Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

• Applicable month	December
• Interest rate basis	Full Yield Curve
• Effective interest rate	5.34%

Annual rates of increase

• Statutory limits on benefits	None
• Interest credits for cash balance plan	3.15%

Plan-related expenses $402,133; plan-related expenses paid from plan assets during the prior year

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

- Disabled

Same mortality assumptions as used for healthy lives.

Termination rates

It was assumed that participants will terminate based upon rates varying by service and gender, as follows:

Years of Service	Male	Female
<10	12%	8%
10 – 19	8%	7%
20+	7%	5%

Disability

None assumed.

Retirement

The rates at which participants are assumed to retire by age are shown below:

Percentage retiring during the year	
Ages	**Rate of Retirement**
55 – 61	7.5%
62	12.5%
63 – 64	10%
65	30%
66	35%
67	30%
68 – 69	25%
70	100%

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55
• Deferred vested benefit	Current deferred vested participants are assumed to commence all benefits at age 64; current actives who are assumed to terminate prior to retirement eligibility are assumed to commence the cash balance immediately upon termination and to commence a traditional annuity benefit at age 64 (if applicable)
• Retirement benefit	Immediately upon termination of employment.
Form of payment	Participants are assumed to elect the lump sum form of payment for the cash balance benefit. For the annuity benefit, 50% of participants are assumed to elect a 50% joint & survivor benefit and 50% are assumed to elect a 5-year certain and life annuity.
Percent married	85% of male and 80% of female participants are assumed to be married. These assumptions are used to value pre-retirement surviving spouse benefits.
Spouse age	Male spouses are assumed to be three years older than female spouses.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For the death decrement, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal

decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.50% for 2023 and 5.50% for 2024 (reflecting expected earnings of 5.50% limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2024 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except for the following:

- The disability benefit was deemed to be insignificant and was not valued.
- The plan provides a final average formula lump sum option, with limitations, to individuals who were participants as of December 31, 1993. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the "Form of payment" assumption described above.

WTW has reviewed the plan provisions with the plan sponsor and based on that review, is not aware of any other significant benefits required to be valued that were not.

SCHEDULE SB ATTACHMENTS

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2025, via the eepoint administration system. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, the following assumptions were made for missing or apparently inconsistent data elements:

- For rehired retirees with suspended benefits, frozen accrued benefits were assumed to be the amounts previously in payment.
- For records provided as deceased with no confirmed survivor, date of birth and gender provided in the record are assumed to be the survivor date of birth and gender.
- Missing beneficiary information was assumed to be opposite gender and/or follow the “Spouse age” assumption detailed in this appendix if no current or prior year information was provided.
- Frozen benefits not provided in the data were assumed to be unchanged from those provided in the prior year.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective January 1, 2020.

Covered employees

Effective December 31, 2015, the plan was completely frozen and does not provide any future benefit accruals (i.e., cash balance compensation credits) after that date.

Participation date

Each employee of Southwest General Health Center, Southwest Community Health System, Southwest Community Health Foundation, Southwest Holdings Inc. or its successors becomes a participant after completing one year of Eligibility Service and attaining age 21. Physicians employed at Oaktree Physicians, Inc. become participants after the later of age 21 and one year of service or January 1, 1997.

Definitions

Vesting service

Service: For periods of employment on or after January 1, 1977, one year is credited if 1,000 Hours of Service are completed in any calendar year.

For periods of employment prior to 1977, Service equals elapsed time as an employee, excluding periods during which no employee contributions were made to the Plan and the employee was eligible to do so.

Pension service

Eligibility Service: One year is credited for each calendar year, or other eligibility computation period, in which at least 1,000 Hours of Service are completed.

Benefit Service for the final average formula: For periods of employment on or after January 1, 1977, one year is credited for each calendar year in which at least 1,800 Hours of Service are completed, with pro rata service credited for 1,000 or more but less than 1,800 hours:

SCHEDULE SB ATTACHMENTS

Hours of Service		
At Least	Less Than	Benefit Service
1,000	1,200	0.6
1,200	1,400	0.7
1,400	1,600	0.8
1,600	1,800	0.9
1,800	N/A	1.0

Exception: For 1977, if an eligible employee failed to make employee contributions, Benefit Service equals .3 if the employee had at least 600 Hours of Service between August 1 and December 31.

For periods of employment prior to 1977, Benefit Service equals Service as a participant in the Plan.

Benefit service was frozen as of December 31, 2015.

Average earnings

The average of the highest five consecutive calendar years of pensionable pay during the ten-year period ending on the earlier of the participant's termination date or retirement date

Normal retirement date (NRD)

First of month coinciding with or next following the later of age 65 or 5th anniversary of date participant commenced participation in the plan

SCHEDULE SB ATTACHMENTS

Monthly pension benefit

Grandfathered Employees (Age plus service more than 75 as of December 31, 2008):

Benefit Formula: The monthly normal retirement benefit, if paid on a five-year certain and continuous basis, is the greater of (a) or (b) below:

(a) The sum of 1.28% of Credited Monthly Compensation up to the employee's Covered Compensation plus 1.92% of Credited Monthly Compensation in excess of Covered Compensation, times years of Benefit Service, up to 35 years.

(b) The sum of (1) and (2), where:

(1) equals the participant's monthly accrued benefit as of December 31, 1993 under the prior benefit formula, and

(2) equals the benefit accrued with respect to Benefit Service credited after January 1, 1994 under formula (a) above, except that the service limitation is based on all years of Benefit Service.

The benefit determined under this formula was frozen as of December 31, 2014. Effective January 1, 2015 through December 31, 2015, benefit accruals are based on an account balance and will be determined using the Compensation and Interest Credits summarized below.

Credited Monthly Compensation represents the monthly average of the entire compensation received by the employee during the five consecutive calendar years in which Benefit Service is earned in the ten years prior to his date of retirement or December 31, 2014 which affords the highest average, or the monthly average during all full, consecutive calendar years of employment if fewer than five. For part-time employees and for the first year of employment, if Hours of Service are at least equal to 1,000, compensation is annualized to reflect the rate of compensation for a standard work year. Compensation considered for any calendar year may not exceed maximum limitations for that year as defined in the Internal Revenue Code.

If an employee has less than 1,000 Hours of Service in a calendar year, that year is ignored for the purpose of determining Credited Monthly Compensation. This means that "consecutiveness" is not affected by such years.

SCHEDULE SB ATTACHMENTS

Non-Grandfathered Employees:

The benefit is the same as the Grandfathered but using only credited monthly compensation, covered compensation and Benefit Service through December 31, 2008. Effective January 1, 2009 through December 31, 2015, benefit accruals are based on an account balance and will be determined using the following Compensation and Interest Credits:

Compensation Credits

Years of Service on Last Day of Plan Year	Compensation Credit
Less than 11 Years of Service	3%
11 to 20 Years of Service	4%
21 Years of Service or More	5%

The Compensation Credit is accrued for employees with 1,000 hours or more of service in the year.

Compensation credits will no longer be earned after December 31, 2015.

Interest Credits

The Interest Credit is provided at the end of the calendar year using the September 10-year Treasury yield of the preceding year.

Early retirement	Retirement before NRD and on or after both attaining age 55 and completing five years of Service

Forms of payment

Final average formula: An employee may elect to receive his benefit on a five-year certain and continuous basis or on an actuarially equivalent 10-year certain, 15-year certain, 50%, 75% or 100% contingent annuitant or straight-life basis. In addition, a Lump Sum Cash Payment Option is available, with limitations, only to individuals who were participants as of December 31, 1993. Unless otherwise elected, any benefit (except disability benefits) payable under the Plan shall be paid:

(1) on a 50% contingent annuitant basis, if the employee is married on the date his benefit commences; or

(2) on a five-year certain and continuous basis otherwise.

Under the provisions which became effective on June 1, 1995, the limited lump sum equals:

(1) the accrued benefit times a lump sum factor based on the IRC Section 417(e) mortality table and interest rate;

(2) to maximum of the 12/31/93 accrued benefit times the lump sum factor described in (1) above plus $25,000.

If the maximum applies, a residual benefit equals the accrued benefit times one less the ratio of the lump sum without limit to the limited lump sum.

The cash balance benefit is available as a lump sum, single life basis and the 50%/75%/100% Joint & Survivor option.

Actuarial equivalence for the final average formula optional annuities is based on the 1971 TPF&C Forecast Mortality Table, set back five years, with an annual interest rate of 8%.
