INDEPENDENT AUDITOR'S REPORT

To the ESOP Committee of
Holloman Corporation Employee Stock Ownership Plan

Opinion on the 2025 Financial Statements

We have audited the financial statements of Holloman Corporation Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements (2025 Financial Statements).

In our opinion, the accompanying 2025 Financial Statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2025 Financial Statements.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

6002 Rogerdale, Ste. 200 Houston, Texas 77072 Tel 281-759-1120 Fax 281-759-5500

Auditor's Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2025 and schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2025 Financial Statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Auditor's Report on the 2024 Financial Statements

The 2024 financial statements of the Plan were audited by predecessor auditors whose report dated November 20, 2025 expressed an unmodified opinion on those financial statements.

HOLLOMAN CORPORATION
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 1 - DESCRIPTION OF THE PLAN

Holloman Holdings Corporation, an S Corporation, (the "Company") established the Holloman Corporation Employee Stock Ownership Plan (the "Plan") effective January 1, 2002. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is designed to qualify as both a Stock Bonus Plan under Section 401(a) and an Employee Stock Ownership Plan (ESOP) as defined in Section 4975(e)(7) of the Internal Revenue Code (IRC). The Plan is subject to the regulations of the IRC and the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Committee of at least two person appointed by the Company's Board of Directors. The Plan's trustee, an attorney and independent trustee to ESOPs, receives direction from the Plan Committee and is also appointed by the Company's Board of Directors.

Stock Bonus Plan

Initially, the Stock Bonus Plan purchased shares of common stock of the Company using the proceeds of borrowing from the Company and held the stock in a trust established under the Plan. The borrowings were to be repaid by fully tax deductible Company contributions to the trust fund. As the Plan made each payment of principal, an appropriated percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The borrowings were collateralized by the unallocated shares of stock. The lenders had no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. When borrowings exist, the assets and liabilities and changes in net assets are presented separately as follows: (a) The accounts of employees with vested rights in allocated stock (Allocated) and (b) Stock not yet allocated to employees (Unallocated).

The borrowings were fully repaid as of December 31, 2025 and 2024 and all stock is allocated. The Stock Bonus Plan also provides for discretionary contributions by the Company.

Eligibility

The Plan is a defined contribution plan covering all employees of the Company and adopting affiliates, except those covered by a collective bargaining agreement that does not provide for participation in the Plan, leased employees, and employees who are nonresident aliens. Employees who are at least 17 years of age are eligible to participate in the Plan on the last day of June or December coinciding with, or next following, the completion of 1,000 hours of service.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Contributions

Participants cannot contribute to the Plan. The Company may make a discretionary contribution to the Plan. Participants are eligible to share in the Company's contribution for each plan year in which they have completed 1,000 hours of service and are employed on the last day of the plan year or if termination of employment during the year is due to death, retirement, or total and permanent disability. Company contributions are allocated to each eligible participant based on the proportion that each participant's eligible compensation bears to the total eligible compensation of all participants for the plan year, subject to certain limitations. During 2025, the Company contributed 4,250 shares of Company common stock to the Plan valued at fair value (see Note 4).

Participant Accounts

Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock from forfeitures of terminated participants' non-vested accounts. Participant's accounts are also allocated withdrawals and payments, and Plan earnings or losses. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participant's whose employment with the Company ends for any reason other than retirement, death, or disability, will vest in their account balance based on total years of service with the Company. Participants are not vested until they complete three years of service, at which time they become 100% vested. Participants who end employment as a result of retirement, death, or permanent disability become fully vested.

Plan forfeitures are allocated to each eligible participant based on the proportion that each participant's eligible compensation bears to the total eligible compensation of all participants for the plan year. Forfeitures of terminated non-vested shares of Company common stock allocated to participants for the year ended December 31, 2025 totaled 385 shares.

Payment of Benefits

No distributions will be made until a participant retires (normal retirement age under the Plan is 65), dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes totally and permanently disabled, or otherwise terminates employment with the Company. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. Shares of the stock are maintained in the trust until repurchased by the Company. Distributions are generally paid by the Company in substantially equal annual installments over a five-year period. If the vested value in a participant's account is $1,000 or less, distribution will be made in a single lump-sum. During 2025, the Company repurchased 2,855 shares of Company common stock at the price determined from the independent appraisal.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Diversification

Diversification is offered to active participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Active participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. At December 31, 2025, there were payments of approximately $445,000 outstanding for participants who elected a distribution but were not paid until January 2026.

Voting Rights

All Company stock held by the Trust is voted by the trustee in accordance with instructions from the ESOP Committee. Notwithstanding the foregoing, participants and/or beneficiaries are entitled to direct the voting of any voting shares of Company stock allocated to their accounts with respect to any vote required for the approval or disapproval of a merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the Company, or other similar transactions as prescribed by regulations.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock on the most recent valuation date prior to the date the option is exercised. The Company can pay for the purchase with interest over a period not to exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to the provisions of the Plan and ERISA. Upon such termination, all participants will become 100% vested and the interest of each participant in the Plan will be distributed to such participant or beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value as determined by an independent appraiser annually. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net depreciation in fair value of investments includes gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

All expenses of maintaining the Plan are paid directly by the Company and are excluded from the Plan's financial statements.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Holloman Holdings Corporation common stock, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests any cash received, records interest and dividend income, and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company. Participant's account balances and allocations are maintained by a third-party administrator whose fees are paid by the Company. Appraisal and audit fees are also paid by the Company.

NOTE 4 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Holloman Holdings Corporation - Common Stock: Valued at fair value as determined by an annual independent appraisal based on a combination of the market and income valuation techniques. Unobservable inputs consisted of market pricing multiples, lack of marketability of common stock, discount rate, and revenue growth assumptions. The appraiser also took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable and estimated fair value of Company assets and liabilities. Fair value per share of the common stock was $2,091 and $2,145 at December 31, 2025 and 2024, respectively. At least annually, management determines if the current valuation techniques used in the fair value measurements are still appropriate and evaluates and adjusts the unobservable inputs used in the fair value measurements based on current market conditions and third-party information.

The valuation process involves the trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from audited financial statements of the Company, as well as provides projected revenues, expenses, and cash flows of the Company for the years 2026 through 2030. The appraiser prepares a preliminary report which plan management and the ESOP trustee, review in detail, discuss and approve.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2025 or 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025			
Description	Level 1	Level 2	Level 3	Total
Holloman Holdings Corporation - Common Stock	$ -	$ -	$72,964,502	$72,964,502
Total investments at fair value	$ -	$ -	$72,964,502	$72,964,502

	2024			
Description	Level 1	Level 2	Level 3	Total
Holloman Holdings Corporation - Common Stock	$ -	$ -	$71,855,775	$71,855,775
Total investments at fair value	$ -	$ -	$71,855,775	$71,855,775

There were purchases of Holloman Holdings Corporation - Common Stock amounting to $8,886,750 during 2025.

NOTE 5 - MANAGEMENT INCENTIVE PLAN

The Company maintains a management incentive plan (the "MIP") under which performance units may be granted to selected employees as determined by the Company's Board of Directors. The performance units are not shares of Company common stock, are not assets or obligations of the Plan, and do not provide participants of the MIP with voting rights, dividends, S corporation distributions, or other shareholder rights. Amounts payable under the MIP are unfunded, unsecured obligations of the Company. During 2025 and 2024, the Company issued 100 performance units in each year. The performance units were considered in determining the fair value of the Company's common stock.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rates, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. The Company provides engineering, installation, and construction services to customers primarily in the oil and gas industry. The value of the Plan's investments and their future earnings are dependent on the Company's ability to remain profitable. Due to the level of risk associated with the investment in the Company's common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 7 - CONCENTRATIONS

Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk principally consist of cash. The Plan places cash in financial institutions. At times, such cash investments may be in excess of federally insured limits.

Investments

The Plan's investment in the Company common stock is 100% of the Plan's net assets available for benefits as of December 31, 2025 and 2024.

NOTE 8 - PARTY-IN-INTEREST TRANSACTION

During 2025 and 2024, the Plan invested in common stock issued by the Company. These transactions qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA.

NOTE 9 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 21, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no

uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions. As of December 31, 2025, the Plan was under examination by the IRS for the years ended December 31, 2020 and 2021. Certain errors were discovered related to five participants that were fully corrected as of December 31, 2025. In January 2026, the examination was closed.

NOTE 10 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 15, 2026, the date the financial statements were available to be issued.
