Plan Administrator and Participants
Triangle Credit Union Cash Balance
Defined Benefit Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Triangle Credit Union Cash Balance Defined Benefit Plan and Trust (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a period within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

TRIANGLE CREDIT UNION CASH BALANCE
DEFINED BENEFIT PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

1. Description of Plan

The following brief description of the Triangle Credit Union Cash Balance Defined Benefit Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a cash balance pension plan covering substantially all employees of Triangle Credit Union (Credit Union) who meet certain eligibility requirements. It is subject to the *Employee Retirement Income Security Act of 1974* (ERISA). The original effective date of the Plan is April 1, 1982.

On December 29, 2022, the *Setting Every Community Up for Retirement Enhancement Act of 2022* (SECURE 2.0 Act) was signed into law. It includes mandatory and optional provisions impacting retirement plans. Applicable provisions outlined in the SECURE 2.0 Act will be adopted if elected and/or required. Plan amendments for these changes are not yet required.

Eligibility

Employees are eligible for participation under the Plan on the first day of the Plan year coinciding with or next following attainment of age 20 and completing six months of service.

Normal Retirement Date

A participant's normal retirement date is age 65.

Retirement Benefit Formula

If an employee's original employment began prior to January 1, 2013, and they were not rehired on or after January 1, 2017, they are considered a "Grandfathered Participant" and the normal retirement benefit will be determined based on a retirement benefit formula equal to 30% of the employee's average monthly compensation (determined using a sixty-month highest consecutive average), computed to the nearest 5 dollars. When the Plan year is a short year, the number of the hours of service required will be proportionately reduced based on the number of full months in the short Plan year.

In addition to the calculations set forth above, the accrued benefit will be subject to the following rules and limitations:

(a) If still employed after reaching normal retirement age, participants will continue to accrue benefits based upon service and average monthly compensation determined at the close of any Plan year coinciding with or following normal retirement age.
(b) The accrued benefit will be adjusted by an accrual fraction which is calculated as the actual years of service completed divided by the years of service an employee would have if remaining employed to normal retirement age.
(c) If the years of service as of the end of the Plan year in which normal retirement age is attained are less than fifteen (15), the percentage of average monthly compensation will be reduced by one fifteenth (1/15th) for each year of service less than fifteen (15).

1. Description of Plan (Continued)

If not a "Grandfathered Participant," the normal retirement benefit will be equal to the actuarial equivalent of the hypothetical account.

The "Hypothetical Account" is the sum of the following amounts under (a) and (b) below as of the date of determination:

(a) Hypothetical Allocation. For each Plan year in which employees are a participant, their hypothetical account will be credited for that Plan year with a hypothetical allocation equal to 3% of Plan year compensation. The monthly accrued benefit shall not be less than $10 for any cash balance participant who works at least 1,000 hours.

Eligible participants must complete at least one (1) year of service during the Plan year to be eligible to receive the hypothetical allocation described above. For purposes of determining eligibility to receive a hypothetical allocation, a year of service means a Plan year during which 1,000 hours of service are completed.

(b) Interest Credit. For each month until the accrued benefit is paid, the participant's hypothetical account will be credited with interest determined by multiplying the balance of their account at the beginning of the Plan year, plus any credited hypothetical allocation for the Plan year, by 1/12th of the applicable interest rate. The applicable annual interest rate will be the average 30-year Treasury rate, as reported by the Internal Revenue Service, for the second calendar month preceding the first day of the Plan year. No interest will be credited for any period after payment of a participant's accrued benefit commences. Interest will be credited as of the last day of each month.

Early Retirement Benefit

Any participant who has reached age 55 and has at least 10 years of credited service is eligible to elect early retirement. The participant's accrued benefit will be reduced by the greater of 1) $5/9^{ths}$ of 1% for each of the first 60 months and $5/18^{ths}$ of 1% for each month thereafter or 2) the actuarial equivalent of the accrued benefit if that benefit is distributed in a form other than nondecreasing life annuity payable over the participant's lifetime.

Pre-Retirement Death Benefit

If a participant dies prior to commencing to receive retirement benefits, their spouse will receive a death benefit equal to the actuarial equivalent of the minimum spouse's death benefit. If unmarried, death benefits will be provided to a designated beneficiary. The minimum spouse's death benefit is equal to the amount that would have been paid to the spouse if the participant had begun receiving distributions under a joint and 50% survivor annuity.

Lump Sum

Available to any participant with a vested accrued benefit.

1. Description of Plan (Continued)

Vesting Percentage

The percentage vested for grandfathered participants shall be:

Years of Service	Vesting Percentage
Less than 3	0%
3	20
4	40
5	60
6	80
7 or more	100

For cash balance participants, the vested percent is zero for less than three years of service and 100% vested after three years of service.

Funding Policy

The sponsor of the Plan, the Credit Union, makes contributions to the Plan from time to time in amounts based on actuarial valuations, to be at least sufficient to meet the minimum funding standards of ERISA. The Plan has met the ERISA minimum funding standards for 2025 and 2024.

Termination of the Plan

Although it has not expressed any intent to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefits Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. Participants should refer to the Plan document for more complete information.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

2. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the period, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options, including mutual funds within a pooled separate account and a guaranteed investment contract with a life insurance company. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Valuation of Investments and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive group annuity contract, which is reported at contract value because contract value is the amount the participants would receive if they were to initiate permitted transactions with the Plan. The Plan's investments in the mutual funds are stated at fair value, which has been determined based on the net asset value of the underlying funds as a practical expedient. The mutual funds are within a pooled separate account that has no unfunded commitments, can be redeemed daily and requires no redemption notice. Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions are accrued based upon amounts required to be adequately funded under the provisions of the ERISA or, if greater, amounts actually contributed for the year which are subject to certain limitations. Contributions are recorded in the period for which the contribution is declared.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan participants to the extent they are not paid by the Plan sponsor. Fees for recordkeeping services and investment management are paid by the Plan participants indirectly through the Plan's investment returns.

2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by the Plan Administrator to determine whether such events should be recognized or disclosed in the financial statements. The Plan Administrator has evaluated subsequent events through October 15, 2026, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The actuarial present value of accumulated Plan benefits is determined by an actuary from TruStage, formerly known as CUNA Mutual Group, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated Plan benefits at December 31, 2025 and 2024 and changes in accumulated Plan benefits for the years then ended are as follows:

Actuarial Present Value of Accumulated Plan Benefits	2025	2024
Vested benefits for:		
Active participants	$4,453,396	$4,792,018
Other participants	391,962	654,980
Total vested benefits	4,845,358	5,446,998
Nonvested benefits	26,917	33,547
Total actuarial present value of accumulated Plan benefits	$4,872,275	$5,480,545

3. Actuarial Present Value of Accumulated Plan Benefits (Continued)

	2025	2024
Actuarial present value of accumulated Plan benefits at beginning of year	$ 5,480,545	$ 5,736,545
Increase (decrease) during the year attributable to:		
Increase in interest due to decrease in discount period	285,525	309,464
Change in actuarial assumptions	(87,919)	–
Benefits paid to participants	(1,443,582)	(1,157,629)
Benefits accumulated	637,706	592,165
Net decrease	(608,270)	(256,000)
Actuarial present value of accumulated benefits at end of year	$ 4,872,275	$ 5,480,545

The discount rate was 6.25% and 6.00% as of December 31, 2025 and 2024, respectively. The computation of the actuarial present value of accumulated Plan benefits was made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, 2025 and 2024, there would be no material differences. The more significant assumptions underlying the actuarial computations (as used by the consulting actuary) in determining the present value of accumulated Plan benefits are as follows:

2025	
Mortality	PRI 2012 Mortality Table Projected by Scale MP 2021 for employees before retirement and for annuitants after retirement
Percentage electing lump sums	95% if terminating before early retirement, 80% if terminating after early retirement
Assumed retirement age	Normal retirement age
2024	
Mortality	PRI 2012 Mortality Table Projected by Scale MP 2021 for employees before retirement and for annuitants after retirement
Percentage electing lump sums	95% if terminating before early retirement, 80% if terminating after early retirement
Assumed retirement age	Normal retirement age

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of the unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs to the valuation methodology are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available. The Plan does not hold any investments subject to the leveling tables.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds: The Plan's interests in the investments included within a pooled separate account are valued based on net asset values reported by the trustee of the funds based upon the quoted fair values of the underlying mutual fund investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses the unfunded commitment and redemption terms of the pooled separate accounts held by the Plan as of December 31:

	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
2025				
Mutual funds:				
DB 3(38) Aggressive Allocation (a)	$8,276,359	$ –	Daily	N/A
2024				
Mutual funds:				
DB 3(38) Aggressive Allocation (a)	$7,840,783	$ –	Daily	N/A

(a) DB 3(38) Aggressive – This model seeks efficient risk-adjusted returns over time while emphasizing a traditionally aggressive asset allocation.

5. Contracts With Insurance Company

The Plan has a fully benefit-responsive group annuity contract issued by CMFG Life Insurance Company (CMFG). Interest under this contract will accrue on a daily basis. An initial guaranteed interest rate was credited from the contract effective date until the initial guaranteed interest rate expiration date. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There is no guaranteed level of future interest rates after the initial guaranteed interest rate expiration date, and interest is credited at the then-current effective annual interest rate declared by CMFG. The contract is included in the financial statements at contract value as the contract is supported by the general account of CMFG. Contract value, as reported to the Plan by CMFG, represents contributions made under the contract, plus earnings, less participant withdrawals or transfers and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan Administrator does not believe that a contract termination is probable of occurring. The contract is subject to a market value adjustment if the Plan terminates the contract and elects a lump sum distribution, if the Plan requests to transfer contract value on or after the date the termination request is issued by CMFG, or if a partial termination, as defined in the contract, has occurred, which may result in a payout of less than 100% of principal and interest credited. Contract values as of December 31 are as follows:

	2025	2024
CMFG Group Annuity Contract	$2,133,548	$2,713,798

6. Income Tax Status

The Credit Union has restated the Plan as of January 1, 2020 to a volume submitter defined benefit plan sponsored by CMFG, which received an opinion letter dated February 28, 2023. In this letter, the Internal Revenue Service (IRS) informed the Credit Union that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended; however, Plan management believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has evaluated the Plan's tax positions and concluded there are no uncertain tax positions that require adjustment to the financial statements.

7. Information Certified by the Custodian

The Plan's investments, related investment income (loss) and investment transactions, including net appreciation, were certified as complete and accurate by Matrix Trust Company, the custodian, as of December 31, 2025 and 2024 and for the years then ended. Plan management has determined that Matrix Trust Company meets the requirements of a qualified institution as defined by the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Therefore, in accordance with the request of the Plan Administrator, and as allowed under 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure, this information was not subjected to auditing procedures by the Plan's independent auditors, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedules.

8. Party-in-Interest Transactions

TruStage provides administrative services to the Plan and is an affiliate of CMFG. Therefore, investments, and the related transactions, in the mutual funds, the Group Annuity Contract and administrative fees, if any, paid to TruStage are considered to be party-in-interest transactions. Certain direct administrative expenses charged to the Plan and paid to the custodian during 2025 and 2024 totaled $32,495 and $33,751, respectively.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
