INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Atkore Union Pension Plan
Harvey, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Atkore Union Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year), Schedule H, Line 4i – Schedule of Assets (Acquired and Disposed of Within Year), and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

The supplemental schedules of Schedule H, line 4i – Schedule of Assets (Held at End of Year), Schedule H, Line 4i – Schedule of Assets (Acquired and Disposed of Within Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2025 that accompany the financial statements do not disclose the historical cost of nonparticipant-directed plan assets held by the qualified institution. Disclosure of this information is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Our opinion on the ERISA-required supplemental schedules is not modified with respect to this matter.

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Atkore Union Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering substantially all eligible union employees of Harvey Plant of Allied Tube and Conduit Corporation (the "Company") who have met certain requirements as to length of service and age. To conform with the negotiated changes reflected in the United Steel Workers of America Local Union 9777-18 collective bargaining agreement with Allied Tube and Conduit Corporation, effective June 21, 2010 no new participants will be added to the Plan. A formerly active participant who has terminated employment and is rehired after June 21, 2010 may not resume participation and accrue additional benefits upon rehire unless the formerly active plan participant resumes employment covered by the Plan when he has recall or other rights to restoration of service for seniority purposes under the collective bargaining agreement. The monthly accrued benefit rate for participants whose last date as an active participant is on or after April 11, 2009 but prior to April 11, 2010 shall be $40 multiplied by years of Credited Service. The monthly accrued benefit rate for participants whose last date as an active participant is on or after April 11, 2010 shall be $41 multiplied by years of Credited Service. No credited service shall be credited under the Plan after April 9, 2017. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Atkore International Inc. ("Atkore") became the plan sponsor effective December 22, 2010 when Tyco International Ltd. ("TIL") sold a majority interest in Atkore. As part of this transaction, the assets and liabilities relating to the Allied Harvey Union Pension Plan, the Allied Philadelphia Union Pension Plan, the T.J. Cope Pension Plan and the Unistrut Pension Plan were also sold. Prior to this transaction, Tyco International Management Company, LLC ("TIMCO LLC" or "Tyco") was the plan sponsor.

Effective December 31, 2019, the Allied Philadelphia Union Pension Plan ("Philly Plan"), the Unistrut Pension Plan ("Unistrut Plan"), and the TJ Cope Union Pension Plan ("TJ Cope Plan") merged into the Plan and the Plan name was changed to the Atkore Union Pension Plan. In connection with the merger, the Plan now covers substantially all eligible union employees of the Philadelphia Plant of Allied Tube and Conduit Corporation, all eligible salaried and other non-unionized employees of the Unistrut Corporation and eligible employees of T.J. Cope. Effective on and after June 1, 2012, no new participants shall be admitted to the Philly Plan. No credit service shall be credited under the Philly Plan after June 30, 2015. Effective on and after January 1, 1996, no new employee shall become a participant and no new service shall be credited to the Unistrut Plan. Effective on and after February 8, 2000, no new employee shall be admitted to the TJ Cope Plan. No credited service shall be credited under the TJ Cope Plan after February 7, 2000.

Pension Benefits: Participating employees who are members of the United Steel Workers of America Local Union 9777-18 and 404-38 formerly 7737-18, are 21 years of age and have completed the later of age 65 or five or more years of continuous service are entitled to annual pension benefits beginning at normal retirement age of 65 equal to the amount of their monthly benefits (based on their retirement date) multiplied by their credited service to their normal retirement date. The Plan permits early retirement at ages 55 through 64 for participants who have completed 15 years of service. Upon retirement, participants will receive their pension benefits in the form of a life annuity for single participants or a joint and survivor annuity for married participants. Participants may elect to receive a life annuity with a 5 or 10-year certain payment annuity. Any former Unistrut participants who have completed five or more years of service is entitled to annual pension benefits beginning at normal retirement age of 65 based on the number of years the participant worked for the Company. The Plan permits early retirement at ages 55 through 64. Upon retirement, participants will receive their pension benefits in the form of a life annuity for single participants or a joint and survivor annuity for married participants. Participants may elect to receive a life annuity with a 5 or 10-year certain payment annuity. Any former TJ Cope participants who was a participant on February 8, 2020, is entitled to annual pension benefits beginning at normal retirement age of 65 equal to the greater of a portion of their compensation during their credited years of service over the sum of a benefit rate or a portion of their social security benefit or their monthly benefits (based on their termination date) multiplied by their credited service.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Death and Disability Benefits: Participants who terminate employment due to total and permanent disability or spouses of vested participants who die may be entitled to receive benefits under this Plan.

Administrative and Investment Management Expenses: The Plan's trustee fees, insurance premiums, audit fees, and certain administrative and actuarial fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Plan Administration: The Atkore International Retirement Plans Committee (the "Committee") acts as the plan administrator and named fiduciary for administration and investments for the Plan. The Committee members are designated in the plan documents for the Plan. The Investment Committee appoints and monitors any investment managers to manage the assets of the Plan.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 15, 2026, which is the date the financial statements were available to be issued.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: Investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of investments.

Risks and Uncertainties: The Plan is invested in various investments. The underlying investments are exposed to various risks such as interest rate, market, liquidity and credit risks as well as the risks associated with global events. Due to the level of risk associated with certain underlying investments, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of certain underlying investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments: Benefits are recorded when paid.

(Continued)

NOTE 3 - CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation (depreciation) in fair value of investments, and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Fifth Third Bank, N.A. (the trustee of the Plan).

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Agency Bonds, Asset Backed Securities, Corporate Bonds, Foreign Bonds, Municipal bonds and US Government Bonds: The fair values of these securities are determined based on institutional bid evaluations (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Investments measured at fair value on a recurring basis are summarized below.

	Fair Value Measurements at December 31, 2025 Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Total	$ 1,803,927	$ 88,024,179	$ -	$ 89,828,106

NOTE 5 - FUNDING POLICY

The Company's funding policy is to make all required contributions to the Plan in accordance with applicable pension laws and regulations. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. Additional voluntary contributions (in excess of required minimum amounts) are periodically considered based on their individual merits. The Company satisfied the minimum funding requirements of ERISA for the years ended December 31, 2025 and 2024. Participant contributions are not permitted under the Plan.

(Continued)

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Mercer and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2024 were as follows:

Mortality: Pri-2012 sex-distinct, separate employee and retiree tables with contingent survivor adjustments for existing survivors and no collar adjustments applied, with future improvement using the MP-2021 projection scale.

Retirement age: Graded from age 56 to 70 (age 55 for Unistrut)

Benefit settlement interest rate: 5.33%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(Continued)

NOTE 7 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefit information as of December 31, 2024 was as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	$ 59,233,823
Other participants	27,741,164
	86,974,987
Nonvested benefits	668,238
Total actuarial present value of accumulated plan benefits	$ 87,643,225

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024, is as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2024	$ 90,992,774
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	(1,640,785)
Benefits accumulated and actuarial (losses) gains	(691,386)
Increase for interest due to the decrease in the discount period	4,522,782
Benefits paid	(5,540,150)
Net increase (decrease)	(3,349,549)
Actuarial present value of accumulated plan benefits as of December 31, 2024	$ 87,643,225

The changes in actuarial assumptions for the year ended December 31, 2024 are due to the following:

- The benefit settlement rate was updated from 5.14% in 2023 to 5.33% in 2024

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Investments held by the Plan which are issued by service providers of the Plan are considered party-in-interest investments. Amounts paid by the Plan to parties-in-interest included fees paid for investment management and actuarial services. Certain professional fees for the administration and audit of the Plan were paid by the Trust which also qualify as party in interest transactions. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 9 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 16, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(Continued)

NOTE 9 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for Economic Assumptions

- Discount rate sponsor elections – Assumption prescribed by the IRS
- Expected investment return – Based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's January Capital Markets Outlook for the plan's target asset mix, net of an adjustment for investment expenses assumed to be paid from plan assets.
- Expenses – Determined based on prior year's actual administrative expenses and adjusted to incorporate any expected changes, rounded to nearest $10,000.

Rationale for Demographic Assumptions

- Withdrawal – Developed based on the actuary's experience with similar plans. Annual review of the experience has shown that these rates provide similar results to the actual rates of withdrawal experienced under the plan.
- Retirement rates for former Allied Harvey and Allied Philadelphia participants – Developed based on an analysis performed in 2019 using plan experience from calendar years 2014 through 2018, and the expectation that future retirement patterns and the circumstances of the employer will not differ significantly from the period studied.
- Benefit commencement age for current and future vested deferred employees – Based on an annual review of plan experience and client expectation of future experience.
- Spouse assumptions – Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- Form of payment – Based on an annual review of plan experience.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor and its administrative services provider provide us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2025, the limit is $280,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Plan amendments excluded**: Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases**: Participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations**: The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans**: We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target and target normal cost do not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Maximum benefit amounts under IRS rules were updated from 2024 to 2025.

Schedule SB, line 32 — Schedule of Amortization Bases

Shortfall amortization charge

The total shortfall amortization charge is the sum of the individual shortfall amortization installments for each plan year since the IRC Section 430 changes made by ARPA took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than $0.

Shortfall bases					
Year established		Outstanding balance	Years remaining		2025 installment
2025	$	4,676,084	15	$	430,989
Total	$	4,676,084		$	430,989

Schedule SB, line 24 — Change in Actuarial Assumptions

- As of January 1, 2025, the expected investment return changed from 4.00% to 5.25% to reflect updates in the capital market environment and plan's target asset allocation.
- The expense component of normal cost increased from $450,000 to $520,000 to reflect our expectations for the current plan year.
