Independent Auditors' Report

To the Plan Administrator of
Kimball Management Corporation Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Kimball Management Corporation Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Kimball Management Corporation Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Kimball Management Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

1785 West 2320 South, Salt Lake City, UT 84119 801-972-4800 HaynieCPAs.com

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Kimball Management Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Kimball Management Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Kimball Management Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held at End of Year is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan Description

The following description of Kimball Management Corporation Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Kimball Management Corporation (the Company) established the Plan effective as of April 4, 2002. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP committee of the Company. The trust department of an independent third-party bank is the Plan's trustee.

The common stock is 100% issued by the Company; therefore, all employer stock under the Plan is common stock of the Company. As of December 31, 2025, the Plan holds all of the outstanding common stock of the Company. The ESOP is a non-leveraged Plan.

Eligibility

Employees are eligible to participate in the Plan if they have completed one year of service and are at least 21 years of age. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service.

Entry Date

Employees may enter the Plan the first day of January or July coinciding with or following the date they satisfy the Plan's eligibility requirements.

Contributions

Contributions to the Plan are made by the Company at the discretion of the Company. The contributions are allocated according to the pro-rata share of each participant's compensation to total eligible compensation. Participants must be employed on the last day of the Plan year or have completed more than 500 hours of service, unless terminated due to retirement, death, or disability, to receive an allocation of the contribution. In 2025, the Company made a discretionary contribution of $114,227.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock allocated to participants for which there is no market. The put price is representative of the current appraised value of the stock.

1. Plan Description (continued)

The Company can pay for the purchase with interest over a period of not more than five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Vesting in the participants' accounts and related earnings thereon is based on years of credited service. Vesting is based on years of credited service as set in the following table:

Participant's Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants are 100% vested in their account balances upon retirement, death, or disability.

Forfeitures

At December 31, 2025 and 2024, there was no balance in the forfeited non-vested account as all forfeitures are used in the same year they are forfeited. Forfeited accounts are allocated to eligible participants. During the year ended December 31, 2025, $15,517 in forfeited non-vested accounts were allocated to eligible participants. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation for the Plan year.

Payment of Benefits

Upon death, disability, or retirement, a participant will receive a lump sum amount equal to the value of the participant's vested interest in his or her account as defined in the Plan document.

Distributions are made in accordance with Article IX of the Plan document. Distributions on account of death, disability or retirement and exceed $1,000 are made in either a lump sum or installments starting in the Plan year following the event and may, dependent upon certain allowable elections by the Plan participants, be distributed in substantially equal installments over a period not less than ten years. Any terminated participants with a balance less than $1,000 will automatically be paid out in a single lump-sum payment as soon as administratively feasible. Participants who are still employed and have attained the age of 65 can elect a pre-retirement distribution.

1. Plan Description (continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of their accounts which are invested in shares of Company common stock. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of Company common stock in the participant's account at year-end.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their account.

2. Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Cash

The Company considers all cash on hand and in banks to be cash equivalents. At no point during the year did the Company maintain cash balances at financial institutions in excess of federally insurable limits. The Company has not experienced any losses in such accounts and does not consider itself exposed to credit risk from amounts on deposit with banks.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

2. Significant Accounting Policies (continued)

The classification of investment earnings reported above and in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, were $6,884 and $17,604 at December 31, 2025 and 2024, respectively.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan, that are paid by the Plan, are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

3. Investments

The Plan's investments at December 31, 2025 and 2024, are as follows:

	2025	2024
Plan Sponsor Common Stock		
Number of shares	5,117,400	5,117,400
Cost	$ -	$ -
Fair Value	$ 3,070,440	$ 2,609,874

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements (continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2025 and 2024.

Common Stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, including certain discounts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2025 and 2024:

	Assets Measured at Fair Value on a Recurring Basis			
	Level 1	**Level 2**	**Level 3**	**Total**
December 31, 2025				
Common stock	$ -	$ -	$ 3,070,440	$ 3,070,440

	Level 1	**Level 2**	**Level 3**	**Total**
December 31, 2024				
Common stock	$ -	$ -	$ 2,609,874	$ 2,609,874

4. Fair Value Measurements (continued)

Changes in Fair Value of Level 3 Assets

The table below sets forth certain changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2025:

Description	Amount
Fair value, at beginning of year	$ 2,609,874
Unrealized gain included in income	460,566
Employer contributions of cash	114,227
Distributions	(123,357)
Other adjustments	9,130
Fair value, at end of year	$ 3,070,440

5. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 19, 2013, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe the Plan is qualified and related trust continues to be tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock, which is a related party and party-in-interest transaction. As described in Note 2, the Plan paid certain administrative expenses related to Plan operations to various service providers. These transactions are exempt party-in-interest transactions under the ERISA.

7. Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock. Because the stock is not publicly traded and is valued based on estimates and assumptions used in an independent appraisal, changes in operating results, economic conditions, valuation assumptions, or other factors could materially affect its value. Due to these uncertainties and the concentration of investments in employer securities, it is at least reasonably possible that the reported value of the investment could change materially in the near term.

8. Right of First Refusal

Company common stock that has been distributed to a participant, and not immediately repurchased by the Company or Trust, may be subject to a right of first refusal if so determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the ESOP Committee.

9. Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2025, and 2024, to the Form 5500.

	2025	2024
Net assets available for benefits per the financial statements	$ 3,078,838	$ 2,628,673
Benefit claims payable	(6,884)	(17,604)
Net assets per the form 5500	3,071,954	2,611,069

	2025	2024
Net increase in assets per the financial statements	$ 450,165	$ 407,341
Benefit claims payable	(10,720)	7,468
Net increase in net assets per the form 5500	460,885	399,873

	2025	2024
Total benefits paid to participants per the financial statements	$ 123,357	$ 50,919
Year-over-year change in benefit claims payable	(10,720)	7,468
Total benefits paid to participants per the Form 5500	112,637	58,387

10. Subsequent Events

Management has conducted a review of subsequent events for possible disclosure in or correction of these financial statements after December 31, 2025 through October 15, 2026, the date the financial statements were available to be issued. Based on this review, other than as set forth below, management did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

On September 21, 2026, the Company effected an amendment to the Plan which replaced the wording of Retirement Benefits Section 9.5(d)(5) to describe the “Required Beginning Date” of the Plan with specific date ranges of applicable age without change to the age requirements themselves.

10. Subsequent Events (continued)

Effective for distributions made on or after October 1, 2026, Retirements Benefits Section 9.3 was amended to increase the minimum required Participant's Vested Accrued Benefit to $7,000 at the time of distribution (formerly $5,000), and any participant accounts with a balance less than this threshold shall be distributed in a single lump sum without the Participant's consent as soon as Administratively Feasible, subject to Sections 9.7 and 11.4. Section 11.3 and Section 10.3 of the Plan were amended to the $7,000 threshold for Distribution of Small Amounts and Death Benefit Payment Procedure sections, respectively.

Benefits Upon Other Termination of Employment Section 11.4 was amended to include an additional definition in "(e) Automatic Rollovers", which shall mean that for any mandatory distribution exceeding $1,000 subject to Code Section 401(a)(31)(B), the Plan Administrator shall select an individual retirement plan provider to which the distribution should be transferred to an individual retirement plan established for the Distributee.
