INDEPENDENT AUDITOR'S REPORT

To the ESOP Committee and participants of the
Encore Concrete Construction Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of the Encore Concrete Construction Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2025, and the related statement of changes in net assets (deficit) available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Encore Concrete Construction Employee Stock Ownership Plan as of December 31, 2025, and the changes in its net assets (deficit) available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Encore Concrete Construction Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are

not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Encore Concrete Construction
Employee Stock Ownership Plan

Notes to Financial Statements
December 31, 2025

1. Description of Plan

The following description of the Encore Concrete Construction Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Encore Concrete Construction, Inc. (the Company and Sponsor) established the Plan effective as of January 1, 2025. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Committee appointed by the Board of Directors of the Company. An independent third-party entity, Aegis Trust Company, LLC, is the Plan's trustee (Trustee) and assets are held in a trust.

On December 31, 2025, the ESOP purchased 1,000,000 shares of Encore Concrete Construction, Inc. voting common stock (representing 100% of voting common stock) from the Company in exchange for an internal note of $30,000,000 to the Company. The note payable is to be repaid by Company contributions to the Plan. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to participants' accounts in accordance with the applicable regulations under the IRC. The borrowings are collateralized by the unallocated shares held by the Plan. The Company does not have any interest or rights in such shares once they are allocated to participant accounts under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to shares allocated (allocated) and shares not yet allocated (unallocated) to participants.

Eligibility

All employees of the Company who are at least 18 years of age and who have completed 1,000 hours of service during 12 consecutive months and are not leased employees or independent contractors are eligible to participate in the Plan. Participants may enter the Plan on the first day of January or the first day of July immediately following the date eligibility requirements are satisfied. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last day of the Plan year, unless due to death, disability, or retirement, are not eligible for an allocation of Company contributions for such Plan year. The Plan allowed for a special participation rule which waived the service and hours requirement and allowed an allocation to terminated participants during 2025, who had been employed by the Company in 2025.

Contributions

The Company may contribute to the Plan an amount determined by its Board of Directors, paid in cash or in shares of Company stock. The Company is obligated to make contributions to the Plan, which, when aggregated, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable (see Note 5). Participants are not permitted to make contributions to the Plan. Contributions are subject to certain limitations.

Participant Accounts

A separate account is maintained for each participant and each participant's account consists of a "Company Stock Account" and an "Other Investments Account." The accounts are credited with an allocation of Company contributions, Plan earnings and losses, and charged with an allocation of expenses, if any. Only those participants who are eligible employees of the Company as of the last day of the Plan year receive the allocation of contributions. Cash dividends are allocated in accordance with the Plan document. Company contributions are allocated in proportion to each participant's compensation compared with the total compensation of all participants as defined in the Plan document. Plan investment income and expenses are allocated to each participant's account based on the ratio of each participant's cumulative number of shares bears to total participant shares as of the last day of each preceding Plan year.

Voting Rights

Except as described in the next sentence, the Trustee votes all Company stock held by it as part of the Plan assets. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with regard to a merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the assets of the Company. The Trustee shall vote any unallocated shares held by the ESOP Trust, as well as any allocated shares for which a participant has failed to give timely voting direction.

Put Option

In accordance with U.S. federal income tax regulations, the Company stock that is held by the Plan and its participants includes a put option. The put option is the right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may pay for the purchase by issuing a collateralized, interest-bearing promissory note with a term of not more than five years and which requires annual payments. The purpose of the put option is to ensure that a participant has the ability to ultimately obtain cash.

Vesting

A participant's vesting in their accounts, plus earnings and losses thereon, is based on years of service which are earned under the Plan. If employment ends on or after normal retirement or because of death or disability, participants will be fully vested in their accounts. Otherwise, participants are fully vested after six years of service, beginning with 20% after two years of service and 20% each year thereafter.

Effective January 1, 2026, participants are fully vested after five years of service, beginning with 25% after two years of service and 25% each year thereafter.

Forfeited Accounts

Accounts of nonvested participants are forfeited as of the earlier of the last day of the Plan year following distribution of a participant's vested account or the last day of the Plan year in which the participant incurs five consecutive breaks in service. Forfeited balances of terminated nonvested participants shall be used to pay Plan expenses or be allocated in the same manner as Company Contributions to Participants eligible to receive a Company Contribution for the Plan Year in which the forfeiture occurs or as soon as practicable in subsequent Plan Years. There were no forfeitures at December 31, 2025.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, participants are entitled to receive payment of their vested account balance beginning in the Plan year following the event. For termination of service due to other reasons, with certain exceptions, distributions of the participant's vested account shall commence after the end of the fifth Plan year following the participant's termination of employment. Participants with vested account balances of $7,000 or less who terminate employment for other reasons, may receive distributions as soon as feasible beginning no later than the end of the first Plan year following the participant's termination.

Unless for termination of service due to death, disability, or retirement, distribution of benefits to participants will not begin before the ESOP note is fully repaid. Distributions may be in the form of cash or Company stock. If Company stock is distributed, it must be immediately sold to the Company or Plan at fair value as determined by the Trustee.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to convert part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have completed at least 10 years of participation in the Plan may elect to diversify a portion of their account into an

investment outside of the Company stock. Diversification is offered to each eligible participant over a six-year period, which begins at the start of the Plan year in which the participant becomes eligible. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent.

Administration of Plan Assets

The Plan's assets, which consist principally of the Company common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the note payable, which is funded to the Plan through contributions as determined by the Company.

Restricted Net Assets

The investment in unallocated common stock of the Company is restricted to the extent that it is security for the note payable. Shares of unallocated common stock become available for benefits to participants based on the ratio of principal and interest paid in the Plan year to the total principal and interest to be paid on the note payable.

Administrative Expenses

Expenses of the Plan, including expenses incurred by the ESOP Committee, may be paid in whole or in part by the Company, and any expenses not paid by the Company are paid by the Plan. For the year ending December 31, 2025, the Company paid all administrative expenses related to the Plan. The Company does not expect reimbursement for any expenses paid on behalf of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, under accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid. Plan earnings are allocated to each participant's account on the ratio of the participant's account balance.

Valuation of Investments

The Plan's investment is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. The net depreciation in fair value of common stock includes realized and unrealized gains and losses.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 15, 2026, which is the date the financial statements were available to be issued.

3. Investments

The Plan's investment in Encore Concrete Construction, Inc. common stock is as follows at December 31, 2025:

	Allocated	Unallocated
Number of shares	-	**1,000,000**
Cost	**$** -	**$ 30,000,000**
Fair value	**$** -	**$ 1,410,000**

As of December 31, 2025, the Plan held 1,000,000 shares of Encore Concrete Construction, Inc. common stock. Transactions in the Company's common stock are considered party-in-interest transactions.

The Plan's investment in Company stock is exposed to various risks, such as market, currency, interest rate, and credit risks. Market risks include U.S. and global events which could impact the value of Plan investments. Such events would include public healthcare emergencies such as a pandemic, as well as international conflicts, cybersecurity attacks, supply chain disruptions, global monetary policy decisions, inflation, significant economic influences, and other adverse credit and market events and conditions. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other significant observable inputs, including quoted prices in active markets for similar securities

Level 3 – unobservable inputs

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

Following is a description of the valuation methodologies used for assets measured at fair value.

The estimated fair value of common stock of the Company as of December 31, 2025 was $1.41 per share. The Company stock is valued at estimated fair value as determined by an independent appraisal (Level 3). The appraisal was based upon an income valuation technique (discounted

cash flow) and market comparables. The appraiser considered historical and projected cash flow and net income, EBITDA, weighted average cost of capital, discount rate, and discount for lack of marketability.

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial statements of the Company. The appraiser prepares a preliminary report which is discussed with Plan management and the Trustee, and the Trustee then approves.

The preceding methods described involve several estimates and may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Plan's investment based on the inputs used to determine their values as of December 31, 2025:

	Level 3
Company stock	**$ 1,410,000**
Total	**$ 1,410,000**

The table below sets forth a summary of changes of the Plan's Level 3 asset for the year ended December 31, 2025:

Balance, beginning of year	$ -
Purchase of shares	30,000,000
Change in fair value	(28,590,000)
Balance, end of year	**$ 1,410,000**

5. Note Payable (Including Related Party)

On December 31, 2025, the ESOP purchased 1,000,000 shares of Encore Concrete Construction, Inc. voting common stock from the Company in exchange for an internal note of $30,000,000. The internal note is to be repaid over thirty-five years in annual payments of principal and interest of 4.55%, beginning December 31, 2026 until fully repaid on December 31, 2060. Prepayments may be made at any time without premium or penalty with any remaining principal amount outstanding due and payable in equal installments over the remaining term of the note.

The Plan accrued a contribution receivable of $6,000,000 for future debt service on the note payable as the related shares were committed-to-be released as of December 31, 2025. The Plan received the contribution in 2026. The third-party administrator allocated the committed-to-be released shares in 2025. The note payable within these financial statements and corresponding release of shares is presented as the payment is actually made in accordance with generally accepted accounting principles.

Future scheduled payments of principal on the note payable as of December 31, 2025 are as follows:

Year	Amount
2026	$ 6,989,725
2027	295,787
2028	309,246
2029	323,316
2030	338,027
Thereafter	21,743,899
Total	$ 30,000,000

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA, except the Company cannot discontinue contributions unless and until the note payable is paid in full. In the event of Plan termination, all expenses and debts of the Plan are to be satisfied out of assets of the Plan, and all remaining assets are to be vested in the participants' accounts and distributed to them. Such distribution shall be made as directed by the ESOP Committee. Plan assets previously segregated due to retirement or other termination shall continue to be held by the Trustee and distributed as provided under the terms of the Plan.

7. Income Tax Status

The Plan has not yet received a determination letter, in which the IRS would state whether the Plan is in compliance with the applicable requirements of the Internal Revenue Code (IRC). However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns since inception are subject to examination by taxing authorities and may change upon examination.
