Independent Auditors' Report

To the Plan Administrator and Participants of
Pension Plan for Plant Employees of Green Bay Packaging, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pension Plan for Plant Employees of Green Bay Packaging, Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years ended December 31, 2025 and 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Pension Plan for Plant Employees of Green Bay Packaging, Inc. (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective February 1, 1956, as most recently restated January 1, 2025. The Plan covers eligible plant employees of Green Bay Packaging Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company's Pension Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

Amendments

Effective January 1, 2025, the Plan was amended and restated to incorporate previously adopted amendments, changes required by applicable law, and certain modifications to the Plan's provisions. The restatement includes updated pension benefit rates for certain participating divisions in accordance with applicable collective bargaining agreements, including benefit increases effective in 2025 and future years. The financial impact of plan amendments is reflected in the Statements of Changes in Accumulated Plan Benefits.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2025.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Vesting

Each eligible employee shall become a participant at the time negotiated in the applicable bargaining agreement in effect for that employee's location or division.

A participant shall satisfy the requirement for vesting upon completing a period of five years of service. If the service of a participant is terminated before retirement age because of resignation or dismissal but after the participant has completed the vesting requirement, the participant shall, upon attaining early retirement date or thereafter, be entitled to receive a retirement income benefit. The monthly amount of such pension shall be the amount credited to such participant based upon the participant's employment with the Company to the termination date of such employment.

Pension Benefits

Participants hired prior to December 31, 1988 who have completed ten years of service are entitled to annual benefits beginning on the first day of the month after meeting the normal retirement age. For those hired after December 31, 1988, participants who complete five years of service are entitled to annual benefits beginning on the first day of the month after meeting the normal retirement age. The Plan also contains provisions regarding deferred retirements for such periods as the Company may approve. The Plan permits early retirement within the 10-year period preceding a normal retirement date.

The monthly amount of pension payable to a participant is based upon both the number of years of credited service while a participant in the Plan and the payout multiple in place for the division at the time the participant began employment. Pension payments will normally be in the form of an annuity for the life of the participant or, if the participant is married, the monthly benefits shall be in the form of a qualified joint and survivor annuity. A participant retiring at an early retirement date may elect to either receive a deferred pension commencing at the participant's normal retirement date based upon the years of the participant's employment or receive a reduced amount of retirement income commencing as of such early retirement date.

A lump sum involuntary payment may be made to terminated and vested participants when the present value of the participant's vested accrued benefit has never exceeded $7,000.

Death and Disability Benefits

If a vested participant dies prior to age 55, the surviving spouse (if any) is eligible for a 50% annuity option that the participant would have received had the participant survived to the earliest retirement age and separated service on the date of death. If a vested participant dies after the earliest retirement age, the participant's surviving spouse (if any) will receive the same benefit that would be payable if the participant had retired with an immediate qualified joint and survivor annuity on the day before the participant's date of death.

Fully vested participants who become totally disabled may be eligible for early commencing benefits as negotiated in the applicable bargaining agreement in effect.

Unvested participants will not receive any benefit.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Recent Regulatory Updates

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2025, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan’s financial statements.

Subsequent Events

Subsequent events were evaluated through October 15, 2026, the date the financial statements were available to be issued.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

(a) Retired or terminated employees or their beneficiaries.

(b) Beneficiaries of employees who have died.

(c) Present employees or their beneficiaries.

Benefits valued for active participants are those accrued to the valuation date. Vested benefits are discounted only for mortality and interest. Nonvested benefits are also discounted for turnover. Benefits under the Plan are based on employees' compensation and years of credited service. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial valuation used to determine the actuarial present value of accumulated plan benefits as of December 31, 2025 was performed as of January 1, 2026. Had the valuation been performed as of December 31, 2025, there would have been no material differences in the amounts reported. The significant actuarial assumptions used in the valuations were as follows:

(a) Mortality for healthy and disabled participants is determined using the PRI-2012 mortality study with blue collar adjustments for 2025 and 2024 and projected with mortality improvement scale MP-2021 for 2025 and 2024.

(b) Retirement between age 55 and 65 or age at the valuation date, if past age 65.

(c) Interest rate of 6.25% for 2025 and 2024.

(d) Discount rate of 5.70% for 2025 and 2024.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation methodologies used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation methodologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued based upon the unit values of such pooled accounts held by the Plan at year-end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means, although are not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist of mutual funds, each of which follows a separate investment strategy. Due to the nature of these pooled accounts, there are no unfunded commitments or redemption restrictions.

Investments measured at NAV: Consisting of collective trust funds, valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common-collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Alternative investments: Alternative investments are valued at fair value based on investment statements provided by outside asset custodians. The outside asset custodians determine fair value based on audited financial statements of the investment funds. Fair values of real estate and real estate related investments included in these accounts are generally determined through an appraisal prepared by independent real estate appraisers on at least an annual basis. Inputs used in real estate appraisals include rental income and expense amounts and growth rates, discount rates and capitalization rates.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 8,255,609	$ -	$ -	$ 8,255,609

Investments measured at NAV (a)	-	-	-	206,518,224
Total investments at fair value	$ 24,467,535	$ 29,249,773	$ 10,795,910	$ 271,031,442

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Changes in Fair Value of Level 3 Assets

The Plan had purchases of $1,658,303 and $2,453,800 and issuances (sales) of $(1,027,372) and $0 of Level 3 assets for the years ended December 31, 2025 and 2024, respectively.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation methodologies used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, respectively, the significant unobservable inputs and the quantitative information about those inputs. In estimating fair value of the investments in Level 3, the Company's Pension Committee may use third-party pricing sources or appraisers.

4. Concentrations

The Plan holds certain investments that represent 10% or more of the Plan's net assets available for benefits. As of December 31, 2025 and 2024, the Plan had investments of $198,378,749 and $160,992,720, respectively, that were concentrated in three and four funds, respectively.

5. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, Bank of America, N.A., the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024, and the information reported in the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under contracts with the Trustee of the Plan. Contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The IRS has determined and informed the Company by a letter dated May 30, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V — Summary of Plan Provisions

Effective Date

February 1, 1956 (restated most recently as of January 1, 2014).

Eligibility for Participation

Each employee becomes a participant on the first day of the month coincident with or next following the completion of a year of service. Members of Kalamazoo Container and Fremont Container become participants on the first day of employment with the company.

Normal Retirement

Eligibility

Age 65.

Benefit

The annual amount of pension payable to a participant whose retirement date is his normal retirement date shall be the number of years of credited service multiplied by the following:

Shipping Container Division (11P)	$696 ($708 eff. 12/1/2025)
DePere Shipping Container (12P)	$708
Wausau Division (13P)	$684 ($696 eff. 7/1/2025)
Kalamazoo Container (14P)	$648
Fremont Container (15P)	$636
Cincinnati Division (19P)	$600 ($612 eff. 7/1/2025)
Fort Worth Division (25P)	$600
Southwest Packaging (Tulsa) (28P)	$504 ($516 eff. 6/1/2025)
Franklin Park (Chicago) Division (32P)	$624
Twin Town Coon Rapids (37P) - svc from 1/1/2018	$492
Folding Carton Division (41P)	$672
Green Bay Mill (51P)	$717 ($729 eff. 6/1/2025)
Arkansas Mill (52P)	$792
Coated Products Division (61P)	$675
Winchester CPD (62P)	$528
Kansas City CPD (63P)	$528
Twin Cities CPD (64P)	$528
Pinecrest Lumber (65P)	$600
Pinecrest (66P)	$600
Atlanta CPD (68P)	$528
California CPD (69P)	$528

Early Retirement

Eligibility

Age 55 and five years of service, except for Arkansas Mill, Kalamazoo Container, and Pinecrest. Age 55 and 10 years of service for participants of Arkansas Mill. Age 60 and five years of service for participants of Kalamazoo Container. Age 55 and 15 years of service or age 60 and 10 years of service for participants of Pinecrest.

Benefit

Accrued normal retirement benefit, reduced as follows:

	Early Retirement Factor		
Kalamazoo Age at Early Commencement	**Pinecrest Container & Fremont Container**	**With 10 to 15 Years of Service**	**All Others**
64	92.8%	90.60%	93.33%
63	85.6%	82.30%	86.67%

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes	Based on the full yield curve with no lookback (as of December 2024) (to which the interest rate stabilization corridor does not apply), with sample rates as follows: Duration 0.5–4.60% Duration 5.5–4.80% Duration 10.5–5.20% Duration 15.5–5.45% Duration 20.5–5.56% Duration 25.5–5.57% Duration 30.5–5.58%
Payment Form Election Percentage	100% of participants assumed to elect life annuity.
Retirement Age	
Active Participants	See Table 1
Terminated Vested Participants	Age 62
Mortality Rates	
Healthy and Disabled	2012 base mortality rates for annuitants and non-annuitants per §1.430(h)(3)-1(d), projected generationally for years beyond 2012 using IRS-prescribed mortality improvement rates per §1.430(h)(3)-1(b)(iii).
Withdrawal Rates	See Table 2
Disability Rates	See Table 3
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are two years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $280,000.

Pension Plan for Plant Employees of Green Bay Packaging Inc.
EIN: 39-0783183 PN: 002

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2023 Plan Year	7.00%, limited to 5.74%
2024 Plan Year	6.50%, limited to 5.59%
2025 Plan Year	6.25%, limited to 5.50%
Trust Expenses Included in Target Normal Cost	Based on prior year actual non-investment related expenses, rounded.
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2025.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the unlimited expected long-term rate of return on plan assets from 6.50 percent to 6.25 percent.

This assumption change was made to better reflect anticipated future plan experience. The change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
