INDEPENDENT AUDITORS' REPORT

To the Plan Administrative Committee and Participants
Gentek Building Products, Inc. Woodbridge Hourly Pension Plan
Cuyahoga Falls, OH

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Gentek Building Products, Inc. Woodbridge Hourly Pension Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from State Street Bank and Trust Company, a qualified institution as of December 31, 2025 and 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audits of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

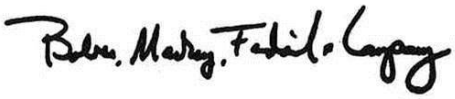

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

GENTEK BUILDING PRODUCTS, INC. WOODBRIDGE HOURLY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2025 and 2024

NOTE 1 – DESCRIPTION OF PLAN

General

The following description of the Gentek Building Products, Inc. Woodbridge Hourly Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a noncontributory, defined benefit plan. The Plan includes all full-time hourly persons employed by Gentek Building Products, Inc. (the "Company" or the "Plan Sponsor"), a subsidiary of Associated Materials LLC, at its Woodbridge, New Jersey plant who are governed by the provisions of the collective bargaining agreement in effect with Teamsters Union Local No. 11, who are not accruing benefits as participants of another plan maintained jointly or individually by the Company or a collective bargaining unit. Effective March 1, 2006, the Plan has been frozen to new employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Annually, an independent actuary is utilized to determine the Plan's funding requirements. The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement, as determined by the enrolled actuary. The Company funded total contributions of $183,000 and $0 for the years ended December 31, 2025 and 2024, respectively.

Pension Benefits

Participants are entitled to a normal retirement benefit on obtaining the age of 65. The normal monthly retirement benefits are calculated based on a participant's years of credited service (not to exceed 40 years) multiplied by a monthly benefit level as provided by the Plan. Participant's years of service include credited years of service. Effective July 31, 2024, the Plan was amended to freeze the accrual of benefits. The normal form of benefit is a single life annuity. The Plan also offers a 50% joint and survivor annuity option. The Plan also provides for early retirement, disability, and pre-retirement spousal benefits for any participant who meets the requirements. Participants become fully cliff vested on completion of five years of continuous service.

Plan Termination

The Company anticipates that the Plan will continue without interruption but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation ("PBGC"), up to specified limitations, as described in ERISA, specifically in the order of:

a. Benefits attributable to employee contributions.
b. Annuity benefits that former employees or beneficiaries have been receiving for at least three years.
c. Other vested benefits insured by PBGC.

d. All other vested benefits.
e. All non-vested benefits.

To the extent that Plan net assets exceed benefits due to participants and pensioners, and provided that the Plan has met all legal requirements, any remaining assets at termination, net of applicable taxes, will revert back to the Company.

Benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if benefits have been increased within the five years before plan termination, the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that PBGC guarantees which is adjusted periodically.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available of benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Death and Disability Benefits

A participant that has been married for at least one year, dies while actively employed or dies while inactive with a vested benefit prior to commencement of benefits, is entitled for a death benefit to be paid to the spouse. The amount of the payment to be made is based on the participant's age at death, years of vesting service and beneficiaries' age in accordance with the Plan document. Non-married participants are not entitled to death benefits unless it is a return of employee contributions to the Plan. A participant who has attained at least 10 years of service and who has become permanently incapacitated, while accruing service, shall be eligible to retire on a permanent incapacity retirement. Participants that meet the eligibility requirements of a permanent incapacity pension will receive a regular pension benefit as defined by the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion and disclosures related to fair value measurements.

Investment transactions are recorded as of the trade date. Interest is included in income when earned, based on the terms of the investments and the periods during which they are held by the Plan. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees prior to July 31, 2024, the date that benefit accruals were frozen. Accumulated plan benefits include benefits expected to be paid to 1) retired or terminated employees or their beneficiaries, 2) beneficiaries of employees who have died, and 3) present employees or their beneficiaries. Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included, to the extent they are deemed attributable to employee service rendered prior to July 31, 2024.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Subsequent Events

The Plan Sponsor has evaluated subsequent events of the Plan through October 12, 2026, the date these financial statements were available to be issued.

NOTE 3 – ACCUMULATED PLAN BENEFITS

Consulting actuaries estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected payment date.

The actuarial present value of accumulated plan benefits at December 31, 2024, is as follows:

Vested benefits:		
Participants currently receiving payments	$	7,334,357
Other participants		3,125,273
		10,459,630
Non-vested benefits		55,224
Total actuarial value of accumulated plan benefits	$	10,514,854

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

Actuarial present value of accumulated plan benefits at December 31, 2023	$	10,683,978
Increase (decrease) during the year attributable to:		
Interest accumulated		622,805
Benefits paid		(721,644)
Assumption Changes		193,319
Other changes		(263,604)
Actuarial present value of accumulated plan benefits at December 31, 2024	$	10,514,854

Significant assumptions underlying the actuarial valuations are as follows:

Discount rate	5.50% and 4.82% per annum for 2024 and 2023, respectively.
Life expectancy	Pri-2012 Mortality table with MP-2021 projection scale
Weighted average retirement age	65 years of age, based on probability of retirement table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 – SUMMARY OF FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE

State Street Bank and Trust Company ("Trustee") was the trustee of the Plan and held the Plan's investment assets and executed investment transactions as of and for the years ended December 31, 2025 and 2024.

The Plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value and at net asset value, as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.
- Interest and dividend income and net appreciation (depreciation) in fair value of investments on the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2025.
- Schedule H, line 4j – schedule of reportable transactions for the year ended December 31, 2025.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

- Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, and inputs that are observable for the asset or liability either directly or indirectly, for substantially the full term of the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 3 – Valuation inputs are unobservable and significant to the fair value measurement. These inputs may be used with internally developed methodologies that result in management's best estimate.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2025 and 2024.

Mutual funds - Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund – The fair value of the collective trust fund has been determined using the NAV per share of the underlying pool of securities as a practical expedient, which was provided to the Plan by the trustee. At December 31, 2025 and 2024, the Plan has no unfunded commitments related to collective trust funds. The redemption of common/collective trust funds is subject to the preference of the plan administrator.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,695,538	$ -	$ -	$ 7,695,538
Total investments at fair value	$ 7,695,538	$ -	$ -	7,695,538
Investments measured using NAV as a practical expedient:				
Collective trust fund				3,139,854
Total investments at fair value				$ 10,835,392

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,644,276	$ -	$ -	$ 7,644,276
Total investments at fair value	$ 7,644,276	$ -	$ -	7,644,276
Investments measured using NAV as a practical expedient:				
Collective trust fund				3,068,430
Total investments at fair value				$ 10,712,706

NOTE 6 – INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated October 19, 2015, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“code”). The Plan has been amended since receiving the determination letter. The Plan Sponsor believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Part V – Statement of Actuarial Assumptions/Methods

Plan Name: Apex Tool Group, LLC Pension Plan for Apex Bargaining Unit Employees in Dayton, OH
EIN/PN: 27-1996059/046

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;

2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).
