Independent Auditor's Report

To the Plan Administrator of
Trivium Defined Benefit Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Trivium Defined Benefit Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024 (in Liquidation), and the related statements of changes in net assets available for benefits for the years ended December 31, 2025 and December 31, 2024 (in Liquidation), and the statement of accumulated plan benefits as of December 31, 2024 (in Liquidation), and the related statement of changes in accumulated plan benefits (in Liquidation) for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

To the Plan Administrator of
Trivium Defined Benefit Plan

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter — Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 7 to the financial statements, the Trivium Packaging Plan Committee approved the termination of the Plan, and management determined liquidation is imminent. As a result, the Plan's financial statements as of December 31, 2025 and 2024, and for the year ended December 31, 2025 and for the period from November 15, 2024 through December 31, 2024 have been prepared using the liquidation basis of accounting in accordance with FASB ASC 205-30. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Trivium Defined Benefit Plan

Notes to Financial Statements

December 31, 2025 and 2024

Note 1: Description of Plan

The following description of Trivium Defined Benefit Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit plan, which provides retirement benefits for employees of Trivium Packaging USA Inc. (the "Company" or the "Plan Sponsor") who are represented by a bargaining agent and employed by the Company as of December 31, 2016. The Plan is frozen to new participants, and benefits for existing participants are frozen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was established on October 31, 2019 when Ardagh Group S.A. divested its subsidiary, Ardagh Metal Packaging USA Inc., and formed the Company as part of a joint venture with an unrelated party. The covered employees were previously eligible to participate in the Ardagh North America Retirement Income Plan. Effective October 31, 2019, the Ardagh North America Retirement Income Plan was amended to remove the covered employees. The obligations and related assets of the covered employees were transferred out of the Ardagh North America Retirement Income Plan to the Plan.

In August 2024, the Company signed an amendment to the Plan document to terminate the Plan. See Note 7.

Contributions

All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Funding Policy

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Pension Benefits

Generally, employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). Benefits are calculated as a percentage of earnable compensation as of December 31, 2016 times years of service or as a flat dollar amount times years of service. Eligibility for early retirement with reduced benefits begins at either age 55 or age 62, if eligible. Participants may normally elect to receive their pension benefits in the form of an annuity or joint and survivor annuity. Participants receiving disability payments have additional payment options. A participant's accrued benefit will be paid in a lump sum if the present value is less than $5,000. Effective January 1, 2024, a participant's accrued benefit will be paid in a lump sum if the present value is less than $7,000.

Note 1: Description of Plan (continued)

Death Benefits

If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit will be paid to the surviving spouse. For post-retirement deaths, a designated beneficiary will receive a benefit based on the payment option selected by the eligible participant.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

Effective November 15, 2024, the Company adopted a resolution to terminate the Plan. As a result, the Plan's financial statements as of December 31, 2025 and 2024 and for the year ended December 31, 2025 and for the period from November 15, 2024 through December 31, 2024, have been prepared on the liquidation basis, in accordance with accounting principles generally accepted in the United States of America. This basis of accounting is considered appropriate when, among other things, liquidation of the Plan is probable and the net realizable value of assets are reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimate net realized cash value and liabilities are stated at their anticipated settlement amounts. The estimated net realizable cash value for investments as of December 31, 2025 and 2024 would be fair value. There were no material changes to the 2025 or 2024 financial statements as a result of the change under the liquidation basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s Trivium Packaging Plan Committee determines the Plan’s valuation policies utilizing information provided by the investment adviser and trustee. See Note 5 for a discussion of fair value measurements.

Note 2: Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Plan Sponsor, as provided by the plan document. Expenses that are paid directly by the Plan Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2026, the date the financial statements were available to be issued.

Note 3: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions, for the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan were accumulated based on participants' compensation during each year of credited service. The accumulated plan benefits for active participants will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to participant service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Note 3: Actuarial Present Value of Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2024 are summarized as follows:

Actuarial cost method	Standard unit credit cost method
Retirement age	Rates graded by age, ranging from 55 to 70
Mortality basis	MP-2021 mortality tables
Discount rate	5.42% (2024) / 4.87% (2023)

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024, there would be no material differences.

Note 4: Certified Investment Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to certain investments held as of December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company ("Fidelity") (the trustee of the Plan), a qualified institution.

Note 5: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5: Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Registered investment companies: Valued at the daily closing price as reported by the fund. Shares held by the Plan are invested in open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common-collective trust: Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the collective trust's trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth the level, within the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2025 and 2024.

	Level 1	Level 2	Level 3	December 31, 2025
Registered investment companies	$ 4,738,398	$ -	$ -	$ 4,738,398
Common collective trust funds measured at net asset value*				10,025,976
Total investments at fair value				$ 14,764,374

	Level 1	Level 2	Level 3	December 31, 2024
Registered investment companies	$ 4,966,307	$ -	$ -	$ 4,966,307
Common collective trust funds measured at net asset value*				10,458,466
Total investments at fair value				$ 15,424,773

* In accordance with the "Fair Value Measurement" topic of the FASB ASC, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 5: Fair Value Measurements (continued)

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2025 and 2024.

Investment	Fair Value as of December 31, 2025	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trust funds	$10,025,976	None	Daily	None

Investment	Fair Value as of December 31 ,2024	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trust funds	$10,458,466	None	Daily	None

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Certain plan assets are in investment funds managed by Fidelity or their affiliates. Fidelity is the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 7: Plan Termination

In August 2024, the Company signed an amendment to the Plan document to terminate the Plan. The Plan was terminated effective November 15, 2024. The amended Plan document sets forth how the assets of the Plan will be distributed to its participants.

Whether all participants receive their benefits when the Plan terminates will depend on the sufficiency, at that time and among other things, of the Plan's net assets to provide for accumulated benefit obligations. As of December 31, 2025 and 2024, the Plan's net assets available for benefits totaled $14,764,374 and $15,424,773, respectively. At January 1, 2025, actuarial present value of accumulated plan benefits totaled $13,817,279.

In the unlikely event the Plan would not have sufficient net assets when the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Note 8: Tax Status

The IRS has determined and informed the Plan by a letter dated October 1, 2020, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan may have been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and member demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
