INDEPENDENT AUDITORS' REPORT

The Retirement Plan Committee and
The Board of Trustees of
Ethical Culture Fieldston School
as Plan Administrator for the
Ethical Culture Fieldston School 403(b) Retirement Plan
and Plan Participants and Beneficiaries

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Ethical Culture Fieldston School 403(b) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC and its subsidiary entities provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE A - THE ORGANIZATION AND DESCRIPTION OF PLAN

The accompanying financial statements and supplemental schedule are those of the Ethical Culture Fieldston School 403(b) Retirement Plan (the "Plan"), and users of these financial statements and supplemental schedule are directed to the independent auditors' report on pages 1 through 4. Likewise, the brief description of the Plan contained herein is provided solely for purposes of general information, and interested persons should refer to the Plan agreement for a more complete description of the Plan's provisions. A copy of the Plan agreement can be obtained from the Ethical Culture Fieldston School (the "School"), which is the administrator of the Plan.

[1] General:

The Plan is a defined-contribution plan designed to meet the requirements of Section 403(b) of the Internal Revenue Code (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan covers all eligible employees of the School. The Teachers Insurance and Annuity Association of America ("TIAA") and the College Retirement Equities Fund ("CREF") are the insurance companies for the Plan's non-mutual fund investments. TIAA Trust, N.A. is the custodian of the Plan's investments (mutual funds). TIAA is the Plan's record-keeper. The Plan administrator controls and manages operation and administration of the Plan.

[2] Eligibility for participation:

Employee elective deferrals: Employees are eligible immediately following the start of their employment. Certain employees such as students performing services as described in the Plan document and employees classified as less than 0.5 full-time equivalents, assistant faculty, independent contractors, leased employees, freelance workers, temporary, seasonal and occasional employees, staff covered under a multi-employer pension plan and staff not classified as an employee at the time of any determination are excluded from participation.

Employer contributions: An employee who has attained one year of service, is eligible to receive employer contributions from the School, starting the first day of the pay period immediately following the completion of above eligibility requirements. Certain employees as described in the above paragraph are also excluded from employer contributions.

[3] Contributions:

Employee elective deferrals: Participants may elect to contribute a flat dollar amount or a certain percentage of their annual gross compensation, subject to limitations as provided in the Code. Catch-up contributions are permitted under the Plan if a participant attains the age of 50 before the end of the Plan year, thus becoming eligible to make catch-up contributions up to $7,500 annually. Effective January 1, 2025, in accordance with Section 109 of the SECURE 2.0 Act of 2022, participants who attain age 60, 61, 62, or 63 during the calendar year are permitted to make catch-up contributions of up to $11,250 in 2025. In addition, the Plan also provides for a Roth deferral option to the participants. In no event may a participant's pre-tax and Roth contributions exceed any statutory limitations. Participants may also roll over contribution amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

NOTE A - THE ORGANIZATION AND DESCRIPTION OF PLAN (CONTINUED)

[3] Contributions: (continued)

Employer contributions: The School makes contributions based upon years of service with the School as set forth in the table below:

Years of Service	Percentage
Less than or equal to 1 year	0%
Greater than 1 but less than or equal to 2	3%
Greater than 2 but less than or equal to 3	5%
Greater than 3	10%

Participants direct the investment of participant and employer contributions into various investment options offered by the Plan.

[4] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the School's contributions, and (b) Plan earnings (losses), and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[5] Vesting:

Participants are fully vested in all contributions to the Plan, plus actual earnings thereon, immediately when made.

[6] Payment of benefits:

Upon termination of service due to retirement, disability, death, or severance of employment, a participant (or a beneficiary) is entitled to receive: (i) a lump-sum payment; or (ii) a partial payment; or (iii) installment payment; or (iv) an annuity contract in an amount equal to the total value of his or her account as of the most recent valuation date. In addition, the Plan permits certain in-service withdrawals from participants' elective deferral accounts, including participants have who attained age 59½, hardship, qualified reservist, and deemed severance withdrawals, in accordance with the Plan provisions.

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as defined by the Plan agreement. Interest rates on outstanding loan balances range from 4.25% to 9.50% at both December 31, 2025 and 2024. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

NOTE A - THE ORGANIZATION AND DESCRIPTION OF PLAN (CONTINUED)

[8] Plan loans:

Until 2019, participants were able to borrow from TIAA, the insurance company. These loans were issued as separate contracts by TIAA and do not represent loans from, or distributions of, Plan assets. Instead, loans are collateralized using a participant's TIAA Traditional Annuity account balance, in an amount equal to 110% of the outstanding loan balance. A participant may borrow a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 45% of his or her TIAA Traditional Annuity account balance, subject to annuity contract and Plan provisions. Loan terms range from one to five years in one-year increments; however, terms may exceed five years for the purchase of the participant's primary residence, as defined. Principal and interest are paid ratably by the participant directly to TIAA and not through a salary-reduction arrangement with the School, and each payment reduces the amount collateralized.

As of December 31, 2025 and 2024, approximately $176,000 and $286,000, respectively, of the participants' TIAA Traditional Annuity account balances were pledged as collateral.

In the event of default by a Plan participant, TIAA and CREF will collect any unpaid loan balance directly from Plan assets, and this collection will be treated as a distribution of assets to the participant. There were no distributions related to defaulted loans during 2025.

These Plan loans are no longer offered by TIAA, and the existing collateralized loans will remain in effect until they are paid off.

[9] Plan termination:

Although it has not expressed any intention to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements have been prepared using the accrual method of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

[2] Investments:

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note D). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan (see Note E).

NOTE B - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

[2] Investments: (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[3] Payment of benefits:

Benefits are recorded when paid.

[4] Plan expenses:

The Plan pays administrative expenses to the extent that they are not paid by the School. Expenses that are paid by the School are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Plan service expenses are also included in administrative fees. Investment related expenses are included in the net appreciation of fair value of investments.

[5] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect: (i) the reported amounts of net assets available for benefits at the date of the financial statements; (ii) the changes in net assets available for benefits during the reporting period; and (iii), when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[6] Tax status:

The Plan has adopted a TIAA ERISA 403(b) Volume Submitter Plan Sponsored by TIAA. The pre-approved plan received an Internal Revenue Service ("IRS") Opinion Letter dated April 29, 2025, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) and, accordingly, believes the Plan to be qualified and the related accounts to be tax-exempt. Therefore, no provision for income taxes has been included in the accompanying financial statements.

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require either recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

[7] Subsequent events:

The Plan has evaluated subsequent events through October 9, 2026, the date on which the financial statements were available to be issued.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, TIAA and CREF with respect to the Plan's annuity contracts issued by TIAA and/or CREF, and TIAA on behalf of TIAA Trust, N.A. with respect to the Plan's other investments held as directed trustee or custodian that were record kept by TIAA, have certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants, and related activity in the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, the statement of changes in net assets available for benefits for the year ended December 31, 2025, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2025.

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements,* provides the framework for measuring fair value. The framework provides a fair-value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair-value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; or (2) quoted prices for identical or similar assets or liabilities in inactive markets; or (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair-value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during Plan years 2025 and 2024.

TIAA Real Estate Account - This is a pooled separate account/insurance company account and is a variable annuity product valued at net asset value ("NAV") per accumulation unit, as a practical expedient to measure fair value, based on the market value of the underlying real-estate holdings or other real estate related investments. Real-estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on the assessment of specialists and reported by TIAA. The TIAA Real Estate Account sometimes holds securities, as well, and these are generally priced using values obtained from independent pricing sources. Transactions out are limited to one per calendar quarter. The TIAA General Account provides the Real Estate Account with a liquidity guarantee. There are no unfunded commitments.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

CREF Variable Annuity Accounts - Each CREF Account is a separate portfolio with its own investment objective and strategies. Investments in a CREF Account enable a unit holder to acquire units whose accumulation unit value, or NAV used as a practical expedient to measure fair value, is calculated each business day. The value of a unit holder's investment rises and falls with the returns on the underlying assets. The accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives.

Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. There are no unfunded commitments or plan level redemption restrictions.

CREF Money Market Account - The CREF Money Market Account's portfolio of securities are valued using their amortized cost. This valuation method does not factor in unrealized gains or losses on the account's portfolio securities. Amortized cost valuation involves first valuing a security at its cost, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the security's market value. The account calculates NAV each business day. Accumulation units in CREF accounts are transacted at the accumulated unit value. There are no unfunded commitments.

Participants will be locked out of a CREF Account for 90 days if a purchase-sale-repurchase within that account is made within a 60-day period, other than for the CREF Money Market Account.

Mutual funds - These are valued at their daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage account - Account primarily consists of mutual funds that are valued on the basis of readily determinable market prices.

The preceding methods described may produce a fair-value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair-value hierarchy, the Plan's investment assets at fair value at each Plan year-end:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate account measured at NAV (A)	**$ -**	**$ -**	**$ -**	**$ 4,410,557**

Total investments at fair value	**$ 97,698,604**	**$ -**	**$ -**	**$ 181,850,747**

	December 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate account measured at NAV (A)	$ -	$ -	$ -	$ 6,272,571
Variable annuity contracts measured at NAV (A) (B)	-	-	-	74,550,063

Total investments at fair value	$ 74,303,448	$ -	$ -	$ 155,126,082

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent unit) as a practical expedient have not been classified in the fair-value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair-value hierarchy to the amounts presented in the statements of net assets available for benefits.

(B) The strategy for each of these investments is described below:

The CREF Total Global Stock Account seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Money Market Account seeks a favorable long-term rate of return, primarily through high current income consistent with preserving capital. Under normal circumstances, the account invests at least 80% of its assets in a broad range of fixed-income securities. The majority of the account's assets are invested in U.S. Treasury and other governmental agency securities, corporate bonds and mortgage-backed or other asset-backed securities.

The CREF Global Equities Account seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The CREF Growth Account seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth. Under normal circumstances, the account invests at least 80% of its assets in common stocks and other equity securities. The account invests primarily in large, well-known, established companies, particularly those with new or innovative products, services or processes that may enhance future earnings prospects.

The CREF S&P 500 Index Account seeks a favorable long-term rate of return from a diversified portfolio designed to track the U.S. stock market as a whole and invests in stocks in its benchmark index, the S&P 500 Index. The Account buys most, but not necessarily all, of the securities in the S&P 500 Index, and attempts to closely match the overall investment characteristics of the Index.

The CREF Inflation-Linked Bond Account seeks a long-term rate of return that outpaces inflation, primarily through investments in inflation-indexed bonds, fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond. Under normal circumstances, the account invests at least 80% of its assets in U.S. Treasury inflation-indexed securities.

The CREF Responsible Balanced Account seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The account is balanced, with assets divided between domestic and foreign stocks and other equities (about 60%), and bonds and other fixed-income securities, including money-market instruments (about 40%). The account invests only in companies that are suitable from a financial perspective and whose activities are consistent with certain environmental, social and governance criteria.

The CREF Core Bond Account is a core fixed income variable annuity that seeks a favorable long-term rate of return, primarily through high current income consistent with preserving capital. Under normal circumstances, the account invests at least 80% of its assets in a broad range of fixed income securities, mainly investment-grade securities in the top four credit rating categories by Moody's or S&P, or that the account's advisor believes are of similar quality. The account can also invest in below-investment grade securities. The account provides participants the option to convert all or a portion of their accumulations into lifetime income.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair-value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - INVESTMENTS AT CONTRACT VALUE

The TIAA Traditional Annuity is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The guarantees and returns of the TIAA Traditional Annuity are backed by TIAA's claims-paying ability. Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, or for Retirement Choice ("RC") and Retirement Choice Plus ("RCP"), between 1% and 3%) and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1st. Additional interest is not guaranteed for future years. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income.

NOTE E - INVESTMENTS AT CONTRACT VALUE (CONTINUED)

When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan. The TIAA Traditional Annuity is fully benefit responsive and is reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange.

The TIAA Traditional Annuity within the Supplemental Retirement Annuity ("SRA"), Group Supplemental Retirement Annuity ("GSRA") and RCP contracts have no liquidity restrictions. The TIAA Traditional Annuity holdings within the Retirement Annuity ("RA"), Group Retirement Annuity ("GRA") and Transfer Payout Annuity ("TPA") contracts have liquidity restrictions.

The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over a period of ten annual installments.

With the GRA contract, lump-sum withdrawals are available only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the GRA must be spread over a period of ten annual installments (or five annual installments for withdrawals after termination).

For the RC contracts, transfers and withdrawals from the TIAA Traditional Annuity are limited. Withdrawals must be taken in 84 monthly installments made within 120 days following termination of employment, referred to as a TPA, except that a lump-sum distribution is available if permitted under the Plan in the 120-day period following termination of employment, with a 2.5% surrender charge. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. The TPA allows participants to transfer or withdraw their TIAA Traditional Annuity in ten annual installments.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 403(b) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code.

2. Premature termination of the contracts.

3. Plan termination or merger.

4. Changes to the Plan's prohibition on competing investment options.

5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

NOTE E - INVESTMENTS AT CONTRACT VALUE (CONTINUED)

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.

2. A breach of material obligation under the contract.

3. A material misrepresentation.

4. A material amendment to the agreements without the consent of the issuer.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

TIAA Stable Value – This fixed-rate annuity contract provides a guaranteed minimum rate of interest between 1% and 3% (before deductions for contract fees), with the potential for crediting of additional interest above the guaranteed minimum if approved by the TIAA Board of Trustees. Contributions are deposited into a non-unitized separate account. The TIAA Stable Value is immediately liquid to a participant for withdrawals and transfers and does not have withdrawal restrictions (except that immediate transfers cannot be made to competing investment options pursuant to the contract's equity wash provisions, as defined). Transfers may be made to a competing fund following a 90-day waiting period after being transferred to a non-competing fund. In addition, transfers into TIAA Stable Value may not be made for 30 days following a transfer out. A plan's investment in TIAA Stable Value is reported at contract value in all plan and participant reporting. Contract value equals the accumulated cash contributions, interest credited, and transfers, if any, less any withdrawals and transfers. Plan sponsors choosing to terminate a plan's investment in the TIAA Stable Value contract will receive contract value in, at most, two years. If the two-year payout applies, a discontinuance fee will be assessed, which has the effect of reducing the interest credited during the two-year period by, at most, 75 basis points.

NOTE F - RISKS AND UNCERTAINTIES

The Plan's investments are included in various investment securities. The investment securities are exposed to various risks, such as interest rate, market, credit, liquidity and market perception risks, as well as risks related to the financial strength of TIAA and CREF. Due to the level of risk associated with any investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuations of investments at December 31, 2025 may not necessarily be indicative of amounts that could be realized in a subsequent market exchange.

NOTE G - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

A substantial portion of the investments are fixed and variable annuities, a pooled separate account and mutual funds sponsored by TIAA and CREF and TIAA Trust, N.A. TIAA is the Plan's record-keeper, TIAA and CREF are the Plan's insurance companies, and TIAA Trust, N.A. is the custodian of certain Plan investments; therefore, transactions related to these investments qualify as party-in-interest transactions for the year ended December 31, 2025. However, these transactions are not considered to be prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions set forth in the Code and in ERISA. For the year ended December 31, 2025, the Plan paid $47,251 for administrative fees to these service providers.

The custodian provides certain administrative services to the Plan and receives revenue from mutual fund providers for services the custodian provides to the funds. This revenue is used to offset certain amounts owed to the custodian for its administrative services to the Plan. If the revenue received by the custodian from such mutual fund service providers exceeds the amounts owed, the custodian remits the excess to the Plan pursuant to the service agreement. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants, depending on the Plan's provisions. During 2025, approximately $69,000 was received and is included in net realized and unrealized appreciation in the statement of changes in net assets available for benefits, and approximately $172,000 was allocated to participants. There was a remaining balance of approximately $55,000 and $151,000 at December 31, 2025 and 2024, respectively.

NOTE H - MUTUAL FUNDS

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads, or 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, and are annual fees deducted to pay for the marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE I - SUBSEQUENT EVENTS

In August 2026, the Plan executed amendments related to the SECURE Act 2.0 of 2022. Certain amendments, as further defined, became effective January 1, 2024, January 1, 2025, and January 1, 2026. The amendments include provisions related to eligibility requirements for long-term part-time employees, mandatory automatic enrollment requirements, increased catch-up contribution limits for participants ages 60 through 63, Roth treatment of catch-up contributions for certain highly compensated participants effective January 1, 2026, an increase in the involuntary cash-out threshold from $5,000 to $7,000, revised required minimum distribution requirements, qualified disaster relief provisions and other administrative provisions, as defined.
