Trust. Premiums for fully-insured benefits are paid from the assets of the Trust. Despite the Plan's utilization of third-party claims processors, the ultimate responsibility for payment to the participants is retained by the Plan.

Contributions

The costs of pre-age 65 retiree benefits are shared by the Company and retirees. In addition to deductibles and co-payments, retiree contributions in the current (and prior, if applicable) years are summarized below:

Retiree Group	Description
(1) John Hancock Retirees	In 2025 and 2024, Retirees pay 50% of premiums.
(2) Specialty Retirees who retired prior to 2001	In 2025 and 2024, Retirees pay 50% of premiums.
(3) Specialty Retirees who retired after 2001	In 2025 and 2024, Retirees pay 50% of premiums.

During 2025 and 2024, retiree contributions to the plan were $0.

Stop Loss Coverage

The Plan has entered into a stop-loss insurance arrangement in an effort to limit its exposure, for self-insured benefits (individual participant claims over a specific dollar amount, as well as its aggregate exposure for all claims). Premiums for stop-loss insurance are included in insurance premiums paid in the Statements of Changes in Net Assets Available for Benefits.

Medicare Subsidy

The Plan's accumulated post-retirement benefit obligation (APBO) does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the Act) as described in Note 10.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Premiums paid by the Company, the VEBA trust, or the participants are recorded as insurance premiums paid in the accompanying Statements of Changes in Net Assets Available for Benefits.

Claim payments are recorded when paid by the third-party claims processor. Amounts due to claims processors that have yet to be reimbursed by the Plan are recorded as claims payable to administrators on the Statements of Plan Benefit Obligations. As of December 31, 2025 and 2024, there were $145 and $32 claims refundable recorded, respectively.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies and procedures. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administration of Plan Assets

Trustee fees are paid by the Plan. Claims processing fees and expenses charged by third-party providers are paid by the Company or the Plan and if paid by the Plan are recorded as administrative expenses in the accompanying Statements of Changes in Net Assets Available for Benefits. The Company paid certain processing fees and expenses of the Plan for 2025 and 2024, which are excluded from these financial statements and will not be reimbursed from the Plan.

Claims Incurred but not Reported

Plan obligations at December 31, 2025 and 2024 for claims incurred, but not reported, are estimated by the Plan's actuary in accordance with accepted actuarial principles based on claims data provided by the Plan's third-party claims administrators who are responsible for claims administration. Such estimated amounts are reported in the accompanying Statements of Plan Benefit Obligations. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Subsequent Events

Subsequent events were evaluated through October 14, 2026, the date the financial statements were available to be issued.

3. Postretirement Benefit Obligations

The amount reported as postretirement benefit obligations represents the actuarial present value of the cost of those estimated future benefits attributed by the terms of the Plan to employees' service rendered through December 31, 2025 and 2024, reduced by the actuarial present value of contributions expected to be received in the future from current plan participants. Postretirement benefits include benefits expected to be paid to or for currently retired or terminated participants and their beneficiaries and dependents. The postretirement benefit obligation represents the amount that is to be funded by contributions and from existing plan assets. Prior to an active participant's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation attributed to that employee's service in the Company rendered through the valuation date.

The actuarial present value of the expected postretirement benefit obligations is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The postretirement benefit obligation is the present value of the benefits payable from VEBA trust assets only. It does not include the present value of the total benefits that will be paid since retirees will pay a portion of the cost in accordance with the plan provisions. The projected obligation is net of participant expected contributions.

For measurement purposes, a 7.37% and 6.90% weighted average annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2025 and 2024, respectively. This rate was assumed to decrease gradually to 4.00% by the year 2051 and remain at that level thereafter.

The weighted average health care cost-trend rate assumption could have a significant effect on the amounts reported as postretirement benefit obligations. If the assumed rate increases by one percentage point, there would be no material impact to the obligation as of December 31, 2025 and 2024.

The following are other significant assumptions used in the valuation as of December 31, 2025 and 2024:

a) Discount rate - 5.60% for 2025 and 5.00% for 2024

b) Retirement age - Decremental rates for different groups

c) Mortality table - Pri-2012.H projection factors for 2025 and 2024

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

During 2025 and 2024, the Plan's actuary adjusted the post-retirement discount to 5.60% and from 5.20% to 5.00%, respectively, due to a change in plan expectations. The mortality remained unchanged from 2024 in 2025, the Pri-2012.H headcount-weighted, sex-distinct, separate employee and retiree tables with contingent survivor adjustments and no collar adjustments applied and with future improvement using the MP-2021 scale. These assumptions were made to better reflect the Plan's experience and the actuarial estimate of future plan performance and resulted in an increase of $12,993 in 2025 and a decrease of $70,152 in 2024 in the actuarial present value of accumulated plan benefit. Actuarial gains (losses) of $(137,831) for 2025 and $6,542 for 2024 resulted from fluctuations in projected healthcare cost and trends.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Money market fund is valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market fund	$ 21,081	$ -	$ -	$ 21,081
Mutual funds	10,084,942	-	-	10,084,942
Total assets in the fair value hierarchy	10,106,023	-	-	10,106,023
Total investments at fair value	$ 10,106,023	$ -	$ -	$ 10,106,023

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market fund	$ 124,035	$ -	$ -	$ 124,035
Mutual funds	8,727,503	-	-	8,727,503
Total assets in the fair value hierarchy	8,851,538	-	-	8,851,538
Total investments at fair value	$ 8,851,538	$ -	$ -	$ 8,851,538

5. Information Certified by Trustee

The plan administrator has elected to have an audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, certain information in the Plan's financial statements and supplemental schedule was agreed to or derived from information certified as complete and accurate by Matrix Trust Company, the Plan's Trustee and a qualified institution. The certified information includes the Plan's investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity (including net appreciation/depreciation, interest, and dividends) reported in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

6. Related-Party and Party in Interest Transactions

As described in Notes 1 and 2, the Plan has several arrangements with service providers. These transactions are party in interest transactions under ERISA.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to the Company or be used for purposes other than for the exclusive benefit of the Plan's participants.

8. Tax Status

The VEBA trust funding certain benefits of the Plan received an exemption letter from the Internal Revenue Service (IRS) dated April 2, 2002, stating that the trust is tax-exempt under the provisions of Section 501(c)9 of the Internal Revenue Code (IRC). However, as a result of the Plan's funding policy, from time to time the trust may be subject to income taxes. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the related trust is tax exempt.

In addition, the VEBA trust is subject to unrelated business income tax as defined in IRC Sections 511 and 512. The unrelated business income tax is based on net investment income, allowing deductions for direct costs incurred in generating the investment income, and is computed at the tax rate of the VEBA trust. Due to the nature of the Plan's investments, unrelated business income tax is insignificant in 2025 and 2024 and expected to be insignificant in subsequent years.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of the investment security such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2025 and 2024, the Plan had investments of $10,084,942 and $8,727,503, respectively, which were concentrated in three funds.

10. Medicare Prescription Drug, Improvement and Modernization Act of 2003

In December 2003, the Act was signed into law. The Act introduces a prescription drug benefit under Medicare Part D and also provides for a tax-free federal subsidy to sponsors of retiree health care benefit plans that provide an actuarially equivalent level of prescription drug benefits. Benefits under the Plan have been evaluated and found to be actuarially equivalent to the Medicare Part D.

The Plan is not directly entitled to the subsidy nor are the participant benefits affected by the subsidy as the subsidy is provided to the plan sponsor. Therefore, the Plan's post-retirement benefit obligation does not reflect the subsidy while the Company has included the effect of the Medicare subsidy in calculating its post-retirement benefit obligation, therefore the Plan's post-retirement benefit obligation differs from the Company.
