Independent Auditor's Report

To the Plan Administrator of
Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Cornerstone Government Affairs, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan ("ESOP") established effective January 1, 2016. The Plan covers all employees of Cornerstone Government Affairs, Inc. (the "Company" or "Employer") who have completed one year of service or 1,000 hours and are age 21 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by a Trustee appointed by the Board of Directors of the Company.

The Plan's assets consist principally of common stock of the Company. Company contributions are managed by an ESOP Committee (the "Committee"), who invest cash received, interest, and dividend income and make distributions to participants. The Committee also administers the payment of interest and principal on any outstanding loans of the Plan. As the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with the applicable regulations under the IRC.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. Participants who are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with, on the last day of each Plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Allocations of contributions and forfeitures are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the Plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances. Allocations of income and dividends are allocated based on the ratio of total account balances.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 25% vested after one year of credited service and continues to vest in increments of 25% until 100% vested after four years of credited service.

Voting rights
Each participant in the Plan is entitled to exercise full voting rights on each share allocated to his or her account, and is notified by the Trustee prior to the time that such vote can be cast with respect to approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as may be prescribed in Treasury regulations. The Trustee is not permitted to exercise a vote for which instructions have not been given by a participant. In all other matters, all Company stock held in the trust shall be voted in the manner determined by the Trustee.

Payment of benefits
On termination of service due to death, disability, or retirement, a participant will receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If a terminated participant’s vested balance is less than or equal to $5,000, the amount may be automatically distributed in the form of direct rollover to an Individual Retirement Account designated by the Plan administrator. Distributions are made in cash. The amount to be distributed is based upon the immediately preceding valuation date.

Forfeited accounts
Forfeitures of terminated non-vested account balances including both stock and cash accounts are allocated to remaining participants. During the year ended December 31, 2025, stock forfeitures of 187 shares of Company common stock were allocated to participants.

Put option
Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification
Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a "Qualified Participant"). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. Participants who elect to diversify receive a cash distribution which is eligible for rollover to the Company's profit sharing plan or may be invested elsewhere at the participant's option.

2. Summary of accounting policies

Basis of accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant estimates include the valuation of Company common stock, which is determined by an independent appraiser.

Allocations
The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Cash
Cash consists of bank accounts used for paying out distributions to participants and for holding beneficiaries' balances. The Plan maintains cash in a bank account which at times may exceed federally insured limits. The Plan has not experienced any losses in such account, and Plan management believes it is not exposed to any significant credit risk on cash balances.

Investment valuation and income recognition
The shares of Company common stock are reported at fair value (see Note 3). Interest income is reported on the accrual basis. Purchase and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments consist primarily of Company common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The valuation process involves the Trustee's selection of an independent appraiser. The Trustee accumulates the data for the appraiser from the audited and internally prepared financial statements of the Company. The appraiser prepares preliminary reports which the Trustee reviews in detail and approves.

Contributions
Employer contributions are recorded in the Plan year as approved by the Board of Directors.

Payment of benefits
Benefits are recorded when paid.

3. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under Financial Accounting Standards issued Accounting Standards Codification ASC 820, *Fair Value Measurement*, are described as follows:

- Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation technique include:

  - Quoted prices for similar assets or liabilities in active markets;

  - Quoted prices for identical or similar assets or liabilities in inactive markets;

  - Inputs other than quoted prices that are observable for the asset or liability;

  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation technique used for assets measured at fair value. There have been no changes in the technique used at December 31, 2025 and 2024:

Company common stock: Valued at estimated fair value as determined by an independent outside appraiser. The appraisal was reviewed and approved by the Trustee and ratified by the Board of Directors. The appraisal was based on a combination of the discounted cash flow, discounted company and guideline transactions methods.

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$ 77,000,000	$ 77,000,000

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Total investments at fair value	$ -	$ -	$ 77,000,000	$ 77,000,000

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$ 73,300,000	$ 73,300,000
Total investments at fair value	$ -	$ -	$ 73,300,000	$ 73,300,000

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, the significant unobservable inputs and the quantitative information about those inputs:

Instrument	**2025**	**2024**	**Principal Valuation Technique**	**Significant Unobservable Inputs**
Company common stock	$ 77,000,000	$ 73,300,000	Discounted cash flow	EBITDA, net income, weighted average cost of capital, discount rate, discount for lack of marketability
			Guideline company method	Public comparables, revenue multiple, EBITDA multiple, discount for lack of marketability

In accordance with FASB ASU No. 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Accounting Standards Update No. 2011-04, the Plan has chosen to omit the disclosure of the quantitative unobservable input table for the years ended December 31, 2025 and 2024.

4. Investment in common stock

The Plan invests primarily in Company common stock as directed by the Trustee. The Trustee shall invest any Plan assets that are not invested in Company common stock in such assets where it would be held temporarily as cash or its equivalent. At December 31, 2025 and 2024, the Plan held 1,000,000 shares of Cornerstone Government Affairs, Inc. common stock. At December 31, 2025 and 2024, the share amount represents 100% of the issued and outstanding stock of the Company. The cost of the shares is based on a first-in, first-out methodology. The aggregate fair value of the shares held at December 31, 2025 and 2024, is presented in the table below:

	2025	**2024**
Cornerstone Government Affairs, Inc. common stock		
Number of shares	1,000,000	1,000,000
Cost	$ 35,000,000	$ 35,000,000
Estimated fair value	$ 77,000,000	$ 73,300,000
Fair value per share, end of year	$ 77.00	$ 73.30

5. Loan payable

On December 31, 2016, the Plan entered into a $35,000,000 term loan with the Company to purchase 1,000,000 shares of Company stock. The loan is for a term of 30 years at an interest rate of 2.26% and calls for annual payments of $1,564,711. As of December 31, 2025 and 2024, the balance of the note payable was $24,403,073 and $25,395,420, respectively.

Unallocated shares are collateral for the loan. The lender has no rights against shares once they are allocated to eligible participant accounts. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payment, plus all future years' principal and interest payments. As of December 31, 2025 and 2024, 350,518 and 317,165 shares have been released, respectively. As of December 31, 2025 and 2024, a total of 649,482 and 682,835 shares are unallocated, respectively.

The scheduled amortization of the loan for subsequent years is as follows:

2026	$ 1,012,621
2027	1,035,506
2028	1,058,909
2029	1,082,840
2030	1,107,312
Thereafter	19,105,885
Total	$ 24,403,073

6. Related party and party-in-interest transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and as discussed in Note 5, the Plan has entered into a term loan with the Company to purchase shares of Company common stock. As described in Note 2, the Company may pay Plan expenses. These are related party and party-in-interest transactions.

As of December 31, 2025 and 2024, the Plan's investment in the Company common stock was 99.83% and 99.97%, respectively, of the Plan's total assets.

7. Plan termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100% vested.

8. Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 31, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
