Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform an audit of the financial statements of Food Lifeline 403(b) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

FOOD LIFELINE 403(B) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of Food Lifeline 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of eligible employees of Food Lifeline (the Organization). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Custodian and Administrator of the Plan

The custodian of the Plan is TIAA and CREF. The administrator of the Plan is the Organization. TIAA and CREF provide recordkeeping services to the Plan. The custodian holds all the assets of the Plan in accordance with the service provider contracts with the Organization.

Eligibility

Employees of the Organization, unless excluded, are eligible to make voluntary salary reduction contributions to the Plan upon their date of hire. Active participants in the Plan are eligible to receive employer contributions from the Organization once they complete 1 year of service and are at least 21 years of age.

Contributions

Participant Contributions – Participants can contribute up to 100% of their pretax annual compensation, as defined by the Plan, subject to federal statutory limitations. Participants are also allowed to contribute amounts representing distributions from other qualified plans (rollovers from other qualified plans). The Plan also allows employees to make catch up contributions for those who are 50 years of age or older and super catch up contributions for those who are over 60 years of age or older, as well as qualified organization catch up contributions for those who have at least 15 years of service. Catch-up provisions are described in further detail in the Plan document.

Employer Contributions – For the year ended December 31, 2025, the Organization matched participant contributions at a rate of 50% up to 9% of eligible compensation for each eligible participant.

Contributions are subject to certain other limitations in accordance with the Internal Revenue Code (IRC).

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contributions and (b) Plan earnings and losses. Allocations are based on participant eligible compensation, participant contributions, or account balances, as defined.

Participants direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employee and employer contributions are immediately 100% vested.

Payment of Benefits

Upon termination of service due to retirement, disability, termination of employment, or death, participants or their designated beneficiaries may elect to receive either a lump-sum, annual installments, or an annuity settlement option equal to the value of the participant's vested interest in his or her account.

Distributions are generally only allowed after termination of employment with the Organization or at the normal retirement age of 65; however, distributions can be made during a participant's employment upon attainment of age 59½ as defined within the Plan document. Hardship withdrawals are permitted from participant elective deferral accounts under limited circumstances as defined in the Plan, subject to approval of the plan administrator.

Notes Receivable from Participants

Participants are permitted to borrow a minimum of $1,000 of their vested account balance under the Plan up to maximum of $50,000 or 50% of their vested account balance. The notes are secured by the participants' accounts and bear a reasonable rate of interest (8.00% – 8.50% for notes outstanding at December 31, 2025). Loans must be repaid in five years (a longer term is allowed if used to acquire a principal residence), and payments are required to be made through payroll deductions. Due dates range from September 2026 to March 2028. These loans are subject to certain restrictions as defined by the Plan Document and applicable restrictions under the IRC.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value, see Note 5. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Administrative Expenses

Administrative expenses related to the operation and maintenance of the Plan and certain investment and transaction fees are paid by the Plan. Additionally, the Organization pays certain expenses of the Plan including fees for the annual audit of the Plan. Expenses paid by the Organization are excluded from these financial statements.

Subsequent Events

The Plan has evaluated subsequent events through the date these financial statements were available to be issued, which was September 29, 2026.

Note 3 – Certified Investment Information

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024
- Investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025
- Investment information included in the schedule of assets (held at end of year) as of December 31, 2025 as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 4 – Fair Value Measurements

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted market prices for similar assets or liabilities in active markets.
- quoted prices for identical or similar assets or liabilities in inactive markets.
- inputs other than quoted prices that are observable for the asset or liability.
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to methodologies used at December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are valued using Level 1 inputs.

Other Registered Investment Companies: Valued at the daily closing price as reported by the fund. These investments held by the Plan are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. These investments held by the Plan are valued using Level 1 inputs. In efforts to reduce market timing and excessive trading, participants will not be permitted to make electronic transfers back into the same account through purchase or exchange for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period, except for the CREF Money Market Account. Variable Annuity Accounts - TIAA Access Annuities are variable annuity products that are funded through TIAA separate accounts that are registered under the Investment Company Act of 1940 but are not publicly traded. The separate account invests in proprietary and nonproprietary mutual funds through various subaccounts. Subaccount unit values are calculated daily and are available on the TIAA and CREF website. The underlying investments are generally priced using market quotations obtained from independent pricing services. The TIAA Access Annuities are reported at the NAV as a practical expedient to measuring fair value. There are no trading restrictions or unfunded commitments related to the TIAA Access Annuities.

Pooled Separate Accounts: Accumulation units in these accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange is open for business. The unit values are calculated each day and are posted at the TIAA website. The value of the investments is generally derived from the market value of the underlying real estate holdings or other real estate related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. These investments are classified within Level 2 of the fair value hierarchy.

Non-Fully Benefit-Responsive Investment Contracts: Non-fully benefit-responsive investment contracts represent investments in fixed annuity contracts with TIAA. Fair value is determined using the discounted cash flow method, which is approximated by contract value. These investments are classified within Level 3 of the fair value hierarchy. See Note 5.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

THIS SPACE LEFT BLANK INTENTIONALLY

The following tables present information about the Plan's assets that have been measured at fair value on a recurring basis as of December 31, 2025 and 2024, and indicate the classification by level of inputs within the fair value hierarchy described above:

	2025

** In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.*

Note 5 – Investment in Benefit-Responsive Investment Contracts

As discussed in Note 4, fixed annuity contracts consist of investment options known as the TIAA Traditional Annuity Contracts (fixed annuity). Under the Plan, these fixed annuity contracts are either non-fully benefit-responsive or fully benefit responsive. Fully benefit-responsive contracts are recorded at contract value while non-fully benefit-responsive contracts are recorded at NAV. Fixed annuity contracts are established between the participants and TIAA. The investment options offered by the Plan are commonly known as the Retirement Annuity (RA), Retirement Choice (RC), Supplemental Retirement Annuity (SRA), and Group Supplemental Retirement Annuity (GSRA). The return of fixed annuity contributions plus interest to participants is subject to TIAA's claims paying ability.

Fixed annuity contracts are credited with a minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month "declaration year".

Contributions to the fixed annuity accounts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods or one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

During the year ended December 31, 2025, the crediting rates of the fixed annuity contracts were as follows:

RA	4.75% - 5.25%
RC	5.00% - 5.50%
SRA	4.00% - 4.50%
GSRA	4.00% - 4.50%

RA account balances may only be withdrawn over 10 annual installments. RC account balances may require withdrawals in installments and may only be allowed at certain points in time. RAs and RCs are not considered to be fully benefit-responsive investment contracts as defined by ASC 960 because this provision is considered to restrict participants "reasonable access" to their contract balances.

SRAs and GSRAs are considered fully benefit-responsive investment contracts because they are fully liquid and immediately cashable once a participant terminates employment with the Organization.

Note 6 – Related Party and Party-in-Interest Transactions

Certain plan investments consist of investments managed or sponsored by TIAA and CREF for the Plan years ended December 31, 2025 and 2024. TIAA and CREF is the service provider of the Plan; therefore, these transactions qualify as exempt party-in-interest transactions.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants would remain 100% vested in any employer contributions.

Note 8 – Income Tax Status

The Plan received an advisory letter dated August 7, 2017, for the volume submitter plan. The Plan has since been amended; however, in the opinion of the Plan administrator, the Plan is designed and is currently being operated in accordance with the applicable requirements of the IRC and that the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.
