## Independent Auditor's Report

RSM US LLP

401(k) Investment Committee and Plan Participants
The Boston College 401(k) Retirement Plan I

**Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**
We have performed audits of the financial statements of The Boston College 401(k) Retirement Plan I (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

**Opinion**
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

**Basis for Opinion**
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent assurance, tax, and consulting firms.
Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

**Responsibilities of Management for the Financial Statements**
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

**Auditor's Responsibilities for the Audit of the Financial Statements**
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other Matter—Supplemental Schedule Required by ERISA**
The supplemental schedule of Schedule H, line 4(i)—schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Note 1. Description of the Plan

The following brief description of The Boston College (the University or Sponsor) 401(k) Retirement Plan I (Plan I, or the Plan) provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of Plan I's provisions.

**General:** The University established The Boston College 401(k) Retirement Plan I on April 1, 1985. Plan I is a defined contribution plan covering all employees of the University who have at least one year of service, are at least 21 years of age, and are not a casual employee or other ineligible person as defined by the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The University also established The Boston College 401(k) Retirement Plan II (Plan II) on July 1, 1997. Plan II is a defined contribution plan with additional investment options provided by Fidelity Management Trust Company, the trustee of Plan II. Employees may choose to participate in either or both of the plans described above.

**Contributions:** Employees who choose to participate in the University's retirement program automatically have 2% of their eligible compensation, as defined by the Plan, withheld. The University contributes 8% of eligible compensation for participants with fewer than nine years of service and 10% of eligible compensation for participants with nine or more years of service. Contributions are allocated between Plan I and Plan II as directed by participants. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Former employees receiving long-term disability benefits may receive contributions from the insurance company as part of their benefits package. Such contributions made directly to Plan I totaled $450,289 and are included within employer contributions in the statement of changes in net assets available for benefits for the year ended December 31, 2025. Contributions are subject to certain limitations. All contributions directed by participants to Plan I are paid directly to Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA and CREF), the custodian of Plan I's assets.

**Participant accounts:** Each participant's account is credited with the participant's contribution and allocations of (a) the University's contribution and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in participant accounts are participant-directed.

**Vesting:** Participants are immediately vested in all contributions plus actual earnings thereon.

**Investment options:** Participants direct the investment of their contributions and the University's contributions into any of a variety of investment options offered by the Plan. Certain assets of the Plan are invested in TIAA. TIAA is a non-profit, legal reserve life insurance and annuity company. The TIAA Traditional Annuity is an insurance investment account, and the TIAA Real Estate Account is a pooled separate account. See Note 5, for further discussion of the TIAA Traditional Annuity. Participants may also invest in CREF. CREF is registered under the Investment Company Act of 1940 as an open-end diversified management investment company and offers variable annuity accounts as well as mutual funds and a money market fund.

**Interplan transfers:** Participants may elect that all or a portion of their account be directly transferred to Plan II. Similarly, participants in Plan II may elect that all or a portion of their Plan II account be directly transferred to Plan I. During the year ended December 31, 2025, net transfers of $1,640,188 were made by participants from Plan I to Plan II.

### Note 1. Description of the Plan (Continued)

**Benefit payments:** In-service withdrawals are permitted for participants who have attained 62 years of age and are no longer in a benefits eligible position. In-service withdrawals are also permitted for participants who have attained 73 years of age; however, such distributions may not exceed the required minimum distribution amount. On termination of service, a participant, or beneficiary upon death of a participant, may elect to receive a lump-sum distribution equal to the value of his or her vested account or receive payments over a fixed period or purchase a lifetime annuity administered by TIAA and CREF.

### Note 2. Summary of Significant Accounting Policies

**Plan administration:** The Sponsor serves as the Plan Administrator. All administrative expenses incidental to the functioning of the Plan, including but not limited to fees of accountants, legal counsel, investment managers and agents, may be paid out of plan assets unless paid by the Sponsor. The Sponsor has elected to cover substantially all expenses related to administering the Plan. Investment related expenses are included in net appreciation of investments.

**Basis of accounting:** The financial statements have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets U.S. generally accepted accounting principles (U.S. GAAP) to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to U.S. GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (FASB ASC). The financial statements of the Plan are prepared on the accrual basis of accounting.

**Contributions:** Contributions from Plan participants and the related matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

**Use of estimates:** The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment valuation and income recognition:** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Benefit payments:** Benefit payments are recorded when paid.

**Accounting for uncertainty in income taxes:** Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2022.

**Subsequent events:** The Plan has evaluated subsequent events through October 15, 2026, the date the financial statements were available to be issued.

### Note 3. Information Certified and Provided by TIAA and CREF

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA and CREF that information provided to the Plan Administrator by TIAA and CREF related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

| | 2025 | 2024 |
|---|---|---|
| Investments, at fair value: | | |
| Variable annuity accounts | $312,896,080 | $287,702,898 |
| Insurance investment account | 196,054,698 | 193,538,042 |
| Mutual funds | 299,268,642 | 251,778,211 |
| Pooled separate account | 21,842,171 | 25,750,380 |
| Money market fund | 7,983,026 | 6,390,691 |
| | $838,044,617 | $765,160,222 |

TIAA and CREF also certified to the completeness and accuracy of $89,733,722 of net appreciation in the fair value of investments, $14,278,593 of interest and dividend income and $477,212 of other income related to the aforementioned investments for the year ended December 31, 2025.

### Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

**Level 1:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Note 4. Fair Value Measurements (Continued)**

**Level 2:** Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in less active markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3:** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2025, from the prior period.

***Variable annuity accounts:*** These investments are valued at the daily unit value published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund. These investments are categorized as Level 1 because they are actively traded and the prices are publicly reported to NASDAQ at the end of each day.

***Insurance investment account:*** Fixed annuity contracts are reported at contract value, which approximates fair value (Note 5). This determination is based on TIAA's credit rating and yield during 2025 and 2024 being comparable to similar alternative investments and the interest rate which resets quarterly being comparable to a 10-year treasury bond. The insurance investment account is classified as Level 3.

***Mutual funds and money market funds:*** These investments are valued at quoted market prices, which represents the net asset value of shares held by the Plan. These investments are categorized as Level 1 as they are actively traded, and no valuation adjustments apply.

***Pooled separate account:*** This investment is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account. These investments are categorized as Level 1 because they are actively traded, and the prices are publicly reported to NASDAQ at the end of each day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

| | Assets at Fair Value as of December 31, 2025 | | | |
|---|---|---|---|---|

| Total investments, at fair value | $ 571,622,180 | $ - | $ 193,538,042 | $ 765,160,222 |

During the year ended December 31, 2025, the Plan purchased $19,352,886 of Level 3 investments and had no issuances of Level 3 investments nor had any transfers into and out of Level 3.

The following tables as of December 31, 2025 and 2024, represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs.

As of December 31, 2025:

| Instrument | Fair Value | Principal Valuation Technique | Unobservable Inputs | Range of Significant Input Values | Weighted Average |
|---|---|---|---|---|---|
| Insurance investment account | $ 196,054,698 | Future interest rates and related discounted cash flow | Risk-adjusted discount rate applied | 159 bps over 10-year treasuries; 88 bps over AAA rated securities | 5.04% |

### Note 4. Fair Value Measurements (Continued)

As of December 31, 2024:

| Instrument | Fair Value | Principal Valuation Technique | Unobservable Inputs | Range of Significant Input Values | Weighted Average |
|---|---|---|---|---|---|
| Insurance investment account | $ 193,538,042 | Future interest rates and related discounted cash flow | Risk-adjusted discount rate applied | 164 bps over 10-year treasuries; 93 bps over AAA rated securities | 5.38% |

In estimating fair value of the investments in Level 3, the investment advisors may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the 401(k) Investment Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

### Note 5. Investment Contract with Insurance Company

In April 1985, the Plan entered into a fixed annuity investment contract (the Contract) with TIAA, an insurance company. TIAA maintains the contributions in a general account, the TIAA Traditional Annuity. The general account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, based on certain restrictions discussed below, the Plan has determined that the Contract is not fully benefit-responsive, and therefore fair value is the relevant measurement attribute. TIAA has reported to the Plan that contract value approximates fair value for these investments as of December 31, 2025 and 2024 (Notes 4 and 9). The investment contract is included in the statements of net assets available for benefits at fair value (Note 4).

Per the terms of the Contract, certain restrictions apply to the accessibility of funds in the general account. Participants requesting to withdraw amounts from the general account must do so over a period of 10 annual installments. Participants electing to withdraw funds after termination of employment have 120 days to request a lump-sum distribution and the distribution is subject to a 2.5% surrender charge. After 120 days, funds are only available for withdrawal in annual installments over a period of nine years. No more than one lump-sum distribution is permitted per quarter per participant.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reviewed at least quarterly for resetting, but it may not be less than 3%.

### Note 6. Party-in-Interest Transactions

Plan investments, consisting of variable annuity accounts, an insurance investment account, mutual funds and a pooled separate account are managed by TIAA and CREF. TIAA and CREF is Plan I's custodian and, therefore, transactions with TIAA and CREF qualify as party-in-interest transactions.

### Note 7. Plan Termination

Although it has not expressed any intent to do so, the University has the right under Plan I to discontinue its contributions at any time and to terminate Plan I subject to the provisions of ERISA. In the event of Plan I termination, participants will remain fully entitled to all accumulated benefits.

### Note 8. Tax Status

The University obtained a determination letter dated July 6, 2017, from the Internal Revenue Service to confirm that Plan I, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

### Note 9. Risks and Uncertainties

Plan I provides for investment options in the TIAA Traditional Annuity Fund, TIAA Real Estate Account, the CREF group of funds, TIAA and CREF mutual funds and Vanguard Federal Money Market fund. These investment securities are exposed to various risks including but not limited to interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Approximately 23% and 25% of the Plan's assets are held in the TIAA Traditional Annuity as of December 31, 2025 and 2024, respectively, which is backed by the general assets of TIAA. As such, this is considered to be a concentration of credit risk.

U.S. GAAP requires the financial statements to present the fair value of investments. The above investment in the TIAA Traditional Annuity has been presented at contract value, which approximates fair value, as reported to the Plan by TIAA and CREF. This determination is based on TIAA's credit rating and yield during 2025 and 2024 being comparable to similar alternative investments and the interest rate, which resets quarterly being comparable to a 10-year treasury bond (Note 4). In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant.
