Independent Auditor's Report

The Board of Trustees
The MITRE Corporation Health Care Plan
Bedford, Massachusetts

Opinion

We have audited the financial statements of The MITRE Corporation Health Care Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits and statement of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and statement of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and plan benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H (Form 5500), Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H (Form 5500), Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of The MITRE Corporation Health Care Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a comprehensive description of the Plan's provisions.

General

The Plan was established on August 1, 1993. The Plan provides health benefits for active employees and eligible retirees of The MITRE Corporation (the Corporation) until a maximum of age 65, with a group of individuals grandfathered until a maximum age of 70. The Plan also provides benefits for eligible dependents. Effective July 1, 1999, Plan eligibility was expanded to include all employees who have attained age 55 and completed ten years of service. Additionally, eligibility for directly subsidized benefits was expanded to include participants who have attained age 58 and completed ten years of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Benefits

Health benefits (medical and prescription drugs) are provided by the Plan to active and retired employees of the Corporation and to their beneficiaries and covered dependents. Administrative services only (ASO) contracts are established with Aetna and Caremark Health to provide administrative services and a provider network under the self-insured arrangement. Premiums are paid to Aetna International to provide fully insured health benefits. The responsibility for payments to participants and providers is retained by the Plan. In addition, retired military personnel and their eligible dependents, including those employees who are dependents of active military personnel, are eligible for enrollment in the TRICARE Supplement Plan, which is not subsidized by the Corporation.

Plan Administration

Plan investments are managed by Fidelity Investments Company, which acts as the Plan's custodian. A member of the Corporation's management is designated as trustee. The Corporation, as Plan sponsor, has the right under the Plan to modify the benefits provided to participants.

Contributions

Contributions to the Plan are made by the Corporation and participants. Retirees contribute approximately 50% of premiums, as determined by the Corporation, based upon the type of coverage selected, number of eligible dependents, and the age of the retiree. The Corporation contributes the remaining costs, if any, for coverage provided under each medical contract and the amount required to fund the future obligations of the Plan. The Plan also provides continuation of certain benefits upon termination of employment through the Consolidated Omnibus Budget Reconciliation Act (COBRA).

Active employees contribute approximately 25% of the medical insurance premiums and group claim costs. The Corporation contributes the remaining 75%, as well as covering prescription drug costs.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities, and the benefit obligations at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Corporation's Investment Advisory Committee determines the Plan's valuation policies and procedures and reports to the Plan's Trustee Audit Committee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Stop-Loss Coverage

Health costs incurred by participants and their dependents are covered by self-insurance arrangements and insurance contracts maintained by the Plan with contributions from the Corporation and participants. The stop-loss limit for paid claims that was in effect for Plan years 2025 and 2024 was $600,000 per covered person per policy period. The limit for excess claims is unlimited per covered person for the policy period. It is the present intention of the Corporation and the Plan to continue this funding arrangement. Premiums for stop-loss insurance are included in administrative expenses in the accompanying statement of changes in net assets available for benefits. There were approximately $3,538,000 stop-loss refunds during the year ended December 31, 2025 which are netted against claims on the statement of changes in net assets.

Payment of Benefits

Premiums paid by the Plan are recorded as premium payments in the accompanying statement of changes in net assets available for benefits.

Claims payments are recorded when paid by the third-party claims processors. Amounts due to claims processors that have yet to be reimbursed by the Plan are recorded as payable to claims administrators in the accompanying statements of net assets available for benefits. When reimbursed, these payments are recorded as claims paid in the accompanying statement of changes in net assets available for benefits.

Refunds and Rebates

Refunds and rebates due from Caremark Health are recorded when earned. Refunds due as of the financial statement date have been reported as a receivable, with the offset being netted against claims paid. Pharmacy rebates totaling $14,461,980 have been netted with claims paid in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2025.

Administrative Expenses

Administrative, accounting, and actuarial costs are paid by the Plan. Legal fees are paid by the Corporation. Administrative expenses of $5,729,379 were paid to Aetna and $417,802 were paid to other service providers during the year ended December 31, 2025.

3. Benefit Obligations and Claims Incurred but Not Reported

The Plan's deficiency of net assets over benefit obligations at December 31, 2025 and 2024 relates primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate of the Corporation or participants. It is expected that the deficiency and costs for future years with respect to the Plan's benefit obligations will be funded by contributions from the Corporation, retirees, and active participants.

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31, 2025, reduced by the actuarial present value of contributions expected to be received in the future from current Plan participants. Postretirement benefits include future benefits expected to be paid to or for currently retired employees and their dependents and active employees and their dependents after retirement from service with the Corporation. The postretirement benefit obligation represents the amount that is to be funded by contributions from the Corporation and from existing Plan assets. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date. Effective January 1, 2016, the postretirement health benefits plan is no longer open to new hires.

The actuarial present value of the expected postretirement benefit obligations is determined by applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following are significant assumptions used in the valuations:

December 31,	**2025**	2024
Weighted-average discount rate	**5.17%**	5.59%
Median retirement age	**63**	62

December 31,	**2025**	2024
Health care cost trend assumptions:		
Current health care cost trend rate	**7.50%**	7.00%
Ultimate health care cost trend rate	**5.00%**	5.00%
Year ultimate trend rate attained	**2036**	2033

December 31,	**2025 (%)**	2024 (%)
Expected return assumption:		
Expected long-term rate of return on Plan assets	**6.50**	6.50

The mortality tables used in the management assumptions are the Pri-2012 Employee and Healthy retiree white collar mortality rates with fully generational improvements based on the MP-2021 projection scale as of December 31, 2025 and 2024.

The weighted-average health care cost trend rate assumption has a significant effect on the amounts reported as postretirement benefit obligations. If the assumed rates increased by one percentage point in each year, it would increase the obligation as of December 31, 2025 and 2024 by $5,464,380 and $5,146,160, respectively.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

Amounts currently payable for health claims incurred by active employees but not reported at that date are estimated by the Plan's management in accordance with accepted actuarial principles and are reported in the accompanying statements of benefit obligations at present value as of December 31, 2025 and 2024. Health claims incurred but not reported for retired participants are included in the postretirement benefit obligations at present value.

As of the date of the financial statements, there are certain claims incurred but not yet reported to the Plan, and some of these may not be reported for an extended period of time. Claims of this nature cannot be determined on an individual basis, but the aggregate amount of such claims has been estimated on the basis of past experience and subsequent claims reported by the claims administrator. Total estimated claims incurred but not paid are $9,137,000 and $9,123,000 at December 31, 2025 and 2024, respectively.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level, within the fair value hierarchy, is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2025 and 2024.

Mutual Funds and Exchange Traded Funds – Mutual funds and exchange traded funds (ETFs) are valued at the daily closing price as reported by the fund. Mutual funds and ETFs held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds and ETFs held by the Plan are deemed to be actively traded.

Money Market Funds – Money market funds are valued at the daily closing price as reported by the fund.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis:

December 31, 2025

		Level 1
Investments, in the fair value hierarchy:		
Mutual funds and ETFs, at fair value	$	67,762,872
Total Investments, at fair value	$	67,762,872

December 31, 2024

		Level 1
Investments, in the fair value hierarchy:		
Mutual funds and ETFs, at fair value	$	63,476,548
Money market funds		652,666
Total Investments, at fair value	$	64,129,214

5. Related Party Transaction

The Plan invests in shares of mutual funds managed by Fidelity Investments Company. Fidelity Investments Company is the custodian as defined by the Plan, and therefore, these transactions in such investments qualify as party-in-interest transactions, which are exempt from prohibited transaction rules. The Plan paid fees related to audit and actuarial services during the year from the Voluntary Employees Beneficiary Association trust (VEBA).

6. Plan Termination

Although it has not expressed any intention to do so, the Corporation has the right under the Plan to modify the benefits provided to, and contributions required of, participants, to discontinue its contributions at any time, and to terminate the Plan, subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for, or on account of, the participants. No assets of the Plan may revert to the Corporation or be used for purposes other than for the exclusive benefit of the Plan's participants.

7. Tax Status

The VEBA trust, funding certain benefits of the Plan, received an exemption letter from the Internal Revenue Service (IRS), dated January 23, 1995, stating that the trust is tax-exempt under the provisions of Section 501(c)(9) of the Internal Revenue Code (IRC). However, as a result of the Plan's funding policy, from time to time, the trust may be subject to income taxes. No federal or state income taxes have been recorded in 2025 for unrelated business taxable income.

In addition, the Plan and the trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the trust. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

December 31,	**2025**	2024
Net Assets Available for Benefits, per financial statements	**$ 72,224,361**	$ 68,225,063
Less: claims payable and claims incurred but not reported	**(9,137,000)**	(9,123,000)
Net Assets Available for Benefits, per Form 5500	**$ 63,087,361**	$ 59,102,063

The following is a reconciliation of benefits paid for participants per the financial statements to Form 5500:

Year ended December 31, 2025		
Claims Paid, per financial statements	$	141,463,146
Less: claims payable and claims incurred but not reported at December 31, 2024		(9,123,000)
Add: claims payable and claims incurred but not reported at December 31, 2025		9,137,000
Paid Health Claims for Participants, per Form 5500	$	141,477,146

Claims that have been processed and approved for payment at year-end, but not paid, and claims incurred but not reported are not considered liabilities under GAAP and, therefore, are not presented as liabilities or claims in the accompanying financial statements but are recorded on the Form 5500 as a liability.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of benefit obligations are reported, based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. As of December 31, 2025 and 2024, two mutual funds made up 53.8% and 52.7% of Plan assets, respectively.

10. Subsequent Events

Management has evaluated subsequent events for the Plan through October 14, 2026, the date the financial statements were available to be issued.
