Independent Auditor's Report

To the Plan Participants and Administrator of
The Northwestern Mutual Employee Disability Income Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Northwestern Mutual Employee Disability Income Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of plan benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in plan benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

WIPFLI

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

"Wipfli" is the brand name under which Wipfli LLP and Wipfli Advisory LLC and its respective subsidiary entities provide professional services. Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule of Loans or Fixed Income Obligations in Default or Classified as Uncollectible as of December 31, 2025, are presented for purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

"Wipfli" is the brand name under which Wipfli LLP and Wipfli Advisory LLC and its respective subsidiary entities provide professional services. Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

WIPFLI

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The Northwestern Mutual Employee Disability Income Plan (the "Plan") is a disability benefit plan providing benefits in lieu of compensation lost by reason of absence from work because of disability resulting from injury or illness to eligible employees of The Northwestern Mutual Life Insurance Company and any affiliated employer who has been authorized as described in the plan document (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation
The Plan provides both short-term disability (STD) and long-term disability (LTD) benefits. Employees generally become eligible for coverage on the first day of employment.

Contribution Policy
The Employer makes contributions to the Plan based on annual assessments of benefits paid by the Plan. It is expected that any future deficiencies of net assets available for benefits compared to total benefit obligations will be funded through additional contributions.

Plan Benefits
STD benefits equal 100% of pre-disability compensation for the first two weeks of disability. After two weeks, STD benefits equal 80% of pre-disability compensation and, are payable for up to 25 additional weeks for a maximum STD benefit period of 27 weeks. LTD benefits equal 65% of pre-disability compensation and are payable beginning after 27 weeks of disability, continuing until recovery from disability, retirement or death. Benefit limitations are imposed for certain disabilities. Both STD and LTD benefits are reduced by any disability benefits received by the employee from Social Security, worker's compensation or other benefits available from third parties.

2. Significant Accounting Policies

Accounting Method and Use of Estimates
The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investment and Income Recognition
The Plan's sole investment is a group annuity contract which is funded by a Group Annuity Separate Account Contract (GASA) established by The Northwestern Mutual Life Insurance Company ("Insurance Carrier"). GASA is reported at fair value and is equal to the Plan's share of the net asset value of the underlying assets with GASA. See Notes 3 and 4 for more information related to the Plan's investment in GASA.

The Plan owned approximately 0.5% of GASA at each of December 31, 2025 and 2024. The accompanying Schedule of Assets (Held at End of Year) reflects the Plan's pro-rata share of each category of the assets and liabilities of GASA.

Net increase/(decrease) in net assets available for benefits reflect the Plan's share of the investment results of GASA plus contributions to the Plan less expenses and benefits paid from Plan assets. Net appreciation/(depreciation) in fair value of investments includes both realized and unrealized gains and

losses. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Obligations
The Plan's obligation for disability claims incurred but not reported of $693,001 and $508,710 at December 31, 2025 and 2024, respectively, represent amounts estimated for benefit obligations incurred but not reported to the administrator as of those dates. The Plan's obligation for disability benefits of $20,058,225 and $15,619,837 at December 31, 2025 and 2024, respectively, represent estimates of total long-term and short-term disability claims to be paid to participants who have reported disabilities as of those dates. The estimated obligations for claim benefits, both reported and unreported, were estimated by the Employer using a discount rate in the basic reserve factor calculations of 5.37% and 5.47% at December 31, 2025 and 2024, respectively.

Subsequent Events
The Company has evaluated events subsequent to December 31, 2025 through October 14, 2026, the date these financial statements were available to be issued. Based on this evaluation, it is the Plan Administrator's opinion that no events subsequent to December 31, 2025 have occurred that are material to the Plan's financial statements at that date or the results of its operations for the period then ended.

3. Fair Value Measurements

The framework for measuring fair value under GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used in measuring fair value, which is described below.

Estimates of fair value can be categorized into three levels based on the nature of the inputs to the valuation estimates:

> Level 1 – Fair value is based on quoted prices for identical assets or liabilities in active markets. Markets are considered active if they have many transactions and current prices, have narrow bid/ask spreads with price quotes that do not vary substantially among market makers, and have information that is publicly available.
>
> Level 2 – Fair value is based on observable market data such as quoted prices for similar assets in active markets or quoted prices for identical or similar assets in non-active markets.
>
> Level 3 – Fair value is estimated by the Insurance Carrier using one or more significant unobservable inputs.

The Insurance Carrier's valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. A given asset or liability's designation within the fair value hierarchy summarized above is based on the highest numerical level of any input that is significant to the fair value measurement. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

The tables below present the Plan's share of GASA within the fair value hierarchy as of December 31, 2025 and 2024.

	December 31, 2025				
	Quoted prices in active markets for identical assets (level 1)	Significant observable inputs (level 2)	Significant unobservable inputs (level 3)	Net Asset Value* (NAV)	Total
Plan share of GASA	$ —	$ —	$ —	$ 30,540,832	$ 30,540,832
Total	$ —	$ —	$ —	$ 30,540,832	$ 30,540,832

	December 31, 2024				
	Quoted prices in active markets for identical assets (level 1)	Significant observable inputs (level 2)	Significant unobservable inputs (level 3)	Net Asset Value* (NAV)	Total
Plan share of GASA	$ —	$ —	$ —	$ 28,015,060	$ 28,015,060
Total	$ —	$ —	$ —	$ 28,015,060	$ 28,015,060

**In accordance with current accounting standards, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.*

The Insurance Carrier performs active quality control over fair value estimates received from independent pricing services at each financial reporting date, including analysis of valuation changes for individual securities compared to overall market trends and validation on an exception basis with internally-developed pricing models. The Insurance Carrier also performs periodic reviews of the information sources, inputs and methods used by its independent pricing services, including an evaluation of their control processes. Where necessary, the Insurance Carrier will challenge these third-party valuations or methods and require more observable inputs or different methodologies.

Whenever applicable, the Insurance Carrier may transfer assets reported at fair value on a recurring basis between levels based upon the quality of inputs available at the end of each reporting period. There were no material asset transfers between Level 1 and Level 2 or between Level 2 and Level 3 during the years ended December 31, 2025 or 2024.

4. Group Annuity Separate Account

As disclosed in Note 3 above, the Plan's sole investment is a group annuity contract which is funded by GASA, which is invested primarily in public common stocks and a diversified mix of corporate, government and mortgage-backed debt securities.

The investment objective of GASA is to maximize long-term total rate of return, consistent with prudent standards for investment and asset/liability risk management and in accordance with ERISA requirements. Plan investments are managed for the benefit of the Plan's participants.

Asset allocation is viewed as a key determinant of return and assets are invested with a long-term perspective. Asset allocations are rebalanced regularly to maintain holdings within desired asset allocation ranges and, from time to time, to reposition the portfolio to express investment views based upon market opportunities and risks. Diversification, both by and within asset classes, is viewed as a primary risk control element. As such, assets are invested across various asset classes, sectors, industries, and geographies. Investments in GASA can be purchased or sold continuously. A notice of redemption is not required. The Plan has no obligation to buy additional units.

The tables below provide additional information regarding the Plan's share of assets held within GASA and where they would fall within the fair value hierarchy.

Cash, accrued income and other receivables
Cash includes cash deposit balances classified as level 1. The Insurance Carrier considers amortized cost to approximate fair value for these assets.

U.S. government securities
Bonds classified as level 1 are generally limited to U.S. Treasury securities. Municipal bonds and structured securities are classified as level 2 and are valued based on prices obtained from independent pricing services or internally-developed pricing models using observable inputs. Typical market-observable inputs include benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds.

Foreign debt
Foreign public and private corporate bonds and structured securities are classified as level 2 and are valued based on prices obtained from independent pricing services or internally-developed pricing models using observable inputs. Typical market-observable inputs include benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds. Level 3 bonds are typically privately-placed and relatively illiquid, with fair value based on non-binding broker quotes or internally-developed pricing models utilizing unobservable inputs.

Other corporate debt
Other corporate debt, including bond exchange traded funds are valued at the closing price and are classified as level 1. U.S. public and private corporate bonds and structured securities are classified as level 2 and are valued based on prices obtained from independent pricing services or internally-developed pricing models using observable inputs. Typical market-observable inputs include benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, estimated cash flows and prepayment speeds. Level 3 bonds are typically privately-placed and relatively illiquid, with fair value based on non-binding broker quotes or internally-developed pricing models utilizing unobservable inputs.

Preferred stock
Preferred stocks classified as level 2 are stocks for which market quotes are available but are not considered to be actively traded. Preferred stocks classified as level 3 are generally privately-placed with fair value based on internally-developed pricing models utilizing unobservable inputs.

Common stock
Common stocks classified as level 1 are limited to those actively traded on a U.S. or foreign stock exchange. Public and private equities classified as level 3 are generally privately-placed with fair value based on internally-developed pricing models utilizing unobservable inputs. Common stocks held at net asset value (NAV) are investments in private mutual funds.

Limited liability companies
Limited liability companies are classified as level 3 generally based on GAAP financial statements of those investments which reflect fair value under specialized accounting for investment companies.

Short term securities
Short term securities include money market funds classified as level 1 and short-term commercial paper and other highly-liquid debt instruments are classified as level 2 where amortized cost is an approximation for fair value.

Other assets
Other assets include derivative assets that are classified as level 2. The Insurance Carrier considers amortized cost to approximate fair value for these assets.

Other liabilities
Other liabilities include amounts payable for trades that have not yet cleared and other amounts owed. The Insurance Carrier considers trade value to equal fair value for the liabilities classified as level 1. The Insurance Carrier considers amortized cost to approximate fair value for the other amounts owed, which are classified as level 2.

The valuation methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Related Party Transactions and Party-in-Interest Transactions

The administrator of the Plan and the trustees of the voluntary employee benefit association (VEBA) trust (see Note 7) are employees of the Employer. Investment management fees are paid to the Insurance Carrier. All other Plan administrative costs are paid by the Employer. These transactions are specifically exempted from the prohibited transactions of ERISA Section 406. See Notes 2, 3 and 4 for related party transactions related to the investments of the Plan.

The plan also has arrangements with various service providers. These transactions qualify as party-in-interest under ERISA.

6. Summary of Financial Data Certified by the Insurance Carrier

Following is a summary of the Plan's financial information as shown in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits that has been derived from information prepared and certified as complete and accurate by The Northwestern Mutual Life Insurance Company, as Insurance Carrier of the Plan, in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

	December 31,	
	2025	2024
Northwestern Mutual Group Annuity Separate Account Contract	$ 30,540,832	$ 28,015,060

	For the years ended December 31,	
	2025	2024
Net appreciation/ (depreciation) in fair value of investment	$ 1,134,418	$ (666,920)
Interest and dividends on investment	1,435,010	1,359,865
Investment management fees	(43,656)	(40,985)

In addition, The Northwestern Mutual Life Insurance Company has also certified as complete and accurate the fair value disclosures in Note 3 and the Schedule of Assets (Held at End of Year).

7. The NML Benefit Plans Trust

The Employer maintains a VEBA trust, The NML Benefit Plans Trust, as the funding mechanism for current benefits for the Plan. In addition, the VEBA trust includes GASA balances for the Northwestern Mutual Employee Flexible Benefit Plan. The assets of the two Plans are maintained in separate sub-accounts within the VEBA trust. This VEBA trust was established for the sole purpose of accumulating and distributing funds to provide benefits to eligible participants under the terms of these Plans.

The VEBA trust is funded with contributions from the Employer, which are used by the VEBA trust to purchase a group annuity separate account contract issued by the Insurance Carrier. The VEBA trust funds shall be held in trust without distinguishing between principal and income in accordance with the Trust Agreement.

The trust established under the Plan to hold the Plan's assets is intended to be tax-exempt pursuant to Section 501(c)(9) of the Internal Revenue Code (IRC), and, accordingly, the trusts' investment results are generally exempt from income taxes. The NML Benefit Plans Trust has obtained a favorable tax opinion letter from the Internal Revenue Service dated September 5, 2007. The Plan has been amended since receipt of the opinion letter for the trust. However, the Plan Administrator believes that the trust continues to be tax-exempt and is being operated in accordance with applicable provisions of the IRC.

Accordingly, the Plan Administrator does not believe that any uncertain tax positions were taken during 2025 or 2024.

The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits in progress.

In the event of termination of the Plan, the net assets available for benefits will be distributed in accordance with the provisions of the Plan. Upon termination, no part of the VEBA trust may inure to the benefit of the Employer or any individual other than through the payment of designated benefits.

8. Reconciliation of Financial Statements to Form 5500
