Independent Auditor's Report

Olin Corporation
Welfare and Fringe Benefit Administrative Committee
Health Plan for Retirees
Clayton, Missouri

Opinion on the 2025 Financial Statements

We have audited the financial statements of the Health Plan for Retirees (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statement of benefit obligations and net assets available for benefits as of December 31, 2025, and the related statement of changes in benefit obligations and net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the benefit obligations and net assets available for benefits of the Plan as of December 31, 2025 and the changes in its benefit obligations and net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2025 Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2024 Financial Statements

The 2024 financial statements of the Plan were audited by predecessor auditors whose report dated October 15, 2025, expressed an unmodified opinion on those financial statements.

Olin Corporation
Health Plan for Retirees
Notes to Financial Statements
December 31, 2025 and 2024

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Health Plan for Retirees (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a health and welfare benefit plan of Olin Corporation (Olin or Employer). The Plan is intended to provide eligible retirees with access to postemployment medical and pharmacy benefits. The Plan is intended to qualify under Section 501(c)(9) of the Internal Revenue Code of 1986, as amended (Code). The Plan is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA).

Eligibility

The Plan is available to certain retired employees and their dependents. Eligibility for benefits under the Plan depends upon employment type and whether the employee is represented by a collective bargaining agreement.

Benefit Payments

Benefits are based on the relevant programs the retiree has elected to participate in or those that are provided to the specific retiree. Benefits are paid based on the Plan's provisions. Generally, the Plan is designed to supplement, but not duplicate, benefits available from government funded Medicare plans by paying costs that Medicare does not, such as the Medicare deductibles.

Trust Fund Management

The Plan is managed through a Voluntary Employees' Beneficiary Association trust (VEBA Trust). Portions of the Plan are subject to an agreement between Principal Custody Solutions (Trustee) and Olin. Under the terms of the VEBA Trust agreement, the Trustee is responsible for safeguarding Plan assets in the VEBA Trust, maintaining records of receipts and disbursements from the VEBA Trust, and maintaining the accounting and other records related to the VEBA Trust.

Plan Termination

Although it has not expressed any intent to do so, Olin has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

Under the terms of an agreement entered into effective April 14, 2000 between Olin and the United States of America (United States) Department of Defense, any surplus assets remaining upon termination of the VEBA Trust, after satisfaction of all participant benefit obligations and payment of necessary administrative expenses, are required to be distributed to the United States Department of Defense, in accordance with the terms and conditions of the agreement.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States. Certain reclassifications have been made to the 2024 financial statements to conform to the 2025 financial statement presentation. These reclassifications had no effect on the statements of benefit obligations and net assets available for benefits or changes in benefit obligations and net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Obligations

Postemployment Benefit Obligations

The postemployment benefit obligations represent the actuarial present value of estimated future benefits attributed to retirees based on actuarial assumptions, and includes future benefits expected to be paid to or for covered retirees and their dependents. Future postemployment benefit obligations are actuarially estimated based on costs per participant, reduced by the present value of contributions and adjusted for the time value of money.

The actuarial present value of the expected postemployment benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims, discounts for interest, and the probability of payment (by means of decrements such as those for death, disability, or withdrawal) between the valuation date and the expected date of payment.

For measurement purposes, the annual rate of increase in the per capita cost of covered health care benefits was assumed to be between 5.00% and 8.25% in 2025 and 7.00% in 2024. The covered health care benefits annual rate was assumed to decrease to an ultimate rate of 4.50% by 2040 and 2034 for 2025 and 2024, respectively, and to remain at that level thereafter.

For the years ended December 31, 2025 and 2024, the Plan measured service and interest costs utilizing a single weighted-average discount rate derived from the yield curve used to measure the Plan obligations. The single effective rate used for the December 31, 2025 and 2024 valuations was 5.40% and 5.60%, respectively. The Pri-2012 Blue Collar headcount-weighted mortality tables with the SSA-2021 mortality improvement scale were used for both disabled and healthy mortality, and the Projected Unit Credit funding method was used for both the December 31, 2025 and 2024 valuations.

The weighted average health care cost trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one

percentage point at December 31, 2025 and 2024, the accumulated postemployment benefit obligation would increase by $786,504 and $441,592, respectively.

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 provides for prescription drug benefits under Medicare, as well as a subsidy to employers who sponsor an actuarially equivalent plan. The Plan included funding for benefits of certain retired employees of Olin. The Plan's postemployment benefit obligations and the changes in postemployment benefit obligations are presented net of the Medicare subsidy applicable to these benefits.

These estimates and assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of plan benefit obligations.

Claims Payable and Claims Incurred But Not Reported

Plan benefit obligations at December 31, 2025 and 2024 include liabilities for current claims incurred and reported but not yet paid, as well as estimated claims incurred by active participants but not reported as of those dates. The estimate of claims incurred but not reported is based on historical claims data.

Benefit Payments

Benefit payments are recorded when paid.

Receivables and Credit Losses

The Plan evaluates the collectability of receivables based on its current estimate of credit losses expected to be incurred over the life of each receivable. The Plan measures credit losses on uncollected receivables through an allowance for doubtful receivables which is based on a combination of factors, including historical collection experience and reasonable estimates that affect the expected collectability of each receivable. These factors include historical uncollectible experience, industry conditions of the counterparty to the receivable, and general market conditions. Credit losses are estimated for each receivable. This estimate is periodically adjusted when the Plan becomes aware of a specific counterparty's inability to meet its financial obligations. There were no estimated credit losses on outstanding receivables as of December 31, 2025 and 2024.

Prepaid Expenses

The Plan records assets for expenses that have been paid prior to incurring the underlying expense.

Investment Valuation and Income Recognition

The Plan performs fair value measurements in accordance with Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Transfers
Upon attaining age 65, certain participants transfer to the Plan from the Welfare Benefits Plan. As participants transfer between the plans, the allocation of net assets available for benefits is adjusted based on the underlying participant census data to reflect the plan in which the participants are included. The resulting changes in the allocation of net assets available for benefits are reported in the statement of changes in benefit obligations and net assets available for benefits as transfers in from (out to) the Welfare Benefits Plan.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of benefit obligations and net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2025 and 2024 may not necessarily be indicative of amounts that could be realized in a current market exchange.

The actuarial present value of postemployment benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. In addition, claims incurred but not reported are based on current and prior year claims and are also subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Contributions
Premiums paid for benefits offered by the Plan vary depending on the type of coverage selected by each individual retiree. Olin contributes to the Plan to cover benefit payments. Both participant contributions and Employer contributions are recorded in the statement of changes in benefit obligations and net assets available for benefits.

Pharmacy Rebates
The Plan records rebates from the Plan's pharmacy benefit manager as rebate income. Refunds due at year-end are recorded as a receivable on the statements of changes in benefit obligations and net assets available for benefits, with the offset being recorded as rebate income on the statement of changes in benefit obligations and net assets available for benefits.

Revenue Sharing Arrangements
The Plan has certain revenue sharing arrangements with the Plan's third party administrators. These arrangements provide income to the Plan that can be used to offset Plan administrative expenses. Income received from the Plan's revenue sharing arrangements is recorded as rebate income on the statement of changes in benefit obligations and net assets available for benefits, while receivables for

any earned, but unused benefits are recorded as a receivable on the statements of benefit obligations and net assets available for benefits.

Administrative Expenses

Expenses such as trustee, recordkeeping, third party administrator, auditing, legal, and miscellaneous administrative fees are paid directly by the Plan or by Olin and are recorded in the statement of changes in benefit obligations and net assets available for benefits. Certain administrative functions of the Plan are performed by officers or employees of Olin. No such officer or employee receives compensation from the Plan.

Funding Policy

The Plan is funded on an as needed basis from the general assets of Olin, including for any benefit obligations in excess of net assets available for benefits.

NOTE 3. RECEIVABLES

The Plan's receivables are comprised of the following:

	December 31,	
	2025	2024
Rebate receivables	$ 75,642	$ 126,224
Revenue sharing receivables	1,018	1,490
Total receivables	$ 76,660	$ 127,714

NOTE 4. FAIR VALUE MEASUREMENTS

ASC 820 provides the framework for measuring fair value which includes a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs were unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs, other than quoted prices included in Level 1, were either directly or indirectly observable for the asset or liability including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Inputs significant to the valuation model were unobservable and reflected the Plan's best estimate of assumptions to measure the assets or liabilities at fair value.

Fair value measurement levels within the fair value hierarchy are based on the lowest level input that is significant to the fair value measurement in its entirety. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ended December 31, 2025 and 2024:

- Money Market Funds: Money market funds are valued at quoted market prices and are deemed to be actively traded.

- Mutual Funds: Mutual funds are valued at quoted market prices and are deemed to be actively traded.

The following table presents investments of the Plan measured at fair value on a recurring basis:

	December 31, 2025		***December 31, 2024***	
	Level 1	***Total***	***Level 1***	***Total***
Money market fund	$ 5,299,648	$ 5,299,648	$ 4,842,841	$ 4,842,841
Mutual fund	3,758,690	3,758,690	3,189,961	3,189,961
Total investments, at fair value	$ 9,058,338	$ 9,058,338	$ 8,032,802	$ 8,032,802

NOTE 5. TAX STATUS

The assets of the Plan are held in a VEBA Trust. The VEBA Trust funding benefits of the Plan received an exemption letter dated October 16, 1980 from the Internal Revenue Service stating that the VEBA Trust is exempt from federal income taxes under Section 501(c)(9) of the Code, except for the portion of the trust activity related to the government owned, contractor operated facilities including the Ravenna Army Ammunition Plant, Badger Army Ammunition Plant, and Lake City Army Ammunition Plant, which are subject to unrelated business income tax and certain state taxes which are included in administrative expenses. Although the Plan has been amended since receiving the exemption letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax position taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

The Plan had transactions with the Trustee of $7,448 for the year ended December 31, 2025 which are included in administrative expenses. The Plan had transactions with the Welfare Benefits Plan for the year ended December 31, 2025 resulting from plan transfers from the Welfare Benefits Plan to the Health Plan for Retirees of $702,992. These qualify as allowable party-in-interest transactions.

NOTE 7. RECONCILIATION BETWEEN FINANCIAL STATEMENTS AND FORM 5500

The following are reconciliations of the financial statements to Form 5500:

	December 31,	
	2025	***2024***
Benefits payable per financial statements	$ —	$ —
Claims payable and claims incurred but not reported	18,633	57,855
Benefits payable per Form 5500	$ 18,633	$ 57,855

	Year Ended December 31, 2025
Benefits paid to participants per financial statements	$ 379,149
Claims payable and claims incurred but not reported at December 31, 2025	18,633
Claims payable and claims incurred but not reported at December 31, 2024	(57,855)
Benefits paid to participants per Form 5500	$ 339,927
