Independent Auditor's Report

Plan Administrator, Board of Directors, Members of the
DSST 401(k) Investment Committee and Management
Denver School of Science and Technology 401(k) Plan
Denver, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Denver School of Science and Technology 401(k) Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2026 (in Liquidation) and 2025 (Ongoing), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of June 30, 2026 and 2025 and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As discussed in Note 7 to the financial statements, the Denver School of Science and Technology (the Organization), the Plan's sponsor, approved on May 27, 2026, to terminate the Plan, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2025 financial statements to the liquidation basis used in presenting the 2026 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Administrator, Board of Directors, Members of the
DSST 401(k) Investment Committee and Management
Denver School of Science and Technology 401(k) Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

General

The following description of Denver School of Science and Technology 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was a defined contribution plan covering qualified employees of Denver School of Science and Technology (the Organization). The Plan was subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

The Investment Committee determined the appropriateness of the Plan's investment offering and monitored investment performance.

Employees over the age of 18 were eligible to participate in the Plan, with the exception of union employees, non-resident aliens, leased employees, and temporary, part-time, and seasonal employees who normally worked less than 900 hours per year. Participants had to be employed on the last day of the Plan year and/or had fulfilled their duties throughout the school year in order to receive the employer discretionary non-elective profit-sharing contribution unless they qualified for specific waivers as defined in the Plan document.

Employees were able to enter the Plan on the first day of the month coinciding with or next following the date they had satisfied the Plan's eligibility requirements.

Contributions

Each year, participants were able to contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions were subject to certain Internal Revenue Code (IRC) limitations. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Plan allowed participants to designate contributions as Roth contributions. Participants could also contribute amounts representing distributions from other qualified plans (rollover). During the years ended June 30, 2026 and 2025, the Organization contributed 5% of each eligible participant's base compensation, as defined in the Plan document, as an employer discretionary non-elective profit-sharing contribution.

The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 5% of eligible compensation and their contributions invested in a designated age-weighted target date fund until changed by the participant.

Participant Investment Account Option

Upon enrollment into the Plan, a participant was able to direct deferrals and employer contributions in any of the funds offered by the Plan. Participants could change their investment options daily.

Participant Accounts

Each participant's account was credited with the participant's contribution, the Organization's discretionary non-elective profit-sharing contribution and plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant's earnings, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant was entitled is the benefit that can be provided from the participant's vested account.

Vesting

Due to the liquidation in 2026, participants became fully vested. Participants were immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Organization's profit-sharing contribution portion of their accounts plus earnings thereon was based on years of continuous service. Employees hired prior to July 1, 2021, were immediately vested. Employees hired July 1, 2021, or after were subject to a two-year cliff vesting schedule.

Notes Receivable from Participants

Participants were able to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loan interest rate, reviewed periodically, was set at 1% above the prime rate. Principal and interest were paid ratably through payroll deductions over a period not to exceed five years, unless the proceeds of the note were used to acquire the participant's residence, in which case the loan terms can range up to 15 years. A participant was not allowed to have more than one outstanding note at any one time.

Payment of Benefits

Participants were able to elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon retirement, termination of service, death, or disability. A terminated employee with a balance of less than $5,000 would be automatically paid out by the Plan upon termination. Distributions could be made at the participant's election prior to termination upon attainment of age 59-½ or hardship as defined in the Plan document.

Forfeited Accounts

At June 30, 2026 and 2025, there was $20,973 and $266,275, respectively, in forfeited nonvested accounts. Any forfeited nonvested accounts could be used to pay plan expenses or reduce any company matching contributions. During 2026 and 2025, forfeitures of $391,195 and $130,053, respectively, were used to reduce company matching contributions. There were no forfeitures used to pay plan expenses for 2026 and 2025.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting for 2026 and the accrual basis of accounting for 2025. Under the liquidation basis of accounting, assets are measured at the estimated amounts the Plan expects to collect. Because investments were already reported at fair value or contract value and notes receivable from participants were reported at their unpaid principal balance plus accrued interest, no adjustments were needed to adopt the liquidation basis. There were no subsequent changes in measurement methods or significant assumptions.

Investments held by a defined contribution plan were required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value was the relevant measure for the portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value was the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments were reported at fair value, except for the fully benefit-responsive investment in contract, which was reported at contract value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fully benefit-responsive investment contracts were valued at contract value. Contract value represented contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administration expenses. See Note 3 for a discussion of fair value measurements.

Contributions

Contributions from Plan participants and the matching contributions from the Employer were recorded in the year in which the employee contributions are withheld from compensation.

Purchases and sale of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

The classification of investment earnings reported in the statements of changes in net assets available for benefits could differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. Delinquent notes receivable were reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses were paid by either the Plan or the Organization, as provided by the Plan document. Expenses that were paid directly by the Organization were excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses were included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

Subsequent events have been evaluated through October 13, 2026, which is the date the financial statements were available to be issued.

Note 3. Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2026 and 2025:

	2026			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 65,004,398	$ 65,004,398	$ -	$ -
Variable annuities (pooled separate accounts)	1,179,700	-	1,179,700	-
Total assets in the fair value hierarchy	66,184,098	65,004,398	1,179,700	-
Investments measured at net asset value[(A)]	1,086,143			
Investments at fair value	$ 67,270,241	$ 65,004,398	$ 1,179,700	$ -

	2025			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 51,894,878	$ 51,894,878	$ -	$ -
Total assets in the fair value hierarchy	$ 51,894,878	$ 51,894,878	$ -	$ -

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended June 30, 2026 and 2025. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan has no Level 3 investments.

Note 4. Certification of Plan Insurance and Trustee

The Plan administrator elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Empower Trust Company (ETC), a qualified institution, has certified the following information included in the accompanying financial statements and supplemental schedule of assets (held at year-end) was complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of June 30, 2026 and 2025.
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended June 30, 2026 and 2025.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at year-end) as of June 30, 2026.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 5. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions included those with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees were covered by the Plan, an employee organization whose members were covered by the Plan, a person who owned 50% or more of such an employer or employee association, or relatives of such persons.

The Plan paid approximately $216,000 and $215,000 of recordkeeping fees to Empower during the years ended June 30, 2026 and 2025, respectively. The Organization provided certain administrative services at no cost to the Plan.

One of the Plan's investments was a Guaranteed Investment Contract (GIC), issued by Massachusetts Mutual Life Insurance Company (Mass Mutual) and managed by Empower, the custodian as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions were exempt party-in-interest transactions under ERISA.

Note 6. Investment Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive GIC with Mass Mutual, which was acquired by Empower Annuity Insurance Company of America (EAIC) on December 31, 2020, who maintained the contributions in a general account, which was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer was contractually obligated to repay the principal and a specific interest rate that was guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with the issuer, but it could not be less than 1.10%. Such interest rates were reviewed annually for resetting.

Because the GIC was fully benefit-responsive, contract value was the relevant measure for the GIC, as this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value as reported to the Plan by Empower represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value of the investment contract at June 30, 2026 and 2025 was $577,566 and $592,026, respectively.

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet financial obligations. The issuer's ability to have met its contractual obligations could be affected by future economic and regulatory developments. There are no reserves against the contract value.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) failure of the Plan to meet certain IRS Code sections, (3) termination or partial termination of the Plan, (4) breach of the Investment Agreement, or (5) premature termination of the contract by Mass Mutual without proper notification. As discussed in Note 7, the Organization approved termination of the Plan and notified the contract issuer of the impending termination. At June 30, 2026, the Plan continued to report the investment contract at contract value, and management was not aware of any restrictions, penalties, reserves, or adjustments that would affect the Plan's ability to realize contract value upon settlement of the contract. There were no reserves against contract value.

Note 7. Plan Termination

On May 27, 2026, the Organization approved the termination of the Plan, and management determined that liquidation was imminent. Participants became fully vested in their account balances, and Plan assets were frozen as of July 1, 2026. Participants were given the option of receiving their liquidation distribution in cash or as a rollover into another qualified plan, and distributions will be processed based on participant elections after year-end. The Plan's liquidation activities are limited to disposing of the remaining assets, presented in the accompanying statements of net assets available for benefits. The Plan has no liabilities to settle. There were no distributions related to the liquidation as of June 30, 2026, and management expects the liquidation to be completed by June 30, 2027. The timing of final distributions depends on when participants submit their elections, and the amounts ultimately distributed will vary with market conditions until the Plan's investments are liquidated and distributed (see Note 9). There were no material costs or income incurred, earned, or expected related to the liquidation to be recorded as of June 30, 2026.

Note 8. Tax Status

The Plan used a pre-approved plan document sponsored by Empower Retirement LLC, which received an advisory letter from the Internal Revenue Service (IRS), dated April 7, 2021, stating the pre-approved document satisfied the applicable provisions of the IRC. The Plan's management believed that the Plan was designed and operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there were currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2026 and 2025 to Form 5500:

	2026	2025
Net assets available for benefits per the financial statements	$ 68,254,324	$ 55,928,394
