Independent Auditor's Report

To the Trustees of
The JEPH Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements

We have performed an audit of the financial statements of The JEPH Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of The JEPH Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2025, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The JEPH Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The JEPH Pension Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2025 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The JEPH Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The JEPH Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - 2025 Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), and Schedule H, Line 4j - Schedule of Reportable Transactions as of or for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditor's Report on the 2024 Financial Statements

The financial statements of The JEPH Pension Plan as of December 31, 2024, were audited by Freed Maxick, P.C., who joined with WithumSmith+Brown, PC on August 1, 2025. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 9, 2025 indicated that (a) the amounts and disclosures in the December 31, 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2024 supplemental schedules, other than the information in the 2024 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2024 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of The JEPH Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined benefit pension plan covering substantially all employees of Steuben Foods, and nonunion, non-management employees of Mountainside Farms, Pound Ridge and Worchester Creameries, as well as Steuben Sales management employees (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Investment Review Board is responsible for oversight of the Plan. The Investment Review Board determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan Trustees.

Eligibility
Prior to the amendment effective July 31, 2005, all employees of the Company who had reached the age of 21 and had one year of service were eligible to participate in the Plan. An employee became a participant on the first of the month coinciding with or following both the completion of a year of service and attainment of age 21. The Plan was amended effective July 31, 2005 to freeze participation and benefit accruals as of July 31, 2005. On or after August 1, 2005, no employee who was not a participant as of July 31, 2005 shall become a participant and the accrued benefit of any individual who was a participant as of July 31, 2005 is his or her accrued benefit.

Contributions
The Plan's funding policy is for the Company to make annual contributions to the Plan in amounts not less than the minimum funding requirement of ERISA and not more than the amount permitted by the Internal Revenue Code ("IRC"). The minimum funding requirements of ERISA were met in 2025 and 2024.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Vesting
A participant's right to receive his or her retirement benefit shall become non-forfeitable upon the earlier of (a) the date the participant is credited with a vesting period of service of five years or (b) the participant's attainment of age 65.

Pension Benefits
Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65), based on a percentage of the average of the highest consecutive five years of compensation multiplied by the number of service years, not exceeding 40 years. The normal retirement date is the first of the month that coincides with or follows the attainment of age 65. The Plan permits early retirement starting at age 55 once the participant has earned five years of vesting service. If a participant elects early retirement, the participant can elect to receive a benefit in the amount of the accrued benefit beginning at age 65 or the participant may choose to collect an early reduced benefit from the Plan. The early benefit is reduced by the participants benefit commencement age taking into account the participant will be collecting benefits over a longer period of time.

Death and Disability Benefits
If an active participant dies prior to commencing retirement benefits, the Plan will provide a benefit to the participant's spouse. Active participants who become totally and permanently disabled become 100% vested in his/her accrued benefit and payments commence as though the participant had retired.

2. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Review Board determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer Receivables
In September 2019, the Plan was notified by the Pension Benefit Guarantee Corporation (“PBGC”) (a U.S. government agency), that they were in agreement with the Plan Sponsor’s, Steuben Foods, Inc., calculation of additional contributions required to be made relating to the closure of the Elmhurst Dairy, Inc. facility in October 2016. As a result of the Notice of Determination by the PBGC, the Plan Sponsor must fund $121,029 in seven annual installments. During 2019, total contributions of $847,203 were recorded, along with a corresponding contribution receivable. Each year as contributions are remitted to the Plan, the receivable will be reduced. The Plan Sponsor remitted $121,029 during the years ended December 31, 2025 and 2024.

Payment of Benefits
Benefits payments to participants are recorded upon distribution.

Administrative Expenses
All expenses associated with the operation of the Plan including, but not limited to the premiums for termination insurance payable to the PBGC, asset custodian expenses and fees, actuarial and recordkeeping services are paid by the Plan and recorded as deductions in the accompanying statements of changes in net assets available for benefits.

In addition, certain investment related expenses are included in net appreciation in fair value of investments and are recorded in the accompanying statements of changes in net assets available for benefits.

Subsequent Events
The Plan's management evaluated events that occurred after December 31, 2025 through October 13, 2026, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Actuarial Present Value of Accumulated Plan Benefits
Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their five consecutive years receiving the greatest aggregate amount of compensation as of July 31, 2005. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included to the extent that they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Principal Life Insurance Company, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial cost method was computed using the Pension Protection Act of 2006 Funding Rules. The significant actuarial assumptions used in the valuations as of December 31, 2024 were (a) life expectancy of participants (Pri-2012 white collar mortality table), (b) retirement age assumptions (the assumed retirement age was 65), and (c) investment return. The interest rates used to discount the obligation for 2024 was 5.75%. The assumed interest rate is the net rate of return after payment of any expenses or fees charged to the Plan.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material differences.

The following is a summary of the actuarial present value of accumulated plan benefits as of December 31, 2024:

Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	$	6,078,724
Other participants		3,482,134
Total vested benefits		9,560,858
Nonvested benefits		-
Total actuarial present value of accumulated plan benefits	$	9,560,858

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024:

Actuarial present value of accumulated plan benefits at beginning of year	$	9,603,547
Change during the year attributable to		
Interest due to decrease in the discount period		532,222
Benefits paid		(704,860)
Benefits accumulated and plan experience		129,949
Net decrease		(42,689)
Actuarial present value of accumulated plan benefits at end of year	$	9,560,858

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Pooled Separate Accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The separate account investment choices must be reported at the fair value in the defined benefit plan's financial statements. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value ("NAV") as the practical expedient, or the price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts (a)	$ -	$ -	$ -	$ 8,668,669
Total investments at fair value	$ -	$ -	$ -	$ 8,668,669

	December 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts (a)	$ -	$ -	$ -	$ 8,380,571
Total investments at fair value	$ -	$ -	$ -	$ 8,380,571

(a) In accordance with FASB ASC 820, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments that Calculate Net Asset Value
The following table summarizes investments measured at fair value based on net asset value per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	December 31, 2025			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Pooled separate accounts	$ 8,668,669	N/A	Daily	None

	December 31, 2024			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Pooled separate accounts	$ 8,380,571	N/A	Daily	None

5. Concentrations

As of December 31, 2025 and 2024, three investments represented a concentration of greater than 10% of the Plan's net assets available for benefits.

6. Information Certified by Custodian

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, Principal Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity reported in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024 and the information reported in the supplemental Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2025.

7. Related Party and Party In Interest Transactions

The Plan's investments are maintained in investment funds managed by Principal Life Insurance Company for the years ended December 31, 2025 and 2024. Principal Life Insurance Company was the custodian as defined by the Plan and, therefore, transactions with Principal Life Insurance Company qualify as party-in-interest.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party-in-interest under ERISA.

8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the PBGC for up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status

The Plan adopted a nonstandardized pre-approved defined benefit plan sponsored by Principal Life Insurance Company. The nonstandardized pre-approved defined benefit plan provider has received an advisory letter from the Internal Revenue Service ("IRS") on February 28, 2023 as to the pre-approved plan's qualified status. The pre-approved plan advisory letter has been relied upon by the Plan. The Plan has been amended since the pre-approved plan received the advisory letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable provisions of the IRC and therefore believe the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 8,884,340	$ 8,798,223

Employer contributions receivable	(121,029)	(363,087)
Net assets available for Plan benefits per the Form 5500	$ 8,763,311	$ 8,435,136

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500:

Increase (decrease) in net assets available for benefits per the financial statements	$ 86,117	$ (190,160)
Differences in		
Contributions	242,058	-
Net change in net assets per the Form 5500	$ 328,175	$ (190,160)

SCHEDULE H, line 4i - SCHEDULE OF ASSETS (HELD AT END OF YEAR)

Assumptions prescribed by law	
Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
Assumptions selected by actuary	
Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	6.00% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. Due to the size of the plan and limited experience, we're not recognizing a disability assumption prior to retirement.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	None. Due to the size of the plan and limited experience, we're not recognizing a withdrawal assumption prior to retirement.

Form of benefit and basis	100% of active participants will elect a benefit paid in a lump sum at the assumed retirement age. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience. The lump sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 5.50%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions
Methods selected by plan sponsor	
Asset method	Market value
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65%	5.28%	5.63%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 White collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan. Due to the size of the plan and limited experience, we are assuming no mortality before benefit payment period.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

5.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
The JEPH Pension Plan
EIN 11-1604484 Plan No. 004

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of $54,565 contributions received after the plan year end with a discounted value of $54,336.

Schedule SB, Line 19 - Discounted Employer Contributions
The JEPH Pension Plan

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/13/2019, updated through the amendment signed on 08/29/2024.

Plan eligibility

Age	Attained age 21.
Service	One year of service in which at least 1,000 hours worked. No new entrants may enter the plan after 07/31/2005.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The sum of (a), (b), and (c): (a) 1% of average compensation multiplied by years of service (up to a maximum of 35 years). (b) 0.65% of average compensation in excess of covered compensation multiplied by years of service (up to a maximum of 35 years). (c) 1.33% of average compensation multiplied by years of service in excess of 35, but not to exceed 40. Benefit accruals are frozen as of 07/31/2005

Early retirement benefit

Age	Attained age 55.
Service	Completed 5 years of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 1/15 for each of the first 5 years and 1/30 for each of the next 5 years that the early retirement date precedes normal retirement date. Effective 4/1/1996, these reduction factors only apply to pre-existing benefits and for participants that terminate employment after reaching an early retirement date. The reduction factors for other participants who choose to receive an annuity prior to their normal retirement date will be based on actuarial equivalence using an interest rate of 7.00% and a 50/50 blend of the male and female rates from the 1983 Group Annuity Mortality Table.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Average compensation	The monthly average of total pay received for the 60 consecutive months out of all years before normal retirement date which gives the highest average. Effective July 31, 2005, average monthly compensation was frozen.
Covered compensation	The monthly average of the social security taxable wage bases in effect under section 230 of the Social Security Act for each year in the 35 year period ending with the year in which the employee attains social security retirement age. Effective July 31, 2005, a participant’s covered compensation is equal to the amount as of that date.

Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.
- Single sum payment on portion of benefit earned prior to April 1, 1996, up to a maximum of $10,000.

The optional form conversion basis for payments other than lump sums varies depending on the optional form. See Actuarial Equivalent section of the plan document for details.

Lump sum provisions

Small amount force out (SAFO) – allowed up to $7,000.

Lump sums in excess of SAFO - are allowed as noted above.

Conversion – deferred rate based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.
