Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the financial statements of Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the year ended December 31, 2025 and seven months ended December 31, 2024, the statement of accumulated plan benefits as of January 1, 2025, the statement of changes in accumulated plan benefits for the seven month period ended January 1, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of and for the periods ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP);
- The certified investment information in the accompanying financial statements agrees to or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplementary Schedule Required by ERISA

The supplementary schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedules, we evaluated whether the supplementary schedules, other than the information agreed to or derived from the certified investment information, including the form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary schedules, other than the information in the supplementary schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplementary schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The following description of Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan, (the Plan), formerly known as Baker Tilly US, LLP Market-Based Cash Balance Plan, provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions, which is available from the plan administrator. The reporting periods presented in the financial statements include the year ended December 31, 2025, and the seven month period ended December 31, 2024, due to a change in Plan's fiscal year.

General

The Plan is a defined benefit pension plan sponsored by Baker Tilly Advisory Group Parent, LP (the Company), formerly known as Baker Tilly US, LLP. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan assets are held and managed by Fidelity Management Trust Company (Fidelity or the Trustee), which invests contributions and plan earnings, makes investment transactions as directed by an advisory committee appointed by the Board of Directors of the Company, and provides certain recordkeeping services. Fidelity also performs certain plan administration and annual ERISA compliance testing.

Participant Eligibility

Eligible employees are US Partners, as defined by the Plan. Eligible partners are (a) partners that are citizens or residents of the United States and (b) partners of the Company. Eligible partners enter into the Plan on the first day of the plan month coincident with or next following the completion of six months of service.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements, as determined by the Plan's actuary. In compliance with the minimum funding standards of ERISA, the Company made a contribution of $20,395,792 for the year ended December 31, 2025, and $11,699,351 for the seven month period December 31, 2024.

Participant Accounts

A hypothetical cash balance account is maintained for each participant. The accounts are credited with cash balance credits and interest credits in accordance with the plan document. Cash balance credits are determined by the actuary based on provisions in the plan document and credited to the participant's hypothetical account as of the last day of the plan year.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Pension Benefits

The normal retirement date is the first day of the month coincident with or following the attainment of 65 years of age. The accrued benefit, as of any determination date, is the participant's hypothetical balance on such date projected, if necessary, with estimated interest credits between the determination date and the participant's normal retirement date.

Participants are always 100% vested in the actuarial equivalent of their accrued benefits. The normal form of payment for a single participant is a straight life annuity. The normal form of payment for a married participant at the benefit commencement date is a Joint and Survivor Annuity, with 50% of the benefit accruing to the surviving spouse upon the earlier death of the participant. In lieu of the normal form of payment, a participant may elect a lump sum payment, 100% Joint and Survivor Annuity, 75% Joint and Survivor Annuity, or straight life annuity. If participants have accumulated plan benefits of less than $5,000 at the time of termination or retirement, the benefits will automatically be paid in a lump sum.

Death Benefit

If a participant dies before distribution of their accrued benefits, a death benefit is paid to the participant's beneficiary as a lump sum payment or straight life annuity.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, plan assets must be used for the exclusive benefit of participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP), which requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

The Financial Accounting Standards Board (FASB) has adopted the Accounting Standards Codification (ASC) as the sole source of authoritative GAAP. The FASB will issue Accounting Standards Updates (ASU) from time to time to make adjustments to GAAP.

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

The Plan's expenses are paid by the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's investments are valued daily.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation of investments includes realized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service participants have accumulated. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

The actuarial present value of accumulated benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2025 were:

a. Life expectancy of participants (the mortality rates are based on the IRS Static Mortality Table as prescribed by IRC Section 430, previously IRS 2022 Static Mortality Table)
b. Retirement age assumptions (age 60)
c. Termination rate of 2.30% for ages 35-49, 5.70% for ages 50-54, and 5.00% for ages 55+

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Actuarial Present Value of Accumulated Plan Benefits (Continued)

d. Investment return: the valuations included assumed average rates of return (funding of 4.50% per annum for each year.
e. 100% of the participants are assumed to be married, with females 3 years younger than males.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025, the beginning of the plan year. Had the valuations been performed as of the end of the plan year, there would be no material differences.

NOTE 3 – INFORMATION CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplementary schedules were obtained from data that has been prepared and certified to as complete and accurate by the Trustee, at December 31, 2025 and 2024, and for year the ended December 31, 2025 and the seven month period ended December 31, 2024.

	2025	2024
Common collective trust, at fair value	$ 69,605,752	$ 47,436,524
Investment income:		
Net appreciation in fair value of investments	4,617,372	1,078,867

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

Common collective trust (CCT) is valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements Using:			
December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Common collective trust	$ -	$ -	$ -	$ 69,605,752
Total	$ -	$ -	$ -	$ 69,605,752

Common collective trust	$ -	$ -	$ -	$ 47,436,524
Total	$ -	$ -	$ -	$ 47,436,524

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	December 31, 2025			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency (if currently eligible)**	**Redemption Notice Period**
Common collective trust	$ 69,605,752	N/A	Daily	30 days
	December 31, 2024			
Common collective trust	$ 47,436,524	N/A	Daily	30 days

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan are netted against investment returns in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fidelity Workplace Investing LLC, the actuary for the Plan, is also considered a party-in-interest. The Plan uses attorneys and auditors to provide services to the Plan, and they are considered to be parties-in-interest as well. Payments to these parties-in-interest are recorded in administrative expenses, unless paid by the Company.

NOTE 6 – TAX STATUS

The Plan has adopted a prototype non-standardized plan sponsored by Document Agility Inc. The prototype plan has obtained a determination letter dated February 28, 2023, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

GAAP requires the Plan to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

As of December 31, 2025 and 2024, the Plan had investments of $69,605,752 and $47,436,524, respectively, which were concentrated in a singular investment fund.

NOTE 8 – SUBSEQUENT EVENTS

The plan administrator evaluated events and transactions subsequent to December 31, 2025, through October 12, 2026, (the date the financial statements were available to be issued) for potential recognition or disclosure in the financial statements. The plan administrator has not identified any items requiring disclosure.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes

ERISA Interest Rates as required by IRC Section 430 based on plan sponsor election of the look-back month for the segment rates:

"Minimum" means for the purpose of calculating the PPA funding liability and normal cost for the minimum required contribution.

"Maximum" means for the purpose of calculating the PPA funding liability and normal cost for the maximum tax-deductible contribution.

	2025 Plan Year		**2024 Plan Year**

Applicable law for the segment rates corridor	ARPA	Not Applicable	ARPA	Not Applicable

Interest Crediting Rate: 4.50% (unchanged from previous year).

Interest Rate for FASB ASC 960: 4.50% (unchanged from previous year).

Administrative Expenses included in Target Normal Cost: No administrative expenses are included in the development of the Target Normal Cost.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Mortality:
ERISA:

Pre-Retirement: None
Post-Retirement: IRS Generational Mortality Table as prescribed by IRC Section 430 for plans with more than 500 participants. This is a fully generational mortality table based on the Pri-2012 Total Mortality Tables projected with the adjusted MP 2021 Mortality Improvement Scale with annual mortality improvements capped at 0.78% as required by Secure 2.0 Act. This plan does not have a large enough population to vary from the standard tables.

FASB ASC 960: Pri-2012 Total Mortality Tables with MP-2021 Mortality Improvement Scale applied on a generational basis. This plan does not have a large enough population to vary from the standard tables.

Retirement Rates: The later of Age 60 or January 1, 2026. This is a common assumption for professional firm cash balance plans.

Termination Rates: The ages at which participants are assumed to become terminated are:

Age	Termination Rate
35 - 49	2.30%
50 - 54	5.70%
55+	5.00%

This is based on an analysis of actual termination patterns for partners of the company from 2018-2022.

Marital Status: 100% of males and females are assumed married, with females 3 years younger than males.

Maximum Benefit: $285,000 for 2025. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: $350,000 for 2025. For determining limitations under funding amounts and liabilities under FASB ASC 960, no future increases in the salary limit have been reflected.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Form of Payment: It has been assumed benefits will be paid as a lump sum. This is a common assumption for professional firm cash balance plans. To the extent optional forms of payment are elected and conversions are determined on an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Assumptions and Methods for Funding and ASC 960 Purposes (continued)

Actuarial Cost Method: The unit credit cost method is used for ERISA Funding Target (FT) and FASB ASC 960 purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 – Description of Weighted Average Retirement Age
Baker Tilly Advisory Group Parent, LP **EIN: 99-1405547**
Baker Tilly Advisory Group Parent, LP Market-Based Cash Balance Plan **Plan Number: 005**

Assumed Retirement Age – 100% of participants are assumed to retire on the later of Age 60 or one year following valuation date.

Weighted average retirement age: Age 60

Plan Provisions

Name of Plan: Baker Tilly Advisory Group Parent, LP Market-Based Cash Balance Plan.

Employer Identification Number / Plan Number: 99-1405547 / 005.

Effective Date: June 1, 2022. Effective date of most recent amendment: May 31, 2024.

Covered Employees: An Employee who is a Partner, except those Partners listed in Addendum A of the plan document.

Participation Date: Individuals will become an active participant as of the first day of the calendar month coinciding with or immediately following the later of (i) the date they become a Covered Employee or (ii) the date they complete 6 months of Eligibility Service.

Vesting: All participants are 100% vested in their Hypothetical Account at all times.

Definitions:

Accrued Benefit: The Hypothetical Account balance payable in the form of a single life annuity at the Participant's Normal Retirement Age.

Actuarial Equivalence: Applicable Mortality based on IRC 417(e) and a rate equal to the annual 10-year Treasury rate for the month of April preceding the plan year (but no higher than 3.00%).

Hypothetical Account: The hypothetical bookkeeping account maintained on behalf of a Participant to track the notional Pension Credits and associated Interest Credits.

Interest Credit: Interest credits are credited at the end of each day beginning on or after June 1, 2022. The amount is determined by multiplying the Hypothetical Account balance as of the beginning of the day by the Interest Crediting Rate.

Interest Crediting Rate: The actual rate of return on the aggregate assets of the Plan each day, including both positive and negative returns, not exceeding 8.0% for the Plan Year.

Normal Retirement Date: The first of the month coincident with or next following attainment of age 65.

Plan Provisions (continued)

Pension Credit: A Pension Credit shall be credited to a Participant's Hypothetical Account at the end of each bi-weekly pay period for any employee who was an Active Participant during such pay period. Pension Credits are determined from the following table based on a Participant's Rate Group, as identified in Addendum A of the plan document:

Rate Group	Applicable Annual Pension Credit	
	Lesser of:	
Partner Group A	$10,000	4% of 415 compensation
Partner Group B	$25,000	10% of 415 compensation
Partner Group C	$40,000	15% of 415 compensation
Partner Group D	$50,000	18% of 415 compensation
Partner Group E	$60,000	20% of 415 compensation
Partner Group E	$80,000	

An additional Pension Credit was provided to certain Active Participants as of August 31, 2024, as identified in Addendum C of the plan document. The total amount of the Pension Credit was $4,132,176.

Eligibility for Benefits:

Early Retirement: Early retirement is not allowed.

Normal Retirement: Retirement on or after Normal Retirement Date.

Deferred vested: Termination before Normal Retirement Age.

In-service Retirement: A Participant who continues employment with his Employer after age 59.5 and the completion of 1 year of participation.

Pre-Retirement Death: Beneficiaries of participants who decease prior to retirement are eligible to receive a pre-retirement death benefit.

Monthly Benefits Paid Upon the Following Events:

Normal retirement: Accrued Benefit.

Deferred vested: Accrued Benefit.

In-service Retirement: Accrued Benefit.

Pre-Retirement Death: Actuarial Equivalence of the Accrued Benefit earned to the date of death.

Plan Provisions (continued)

Forms of Payment:

Normal form (single participants): Single life annuity.

Normal form (married participants): 50% Joint and Survivor annuity.

Optional forms: Single life annuity, 50% Joint and Survivor annuity, 75% Joint and Survivor annuity, and lump sum.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.
